**Subject:** Review Nevada ffs state medicaid board

To Whom it may concern,

I am writing to support placing Ubrelvy on Nevada State Medicaid Preferred's Drug List. Ubrelvy has been such a great addition to the acute treatment of migraine. My patients have waited long enough for a new class of medication.

In my personal experience, I have found Ubrelvy to be effective for many of my patients suffering from migraine. It has not only taken the edge off their pain but also the most bothersome symptoms. It's a non narcotic without having all the harsh side effects as the other acute treatments. My patients have been able to take Ubrelvy and continue on with their day at work. For many, they continue with their daily work activities, and its for these reasons I would like to see Ubrelvy on the preferred drug list.

I hope that you consider my comments for your review. Thank you for all your hard work.

Mouchir Harb M.D
