Name of state agency to which responsibility is delegated:

Describe the organizational arrangement authorized, the nature and extent of responsibility for program administration delegated to the above named agency, and the resources and/or services of such agency to be utilized in administration of the plan:

The DHHS, through an interlocal contract between its Division of Health Care Financing and Policy (DHC FP) and the Department of Administration Appeals Office (DOA), delegates its authority to conduct beneficiary fair hearings and issue final fair hearing decisions for Medicaid covered services and provider fair hearings for claims, re-coupments and enrollment issues to the DOA. The Interlocal Contract also defines the respective relationship between the DHC FP and the DOA including implementation of 42 CFR section 431, subpart E; Chapter 3100 of the Nevada Medicaid Services Manual, all other applicable provisions and any quality control and oversight that is planned.

The DOA agrees to conduct scheduled impartial administrative hearings for individuals who request a fair hearing and for whom DHC FP is not able to resolve their issue during an informal resolution process. Generally fair hearing requests are received by DHC FP and DHC FP informs DOA of the cases that should be scheduled for a hearing. A beneficiary has 90 calendar days from the date of the notice of decision to request a fair hearing.

The methods for coordinating responsibilities among the agencies involved in administration of the plan under the alternate organizational arrangement are as follows:

The DHHS through the DHC FP will ensure that every applicant and beneficiary is informed, in writing, of the fair hearing process and how to contact both the DHC FP and the DOA. The DHHS retains oversight of the State Plan, the development and issuance of policies, rules, and regulations on program matters; and will establish a process to monitor the entire appeals process, including the quality and accuracy of the final decisions made by the DOA. DHHS will ensure that the Department of Administration complies with all Medicaid related federal and state laws, regulations and policies in the completion of the fair hearing.

Organization and Administration

Provide a description of the organization and functions of the Medicaid agency.

The Nevada Department of Health and Human Services (DHHS) is the single state agency responsible for administering or supervising the administration of the Medicaid program under title XIX of the Social Security Act. The DHHS, through its Divisions, is responsible for all the Medicaid (title XIX) and Nevada Check Up (title XXI, the Children's Health Insurance Program) eligibility decisions and the fair hearings for eligibility. The Division of Health Care Financing and Policy (DHCFP), a Division of DHHS administers the Medicaid and Nevada Check Up state plans, including the rates and medical benefit plans, the 1915 (c) and 1115 waiver programs. The DHCFP manages the Fee for Service Benefit plan, the Managed Care Organizations, program compliance activities and the program's budget and fiscal operations. The Division of Welfare and Supportive Services (DWSS) a Division of DHHS completes the eligibility functions, including the fair hearings for eligibility for the following groups: Parents and other caretaker relatives, Pregnant women, Infants and children under age 19, Adult group, Former foster care children, Breast and cervical cancer, Targeted low income children, Emergency assistance for non-qualified non-citizens, Aged, blind and disabled, SSI, State institutional, Public law, Disabled children cared for at home, Home and community based waivers, Health insurance for work advancement, Medicare savings program. These two functions, though completed by the same agency, fall under two distinct program units and program chiefs. The eligibility determination function is located in the Program and Field Operations Unit

Medicaid Administration

within the Eligibility and Payments section and the fair hearing function is located in the Program Review and Evaluation Unit, which reports directly to the Administrator. The Division of Child and Family Services (DCFS), Nevada's child welfare agency and also a division of DHHS completes the eligibility functions, including the fair hearings for eligibility for the following groups: Title IV-E Eligible Foster Care Children, Non-Title IV-E Eligible Foster Care Children, Foster Care Children Receiving Supplemental Security Income (SSI), Children born to a Medicaid eligible minor parent in foster care, Title IV-E Eligible Children for whom there is a Nevada adoption assistance agreement, Title IV-E Eligible Children for whom there is an adoption assistance agreement from another state, Non-Title IV-E Children for whom there is an Adoption Assistance Agreement, Children born to a Medicaid Eligible adopted minor parent and Children who have Aged Out of Foster Care. The eligibility determination function is located in the Fiscal Unit which is part of the Agency's Administrative Unit, reporting the agency deputy administrator and the fair hearing function completed by the Systems Advocate reports directly to the Agency Administrator. The Aging and Disability Service Division (ADSD) operates two of Nevada's Three 1915 (c) waiver programs, The Home and Community Based Waiver for the Frail Elderly, and the Home and Community Based Waiver for Individuals with Intellectual Disabilities and Related Conditions. The DHCFP operates the third 1915 (c) waiver, the Home and Community Based Waiver for Individuals with Physical Disabilities. All Divisions, including the Division of Public and Behavioral Health work closely with the DHCFP in the development and utilization of Medicaid and Nevada Check Up benefit policy.

The DHHS divisions in addition to the functions they complete for the Medicaid or Nevada Check Up programs also complete other health and human services for the state of Nevada. The Division of Aging and Disability Services operates the State funded Regional Centers, serving the intellectually disabled population, the state funded home and community based services for the elderly and the disabled, elder rights services, early intervention services and the Senior and Disability RX program. The Child and Family Service Division operates the State's Child Welfare Services, Juvenile Justice services and facilities and Children's Behavioral Health services and facilities. The Division of Public and Behavioral health completes the public health services including biostatistics and epidemiology, health statics, planning and emergency response, Consumer Health Protection, service and facility licensing (Health Care Quality and Compliance) and adult and rural mental health services. The Division of Welfare and Supportive Services completes the eligibility and payment for Nevada's public assistance programs as well as child support enforcement and child care programs.

1.4 State Medical Care Advisory Committee

There is an advisory committee to the Medicaid agency director on health and medical care services established in accordance with and meeting all the requirements of 42 CFR 431.12.

42 CFR

The State enrolls recipients in MCO, PIHP, PAHP and/or 438.104 PCCM programs. The State assures that it complies with 42 CFR 438.104(c) to consult with the Medical Care Advisory Committee in the review of marketing materials.

State: Nevada

Tribal Consultation Requirements

Section 1902(a)(73) of the Social Security Act (the Act) requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular, ongoing basis from designees of Indian health programs, whether operated by the Indian Health Service (IHS), Tribes or Tribal organizations under the Indian Self-Determination and Education Assistance Act (ISDEAA), or Urban Indian Organizations under the Indian Health Care Improvement Act (IHCIA). Section 2107(e)(1) of the Act was also amended to apply these requirements to the Children's Health Insurance Program (CHIP). Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

Nevada Consultation Process

The Department of Health and Human Services (DHHS), Tribes, Indian Health Service, Tribal and Urban Indian Organizations (I/T/U) residing within of the State of Nevada created a Tribal Consultation Process. The Tribal Consultation Process was signed and became effective March 2010. Below is a summary of the process for the Tribal Consultation Process:

Purpose - The purpose of the agreement is to establish an open and meaningful consultation process between the Nevada Department of Health and Human Services and the Indian Tribes in the State of Nevada to facilitate better communication and collaboration between the entities.

Agreement - The guiding principle of the agreement is to ensure that open and meaningful communication occurs in a timely manner for consultation between the parties regarding high-level policy changes that significantly impact Indian Tribes in the State of Nevada. Policy changes that significantly impact Indian Tribes refer to actions that have substantial Tribal implications with direct effects on one or more Indian Tribes, on relationship between the State of Nevada and Indian Tribes, or on the distribution of roles on and responsibilities between the State of Nevada and Indian Tribes.

A copy of the tribe-state consultation process can be requested from the Division of Health Care Financing and Policy (DHCFP).

1. *Please describe the process the State uses to seek advice on a regular ongoing basis from federally-recognized tribes, Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan Amendments, waiver proposals, waiver extensions, waiver amendments, waiver renewals and proposals for demonstration projects prior to submission to CMS. Please include information about the frequency, inclusiveness and process for seeking such advice.*

Notification Process

In addition to the tribe-state consultation process set forth between DHHS, Tribes, and I/T/Us;

State: Nevada

DHCFP will consult with all federally recognized Tribes and I/T/Us within the State of Nevada on all Medicaid state plan amendments, waiver requests, waiver renewals, demonstration project proposals and/or on all matters that relate to Medicaid and CHIP programs.

- a. The notification will describe the purpose of the state plan amendment, waiver request, waiver renewal, demonstration project proposal and/or on matter relating to Medicaid and CHIP programs and will include the anticipated impact on Tribal members, Tribes and/or I/T/Us. The description of the impact will not be Tribal member, Tribe and/or I/T/U specific if the impact is similar on all Tribal members, Tribes and/or I/T/Us.
 - b. The notification will also describe a method for Tribes and/or I/T/Us to provide official written comments and questions within a time-frame that allows adequate time for State analysis, consideration of any issues that are raised and the time for discussion between the State and entities responding to the notification.
 - c. Tribes and I/T/Us will be provided a reasonable amount of time to respond to the notification. Whereof, thirty (30) days is considered reasonable.
 - d. In all cases where Tribes and/or I/T/Us request in-person consultation meetings, DHCFP will make these meetings available.
 - e. The tribe-state consultation process allows for an expedited process for notification of policy changes due to budget cuts prior to changes being implemented. The Centers for Medicare and Medicaid Services (CMS) requires Medicaid state plan amendments, waiver requests and waiver renewals, which fall within this category to have a notification process prior to these documents being submitted to CMS. Due to this, the State is instituting an expedited process which allows for notification to the tribes of at least one-week notice prior to the changes being implemented as agreed upon in the tribe-state consultation process or two weeks prior to the submission of the state plan amendments, waiver requests and/or waiver renewals, whichever date precedes.
2. *Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment, when it occurred and who was involved.*

State of Nevada, Department of Health and Human Services (DHHS) Tribal Consultation Process: On August 13, 2009, Michael J. Willden (Director, DHHS), Charles Duarte (Administrator, DHCFP) and John Liveratti (Chief of Compliance, DHCFP) met with representatives from the Indian Health Board of Nevada (IHBN) to begin tribal-state collaboration process discussions. To help facilitate this discussion, IHBN presented a draft of the State of Arizona's tribal-state consultation policy. Based on the outcome of this discussion and Arizona's draft policy, Mary Liveratti (Deputy Director, DHHS) created a draft tribal-state consultation policy. The draft policy was completed on September 15, 2009. Subsequently, the Deputy Director presented the draft policy to the IHBN and DHHS division administrators. On October 7, 2009, a follow-up meeting was convened to discuss the draft policy. Those in attendance were Mary Liveratti, Diane Comeaux (Administrator, Division of Child and Family Services), Romaine Gilliland (Administrator, Division of Welfare

State: Nevada

and Supportive Services), Carol Sala (Administrator, Division of Aging and Disability Services), Dr. Luana Ritch (Health Division) and Larry Curley (Indian Health Board Nevada). Resulting from the discussion and input during this meeting, a revised draft was created. On November 10, 2009, a subsequent meeting was convened. Those in attendance were Mary Liveratti, Diane Comeaux, Romaine Gilliland, Carol Sala, Dr. Luana Ritch, Larry Curley, Sherry Rupert (Executive Director, Nevada Indian Commission)¹ and Darryl Crawford (Executive Director, Inter-Tribal Council of Nevada). Based on agreements established during this meeting, in December 2009, DHHS mailed an explanatory letter (viz., requesting their input) and the draft tribal-state consultation policy to all Federally Recognized Tribes, Inter-Tribal Council of Nevada, Indian Health Services and Tribal and Urban organizations residing within the State of Nevada. Based on feedback from the chairpersons, DHHS developed a final policy. In January 2010, DHHS mailed policy agreement letters, along with the final policy, to all the tribal chairpersons. Tribes were asked to sign and return the letters to DHHS. As of March 31, 2010, DHHS received 11 responses. On March 31, 2010, the Director sent out a memorandum to all of the division administrators, along with the policy, requesting they sign and return the policy agreement letters to DHHS.

Note¹: The Nevada Indian Commission is codified into the Nevada Revised Statute (NRS 233A – Indian Affairs).

