COVID-19 (Novel Coronavirus) Frequently Asked Questions (FAQs) for Medicaid Providers

Updated 10/13/2020

1. QUESTION: Does Nevada Medicaid cover testing for coronavirus (COVID-19)? (Updated)

   If a COVID-19 CPT code does not have an assigned rate from the Centers for Medicare and Medicaid Services (CMS), claims will suspend until system configurations are completed, at which time claims will be released for reimbursement.

2. QUESTION: What are the diagnosis codes for COVID-19? (Updated)

   ANSWER: The COVID-19 diagnosis codes include:
   - U07.1 - Virus identified is assigned to a disease diagnosis of COVID-19 confirmed by laboratory testing.
   - Z71.1 - Person with feared health complaint in whom no diagnosis is made.

3. QUESTION: What are the reimbursement rates for the COVID-19 diagnostic test and serology antibody test? (Updated)

   ANSWER: Nevada Medicaid is reimbursing providers at 100% of the CMS rates for COVID-19 diagnostic and serology tests. All reimbursement rates can be found in the provider portal at https://www.medicaid.nv.gov/.

   If a COVID-19 CPT code does not have an assigned rate from the Centers for Medicare and Medicaid Services (CMS), claims will suspend until system configurations are completed, at which time claims will be released for reimbursement.

3. QUESTION: Will Nevada Medicaid cover the costs of COVID-19 care?

   ANSWER: Nevada Medicaid providers reimbursement for medically necessary services. Care and treatment for COVID-19 will be covered and reimbursed in accordance with current Medicaid policy.
4. **QUESTION:** I've heard that Nevada Medicaid will cover the uninsured population and Emergency Medicaid. (Updated)

**ANSWER:** Nevada Medicaid was approved by CMS to allow for those who are uninsured to apply for COVID-19 Temporary aid. This allows eligible individuals to have Nevada Medicaid coverage only for COVID-19 assessments, COVID-19 diagnostic or serology tests, and chest x-rays to assist in the diagnosis. This plan does not cover any COVID-19 treatment services.

Emergency Medicaid is only for eligible non-citizens/aliens who have a emergency medical condition that must be treated immediately such as labor and delivery, extreme pain, or other acute symptoms that in the absence of immediate medical attention could reasonably be expected to result in:

- Placing the person’s health in serious jeopardy,
- Serious impairment to bodily functions, or
- Serious dysfunction of any bodily organ or part.

If a non-citizen/alien does not meet this definition, than COVID-19 services will not be covered.

5. **QUESTION:** Is telehealth a covered service for COVID-19?

**ANSWER:** Yes, telehealth is currently an allowable Medicaid service. Providers must diagnose and treat within the scope of practice. New developments using this service delivery model are posted at dhcfp.nv.gov/COVID19 under the Provider links.

More information about telehealth coverage is available in the Medicaid Services Manual (MSM) Chapter 3400 located at http://dhcfp.nv.gov/Resources/AdminSupport/Manuals/MSM/C3400/Chapter3400/.

6. **QUESTION:** Is a telehealth visit covered if the patient participates from their home?

**ANSWER:** Yes, the distant site (where the provider is located) is covered even when the patient participates from home. When the patient participates from home, there is no reimbursement for a facility fee.

7. **QUESTION:** Will Nevada Medicaid cover the COVID-19 vaccine when it becomes available? (New Question)

**ANSWER:** Yes, this vaccine will be covered.

8. **QUESTION:** Will there be changes to pharmacy benefit?

**ANSWER:** Nevada Medicaid is allowing recipients to refill certain medications early to ensure they have an uninterrupted supply during the Coronavirus disease (COVID-19) threat. The standard refill threshold level for non-controlled substances is being reduced from 80% to 50%. This means that these types of medications will require that 50% of the supply has been used before the next fill is allowed. Medications classified as controlled substances will continue to require that 90% of the supply has been used before the next fill is allowed.

Nevada Medicaid recipients with active eligibility may obtain a one-time early refill of their prescription medications if they have refills remaining on file at a participating retail or mail-order pharmacy. The refill obtained will stay consistent with the standard days’ supply.
previously filled by the member as allowed by their plan (e.g., 34- or 100-day supply). The “refill too soon waiver” will be continuously evaluated to determine the appropriate duration based on Centers for Disease Control and Prevention (CDC) guidance, federal and state declarations, and any other relevant data. Updated web announcements will be posted as the situation progresses.

If there are any issues with accessing medication, please contact the OptumRx Technical Call Center (Pharmacy Help Desk) at (866) 244-8554.
