* The function of the algorithm is to ultimately achieve no more than a 10% differential in enrollment between all MCO contractors. Once the differential is achieved, use of this algorithm will be discontinued and head of households will be auto assigned on rotating basis.

Effective January 1, 2024, the state will implement a quality-based auto-assignment algorithm. Each MCO will receive an ordinal ranking of 1 through 5 based on its score for each of five selected quality measures for a specified measurement year. The state will notify the MCOs of the selected measures and measurement period annually. The MCO with the highest score will be assigned a ranking of 1. If two MCOs have the same score on a given measure, they shall receive the same rank, and the next lower rank shall be skipped. Each MCO's ordinal rankings for the five measures will be added to determine which percentage an MCO will receive for auto-assignment algorithm. The MCO with the lowest total score for ordinal rankings (indicating the best performer) will receive the highest auto-assignment percentage. The quality-based algorithm is as follows:

Quality-Based Auto-Assignment Algorithm		
MCO with lowest total score for ordinal ranking	35%	
MCO with second lowest total score for ordinal ranking	30%	
MCO with the third lowest total score for ordinal ranking	20%	
MCO with the highest total score for ordinal ranking	15%	

- c.

 If applicable, please check here to indicate that the state uses a **passive**enrollment process, as described in 42 CFR 438.54(d)(2), for individuals who are subject to mandatory enrollment.
 - i. If so, please describe the algorithm used for passive enrollment and how it meets all of the requirements of 42 CFR 438.54(d)(4), (6), (7), and (8).

1932(a)(4) 42 CFR 438.54 42 CFR 438.52 3. State assurances on the enrollment process.

Place a check mark to affirm the state has met all of the applicable requirements of choice, enrollment, and re-enrollment.

a.

The state assures that, per the choice requirements in 42 CFR 438.52:

42 CFR 438.56(g)

- i. Medicaid beneficiaries with mandatory enrollment in an MCO will have a choice of at least two MCOs unless the area is considered rural as defined in 42 CFR 438.52(b)(3);
- ii. Medicaid beneficiaries with mandatory enrollment in a primary care case management system will have a choice of at least two primary care case managers employed by or contracted with the State;
- iii. Medicaid beneficiaries with mandatory enrollment in a PCCM entity may be limited to a single PCCM entity and will have a choice of at least two PCCMs employed by or contracted with the PCCM entity.

).	☐ The state pl	lan program applies	the rural exception to	choose requirements of	42 CFR 438.52(a) for MCOs in