METHOD FOR DETERMINING COST EFFECTIVENESS OF CARING FOR
CERTAIN DISABLED CHILDREN AT HOME (KATIE BECKETT)

At the end of each calendar quarter, a computerized list of approved Katie Beckett Eligibility Option cases is generated by the Division of Health Care Financing and Policy (DHCFP) staff. The list shows the total Medicaid expenditure amount incurred quarterly which is compared to the maximum allowable costs. The maximum allowable costs are the costs of institutionalization in either a Skilled Nursing Facility (SNF), or an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/ID), which is determined by a level of care assessment. If the amount exceeds the maximum allowable, the Case Manager at the appropriate DHCFP office notifies the participant and advises him/her: 1) of the requirement to keep costs at or below the maximum allowable amount; and 2) that failure to keep costs to allowable amounts will result in termination from the program. If the participant's incurred costs exceed the maximum allowable amount for two consecutive quarters, he/she will be terminated from the program effective the first day of the month following the date of the determination for non-compliance with program requirements.

A level of care assessment is conducted annually; therefore, allowable costs may fluctuate annually based on the individual recipient's Level of Care (LOC).

3. In addition to the amounts under item 2, the following monthly amounts are deducted from the remaining income of an institutionalized individual with a community spouse:

a. The monthly income allowance for the community spouse, calculated using the formula in §1924(d)(2), is the amount by which the maintenance needs standard exceeds the community spouse's income. The maintenance needs standard cannot exceed the maximum prescribed in §1924 (d)(3)(C). The maintenance needs standard consists of a poverty level component plus an excess shelter allowance.

The poverty level component is calculated using the applicable percentage (set out §1924(d)(3)(B) of the Act) of the official poverty level.

The poverty level component is calculated using a percentage greater than the applicable percentage, equal to _____%, of the official poverty level (still subject to maximum maintenance needs standard).

The maintenance needs standard for all community spouses are set at the maximum permitted by §1924(d)(3)(C).

Except that, when applicable, the State will set the community spouse's monthly income allowance at the amount by which exceptional maintenance needs, established at a fair hearing, exceed the community spouse's income, or at the amount of any court-ordered support.

Group described in No. 2y on page 23d of
Attachment 2.2-A:

NOTE: Regardless of the option selected below, the
agency MUST require that individuals whose annual
adjusted gross income, as defined under IRS statute,
exceeds \$75,000 pay 100 percent of premiums.

X The agency requires individuals to pay
premiums or other cost-sharing charges on a
sliding scale based on income below 450

Premiums and Other Cost-Sharing Charges

For the Basic Coverage Group and the Medical Improvement Group, the agency's premium or other cost-sharing charges, and how they are applied, are described below.

Payment of a premium applies to an individual who has Combined Net Income greater than 0% FPL but less than or equal to 250% FPL. The premium calculation is determined as follows:

1. An individual with Combined Net Income of greater than 0% FPL and less than 200% FPL pays a premium of 5% of the individual's Combined Net Income.
2. An individual with Combined Net Income between 200% FPL and 250% FPL pays a premium of 7.5% of the individual's Combined Net Income.
3. No other cost sharing charges apply.

1902(k) of the Act 2. Medicaid Qualifying Trusts

In the case of a Medicaid qualifying trust described in Section 1902(k)(2) of the Act, the amount from the trust that is deemed available to the individual who established the trust (or whose spouse established the trust) is the maximum amount that the trustee(s) is permitted under the trust to distribute to the individual. This amount is deemed available to the individual, whether or not the distribution is actually made. This provision does not apply to any trust or initial trust decree established before April 7, 1986, solely for the benefit of a mentally retarded individual who resides in an intermediate care facility for the mentally retarded.

N/A The agency does not count the funds in a trust as described above in any instance where the State determines that it would work an undue hardship. Supplement 10 of ATTACHMENT 2.6-A specifies what constitutes an undue hardship.

1902(a)(10) of the Act N/A 3. Medically needy income levels (MNILs) are based on family size.

Supplement 1 to ATTACHMENT 2.6-A specifies the MNILs for all covered medically needy groups. If the agency chooses more restrictive levels under Section 1902(f) of the Act, Supplement 1 so indicates.

MORE LIBERAL METHODS OF TREATING INCOME
UNDER SECTION 1902(r)(2) OF THE ACT*

Section 1902(f) State NonSection 1902(f) State

METHODS FOR THE TREATMENT OF INCOME FOR INDIVIDUALS WITH INCOME
RELATED TO FEDERAL POVERTY LEVEL

For poverty level pregnant women, infants and children eligible under 1902(a)(10)(A)(i)(IV), VI & VII of the Social Security Act. The agency uses the less restrictive methods for treating income:

For all individuals under this group whose net income without application of disregards does not exceed the 100% need standard:

1. Disregard 100% earned income for three months;

 Disregard 85% of earned income for a second 3 months;

 Disregard 75% of earned income for a third 3 months;

 Disregard 65% of earned income for a fourth 3 months:

 Disregard \$90 or 20% of gross earning (whichever is greater) for month 13 and ongoing; and

2. Disregard the full cost of child care.

The \$30 + 1/3 / \$30 earnings disregards as applicable and \$90 work expense, whichever is more advantageous to the applicant/recipient.

The income and/or resource methodologies that the less restrictive methodologies replace are as follows:

1. No resource methodology is replaced.

Replaced income methodology is:

1. \$30 + 1/3 earned income disregard allowed for applicants/recipients who received Medicaid in one of the immediately preceding 4 months or whose net income without application of the disregards does not exceed the 100% need standard. \$30 + 1/3 allowed for 4 consecutive months followed by \$30 disregard for 8 consecutive months; and

2. \$90 work expense; and
3. Child care deductions limited to \$200 per month per child under age 2, and \$175 per month per child age 2 and older.

Spouse to Spouse and Parent to Child Deeming

Nevada does not impose SSI deeming provisions (spouse to spouse and parent to child) when determining eligibility of Qualified Medicare Beneficiaries (QMB). Only the client's income is considered. (1902(a)(10)(E) & 1905(p) of the Social Security Act)

Determining Countable Lump Sum Income

Lump sum income will be considered only in the month received. Provisions requiring the determination of the ineligible period and income remaining from the calculation of the ineligible period will not be considered in determining Medicaid eligibility. (1902(a)(10)(A)(i)(IV) & (VI) & (ii) (IX) and 1902(1)(1)(A)B(D) of the Social Security Act)

*More liberal methods may not result in exceeding gross income limitations under section 1903(f).

Wages paid by the Census Bureau for temporary employment related to census activities; When the Governor declares an economic crisis, Unemployment Insurance Benefits (UIB) will be excluded from income until the month following the month the Governor declares the economic crisis is over.

These incomes will be excluded for the following eligibility groups:

- Qualified children and pregnant women under 1902(a)(10)(A)(i)(III).
- Poverty level pregnant women and infants (133 –185% FPL) under 1902(a)(10)(A)(i)(IV).
- Poverty level children under age 6 (133% FPL) under 1902(a)(10)(A)(i)(VI).
- Poverty level children under age 19 (100% FPL) under 1902(a)(10)(A)(i)(VII).
- Optional categorically needy groups under 1902(a)(10)(A)(ii) as listed below:

NOTE: The Special Income Level Group under 1902(a)(10)(A)(ii)(V), the Individuals Who Would be Eligible if In an Institution Group under 1902(a)(10)(A)(ii)(VI) and the Hospice Group under 1902(a)(10)(A)(ii)(VII) cannot be included in this disregard.

1. Individuals who would be eligible for cash assistance (AFDC or SSSI) if they were not in a medical institution under 1902(a)(10)(A)(ii)(IV).
 2. Individuals who are under State adoption agreements under 1902(a)(10)(A)(ii)(VIII)
 3. Individuals receiving only an optional State supplement which is more restrictive than the criteria for an optional State supplement under title XVI, under 1902(a)(10)(A)(ii)(XI)
 4. Working disabled individuals who buy into Medicaid under TWWIIA Basic Coverage Group under 1902(a)(10)(A)(ii)(XV)
 5. Children under age 21 who were in foster care on their 18th birthday, under 1902(a)(10)(A)(ii)(XVII)
 6. Individuals screened for breast or cervical cancer under CDC program, under 1902(a)(10)(A)(ii)(XVIII)
- Medically Needy under 1902(a)(10)(C)(i)(III).
- All aged, blind or disabled groups in 209(b) states under 1902(f).

MORE LIBERAL METHODS OF TREATING RESOURCES
UNDER SECTION 1902(r)(2) OF THE ACT

___ Section 1902(f) State X Non-Section 1902(f) State

Splitting of Resources Between Spouses (NON-SPOUSAL IMPOVERISHMENT CASES)
(42 CFR Part 435.211, 435.231 & 435.217)

The State defines a non-spousal impoverishment case as those where the institutionalized spouse began a continuous period of institutionalization PRIOR to September 30, 1989 and where the institutionalized spouse's medical facility stay is less than 30 consecutive days.

Married persons who are living separate and apart from each other may enter into a written agreement between themselves dividing the total resources of both spouses equally between them. Only the portion the agreement specified as the applicant/recipient's will be counted in determining eligibility for Medicaid, UNLESS the spouse makes a portion of his/her resources available to the applicant/recipient. The portion made available to the applicant/recipient will be counted in determining eligibility for Medicaid. The regular SSI joint bank account procedures apply to the months of requested coverage prior to the effective date of the agreement.

Married persons who are living separate and apart from each other may petition the court to equally divide their total community resources, excluding income, between them. Only the portion the court order specifies as the applicant/recipient's will be counted in determining eligibility for Medicaid, UNLESS the spouse makes a portion of his/her resources available to the applicant/recipient. The portion made available to the applicant/recipient will be counted in determining eligibility for Medicaid. The regular SSI joint back account procedures apply to the months of requested coverage prior to the effective date of the agreement.

Property Exclusion

(42 CFR Part 435.221, 435.231 & 435.217; and 1902(a)(10)(E) & 1905(p) of the Social Security Act)

Nevada allows a property exclusion when the property is for sale at market value and no offers to purchase have been received (the property must remain for sale while the client receives assistance), OR the property has been sold and escrow has not been completed. Good faith efforts to sell the property must be made by or on behalf of the client in order for property to qualify under this exclusion. These efforts must also be made on an ongoing basis in order for the exclusion to remain in effect.

TRANSFER OF RESOURCES

1902(f) and 1917
of the Act

The agency provides for the denial of eligibility by reason of disposal of resources for less than fair market value.

A. Except as noted below, the criteria for determining the period of ineligibility are the same as criteria specified in section 1623 (c) of the Social Security Act (Act).

1. Transfer of resources other than the home of an individual who is an inpatient in a medical institution.

a. xx The agency uses a procedure which provides for a total period of ineligibility greater than 24 months for individuals who have transferred resources for less than fair market value when the uncompensated value of disposed of resources exceeds \$12,000. This period bears a reasonable relationship to the uncompensated value of the transfer. The computation of the period and the reasonable relationship of this period to the uncompensated value is described as follows:

The uncompensated value of such transferred resources is counted for a period of time which is measured at a rate of one month for each \$500 of the uncompensated value of the transferred property. Eligibility will be re-evaluated 1) if the individual secures the return of the transferred property; 2) if the individual receives further compensation or; 3) if the individual incurs medical expenses equal to the sum of the uncompensated value of the transferred property. The incurred medical expenses cannot be paid or subject to payment by a third party.

If the transfer is \$500 or less, the period of ineligibility will be for the month of transfer only.

c. N/A The agency has provisions for waiver of denial of eligibility in any instance where the State determines that a denial would work an undue hardship.

— A period of ineligibility applies to inpatients in an SNF, ICF or other medical institution as permitted under section 1917 (c) (2) (B) (i).

- a. Subject to the exceptions on page 2 of this supplement, an individual is ineligible for 24 months after the date on which he disposed of the home. However, if the uncompensated value of the home is less than the average amount payable under this plan for 24 months of care in an SNF, a period of ineligibility is a shorter time, bearing a reasonable relationship (based on the average amount payable under this plan as medical assistance for care in an SNF) to the uncompensated value of the home as follows:

- N/A 3. If the agency sets a period of ineligibility of less than 24 months and applies it to all transfers of resources (regardless of uncompensated value):
4. Other procedures:
- a. If spouses who are living separate and apart from each other obtain a court order which equally divides their community assets, excluding income, only those assets designated as the applicant/recipients will be considered for eligibility purposes. If the spouse makes a portion of his/her assets available to the applicant/recipient, that portion will be considered when determining eligibility.
 - b. If spouses who are living separate and apart from each other enter into a written agreement, which equally divides their community assets, only those assets designated as the applicant/recipient will be considered for eligibility purposes. If the spouse makes a portion of his/her assets available to the applicant/recipient, that portion will be considered when determining eligibility.

