

Division of Health Care Financing and Policy

Tribal Consultation Action Items

November 6, 2014

Division of Health Care Financing and Policy (DHCFP) – Shannon Sprout

- DHCFP presented an update of the State Plan Amendment (SPA) process for increasing the rate methodology from three to five encounters per day, and the expansion of covered healthcare providers under encounter methodology.
 - The Tribal Government requested the process move as quickly as possible.
 - The Tribal Government requested a review to determine the savings to the state.
 - In response the DHCFP will move forward with the SPA to increase from three to five encounters per day. The DHCFP runs an annual report providing the information requested that is posted at www.dhcfp.nv.gov. It was agreed that since expansion there is more data available and the reports can be run more frequently. The data will be evaluated to move the report to either a six month or quarterly time frame.
 - The Public Hearing for the SPA and Chapter will be held on December 30th, 2014. The agenda can be located at <https://dhcfp.nv.gov/publicnotices.htm>
