Dental Dashboard Reports SFY15

**Active Dental Providers**

As Reported by HPES

**Summary**

The Fiscal Agent's definition of "active provider" is any provider who has provided at least one service within the last two years.

**Active FFS Dental Providers**

As Reported in DSS

**Providers** is the unique count of providers who performed any facility, professional, or pharmacy services.

**Summary**

This data is gathered from DSS and is a simple count of providers currently shown in the system as Provider Type 22 - Dentist, who have provided at least one service within the month reported. It is another way of measuring DHCFP's monthly Dental Provider count; however consideration should be given to the differences between this report and the monthly report of Active Providers from the Fiscal Agent (HPES) and the two should not be compared side by side as their methodologies and definitions are different. While the Fiscal Agent's Active Provider report (HPES) has been unduplicated to the best of their ability, the possibility still remains that some providers could be counted more than once. It also considers all providers who have provided at least one service within the past two years - meaning that if a provider rendered his/her final service to a Medicaid recipient one year and eleven months ago, and then decided to stop accepting Medicaid, he/she would still show up in the count of "Active" providers as reported by the Fiscal Agent.

**Summary**

This report identifies a monthly count of providers who provided at least one dental service. The "Total" is a duplicated count as a provider may serve FFS and HMO enrollees. In addition, there may also be duplication within the Amerigroup and HPN totals as the HMOs report their numbers by adding up Medicaid and CheckUp service providers.

Note: the methodology for collecting HMO data changed from SFY14 in order to eliminate potential duplication of provider counts.