If both of the above instances, the transfer of resource policy will not apply.

APPENDIX 1 TO SUPPLEMENT 9 OF ATTACHMENT 2.6-A
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

SECTION 1917 (c)(2)(D)

Transfer of Resources

An institutionalized spouse who (or whose spouse) transferred resources for less than fair market value shall not be found ineligible for nursing facility services, for a level of care in a medical institution equivalent to that of nursing facility services, or for home and community-based services where the States determine that denial of eligibility would work an undue hardship under the provision of Section 1917 (c)(2)(D) of the Social Security Act.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: NEVADA

1902 (f) AND 1917 (c) OF THE SOCIAL SECURITY ACT

Transfer of Resources

The agency provides for a period of ineligibility for nursing facility services, a level of care in a medical institution equivalent to that of nursing facility services, and for Home Based Waiver services when it is determined an institutionalized individual or their spouse disposed of resources for less than fair market value to become or remain eligible for Medicaid.

Transfers occurring within 36 months before or after application (or institutionalization, if later) or assets placed in an irrevocable trust within 60 months are evaluated.

The period of ineligibility shall begin with the month in which the transfer took place and continue for a period of time which is the number of months determined by dividing the uncompensated value by \$4,583 (the statewide average monthly cost of care in a nursing facility for a private patient).

Eligibility can be re-evaluated if the individual secures the return of the transferred resource or if the individual receives further compensation. The uncompensated value will be reduced by the amount of additional compensation received.

An institutionalized individual is defined as an individual who is an inpatient in a nursing facility, who is an inpatient in a medical institution, for whom payment is made based on a level of care provided in a nursing facility or who is a Home and Community Based Service recipient.

For purposes of Section 1917 (c) of the Act, the term "resources" has the meaning given such term in Section 1613 of the Act, without regard to the exclusion described in subsection (a) (1) thereof.

An individual shall not be determined ineligible for medical assistance if:

1. the resources transferred was a home and title to the home was transferred to:
 - a. the spouse of such individual;

OF THE SOCIAL SECURITY ACT

- b. a child of such individual who is under age 21 or is blind or permanently and totally disabled;
 - c. a sibling of such individual who has an equity interest in such home and who was residing in the individual's home for a period of at least one year immediately before the date the individual becomes institutionalized;
 - d. a child of such individual (other than a child described in item "b" above) who was residing in the individual's home for a period of at least two years immediately before the date the individual becomes institutionalized and who provided care to the individual which permitted the individual to reside at home rather than an institution or facility;
2. the resources were transferred to or from (or to another for the sole benefit of) the individual's spouse, or to the individual's blind/disabled child;
 3. a satisfactory showing is made the individual intended to dispose of the resources either at fair market value or for other valuable consideration or the resources were transferred exclusively for a purpose other than to qualify for medical assistance;
 4. it has been determined a denial of eligibility would work an undue hardship against the individual.

Undue hardship is when there is no means, legal or otherwise, by which the individual is able to have the resource returned to his/her ownership or receive further compensation. The individual is otherwise eligible for Medicaid, and without Medicaid, the individual would be forced to go without life-sustaining medical care as determined by an individual licensed to practice medicine in the State of Nevada.

TRANSFER OF ASSETS

1917(c) The agency provides for the denial of certain Medicaid services by reason of disposal of assets for less than fair market value.

1. Institutional individuals may be denied certain Medicaid services upon disposing of assets for less than fair market value on or after the look-back date.

The agency withholds payment to institutionalized individuals for the following services:

Payments based on a level of care in a nursing facility;

Payments based on a nursing facility level of care in a medical institution;

Home and community-based services under a 1915 waiver.

2. Non-institutionalized individuals:

N/A The agency applies these provisions to the following non-institutionalized eligibility groups. These groups can be no more restrictive than those set forth in section 1905(a) of the Social Security Act:

Agency withholds payment to non-institutionalized individuals for the following services:

N/A Home health services (section 1905(a)(7));

N/A Home and community care for functionally disabled and elderly adults (section 1905(a)(22));

N/A Personal care services furnished to individuals who are not inpatients in certain medical institutions, as recognized under agency law and specified in section (1905(a)(24).

N/A The following other long-term care services for which medical assistance is otherwise under the agency plan:

3. Penalty Date --
The beginning date of each penalty period imposed for an uncompensated transfer of assets is:
- the first day of the month in which the asset was transferred;
- the first day of the month following the month of transfer.
4. Penalty Period – Institutionalized Individuals--
In determining the penalty for an institutionalized individual, the agency uses:
- the average monthly cost to a private patient of nursing facility services in the agency;
- the average monthly cost to a private patient of nursing facility services in the community in which the individual is institutionalized.
5. Penalty Period - Non-institutionalized Individuals --
The agency imposes a penalty period determined by using the same method as is used for an institutionalized individual, including the use of the average monthly cost of nursing facility services;
- N/A Imposes a shorter penalty period than would be imposed for institutionalized individuals, as outlined below:

6. Penalty period for amounts of transfer less than cost of nursing facility care --
- a. Where the amount of the transfer is less than the monthly cost of nursing facility care, the agency:
- does not impose a penalty;
- imposes a penalty for less than a full month, based on the proportion of the agency's private nursing facility rate that was transferred.
- b. Where an individual makes a series of transfers, each less than the private nursing facility rate for a month, the agency:
- does not impose a penalty;
- imposes a series of penalties, each for less than a full month.
7. Transfers made so that penalty periods would overlap --
The agency:
- totals the value of all assets transferred to produce a single penalty period.
- calculates the individual penalty periods and imposes them sequentially.
8. Transfers made so that penalty periods would not overlap --
- assigns each transfer its own penalty period;
- uses the method outlined below:

9. Penalty periods – transfer by a spouse that results in a penalty period for the individual --

- a. The agency apportions any existing penalty period between the spouses using the method outlined below, provided the spouse is eligible for Medicaid. A penalty can be assessed against the spouse, and some portion of the penalty against the individual remains.

The remaining penalty period existing for the individual, at the time the spouse is determined eligible for Medicaid, will be divided in one-half and that one-half period of time will apply to the individual and the spouse.

- b. If one spouse is no longer subject to a penalty, the remaining penalty period must be served by the remaining spouse.

10. Treatment of income as an asset --

When income has been transferred as a lump sum, the agency will calculate the penalty period on the lump sum value.

___ The agency will impose partial month penalty periods.

When a stream of income or the right to a stream of income has been transferred, the agency will impose a penalty period for each income payment.

___ For transfer of individual income payments, the agency will impose partial month penalty periods.

X For transfers of the right to an income stream, the agency will use the actuarial value of all payments transferred.

___ The agency uses an alternate method to calculate penalty periods, as described below:

11. Imposition of a penalty would work an undue hardship --

The agency does not apply the transfer of assets provisions in any case in which the agency determines that such an application would work an undue hardship. The agency will use the following procedures in making undue hardship determinations:

Notice to applicant/recipient an undue hardship exception exists will be given at the point when the opportunity to rebut the presumption a transfer of assets occurred.

If undue hardship is claimed, the applicant/recipient will be responsible for providing convincing evidence the disqualification would cause an undue hardship. The evidence must include:

- a. A written statement from the client/authorized representative stating the reason they feel undue hardship applies.
- b. Verification, if possible, there is no means, legal or otherwise, by which the client is able to have the resource transferred back to his ownership or receive further compensation.
- c. The client's relationship, if any, to the person(s) to who the resource was transferred.

Once the rebuttal and all the necessary information to substantiate the claim is received, the ECS must send the information to the Chief of Eligibility and Payments requesting a decision on whether undue hardship exists. The request must be accompanied by the following:

- The name and case number of the applicant/recipient;
- The application date;
- The date the client entered the institution; and
- A brief description of the circumstances of the transfer and why it would be an undue hardship if the penalty were imposed.

A decision whether an undue hardship waiver will be granted will be made within forty-five (45) days from the date the undue hardship request is received by the Chief of Eligibility and Payments, unless extenuating circumstances exist. An adverse determination may be appealed if received by a hearing officer within ninety (90) days from the date of the undue hardship decision.

The following criteria will be used to determine whether the agency will not count assets transferred because the penalty would work an undue hardship:

Undue hardship is when there is no means, legal or otherwise, by which the individual is able to have the resource returned to his/her ownership or receive further compensation. The individual is otherwise eligible for Medicaid and without Medicaid the individual would be forced to go without life-sustaining medical care as determined by an individual licensed to practice medicine in the State of Nevada.

TRANSFER OF ASSETS

1917(c) **FOR TRANSFERS OF ASSETS FOR LESS THAN FAIR MARKET VALUE MADE ON OR AFTER FEBRUARY 8, 2006**, the agency provides for the denial of certain Medicaid services.

1. Institutionalized individuals are denied coverage of certain Medicaid services upon disposing of assets for less than fair market value on or after the look-back date.

The agency does not provide medical assistance coverage for institutionalized individuals for the following services:

- Nursing facility services;
- Nursing facility level of care provided in a medical institution;
- Home and community-based services under a 1915 (c) or (d) waiver.

2. Non-institutionalized individuals

The agency applies these provisions to the following non-institutionalized eligibility groups. These groups can be no more restrictive than those set forth in section 1905(a) of the Social Security Act:

- The aged, blind or disabled

The agency withholds payment to non-institutionalized individuals for the following services:

- Home health services (Section 1905(a)(7));
- Home and community care for functionally disabled elderly adults (section 1905(a)(22));
- Personal care services furnished to individuals who are not inpatients in certain medical institutions, as recognized under agency law and specified in section 1905(a)(24).

The following other long-term care services for which payment for medical assistance is otherwise made under the agency plan:

- Home and Community Based Waiver Services

TRANSFER OF ASSETS

3. Penalty Date – The beginning date of each penalty period imposed for an uncompensated transfer of assets is the later of:

- the first day of a month during or after which assets have been transferred for less than fair market value;

The State uses the first day of the month in which the assets were transferred

The State uses the first day of the month after the month in which the assets were transferred

Or

- the date on which the individual is eligible for medical assistance under the State plan and is receiving institutional level care services described in paragraphs 1 and 2 that, were it not for the imposition of the penalty period, would be covered by Medicaid;

AND

which does not occur during any other period of ineligibility for services by reason of a transfer of assets penalty.

4. Penalty Period – Institutionalized Individuals – In determining the penalty for an institutionalized individual, the agency uses:

the average monthly cost to a private patient of nursing facility services in the State at the time of application;

the average monthly cost to a private patient of nursing facility services in the community in which the individual is institutionalized at the time of application.

5. Penalty Period – Non-institutionalized Individuals – The agency imposes a penalty period determined by using the same method as is used for an institutionalized individual, including the use of the average monthly cost of nursing facility services;

imposes a shorter penalty period than would be imposed for institutionalized individuals, as outlined below:

6. Penalty period for amounts of transfer less than cost of nursing facility care

Where the amount of the transfer is less than the monthly cost of nursing facility care, the agency imposes a penalty for less than a full month, based on the option selected in item 4.

TRANSFER OF ASSETS

- The state adds together all transfers for less than fair market value made during the look-back period in more than one month and calculates a single period of ineligibility that begins on the earliest date that would otherwise apply if the transfer had been made in a single lump sum.

7. Penalty periods – transfer by a spouse that results in a penalty period for the individual

- a. The agency apportions any existing penalty period between the spouses using the method outlined below, provided the spouse is eligible for Medicaid. A penalty can be assessed against the spouse, and some portion of the penalty against the individual remains.
- b. If one spouse is no longer subject to a penalty, the remaining penalty period must be served by the remaining spouse.

8. Treatment of a transfer of income

When income has been transferred as a lump sum, the agency will calculate the penalty period on the lump sum value.

When a stream of income or the right to a stream of income has been transferred, the agency will impose a penalty period for each income payment.

For transfers of individual income payments, the agency will impose partial month penalty periods using the methodology selected in 6. above.

- For transfers of the right to an income stream, the agency will base the penalty period on the combined actuarial value of all payments transferred.

