June 28, 2017

TO: CUSTODIANS OF MEDICAID SERVICES MANUAL
FROM: LYNNE FOSTER, CHIEF OF DIVISION COMPLIANCE
SUBJECT: MEDICAID SERVICES MANUAL CHANGES
CHAPTER 1100, OCULAR SERVICES

BACKGROUND AND EXPLANATION

Revisions to Medicaid Services Manual (MSM) Chapter 1100 – Ocular Services are being proposed to add new language clarifying ocular prosthetic services.

Throughout the chapter, grammar, punctuation and capitalization changes were made, duplications removed, acronyms used and standardized and language reworded for clarity. Renumbering and re-arranging of sections was necessary.

Entities Financially Affected: Optometrist (Provider Type (PT) 25) and Durable Medical Equipment (PT 33).

Financial Impact on Local Government: None.

These changes are effective June 29, 2017.

1103         POLICY

1103.1        OCULAR SERVICES

1103.1A       COVERAGE AND LIMITATIONS

Medicaid will reimburse for routine comprehensive ophthalmological examinations and/or refractive examinations of the eyes and glasses with a prescription for and provision of corrective eyeglasses to eligible Medicaid recipients of all ages once every 12 months. Any exceptions require prior authorizations.

1. HEALTHY KIDS (EPSDT)
   a. Nevada Medicaid provides for vision screenings as referred by any appropriate health, developmental or educational professional after a Healthy Kids Screening Exam. Optometrists and ophthalmologists may perform such exams without prior authorization upon request or identification of medical need. "Medical Need" may be identified as any ophthalmological examination performed to diagnose, treat or follow any ophthalmological condition that has been identified during the Healthy Kids examination.
   b. Glasses may be provided at any interval without prior authorization for Early and Periodic Screening, Diagnosis and Treatment (EPSDT) recipients, as long as there is a change in refractive status from the most recent exam, or for broken or lost glasses. Physician records must reflect this change and the records must be available for review for the time mandated by the federal government. Recipients enrolled in a Managed Care plan are mandated to access Healthy Kids EPSDT ocular services through their Managed Care provider.

2. EXAMINATIONS
   a. Refractive examinations performed by an optometrist or ophthalmologist are covered for Medicaid recipients of all ages once every 12 months. Any exceptions require prior authorization.
   b. Ocular examinations performed by an optometrist for medical conditions within the scope of their license do not require a prior authorization.
   c. Ocular examinations performed by an ophthalmologist for medical conditions do not require prior authorization and are considered a regular physician visit. Current limitations are based on medical necessity.

d. Following cataract surgery, if the recipient is Medicare eligible and requires eyeglasses, the provider must bill Medicare first and attach the Medicare Explanation of Benefits (EOB) to the claim for co-insurance and deductible.

3. **LENSES**

Lenses are covered for recipients of all ages. No prior authorization is needed for recipients under 21. For recipients over 21, a prior authorization is required if the 12 month limitation is exceeded.

a. **COVERED**

The following are covered for Nevada Medicaid recipients of all ages as noted:

1. A change in refractive error must exceed plus or minus 0.5 diopter or 10 degrees in axis deviation in order to qualify within the 12 month limitation;

2. Lens material may be tempered glass tillyer grade or equivalent or standard plastic, at recipient’s option;

3. Ultra-lightweight plastics, e.g., Lite Style and polycarbonate-style, are covered when they are medically necessary to avoid very heavy glasses which would hurt the bridge of the nose. The acceptable means for avoiding severe imbalance of the weight of the glasses are up to ±7 diopters in children;

4. Polycarbonate lenses are covered under EPSDT when medically necessary;

5. Safety lenses when the recipient has vision in only one eye;

6. A single plano or balance lens is handled as if it were a corrective lens and so called “half glasses” are handled as if they were standard size corrective lenses;

7. Slab-off lenses, Prisms, Aspheric, Lenticular lenses;

8. “Executive” bifocals may be covered for children with: esotropia, and esophoria, accommodation, oculomotor dysfunction such as tracking and saccadic problems. Prior authorization is not required when using one of the above medical diagnoses;

9. Filters: PLS 40 filters when prescribed for patients with the following diagnoses: macular degeneration, retinitis pigmentosa, rod/cone dystrophy or
achromatopia. In all these cases, the best uncorrected vision must test better than 20/200;

10. UV filters when prescribed following cataract surgery;

11. Bifocals and trifocals are reimbursable for a combination of any of the conditions at near or far point, including but not limited to: esotropia, esophoria, cataracts, glaucoma, accommodative dysfunctions, nystagmus, stigmatism, myopia, presbyopia;

