

To Whom It May Concern:

I want to go on record that I support and believe in the Betty's Village project. After reviewing the Opportunity Village project, I think it is greatly needed in our community and will provide a place where OV's clients and people with disabilities can live and maintain an active life. The environment that the homes will provide will allow the residents to feel a part of the community and enrich their lives, while ensuring the appropriate amount of support.

I look forward to this wonderful project being a showcase for Las Vegas and its community. This is another example of Opportunity Village leading the way to improve the lives of all of Las Vegas' citizens.

Sincerely,

Reed Radosevich