9. Imposition of a penalty would work an undue hardship – The agency does not impose a penalty for transferring assets for less than fair market value in any case in which the agency determines that such imposition would work an undue hardship. The agency will use the following criteria in making undue hardship determinations:

Application of a transfer of assets penalty would deprive the individual:

- a. Of medical care such that the individual's health or life would be endangered; or
- b. Of food, clothing, shelter, or other necessities of life.

10. Procedures for Undue Hardship Waivers

The agency has established a process under which hardship waivers may be requested

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Supplement 9(b) to Attachment 2.6-A

TRANSFER OF ASSETS

that provides for:

- a. Notice to a recipient subject to a penalty that an undue hardship exception exists.
- b. A timely process for determining whether an undue hardship waiver will be granted; and
- c. A process, which is described in the notice, under which an adverse determination can be appealed.

These procedures shall permit the facility in which the institutionalized individual is residing to file an undue hardship waiver application on behalf of the individual with the consent of the individual or the individual's personal representative.

11. Bed Hold Waivers for Hardship Applicants

The agency provides that while an application for an undue hardship waiver is pending in the case of an individual who is a resident of a nursing facility:

N/A Payments to the nursing facility to hold the bed for the individual will be made for a period not to exceed _____ days (may not be greater than 30).

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: Nevada

The agency does not apply the trust provisions in any case in which the agency determines that such application would work an undue hardship.

The following criteria will be used to determine whether the agency will not apply the trust provisions because doing so would work an undue hardship:

Notice to applicant/recipient an undue hardship exception exists and the opportunity to appeal the decision will be given on the denial notice.

If undue hardship is claimed, the applicant/recipient will be responsible for providing convincing evidence application of the trust provisions would cause an undue hardship. The evidence must include:

1. A written statement from the client/authorized representative stating the reason they feel undue hardship applies.
2. Verification, if possible, there is no means. Legal or otherwise, by which the client is able to recover and/or access assets held in the trust.
3. The client's relationship, if any, to the person(s) who are trustees of the trust.

Denial of eligibility would work an undue hardship against the individual when ALL of the following conditions exist:

1. The individual is otherwise eligible for Medicaid: AND
2. The Trustee has refused to make such income/resources available to the individual: AND
3. The individual has sufficient funds to cover the cost of institutionalized care: AND
4. Without Medicaid, the individual would be forced to go without life sustaining medical care as determined by an individual licensed to practice medicine in the State of Nevada: AND
5. Where the individual has the ability to amend the trust so it contains the provision, upon death of the individual the State receives an amount equal to the total amount of medical assistance paid on behalf of the individual under the State Plan: AND

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: Nevada

6. The applicant/recipient has exercised all reasonable efforts and all possible avenues to recover and/or access to the assets held in the trust.

A decision whether an undue hardship waiver will be granted should be made within forty-five (45) days from the date the undue hardship request is received by the Chief of Eligibility and Payments.

Under the agency's undue hardship provisions, the agency takes the option to exempt the funds in an irrevocable burial trust is \$N/A.

Premium payments are made by the agency only if such payments are likely to be cost-effective. The agency specifies the guidelines used in determining cost effectiveness by selecting one of the following methods:

___ The methodology as described in SMM section 3598.

___ Another cost-effective methodology as described below.

VARIATIONS FROM THE BASIC PERSONAL NEEDS ALLOWANCE

In addition to the \$35.00 PNA allowed in Attachment 2.6.A Page 4a, persons with greater need identified in Attachment 2.6.A Page 4a, Institutionalized individuals with no Community Spouse at home, as described in Attachment 2.6.A Page 5 #4.a, for Post Eligibility Determinations are allowed an additional Personal Needs Allowance based on household size.

HOUSEHOLD SIZE	ADDITIONAL PNA ALLOWED
1 Family Member	\$239
2 Family Members	\$367
3 Family Members	\$494
4 Family Members	\$622
5 Family Members	\$749
6 Family Members	\$877
7 Family Members	\$1004
8 Family Members	\$1132

For households greater than 8 add \$128.00 for each additional person.

The greater PNA deduction is to allow the difference between the 1996 AFDC 100% Need Standard Amount used in the Maintenance Needs Allowance, which is frozen at the 1996 rate, and the current TANF 100% Need Standard Amount.

The AFDC amount used in the Maintenance Need Standard is stated in Supplement 1 to Attachment 2.6.A Page 1.

ELIGIBILITY UNDER SECTION 1931 OF THE ACT

The State covers low-income families and children under Section 1931 of the Act.
The following groups were included in the AFDC state plan effective July 16, 1996:

- Pregnant women with no other eligible children.
- AFDC children age 18 who are full-time students in a secondary school or in the equivalent level of vocational or technical training.
- In determining eligibility for Medicaid, the agency uses the AFDC standards and methodologies in effect as of July 16, 1996, without modification.
- In determining eligibility for Medicaid, the agency uses the AFDC standards and methodologies in effect as of July 16, 1996, with the following modifications:
 - The agency applies lower income standards which are no lower than the AFDC standards in effect on May 1, 1988, as follows:
 - The agency applies higher income standards than those in effect as of July 16, 1996, increased by no more than the percentage increases in the CPI-U since July 16, 1996, as follows:
 - The agency applies higher resource standards than those in effect as of July 16, 1996, increase by no more than the percentage increases in the CPI-U since July 16, 1996, as follows:

X The agency uses less restrictive income and/or resource methodologies than those in effect as of July 16, 1996, as follows:

- Disregard an additional \$1,000 in resources.
- Disregard the full cost of child care.
- Time limited Earned Income Disregard test:
 1. For families whose gross income does not exceed the current 130% Federal Poverty Level (FPL) (which is no more than the July 1996 AFDC 185% need standard increased by CPI) apply the disregard test to determine if Earned Income Disregards are allowed.
 2. For households with earned income apply the earned Income Disregard Test either a. or b. (whichever is more advantageous) to identify if the wage earners qualify for the time limited Earned Income Disregards:
 - a. Gross earned income minus \$90.00 or 20% work expense, whichever is greater, plus countable unearned income is compared to the 100% TANF Need Standard. (Need Standards are the 1996 AFDC need standards increased annually by CPI). If the family passes the 100% Need Standard test, or was eligible in immediately preceding month apply earned income disregards as indicated below.

Current TANF earned income disregards:

1. Disregard 100% earned income for three months;
 2. Disregard 85% of earned income for a second 3 months;
 3. Disregard 75% of earned income for a third 3 months;
 4. Disregard 65% of earned income for a fourth 3 months.
 5. Disregard \$90 or 20% of gross earnings (whichever is greater) for month 13 and ongoing (Work Expense).
- b. 7/16/1996 AFDC earned income disregards:

1. The \$30 + 1/3 / \$30 earnings disregards as applicable;
2. \$90 work expense; and
3. Determine eligibility based on whether total net countable earned and unearned income is no more than the current TANF payment standard.

The income and/or resource methodologies that the less restrictive methodologies replace are as follows:

- No resource methodology is replaced.
- Replaced income methodology is:
 1. \$30 + 1/3 earned income disregard allowed for applicants/recipients who received a cash grant in one of the immediately preceding 4 months or whose net income without application of the disregards does not exceed the 100% need standard. \$30 + 1/3 allowed for 4 consecutive months followed by \$30 disregard for 8 consecutive months; and
 2. \$175/\$200 disregard of child care expenses; and
 3. \$90 work expense.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
TRANSITIONAL MEDICAL ASSISTANCE

The State covers low-income families and children for Transitional Medical Assistance (TMA) under section 1925 of the Social Security Act (the Act). This coverage is provided for families who no longer qualify under section 1931 of the Act due to increased earned income, or working hours, from the caretaker relative's employment, or due to the loss of a time-limited earned income disregard. **(1902(a)(52), 1902(e)(1)(B), and 1925 of the Act)**

The amount, duration, and scope of services for this coverage are specified in Section 3.5 of this State plan.

For Medicaid eligibility to be extended through TMA, families must have been Medicaid eligible under section 1931 (months of retroactive eligibility may be used to meet this requirement):

During at least 3 of the 6 months immediately preceding the month in which the family became ineligible under section 1931.

For fewer than 3 of the 6 previous months immediately preceding the month in which the family became ineligible under section 1931. Specify:

The State extends Medicaid eligibility under TMA for an initial period of:

6 months. For TMA eligibility to continue into a second 6-month extension period, the family must meet the reporting, technical, and income eligibility requirements specified at section the Act.

12 months. Section 1925(b) does not apply for a second 6-month extension period.

The State collects and reports participation information to the Department of Health and Human Services as required by section 1925(g) of the Act, in accordance with the format, timing, and frequency specified by the Secretary and makes such information publicly available.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

ELIGIBILITY UNDER SECTION 1931 OF THE ACT

The State covers low-income families and children under section 1931 of the Act.

X The agency uses less restrictive income and/or resources methodologies than those in effect as July 16, 1996 as follows:

All wages paid by the Census Bureau for temporary employment related to Census activities are excluded.

Monies received from blood donations, panhandling and Jury Duty are excluded as income.

Monies received to cover shelter costs in Homeless Transitional Housing are excluded as income.

The value of in-kind income which is not in the form of money payable to the household is excluded.

Monies in a 401K plan or Vested Retirement Account are excluded even if accessible with a penalty.

Exempt the value of prepaid burial funds, funeral plans and insurance policies earmarked for burial.

The amount of money in a retirement account which is not an IRA or Keogh plan will be considered exempt as a resource until such time as distributions are made from the account.

Exempt payments for relocation provided from Public Law 93-531.

When the Governor declares an economic crisis, Unemployment Insurance Benefits (UIB) will be excluded from income until the month following the month the Governor declares the economic crisis is over.

All otherwise countable income deposited in an IDA account funded under the Assets for Independent Act is excluded from income.

All interest earned on an IDA account funded under the Asset for Independence Act is excluded from income.

All funds in IDA accounts funded under the Assets for Independence Act are excluded from resources.

All otherwise countable income deposited in an IDA account funded under Section 404 of the Social Security Act is excluded from income.

 The income and/or resource methodologies that the less restrictive methodologies replace are as follows:

“SECTION 1924 PROVISIONS”

- A. Income and resource eligibility policies used to determine eligibility for institutionalized individuals who have spouses living in the community are consistent with Section 1924.
- B. In the determination of resource eligibility, the State resource standard is the minimum standard permitted by law.
- C. The definition of undue hardship for purposes of determining if institutionalized spouses receive Medicaid in spite of having excess countable resources is described below:

Denial of eligibility would work an undue hardship against an institutionalized spouse (as defined in MAABD Program Manual Section 350) when ALL of the following conditions exist:

- 1. The institutionalized spouse is otherwise eligible for Medicaid; AND
- 2. The community spouse (as defined in MAABD Program Manual Section 350) is the sole owner of liquid resources OR non-liquid joint resources valued in excess of the maximum standard permitted by law; AND
- 3. The community spouse has refused to make such resources available to the institutionalized spouse; AND
- 4. The institutionalized spouse has insufficient funds to cover the cost of institutionalized care; AND
- 5. Without Medicaid, the institutionalized spouse would be forced to go without life sustaining medical care as determined by an individual licensed to practice medicine in the State of Nevada.

DISQUALIFICATION FOR LONG-TERM CARE ASSISTANCE FOR INDIVIDUALS WITH
SUBSTANTIAL HOME EQUITY

1917(f) The State agency denies reimbursement for nursing facility services and other long-term care services covered under the State plan for an individual who does not have a spouse, child under 21 or adult disabled child residing in the individual's home, when the individual's equity interest in the home exceeds the following amount:

- \$500,000 (increased by the annual percentage increase in the urban component of the consumer price index beginning with 2011, rounded to the nearest \$1,000).
- An amount that exceeds \$500,000 but does not exceed \$750,000 (increased by the annual percentage increase in the urban component of the consumer price index beginning with 2011, rounded to the nearest \$1,000).

The amount chosen by the State is \$_____.

- This higher standard applies statewide.
- This higher standard does not apply statewide. It only applies in the following areas of the State:
- This higher standard applies to all eligibility groups.
- This higher standard only applies to the following eligibility groups:

The State has a process under which this limitation will be waived in cases of undue hardship.

