

To Whom It May Concern,

I have reviewed and briefed on the proposed Opportunity Village development and I am pleased to offer my support of Betty's Village as a community based residential setting for people with disabilities.

Betty's Village offers a variety of opportunities such as a fully integrated home and community center that will provide three levels of support depending on skills and required level of support. These homes will be clustered together similar to a cul-de-sac and share common visiting areas and outdoor spaces. The community center will provide individuals with a means to socialize, make new friends and participate with others through playing video games , classes, and just "hang out". The general public will be welcomed at the village to interact and participate in activities.

Regards,

Lauri Collins
