

To Whom It May Concern:

I am writing to express my strong support for Betty's Village. Between my service on the Foundation Board at Opportunity Village, and my professional privilege of helping families plan for the long term care of Special Needs children, I know that this project will allow people with intellectual disabilities to live their best life, and give their families the peace of mind of knowing that their family members will have a place to call home among people who love them, long after they are gone.