ASSET VERIFICATION SYSTEM

- 1940(a)
Of the Act
1. The agency will provide verification of assets for the purpose of determining Medicaid eligibility for aged, blind and disabled Medicaid applicants and recipients using an Asset Verification System (AVS) that meets the following minimum requirements.
 - A. The request and response system must be electronic:
 - (1) Verification inquiries must be sent electronically via the internet or similar means from the agency to the financial institution (FI).
 - (2) The system cannot be based on mailing paper-based requests.
 - (3) The system must have the capability to accept responses electronically.
 - B. The system must be secure, based on a recognized industry standard of security (e.g., as defined by the U.S. Commerce Department's National Institute of Standards and Technology, or NIST).
 - C. The system must establish and maintain a database of FIs that participate in the agency's AVS.
 - D. Verification requests also must be sent to FIs other than those identified by applicants and recipients, based on some logic such as geographic proximity to the applicant's home address, or other reasonable factors whenever the agency determines that such requests are needed to determine or redetermine the individual's eligibility.
 - E. The verification requests must include a request for information on both open and closed accounts, going back up to 5 years as determined by the State.

State Plan Under Title XIX of the Social Security Act

State: Nevada

METHODOLOGY FOR IDENTIFICATION OF APPLICABLE FMAP RATES

The State will determine the appropriate FMAP rate for expenditures for individuals enrolled in the adult group described in 42 CFR 435.119 and receiving benefits in accordance with 42 CFR Part 440 Subpart C. The adult group FMAP methodology consists of two parts: an individual-based determination related to enrolled individuals, and as applicable, appropriate population-based adjustments.

Part 1 – Adult Group Individual Income-Based Determinations

For individuals eligible in the adult group, the state will make an individual income-based determination for purposes of the adult group FMAP methodology by comparing individual income to the relevant converted income eligibility standards in effect on December 1, 2009, and included in the MAGI Conversion Plan (Part 2) approved by CMS on 04/08/2014. In general, and subject to any adjustments described in this SPA, under the adult group FMAP methodology, the expenditures of individuals with incomes below the relevant converted income standards for the applicable subgroup are considered as those for which the newly eligible FMAP is not available. The relevant MAGI-converted standards for each population group in the new adult group are described in Table 1.

Part 2 – Population-based Adjustments to the Newly Eligible Population Based on Resource Test, Enrollment Cap or Special Circumstances

A. Optional Resource Criteria Proxy Adjustment (42 CFR 433.206(d))

1. The state:

- Applies a resource proxy adjustment to a population group(s) that was subject to a resource test that was applicable on December 1, 2009.
- Does NOT apply a resource proxy adjustment (Skip items 2 through 3 and go to Section B).

Table 1 indicates the group or groups for which the state applies a resource proxy adjustment to the expenditures applicable for individuals eligible and enrolled under 42 CFR 435.119. A resource proxy adjustment is only permitted for a population group(s) that was subject to a resource test that was applicable on December 1, 2009.

The effective date(s) for application of the resource proxy adjustment is specified and described in Attachment B.

2. Data source used for resource proxy adjustments:

The state:

- Applies existing state data from periods before January 1, 2014.
- Applies data obtained through a post-eligibility statistically valid sample of individuals.

Data used in resource proxy adjustments is described in Attachment B.

3. Resource Proxy Methodology: Attachment B describes the sampling approach or other methodology used for calculating the adjustment.

B. Enrollment Cap Adjustment (42 CFR 433.206(e))

1. An enrollment cap adjustment is applied by the state (complete items 2 through 4).
- An enrollment cap adjustment is not applied by the state (skip items 2 through 4 and go to Section C).

2. Attachment C describes any enrollment caps authorized in section 1115 demonstrations as of December 1, 2009 that are applicable to populations that the state covers in the eligibility group described at 42 CFR 435.119 and received full benefits, benchmark benefits, or benchmark equivalent benefits as determined by CMS. The enrollment cap or caps are as specified in the applicable section 1115 demonstration special terms and conditions as confirmed by CMS, or in alternative authorized cap or caps as confirmed by CMS. Attach CMS correspondence confirming the applicable enrollment cap(s).
3. The state applies a combined enrollment cap adjustment for purposes of claiming FMAP in the adult group:
 - Yes. The combined enrollment cap adjustment is described in Attachment C
 - No.
4. Enrollment Cap Methodology: Attachment C describes the methodology for calculating the enrollment cap adjustment, including the use of combined enrollment caps, if applicable.

C. Special Circumstances (42 CFR 433.206(g)) and Other Adjustments to the Adult Group FMAP Methodology

1. The state:
 - Applies a special circumstances adjustment(s).
 - Does not apply a special circumstances adjustment.
2. The state:
 - Applies additional adjustment(s) to the adult group FMAP methodology (complete item 3).
 - Does not apply any additional adjustment(s) to the adult group FMAP methodology (skip item 3 and go to Part 3).
3. Attachment D describes the special circumstances and other proxy adjustment(s) that are applied, including the population groups to which the adjustments apply and the methodology for calculating the adjustments.

Part 3 – One-Time Transitions of Previously Covered Populations into the New Adult Group

A. Transitioning Previous Section 1115 and State Plan Populations to the New Adult Group

- Individuals previously eligible for Medicaid coverage through a section 1115 demonstration program or a mandatory or optional state plan eligibility category will be transitioned to the new adult group described in 42 CFR 435.119 in accordance with a CMS-approved transition plan and/or a section 1902(e)(14)(A) waiver. For purposes of claiming federal funding at the appropriate FMAP for the populations transitioned to new adult group, the adult group FMAP methodology is applied pursuant to and as described in Attachment E, and where applicable, is subject to any special circumstances or other adjustments described in Attachment D.
- The state does not have any relevant populations requiring such transitions.

Part 4 - Applicability of Special FMAP Rates

A. Expansion State Designation

The state:

- Does NOT meet the definition of expansion state in 42 CFR 433.204(b). (Skip section B and go to Part 5)
- Meets the definition of expansion state as defined in 42 CFR 433.204(b), determined in accordance with the CMS letter confirming expansion state status, dated _____.

B. Qualification for Temporary 2.2 Percentage Point Increase in FMAP.

The state:

- Does NOT qualify for temporary 2.2 percentage point increase in FMAP under 42 CFR 433.10(c)(7).
- Qualifies for temporary 2.2 percentage point increase in FMAP under 42 CFR 433.10(c)(7), determined in accordance with the CMS letter confirming eligibility for the temporary FMAP increase, dated _____. The state will not claim any federal funding for individuals determined eligible under 42 CFR 435.119 at the FMAP rate described in 42 CFR 433.10(c)(6).

Part 5 - State Attestations

The State attests to the following:

- A. The application of the adult group FMAP methodology will not affect the timing or approval of any individual's eligibility for Medicaid.
- B. The application of the adult group FMAP methodology will not be biased in such a manner as to inappropriately establish the numbers of, or medical assistance expenditures for, individuals determined to be newly or not newly eligible.

ATTACHMENTS

Not all of the attachments indicated below will apply to all states; some attachments may describe methodologies for multiple population groups within the new adult group. Indicate those of the following attachments which are included with this SPA:

- Attachment A – Conversion Plan Standards Referenced in Table 1
- Attachment B – Resource Criteria Proxy Methodology
- Attachment C – Enrollment Cap Methodology
- Attachment D – Special Circumstances Adjustment and Other Adjustments to the Adult Group FMAP Methodology

1. School Based Child Health Services

School based health services include covered medical services, treatment, and other measures to correct or ameliorate any physical or mental disability. Services are provided by or through a Local Education Agency (LEA) to children with or suspected of having disabilities, who attend public school in Nevada, recommended by a physician or other licensed practitioners of the healing arts to special education students.

Assessment, diagnosis, and evaluation services, including testing, are services used to determine Individuals with Disabilities Education Act (IDEA) eligibility or to obtain information on the individual for purposes of identifying or modifying the health-related services on the Individualized Education Plan (IEP)/Individualized Family Service Plan (IFSP). These services are not covered if they are performed for educational purposes (e.g. academic testing or are provided to an individual who as the result of the assessment and evaluation is determined not to be eligible under IDEA. Services must be performed by qualified providers as set forth in this State Plan Amendment and who provide these services as part of their respective area of practice (e.g., psychologist providing a behavioral health evaluation).

Service Limitations

Services provided in a school setting will only be reimbursed for recipients who are at least three years of age and under 21 years who have been determined eligible for Title XIX and IDEA, Part B services with a written service plan (an IEP/EFSP) which contains medically necessary services recommended by a physician or other practitioner of the healing arts, within the scope of his or her practice under state law. For children ages 0-3, these direct services are available through the Early Intervention program and community providers, but are not provided in a school based setting.

Medicaid does not reimburse for social or educational needs or habilitative services. Medicaid does cover §1905(a) medical services addressed in the IEP that are medically necessary that correct or ameliorate a child’s health condition. Medicaid covered services are provided in accordance with the established service limitations.

The services are defined as follows:

A. Physicians’ services furnished in the school environment.

Services: As regulated under 42 CFR §440.50 and other applicable state and federal law or regulation.

Nevada Medicaid reimburses for covered medical services that are reasonable and medically necessary, performed by a physician or under the personal supervision of a physician, and that are within the scope of practice of their prognosis as defined by state law. Services must be performed by the physician or by a licensed professional working under the personal supervision of the physician, such as:

- a. Evaluation and consultation with providers of covered services for diagnostic and preventive services including participation in a multi-disciplinary team assessment;
- b. Record review for diagnostic and prescriptive services;
- c. Diagnostic and evaluation services to determine a recipient’s medically related condition that results in the recipient’s need for medical services.

Provider Qualifications:

Licensure as a Physician by the Nevada State Board of Medical Examiners acting within their scope of practice (Nevada Revised Statute (NRS) 630.160, 630.165, 630.195, Nevada Administrative Code (NAC) 630.080), and 42 CFR §440.50

B. Physician’s Assistant services furnished in the school environment.

Services: As regulated under 42 CFR §440.60 and other applicable state and federal law or regulation.

Nevada Medicaid reimburses for covered medical services that are reasonable and medically necessary, ordered or performed by a physician or under the personal supervision of a physician, and that are within the scope of practice of their prognosis as defined by state law. Services must be performed by the physician or by a licensed professional working under the personal supervision of the physician, such as:

- a. Evaluation and consultation with providers of covered services for diagnostic and preventive services including participation in a multi-disciplinary team assessment;
- b. Record review for diagnostic and prescriptive services;
- c. Diagnostic and evaluation services to determine a recipient’s medically related condition that results in the recipient’s need for medical services.

Provider Qualifications:

Licensed by the Board of Medical Examiners or certification by the Nevada State Board of Osteopathic Medicine as a Physician Assistant to perform medical services under the supervision of a supervising physician in which they perform the functions or actions, and must act only within the scope of their State license.

C. Psychologists' services furnished in the school environment.

Services: As regulated under 42 CFR §440.60(a) and other applicable state and federal law or regulation.

Observation, description, evaluation, interpretation or modification of human behavior by the application of psychological principles, methods or procedures to prevent or eliminate disease, disability, problematic, unhealthy or undesired behavior and to enhance personal relationships and behavioral and mental health towards the appropriate reduction of a mental impairment to the child's best possible functional level. Service includes:

- a. Mental health assessment;
- b. Psychological testing (non-educational cognitive);
- c. Assessment of motor language, social, adaptive and/or cognitive functioning by standardized developmental instruments;
- d. Psychotherapy (group/individual).

Provider Qualifications:

A doctoral degree in psychology obtained from an approved doctoral program in psychology accredited by the American Psychological Association (APA) or a doctoral program in psychology accredited individually or as part of an institutional accreditation by another private or governmental accrediting agency, when the association's or agency's standards and procedures have been approved by the State Board of Psychologist Examiners. Licensed in the state in which they perform the functions or actions, and must act only within the scope of their State license.

D. Registered Nurses and Licensed Practical Nurses services furnished in the school environment.

Services: As regulated under 42 CFR §440.60(a) and other applicable state and federal law or regulation.

Skilled nursing refers to assessments, judgments, interventions and evaluation of interventions which require the education, training and experience of a licensed nurse to complete. Services must be based on an assessment and supporting documentation that describes the complexity and intensity of the recipient's care and the frequency of skilled nursing interventions.

