

Greetings:

We have reviewed the proposed Opportunity Village development and offer our support of Betty's Village. Southern Nevada needs community based residential settings for people with disabilities. This innovation is the reason why our company has supported and assisted Opportunity Village.

The residents of Betty's Village will engage in an active life and be integrated in society. Betty's village will include the vital components needed to encourage independence while ensuring the appropriate support structure is available.

Barrick has 4,159 employees at mines in five rural counties, a power plant in Reno and now a new IT Hub and Operations Center in Henderson with 90 professional employees. We look forward to an expanded engagement in southern Nevada and sustaining our partnership with Opportunity Village.

Sincerely,

Michael J Brown
