

To Whom It May Concern:

I am writing to express my approval of the proposed plan to develop Betty's Village as a community based residential setting for people with disabilities. I am the parent of a 29 year old disabled child and one of our greatest family concerns is our Sean Patrick's future. The uncertainty of what the future holds would be reduced greatly knowing that such a great option would be available for us. Opportunity Village has always been a leader in our community and I believe they would be also be head and shoulders above all others when it comes to building and operating such a facility. I look to being a part of this. Mike Morrissey