Skilled nursing services are a covered service when provided by a registered nurse (RN) or a licensed practical nurse (LPN) under the supervision of a registered nurse in accordance with the IEP/IFSP, to be safe and effective. An LPN may participate in the implementation of the plan of care for providing care to recipients under the supervision of a licensed registered nurse, or physician, or nurse practitioners that meet the federal requirements at 42 CFR 440.166. Services considered observational or stand-by in nature are not covered. Nursing Services are provided to an individual on a direct one-to-one basis on site within the school environment, such as:

- a. Catheterization or catheter care;
- b. Care and maintenance of tracheotomies;
- c. Prescription medication administration that is part of the IEP/IFSP;
- d. Oxygen administration;
- e. Tube feedings;
- f. Suctioning;
- g. Ventilator Care;
- h. Evaluations and assessments (RNs only).

Provider Qualifications

Nurses must be licensed by the Nevada Board of Nursing as a Registered Nurse (Nevada Revised Statutes (NRS) 632.019) or, as a Licensed Practical Nurse (NRS 632.016) in accordance with the Nurse Practice Act working within the scope of their practice.

- E. Advanced Nurse Practitioners' services furnished in the school environment.

Services: As regulated under 42 CFR §440.166 and other applicable state and federal law or regulation.

Nursing evaluation and treatment services include: Assessment, treatment services, and supervision of delegated health care services provided to prevent disease, disability, other health conditions or their progression; prolong life; and promote physical and mental health and efficiency. Including any medical or remedial services recommended by a physician or other licensed practitioner of the healing arts, within the scope of practice under state law, for maximum reduction of physical and mental disability and restoration of a recipient to his or her best possible functional level. Supervision for services provided to coordinating care and integrating nursing tasks and services that can be performed in a school environment, in addition to:

- a. Evaluation and consultation with providers of covered services for diagnostic and preventive services including participation in a multi-disciplinary team assessment;
- b. Record review for diagnostic and prescriptive services;
- c. Diagnostic and evaluation services to determine a recipient's medically related condition that results in the recipient's need for medical services.

Provider Qualifications

Hold a certificate of recognition as an advanced nurse practitioner by the Nevada Board of Nursing to perform medical services under the supervision of a supervising physician in which they perform the functions or actions, and must act only within the scope of their State certificate of recognition, in accordance with Nevada Revised Statutes (NRS) Chapter 632 and Nevada Administrative Code (NAC) Chapter 632, Nurse Practice Act.

F. Physical therapy services furnished in the school environment.

Services: As regulated under 42 CFR §440.110(a) and other applicable state and federal law or regulation.

Physical therapy means services prescribed by a physician or other licensed practitioner of the healing arts within the scope of practice under state law and provided to a recipient by or under the direction of a qualified physical therapist to ameliorate/improve neuromuscular, musculoskeletal and cardiopulmonary disabilities.

Physical Therapy Evaluations and Treatments: includes assessing, preventing or alleviating movement dysfunction and related functional problems; obtaining and interpreting information; and coordinating care and integrating services relative to the recipient receiving treatment such as:

- a. Evaluation and diagnosis to determine the existence and extent of motor delays, disabilities and/or physical impairments effecting areas such as tone, coordination, movement, strength, and balance;
- b. Therapeutic exercise;
- c. Application of heat, cold, water, air, sound, massage, and electricity;
- d. Measurements of strength, balance, endurance, range of motion;
- e. Individual or group therapy.

Provider Qualifications:

A “qualified physical therapist” is an individual who is a graduate of a program of physical therapy approved by both the Committee on Allied Health Education and Accreditation of the American Medical Association and the American Physical Therapy Association or its equivalent; and where applicable, licensed by the State.

Physical therapy assistant is a person who is licensed as a physical therapist assistant, if applicable, by the State in which practicing (NRS 640.260), and has graduated from a 2-year college-level program approved by the American Physical Therapy Association; or has 2 years of appropriate experience as a physical therapist assistant, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service, except that these determinations of proficiency do not apply with respect to persons initially licensed by a State or seeking initial qualification as a physical therapy assistant after December 31, 1977.

All personnel who are involved in the furnishing of outpatient physical therapy services directly by or under arrangements with an organization must be legally authorized (licensed or, if applicable, certified or registered) to practice by the State in which they perform the functions or actions, and must act only within the scope of their State license or State certification or registration.

The physical therapist must be present or readily available to supervise a physical therapist assistant for prescribed supervised CPT modalities that do not require direct (one-on-one), patient contact by the licensed therapist.

G. Occupational therapy services furnished in the school environment.

Services: As regulated under 42 CFR §440.110(b) and other applicable state and federal law or regulation.

Occupational therapy means services prescribed by a physician or other licensed practitioner of the healing arts within the scope of practice under state law and provided to a recipient by or under the direction of a qualified occupational therapist to ameliorate/improve functional disabilities.

Occupational Therapy Evaluations and Treatments: Include assessing, improving, developing, or restoring functions impaired or lost through illness, injury or deprivation, improving ability to perform tasks for independent functioning when functions are lost or impaired, preventing through early intervention, initial or further impairment or loss of function; and obtaining and interpreting information; and coordinating care and integrating services, such as

- a. Evaluation and diagnosis to determine the extent of disabilities in areas such as sensorimotor skills, self-care, daily living skills, play and leisure skills, and use of adaptive or corrective equipment;
- b. Task-oriented activities to prevent or correct physical or emotional deficits to minimize the disabling effect of these deficits;
- c. Exercise to enhance functional performance;
- d. Individual and group therapy.

Provider Qualifications:

A “qualified occupational therapist” is an individual who is a graduate of a program in occupational therapy approved by the Committee on Allied Health Education and Accreditation of the American Medical Association and engaged in the supplemental clinical experience required before registration by the American Occupational Therapy Association.

Occupational therapy assistant is a person who has satisfied the academic requirement of an educational program approved by the Board of Occupational Therapy and the American Occupational Therapy Association and is authorized (licensed or certified) to practice by the State in which they perform the functions or actions, and must act only within the scope of their State license or State certification or registration.

All personnel who are involved in the furnishing of outpatient occupational therapy services directly by or under arrangements with an organization must be legally authorized (licensed or, if applicable, certified or registered) to practice by the State in which they perform the functions or actions, and must act only within the scope of their State license or State certification or registration.

The occupational therapist must be present or readily available to supervise an occupational therapist assistant for prescribed supervised CPT modalities that do not require direct (one-on-one), patient contact by the licensed therapist.

H. Services for individuals with speech, hearing, and language disorders.

Services: as regulated under 42 CFR §440.110(c) and other applicable state and federal law or regulation.

Speech and language pathology services are those services necessary for the diagnosis and treatment of speech and language disorders that result in communication disabilities and for the diagnosis and treatment of swallowing disorders with or without the presence of a communication disability. The services must be of such a level of complexity and sophistication or the condition of the patient must be such that the services required can be safely and effectively performed only by a qualified therapist.

The practice of audiology consists of rendering services for the measurement, testing, appraisal, prediction, consultation, counseling, research or treatment of hearing and hearing impairment for the purpose of modifying disorders in communication involving speech, language and hearing. Audiology services must be performed by a certified and licensed audiologist. Treatment services such as:

- a. Speech and language evaluations and diagnosis of delay and/or disabilities to include voice, communication, fluency, articulation, or language development;
- b. Individual or group therapy;
- c. Audiological evaluation and diagnosis to determine the presence or extent of hearing impairments that affect the recipient's educational performance;
- d. Complete hearing and/or hearing aid evaluation, hearing aid fittings or re-evaluations, and audiograms.

Provider Qualifications:

Speech and language pathologists are required to have a State license or State certification or registration and have a certificate of clinical competence from the American Speech and Hearing Association (ASHA); have completed the equivalent educational requirements and work experience necessary for the certificate; or has completed the academic program and is acquiring supervised work experience to qualify for the certificate;

A qualified audiologist has a master's or doctoral degree in audiology which meets State licensure requirements. Per NRS 637B.160 they are licensed by the Board of Examiners for Audiology and Speech Pathology.

I. Medical supplies, equipment and appliance services furnished in the school environment.

Services:

As regulated under 42 CFR §440.70 and other applicable state and federal law or regulation.

Equipment and appliances are defined as items which are primarily and customarily used to serve a medical purpose, generally is not useful to a person in the absence of disability, illness or injury, can withstand repeated use and can be reusable and removable.

Medical supplies are those health care related items which are consumable or disposable, or cannot withstand repeated use by more than one individual, that are required to address an individual medical disability, illness or injury.

Service limitations:

Nevada Medicaid covers standard medical equipment that meets the basic medical need of the recipient. Deluxe equipment will not be authorized when it is determined a standard model will meet the basic medical needs of the recipient. Items classified as educational or rehabilitative by nature are not covered under this benefit. The DME provider is required to have documentation of physician's orders prior to the dispensing of any equipment or supplies.

Prior authorization and service limitations are applicable for some equipment and supplies. Specific limitations can be found in Chapter 1300 of the Medicaid Services Manual.

Provider Qualifications:

Providers dispensing durable medical equipment and medical supplies must be licensed with Medical Device Equipment and Gas through the Nevada Board of Pharmacy and be enrolled as a provider with the Division of Health Care Financing and Policy (DHCFP). Local Education Agency providers may dispense audiological supplies/equipment and medical supplies by their qualified practitioners acting within the scope of practice under state law.

Intensive Behavior Intervention

Services: As regulated under 42 CFR §440.60 and other applicable state and federal law or regulation

Services provided are for Medicaid eligible individuals under age 21 in accordance with Early and Periodic Screening, Diagnostic and Treatment (EPSDT) coverage authority. The intensive behavior intervention must be medically necessary to develop, maintain, or restore to the maximum extent practical the functions of an individual with a diagnosis of Autism Spectrum Disorder (ASD) or other condition for which intensive behavior intervention is recognized as medically necessary. All services must be provided under a treatment plan based on evidence-based assessment criteria and include realistic and obtainable treatment goals.

Service Limitations

Services provided will only be reimbursed for recipients under the age of 21 as a required component of the EPSDT benefit. Services must be rendered according to the written orders of the Physician, Physician's Assistant or an Advanced Practitioner Registered Nurse (APRN) and be directly related to the active treatment regimen designed by the healthcare professional that is clinically responsible for the treatment plan. Treatment services must be delivered by a qualified healthcare professional as defined in provider qualifications, and acting within their scope of licensure. The services are to be provided in the least restrictive, most normative setting possible and may be delivered in a medical professional clinic/office, within a community environment, or in the recipient's home.

Prior authorization and service limits are applicable for treatment services based on the individual's treatment needs as determined through and medical necessity in accordance with EPSDT. Service limits may be exceeded based upon medical necessity.

Medicaid does not reimburse for:

- a. Services which do not meet medical necessity requirements.
- b. Educational services being provided under an Individualized Education Program (IEP) pursuant to the federal Individuals with Disabilities Education Act (IDEA).
- c. Custodial care, child care, and/or respite care services.
- d. Treatment whose purpose is vocational or recreational.
- e. Services, supplies, or procedures performed in a non-conventional setting including but not limited to: Resorts, Spa, and Camps.
- f. Care coordination and treatment planning.
- g. Duplicative services.

Provider Qualifications

To be recognized and reimbursed for intensive behavior intervention, the provider must be one of the following:

- a. Licensure as a Physician by the Nevada State Board of Medical Examiners and acting within their scope of practice.
- b. A doctoral degree in psychology obtained from an approved doctoral program in psychology accredited by the American Psychological Association (APA) or a doctoral program in psychology accredited individually or as part of an institutional accreditation by another private or governmental accrediting agency, when the association's or agency's standards and procedures have been approved by the Nevada State Board of Psychologist Examiners. Licensed in the state in which they perform the functions or actions, and acting within their scope of practice.

