F259	Schizoaffective disorder, unspecified
F209	Schizophrenia, unspecified
F29	Unspecified psychosis not due to substance or known physio condition

The report indicates the number of out-of-state Fee for Service RTC patients who are children aged through 19 years old. Patients appear on this report only if the billing provider indicated a principal diagnosis on the submitted claim form. Diagnosis information may or may not appear on claim forms for patients with long-term medical conditions (e.g., diabetes). Patient counts are unique; however, if patients fall into more than one principal diagnosis during the indicated time period, they were counted one time under each principal diagnosis.

<u>Dimension/Measure</u>	<u>Definition</u>
161004 OOS RTC Enrollees	Custom built subset that combines Provider Type Claim NV Code = 63 (Residential Treatment Center), and Provider State Code <> NV ; excludes voided claims
Diagnosis Principal	The principal diagnosis description for a service, claim, or lab result.
Net Pay Per Pat	The average net amount paid, per patient, for all claims. It represents the amount after all pricing guidelines have been applied, and all third party, copayment, coinsurance, and deductible amounts have been subtracted.
Net Payment	The net amount paid for all claims. It represents the amount after all pricing guidelines have been applied, and all third party, copayment, coinsurance, and deductible amounts have been subtracted.
Patients	The unique count of members who received facility, professional, or pharmacy services.
Provider State Code	The current state abbreviation for the provider of service.
Provider Type Claim NV Code	The Nevada specific code for the servicing provider type on the claim record.
Service Count Paid	The sum of the units paid across professional and facility claims.
<p><i>All information is provided in Incurred Mode (by the date of when services were provided). The Nevada Medicaid Fee for Service (FFS) Data Warehouse (DSS) has a three-month block on the most recent months to ensure there is near to 100% processing of all FFS claims. Out-of-State providers have 12 months to submit claims (in-state providers have six months).</i></p>	
<p><i>The DHCFP data warehouse is comprised of claims data submitted by over 35,000 Medicaid providers from within Nevada and across the country. While DHCFP staff conscientiously make their best efforts to validate this data through continuous provider education and the use of a highly experienced audit staff, the Division heavily relies on its providers to submit accurate and complete information on our Medicaid patients. It should therefore be understood by the users of DHCFP reports on disease morbidity and patient health that the data source for these reports is based solely on patient claims and may not be a complete and comprehensive health record.</i></p>
