Public Workshop Individualized Treatment Plan and Documentation Requirements

June 20th, 2018

Objectives

- Discuss current policy and deficits
- Discuss policy improvements
- Review draft Individualized Treatment Plan and documentation requirements

Current Policy and Deficits

- Current Policy requires a Treatment Plan and a Rehabilitation Treatment Plan.
- Required details are lacking between each plan.
- Coordination of care between Outpatient Mental Health Services and Rehabilitative Mental Health Services is disjointed.

Policy Improvements

- The Treatment Plan and Rehabilitation Treatment Plan have been combined into one, streamlined, Individualized Treatment Plan.
- Structure of Policy is intended to be an 'outline' for providers for Individualized Treatment Plans and Progress Notes.