- c. A qualified Behavior Analyst (BCBA/D) is an individual who has earned a master's degree level and/or doctorate from an accredited college or university in a field of social science or special education and holds a current certification as a Board-Certified Behavior Analyst by the Behavior Analyst Certification Board, Inc., and licensed by the Nevada State Board of Psychologist Examiners, and acting within their scope of practice as defined by state law.
- d. A qualified Assistant Behavior Analyst (BCaBA) is an individual who has earned a bachelor's degree from an accredited college or university in a field of social science or special education approved by the Board and holds a current certification as a Board Certified Assistant Behavior Analyst by the Behavior Analyst Certification Board, Inc., and licensed by the Nevada State Board of Psychologist Examiners, and acting within their scope of practice. All BCaBAs must practice under the supervision of a Licensed Psychologist or BCBA/D. The Physician, Psychologist, BCBA/D will be the billing provider (they are licensed) and the BCaBA and RBT will be the servicing provider on the claim.
- e. A Registered Behavior Technician (RBT) is an individual who has earned a high school diploma or equivalent, completed training and testing as approved and credentialed by the Behavior Analyst Certification Board, and acting within their scope of practice. All RBTs must practice under the supervision of a Licensed Psychologist, BCBA/D, or BCaBA. - 6.b. Optometrist services require prior authorization from the Nevada Medicaid Office. Refractions are limited to one in 24 months except for those required as a result of an EPSDT examination.
- 6.c. Chiropractor services are limited to individuals under the age of 21 and referred as a result of a Healthy Kids (EPSDT) screening.
- 6.d. Other practitioner services

Physician Assistants' services are limited to the same extent as are physicians' services.

Advanced Practice Registered Nurses' services are limited to the same extent as are physicians' services.

Psychologists' Services must be prior authorized by the Medicaid Office on Form NMO-3 and normally are limited to 24 one-hour individual therapy visits per year. Any limitation of services for children under age 21 will be exceeded based on medical necessity for EPSDT services.

Community Paramedicine services:

1. The Division of Health Care Financing and Policy (DHCFP) provides coverage for medically necessary community paramedicine services which are designed to provide health care services to the medically underserved. Community Paramedicine services (Emergency Medical Technician, Advanced Emergency Medical Technician, Paramedic, or Community Paramedic) fill patient care gaps in a local health care system and prevent duplication of services while improving the healthcare experience for the recipient. Prevention of unnecessary ambulance responses, emergency room visits, and hospital admissions and readmissions can result in cost reductions for the DHCFP.
2. Services must be part of the care plan ordered by the recipient's primary care provider. The primary care provider consults with the ambulance service's Medical Director to ensure there is no duplication of services.
 - A) The following services are covered under the supervision of the Medical Director:
 - a. Evaluation/health assessment.
 - b. Chronic disease prevention, monitoring and education.
 - c. Medication compliance.
 - d. Immunizations and vaccinations.
 - e. Laboratory specimen collection and point of care lab tests.
 - f. Hospital discharge follow-up care.
 - g. Minor medical procedures and treatments within their scope of practice as approved by the Community Paramedicine Agency's Medical Director.
 - h. A home safety assessment.
 - i. Telehealth originating site.

- B) The following are non-covered services:
- a. Travel time.
 - b. Mileage.
 - c. Services related to hospital-acquired conditions or complications resulting from treatment provided in a hospital.
 - d. Emergency response; for recipients requiring emergency response, the EMS transport will be billed under the ambulance medical emergency code.
 - e. Duplication of services.
 - f. Personal care services.

7. Home health care services

Services: As regulated under 42 CFR 484, 42 CFR 440.70 and other applicable state and federal law or regulation.

Home health services are provided to a recipient at his place of residence, certified by a physician and provided under a physician approved Plan of Care. The provider must be enrolled as a Medicare Certified Home Health Agency licensed and authorized by state and federal laws to provide health care services in the home. Home health services include the following services and items:

- a. Physical therapy.
(Reference section 11 “a” of Attachment 3.1-A)
- b. Occupational therapy.
(Reference section 11 “b” of Attachment 3.1-A)
- c. Speech therapy.
(Reference section 11 “c” of Attachment 3.1-A)
- d. Family planning education.

Home health agencies employ registered nurses to provide postpartum home visiting services to Medicaid eligible women.

Provider Qualifications:

(Reference Section 7 “e” of Attachment 3.1-A)

- e. Skilled nursing services (RN/LPN visits)

Services of a registered or licensed practical nurse that may be provided to recipients in a home setting include:

“Skilled nursing” means assessments, judgments, interventions, and evaluations of intervention, which require the training, and experience of a licensed nurse. Skilled nursing care includes, but is not limited to performing assessments to determine the basis for action or a need for action; monitoring fluid and electrolyte balance; suctioning of the airway; central venous catheter care; mechanical ventilation; and tracheotomy care.

Provider Qualifications:

A “qualified registered nurse” is an individual who has met the requirements outlined in NAC 632.150 and NRS 632.

1. In addition to those requirements contained in [NRS 632](#), an applicant for a license to practice as a registered nurse must:
 - a. Have graduated from a nursing program approved by the Board.
 - b. Have successfully completed courses on the theory of and have clinical experience in medical-surgical nursing, maternal and child nursing and psychiatric nursing if the applicant graduated from an accredited school of professional nursing after January 1, 1952.
 - c. On or after July 1, 1982, obtain a passing score as determined by the Board on the examination for licensure.

A “qualified licensed practical nurse” is an individual who has met the requirements outlined in NAC 632.150 and NRS 632.

2. An applicant for a license to practice as a licensed practical nurse must:
 - a. Have graduated from high school or passed the general educational development test.
 - b. Have graduated or received a certificate of completion from a program for registered nurses or practical nurses approved by the Board.
 - c. Have successfully completed a course of study on the theory of and have clinical practice in medical-surgical nursing, maternal and child health nursing and principles of mental health if the applicant graduated from an accredited school of practical or vocational nursing after January 1, 1952.
 - d. Obtain a passing score as determined by the Board on the examination for licensure.

- f. Home health aide services.

Home health aides may provide assistance with:

1. Personal care services, such as bathing
2. Simple dressing changes that do not require the skills of a licensed nurse
3. Assistance with medications that are self administered
4. Assistance with activities that are directly supported of skilled therapy services but do not require the skills of a therapist, such as, routine maintenance exercise
5. Routine care of prosthetic and orthotic device

6. Monitoring of vital signs
7. Reporting of changes in recipient condition and needs
8. Any task allowed under NRS 632 and directed in the physician's approved plan of care.

Provider Qualifications:

A person who:

- has successfully completed a state-established or other training program that meets the requirements of 42 CFR 484.36(a); and
- a competency evaluation program or state licensure program that meets the requirements of 42 CFR 484.36(b), or
- a competency evaluation program or state licensure program that meets the requirements of 42 CFR 484.36(b) or (e).

An individual is not considered to have completed a training and competency evaluation program, or a competency evaluation program if, since the individual's most recent completion of this program(s), there has been a continuous period of 24 consecutive months during none of which the individual furnished services described in 42 CFR 409.40 for compensation.

- g. Medical supplies, equipment and appliances.

Services:

Equipment and appliances are defined as items which are primarily and customarily used to serve a medical purpose, generally is not useful to a person in the absence of disability, illness or injury, can withstand repeated use and can be reusable and removable.

Medical supplies are those health care related items which are consumable or disposable or cannot withstand repeated use by more than one individual, that are required to address an individual medical disability, illness or injury.

Service limitations:

Nevada Medicaid covers standard medical equipment that meets the basic medical need of the recipient. Deluxe equipment will not be authorized when it is determined a standard model will meet the basic medical needs of the recipient. Items classified as educational or rehabilitative by nature are not covered under this benefit. The DME provider is required to have documentation of physician's orders prior to the dispensing of any equipment or supplies.

DME services are typically not covered under this program benefit for recipients in an inpatient setting. Customized seating systems may be covered under this benefit to a recipient in a nursing facility if the item is unique to their medical needs. Disposable services are not covered in an inpatient setting under this benefit.

Prior authorization and service limitations are applicable for some equipment and supplies. Specific limitations can be found in Chapter 1300 of the Medicaid Services Manual.

Provider Qualifications:

Providers are required to have a Medical Device Equipment and Gas licensure from the Nevada Board of Pharmacy

8. Private duty nursing services

Private duty nursing services means nursing services provided by a registered nurse or licensed practical nurse under the direction of the recipient's physician. These services are provided in the recipient's home. To qualify for these services, a recipient must require more individual and continuous care than is available from a visiting nurse or routinely provided by the nursing staff of the hospital or skilled nursing facility. These services are provided in accordance with 42 CFR 440.80 and other applicable state and federal law or regulation. These services are offered through a home health provider that is enrolled as a Medicare Certified Home Health Agency licensed and authorized by state and federal laws to provide health care services in the home.

*Description provided on Attachment.

9. Clinic services are subject to the same limitations listed elsewhere in this Attachment, e.g., limits on prescriptions and physician office visits.
10. Dental services are limited to emergency care only. Requirements for prior authorization for oral surgery are specified in the Medicaid Services Manual, Chapter 1000, Addendum A. For those individuals referred for diagnosis/treatment under the Early Periodic Screening, Diagnosis and Treatment Program dental services are not so limited, and the full range of dental care is provided without authorization. Orthodontics through EPSDT require prior authorization.

11a. Physical therapy provided in an outpatient setting

Services: As regulated under 42 CFR §440.110(a) and other applicable state and federal law or regulation.

Physical therapy means services prescribed by a physician or other licensed practitioner of the healing arts within the scope of practice under state law and provided to a recipient by or under the direction of a qualified physical therapist to ameliorate/improve neuromuscular, musculoskeletal and cardiopulmonary disabilities which can respond or improve as a result of the prescribed treatment plan in a reasonable, predicable period of time. Services related to the general health and welfare of recipients, such as general exercises and play/recreational therapy to promote overall fitness and flexibility and activities to provide diversion or general motivation is not covered. Service limits may be exceeded based on medical necessity.

Physical Therapy Evaluations and Treatments: includes assessing, preventing or alleviating movement dysfunction and related functional problems; obtaining and interpreting information; and coordinating care and integrating services relative to the recipient receiving treatment such as:

- a. Evaluation and diagnosis to determine the existence and extent of motor delays, disabilities and/or physical impairments affecting areas such as tone, coordination, movement, strength, and balance;
- b. Therapeutic exercise;
- c. Application of heat, cold, water, air, sound, massage, and electricity;
- d. Measurements of strength, balance, endurance, range of motion;
- e. Individual or group therapy.

Maintenance Therapy means services provided by or under the direction of a qualified therapist to develop and safely implement a maintenance program to maintain functional status at a level consistent with the patient's physical or mental limitations or to prevent decline in function. Services must be established during the last rehabilitative treatment visit. Services must be medically necessary and require the management of a qualified therapist.

Maintenance Therapy Evaluations and Treatments: includes establishing a plan, assuring patient safety, training the patient, family members and/or unskilled personnel to maintain functional status or prevent decline in function, and making necessary reevaluations of the plan such as:

- a. Ongoing evaluation of patient performance;
- b. Adjustment to the maintenance program to achieve appropriate functional goals;
- c. Prevent decline of function;
- d. Provide interventions, in the case of a chronic or progressive limitation, to improve the likelihood of independent living and quality of life; and
- e. Provide treatment interventions for recipients who are making progress, but not at a rate comparable to the expectations of restorative care.

Provider Qualifications:

A “qualified physical therapist” is an individual who is a graduate of a program of physical therapy approved by both the Committee on Allied Health Education and Accreditation of the American Medical Association and the American Physical Therapy Association or its equivalent; and where applicable, licensed by the State.

Physical therapy assistant is a person who is licensed as a physical therapist assistant, if applicable, by the State in which practicing (NRS 640.260), and has graduated from a 2-year college-level program approved by the American Physical Therapy Association; or has 2 years of appropriate experience as a physical therapist assistant, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service, except that these determinations of proficiency do not apply with respect to persons initially licensed by a State or seeking initial qualification as a physical therapy assistant after December 31, 1977. PTA works under the direct supervision of the PT and is not receiving direct reimbursement.

All personnel who are involved in the furnishing of outpatient physical therapy services directly by or under arrangements with an organization must be legally authorized (licensed or, if applicable, certified or registered) to practice by the State in which they perform the functions or actions, and must act only within the scope of their State license or State certification or registration.

The physical therapist must be present or readily available to supervise a physical therapist assistant for prescribed supervised CPT modalities that do not require direct (one-on-one), patient contact by the licensed therapist.

