3000 INTRODUCTION

Medically necessary (as defined in Medicaid Services Manual (MSM) Chapter 100 (Medicaid Program) services are reimbursable when the services are provided by an Indian Health Program to an eligible American Indian or Alaskan Native (AI/AN) Medicaid or Nevada Check Up recipient. Indian Health Programs may be operated by the Indian Health Service (IHS), Tribal Organization, or an Urban Indian Organization – (I/T/U).

Numerous public laws guide federal and state interactions with tribal governments and AI/ANs. A basic understanding of these laws is essential to help facilitate the collaborative relationship between the DHCFP and the tribes within the State of Nevada. Below is a brief summation of these laws.

WORCESTER V. GEORGIA (1832): The Supreme Court of the United States held that the federal government, and not state governments, had exclusive “authority over American Indian Affairs”.

GENERAL ALLOTMENT ACT OF 1877

The Act authorized the President of the United States to partial reservation lands into general allotments. Federal trust land owned or possessed by an AI/AN may be exempt from Medicaid estate recovery.

SNYDER ACT OF 1921

The Act made the federal government responsible for the health care of AI/ANs.

INDIAN CITIZENSHIP ACT OF 1924

The Act granted AI/ANs dual citizenship.

INDIAN REORGANIZATION ACT OF 1934

The Act reversed the General Allotment Act. The Act reinstated self-governance and returned tribal lands to respective tribal governments.

INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT OF 1975

Prior to this Act, the federal government managed, coordinated, and provided health care services for AI/ANs. The Act authorized tribal governments to establish contracts and compacts with the federal government. In general, tribal governments may plan, conduct, and administer their own public programs – to include Indian Health Programs.

INDIAN HEALTH CARE IMPROVEMENT ACT OF 1976

The Act authorized 100 percent federal reimbursement to states for medical services provided to AI/ANs when provided through the Indian Health Service (IHS) and/or tribal organizations.

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009

The Act established:

- Guidelines surrounding the enrollment of AI/ANs in Medicaid Managed Care Organizations (MCO);
- Prohibitions of state Medicaid agencies from charging AI/AN premiums and cost shares for services provided through Indian Health Programs or tribal organizations to AI/ANs;
- Protections of certain properties held by AI/AN from federal or state recovery; and
- Mandates that states seek ongoing advice from Indian Health Programs on issues that are likely to have a direct effect on Indian Health Programs.

PATIENT PROTECTION AND AFFORDABLE CARE ACT OF 2010

The Act reauthorized and made permanent the Indian Health Care Improvement Act.

3003 POLICY

It is the policy of the Division of Health Care Financing and Policy (DHCFP) to follow State and Federal laws, uphold the tribal-state consultation process, and promote Indian Health Programs (IHP).

3003.1 HEALTH SERVICES

A. The DHCFP reimburses Indian Health Services (IHS) and Tribal organizations an outpatient encounter rate.

1. Encounter **visits are limited to healthcare professionals as approved under the Nevada Medicaid State Plan.** Each **healthcare professional is considered an independent (i.e., separate) outpatient encounter.**
2. Service Limits: Eligible Indians may receive up to **five face-to-face IHS** and/or Tribal Organization outpatient encounter/**visits** per day, per recipient, any provider.
3. Medical Necessity: In order to receive reimbursement, all services must be medically necessary as defined in the Medicaid Services Manual (MSM), Chapter 100 (Medicaid Program).

B. Primary Care Provider (PCP)

In accordance with the American Recovery and Reinvestment Act of 2009, the DHCFP supports eligible Indians in selecting an Indian Health Program as their PCP. These recipients may select an Indian Health Program as their PCP, whether they are enrolled in managed care or fee-for-service (FFS). Indian Health Programs that become PCPs for eligible Indians do not have to be, but may be, enrolled with either of the Managed Care Organizations (MCOs). Services which are referred out by PCPs must follow the service limitation and prior authorization requirements set forth by the applicable benefit plan (i.e., managed care or FFS).

C. Managed Care Enrollment

Eligible Indians are exempt from mandatory enrollment in managed care. In situations where Indians voluntarily enroll in managed care, they may access health care services from Indian Health Programs without restriction. Health care services provided to Indians through the IHS and/or tribal organizations may be reimbursed FFS or through the MCO.

1. Federal Medical Assistance Percentage (FMAP)

3003.2 TRIBAL GOVERNMENTS

A. Consultations

The DHCFP will consult with Tribes and Indian Health Programs on Medicaid State Plan Amendments (SPAs), waiver requests, waiver renewals, demonstration project proposals and/or on matters that relate to Medicaid and Nevada Check Up programs.

| | |
|--|--------------------|
| | MTL 22/14 |
| DIVISION OF HEALTH CARE FINANCING AND POLICY | Section: 3003 |
| MEDICAID SERVICES MANUAL | Subject: POLICY |

1. The notification will describe the purpose of the SPA, waiver request, waiver renewal, demonstration project proposal and/or on matters relating to Medicaid and Nevada Check Up programs and will include the anticipated impact on Tribal members, Tribes and/or Indian Health Programs.
2. The notification will also describe a method for Tribes and/or Indian Health Programs to provide official written comments and questions within a time-frame that allows adequate time for State analysis, consideration of any issues that are raised and the time for discussion between the State and entities responding to the notification.
3. Tribes and Indian Health Programs will be provided a reasonable amount of time to respond to the notification. Whereof, 30 days is considered reasonable.
4. In all cases where Tribes and/or Indian Health Programs request in-person consultation meetings, the DHCFP will make these meetings available.
5. The tribe-state consultation process allows for an expedited process for notification of policy changes due to budget cuts prior to changes being implemented. The Centers for Medicare and Medicaid Services (CMS) requires Medicaid SPAs, waiver requests and waiver renewals, which fall within this category to have a notification process prior to these documents being submitted to CMS. Due to this, the State is instituting an expedited process which allows for notification to the Tribes and Indian Health Programs of at least one week notice prior to the changes being implemented as agreed upon in the tribe-state consultation process or two weeks prior to the submission of the SPAs, waiver requests and/or waiver renewals, whichever date precedes.
