

To Whom It May Concern:

I am pleased to offer my whole hearted support for the proposed Opportunity Village development, Betty's Village. This community based residential setting for people with disabilities will have all the key components to encourage them to follow their dreams and become the best they can possibly be. This includes engaging in community life that will be close to work, peers, family and friends. It will also have easy access to public transportation and freeways. Most importantly, Betty's Village will provide Opportunity Village clients with a safe and affordable answer to long term housing while providing an active lifestyle that encourages independence to the highest degree.

Thank you in advance for your consideration to support this project and improve the lives of people with disabilities in our community.

Sincerely,

Shannon McBeath  
Opportunity Village Foundation Board