12. Double segment lenses required for employment which must be prior authorized;

13. Therapeutic contact lenses when prescribed for treatment of a medical condition;

14. Tints are covered when medically necessary;

15. Low vision aids such as telescopic lenses, magnifying glasses, bioptic systems and special inserts in regular lenses which must be prior authorized;

16. Scratch-proof coatings for plastic lenses are covered for EPSDT recipients.

b. NON-COVERED

The following are not covered:

1. Sunglasses and cosmetic lenses.

2. Contact lenses are disallowed UNLESS their use is:
   a. The only means to bring vision to the minimum criteria required to avoid legal blindness; or
   b. Medically indicated following cataract surgery; or
   c. The necessary means for avoiding very heavy glasses which would hurt the bridge of the nose (e.g., where the correction is 9+ diopters in each eye). The necessary means for avoiding severe imbalance of the weight of glasses is where one eye is corrected to 9+ diopters and the other eye is 3+; or
   d. Required when the recipient has a diagnosis of Keratoconus.
3. Replacement of lenses, unless the patient has a significant change in refractive status.

5. Faceted lenses.

4. FRAMES

a. COVERED

1. Existing frames must be used whenever possible. If new frames are necessary, they may be metal or plastic, at the patient’s option, up to Medicaid’s allowable cost.

2. Providers must stock a variety of frames to enable the recipient to choose a frame at no cost to them, if they so choose.

b. NON-COVERED

The following are not covered:

1. Frames with ornamentation.

2. Eyeglass frames which attach to or act as a holder for hearing aid(s).

5. OCULAR PROSTHETICS SERVICES

a. Ocular prosthesis are a covered Medicaid benefit when medically necessary, allowing one per eye, per 60 months (five years) and must be prior authorized.

c. A physician or optometrist must submit a referral for an ocular prosthesis, and the referral must be maintained in the recipient’s medical record.

d. Necessity for the procedure must include:

1. explanation of medical necessity for the prosthetic eye;
2. prior prosthetic eye history, if applicable; and

3. description and justification other than a pre-cast prosthesis.

e. For replacement of a prosthetic eye or sclera cover shell, one of the following justifications must be included:

1. accommodation for changes resulting from orbital development;

2. as necessary to prevent a significant disability;

3. when prior prosthesis was lost or destroyed due to circumstances beyond the recipient’s control; or

4. when the prior prosthesis can no longer be rehabilitated.

f. Polishing/resurfacing of an ocular prosthesis is covered once each 12 months, per eye without prior authorization. If medical necessity exceeds limitations, a prior authorization is required.

g. If there is one paid claim historically for the same eye, right or left, medical necessity for a second claim within the 60-month period must include one of the following conditions:

1. socket growth or contracture;

2. lagophthalmos;

3. ptosis;

4. lower lid laxity;

5. entropion;

6. ectropion;

7. implant exposure; or

8. other conditions that can be improved or minimized with appropriate prosthetic modification.

h. Fabrication and fitting of an ocular conformer must include:
1. a written prescription by a physician or optometrist, and the prescription must be retained in the recipient’s medical record;

2. medical necessity for the recipient; and

3. documentation of post-surgical use to prevent closure and/or adhesions between the orbit and eyelid during the healing process.

i. The recipient is responsible for general care and maintenance of the eye socket and prosthesis, as directed by the provider.

6. VISION THERAPY

Vision therapy is a covered Medicaid benefit and must be prior authorized by the QIO-like vendor.

1103.1B PROVIDER RESPONSIBILITY

1. Providers must confirm the recipient’s eligibility by reviewing the current Medicaid card before providing services, or access eligibility via the Electronic Verification of Eligibility (EVE) system.

2. It is the provider’s responsibility to ask the recipient if there is additional visual coverage through third party payers.

1103.1C RECIPIENT RESPONSIBILITY

Services requested by the recipient but for which Medicaid makes no payment are the responsibility of, and may be billed to, the recipient. Nevada Medicaid recipients are only responsible for payment of services not covered by Medicaid, such as eyeglass extras. Prior to service, the recipient must be informed in writing and agree in writing he/she will be responsible for payment.

1. The recipient is responsible for presenting a valid Medicaid card to the examiner and/or optician.

2. The recipient is responsible for presenting any form or identification necessary to utilize other health insurance coverage.

3. If the recipient selects a frame with a wholesale cost greater than the Medicaid allowable, they will be responsible for the additional amount. The recipient’s agreement to make payment must be in writing. A copy of the agreement must be retained in the recipient’s chart. The Nevada Medicaid Surveillance and Utilization Review Unit (SURS) conducts a regular review of claims history to monitor this.