11b. Occupational therapy services provided in an outpatient setting

Services: As regulated under 42 CFR §440.110(b) and other applicable state and federal law or regulation.

Occupational therapy means services prescribed by a physician or other licensed practitioner of the healing arts within the scope of practice under state law and provided to a recipient by or under the direction of a qualified occupational therapist to ameliorate/improve functional disabilities which can respond or improve as a result of the prescribed treatment plan in a reasonable, predicable period of time. Services related to the general health and welfare of recipients, such as general exercises and play/recreational therapy to promote overall fitness and flexibility and activities to provide diversion or general motivation is not covered. Service limits may be exceeded based on medical necessity.

Occupational Therapy Evaluations and Treatments: Include assessing, improving, developing, or restoring functions impaired or lost through illness, injury or deprivation, improving ability to perform tasks for independent functioning when functions are lost or impaired, preventing through early intervention, initial or further impairment or loss of function; and obtaining and interpreting information; and coordinating care and integrating services, such as:

- a. Evaluation and diagnosis to determine the extent of disabilities in areas such as sensorimotor skills, self-care, daily living skills, play and leisure skills, and use of adaptive or corrective equipment;
- b. Task-oriented activities to prevent or correct physical or emotional deficits to minimize the disabling effect of these deficits;
- c. Exercise to enhance functional performance;
- d. Individual and group therapy.

Maintenance Therapy means services provided by or under the direction of a qualified therapist to develop and safely implement a maintenance program to maintain functional status at a level consistent with the patient's physical or mental limitations or to prevent decline in function. Services must be established during the last rehabilitative treatment visit. Services must be medically necessary and require the management of a qualified therapist.

Maintenance Therapy Evaluations and Treatments: includes establishing a plan, assuring patient safety, training the patient, family members and/or unskilled personnel to maintain functional status or prevent decline in function, and making necessary reevaluations of the plan such as:

- a. Ongoing evaluation of patient performance;
- b. Adjustment to the maintenance program to achieve appropriate functional goals;
- c. Prevent decline of function;
- d. Provide interventions, in the case of a chronic or progressive limitation, to improve the likelihood of independent living and quality of life; and
- e. Provide treatment interventions for recipients who are making progress, but not at a rate comparable to the expectations of restorative care.

Provider Qualifications:

A "qualified occupational therapist" is an individual who is a graduate of a program in occupational therapy approved by the Committee on Allied Health Education and Accreditation of the American Medical Association and engaged in the supplemental clinical experience required before registration by the American Occupational Therapy Association.

Occupational therapy assistant is a person who has satisfied the academic requirement of an educational program approved by the Board of Occupational Therapy and the American Occupational Therapy Association and is authorized (licensed or certified) to practice by the State in which they perform the functions or actions, and must act only within the scope of their State license or State certification or registration. OTA works under the direct supervision of the OT and is not receiving direct reimbursement.

All personnel who are involved in the furnishing of outpatient occupational therapy services directly by or under arrangements with an organization must be legally authorized (licensed or, if applicable, certified or registered) to practice by the State in which they perform the functions or actions, and must act only within the scope of their State license or State certification or registration.

The occupational therapist must be present or readily available to supervise an occupational therapist assistant for prescribed supervised CPT modalities that do not require direct (one-on-one), patient contact by the licensed therapist.

11c. Services for individuals with speech, hearing, and language disorders provided in an outpatient setting

Services: as regulated under 42 CFR §440.110(c) and other applicable state and federal law or regulation.

Speech and language pathology services are those services necessary for the diagnosis and treatment of speech and language disorders that result in communication disabilities and for the diagnosis and treatment of swallowing disorders with or without the presence of a communication disability. The services must be of such a level of complexity and sophistication or the condition of the patient must be such that the services required can be safely and effectively performed only by a qualified therapist. Services are provided to a recipient to ameliorate/improve functional disabilities which can respond or improve as a result of the prescribed treatment plan in a reasonable, predictable period of time. Service limits may be exceeded based on medical necessity.

The practice of audiology consists of rendering services for the measurement, testing, appraisal, prediction, consultation, counseling, research or treatment of hearing and hearing impairment for the purpose of modifying disorders in communication involving speech, language and hearing. Audiology services must be performed by a certified and licensed audiologist. Treatment services such as:

- a. Speech and language evaluations and diagnosis of delay and/or disabilities to include voice, communication, fluency, articulation, or language development;
- b. Individual treatment and therapeutic modalities and/or group treatment (therapy);
- c. Audiological evaluation and diagnosis to determine the presence or extent of hearing impairments;
- d. Complete hearing and/or hearing aid evaluation, hearing aid fittings or re-evaluations, and audiograms.

Maintenance Therapy means services provided by or under the direction of a qualified therapist to develop and safely implement a maintenance program to maintain functional status at a level consistent with the patient's physical or mental limitations or to prevent decline in function. Services must be established during the last rehabilitative treatment visit. Services must be medically necessary and require the management of a qualified therapist.

Maintenance Therapy Evaluations and Treatments: includes establishing a plan, assuring patient safety, training the patient, family members and/or unskilled personnel to maintain functional status or prevent decline in function, and making necessary reevaluations of the plan such as:

- a. Ongoing evaluation of patient performance;
- b. Adjustment to the maintenance program to achieve appropriate functional goals;
- c. Prevent decline of function;
- d. Provide interventions, in the case of a chronic or progressive limitation, to improve the likelihood of independent living and quality of life; and
- e. Provide treatment interventions for recipients who are making progress, but not at a rate comparable to the expectations of restorative care.

Provider Qualifications:

Speech and language pathologists are required to have a State license or State certification or registration and have a certificate of clinical competence from the American Speech and Hearing Association (ASHA); have completed the equivalent educational requirements and work experience necessary for the certificate; or has completed the academic program and is acquiring supervised work experience to qualify for the certificate;

A qualified audiologist has a master's or doctoral degree in audiology which meets State licensure requirements. Per NRS 637B.160 they are licensed by the Board of Examiners for Audiology and Speech Pathology.

FOR THE CATEGORICALLY NEEDY

12.a. Prescribed Drugs: Description of Service Limitation

Citation(s)	Provision(s)
<input checked="" type="checkbox"/>	(e) prescription vitamins and mineral products, except prenatal vitamins and fluoride
<input checked="" type="checkbox"/>	(f) nonprescription drugs
<input type="checkbox"/>	(g) covered outpatient drugs which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee (see specific drug categories below)

3. The State will not pay for covered outpatients drugs of a non-participating manufacturer, except for drugs rated "1-A" by the FDA. If such a medication is essential to the health of a recipient and a physician has obtained approval for use of the drugs in advance of its dispensing, it may be covered by the program pursuant to section 1927(a)(3).
4. The Medicaid program restricts coverage of certain covered outpatient drugs through the operation of a prior authorization program. The prior authorization process provides for a turn-around response by either telephone or other telecommunications device within twenty-four hours of receipt of a prior authorization request. In emergency situations, providers may dispense at least a seventy-two-hour supply of medication in accordance with the provisions of §1927 (d)(5) of the Social Security Act.
5. Pursuant to 42 U.S.C. Section 1396r-8, the state is establishing a preferred drug list with prior authorization for drugs not included on the preferred drug list. The state, or the state in consultation with a contractor, may negotiate supplemental rebate agreements that will reclassify any drug not designated as preferred in the baseline listing for as long as the agreement is in effect.
6. Pursuant to Section 1927(d)(6), the State has established a maximum quantity of medication per prescription as a 34-day supply; maintenance drugs per prescription as a 100-day (3 month) supply; and contraceptives per prescription as a 12-month supply.
 - a) In those cases where less than a 30-day supply of maintenance drug is dispensed without reasonable medical justification, the professional fee may be disallowed.
 - b) In nursing facilities if the prescriber fails to indicate the duration of therapy for maintenance drug, the pharmacy must estimate and provide at least a 30-day supply.
7. The state will meet the requirements of Section 1927 of the Social Security Act. Based on the requirements for Section 1927 of the act, the state has the following policies for the supplemental rebate program for Medicaid recipients:
 - a) CMS has authorized the State of Nevada to enter into direct agreements with pharmaceutical manufacturers for a supplemental drug rebate program. The supplemental rebate agreement effective July 1, 2014 amends the original, January 1, 2012 version, which is effective through their expiration dates.
 - b) Supplemental rebates received by the State under these agreements by the State that are in excess of those required under the national drug rebate agreement will be shared with the federal government on the same percentage basis as applied under the national rebate agreement.
 - c) All drugs covered by the program, irrespective of a supplemental agreement, will comply with provisions of the national drug rebate agreement.

- e) The unit rebate amount is confidential and cannot be disclosed for purposes other than rebate invoicing and verification, in accordance with Section 1927 (b)(3)(D).
- f) Acceptance of supplemental rebates for products covered in the Medicaid program does not exclude the manufacturers' product(s) from prior authorization or other utilization management requirements.
- g) Rebates paid under CMS-approved Supplemental Rebate Agreement for the Nevada Medicaid population does not affect AMP or best price under the Medicaid program.

8. The Medicaid program restricts coverage of certain covered outpatient drugs through the operation of a prior authorization program. The prior authorization process provides for a turn-around response by either telephone or other telecommunications device within 24 hours of receipt of a prior authorization request. In emergency situations, providers may dispense at least a 72-hour supply of medication in accordance with the provisions of §1927 (d)(5) of the Social Security Act.
9. Pursuant to Section 1927(d)(6), the State has established a maximum quantity of medication per prescription as a 34-day supply; maintenance drugs per prescription as a 100-day (3 month) supply; and contraceptives per prescription as a 12-month supply.
 - a) In those cases where less than a 30-day supply of maintenance drug is dispensed without reasonable medical justification, the professional fee may be disallowed.
 - b) In nursing facilities if the prescriber fails to indicate the duration of therapy for maintenance drug, the pharmacy must estimate and provide at least a 30-day supply.
12.
 - b. Dentures are allowed every five years.
 - c. Prosthetic devices must be prescribed by a physician or osteopath and must be prior authorized by the Nevada Medicaid Office on Form NMO-3.
 - d. Eyeglasses are limited to those prescribed to correct a visual defect of at least 0.5 diopters or 10 degrees in axis deviation for recipients for recipients of all ages once in 12 months, or with prior authorization if program limitations are exceeded. In addition, they are available on the periodicity schedule established for EPSDT.

- C. Preventive Services. Services provided are according to the United States Preventive Services Task Force (USPSTF) A and B recommendations along with approved vaccines and their administration recommended by the Advisory Committee on Immunization Practices (ACIP). Documentation is available to support claiming of FMAP for such services. As changes are made to the USPSTF and/or ACIP, coverage and billing codes will be updated to comply with the changes. Cost sharing is not applied to any of these services.

Medical Nutrition Therapy (MNT): Medical nutrition therapy services are designed to provide medically necessary, diagnostic, therapy and counseling services for the management of nutrition related disease states. MNT involves the assessment of an individual's overall nutritional status followed by an individualized course of treatment to prevent or treat medical illness. Services must be provided under a treatment plan based on evidence-based assessment criteria and include realistic and obtainable goals.

Services:

The following services are covered when provided by a Licensed and Registered Dietician and must include coordination with the referring provider:

- a. An initial nutrition and lifestyle assessment
- b. One on one or group nutrition counseling
- c. Follow-up intervention visits to monitor progress in managing diet
- d. Subsequent visits in the following years
- e. Services may be provided in a group setting with the same service limitations

Service limits may be exceeded based on medical necessity. Prior authorization is required

Service Limitations:

MNT services are rendered by a Licensed and Registered Dietitian (RD) working in a coordinated, multidisciplinary team effort with a Physician, Physician's Assistant (PA) or Advanced Practice Registered Nurse (APRN). Treatment services must be ordered by the recipient's referring provider and delivered by a Registered Dietitian as defined in provider qualifications, and acting within the scope of their licensure.

Provider Qualifications:

- a. Licensure as a Registered Dietitian by the Nevada State Board of Health.
- b. The individual must hold a bachelor's degree or higher education from an accredited college or university in human nutrition, nutrition education or equivalent education and completed the required training.
- c. Registered dietitians are not authorized to supervise any non-licensed practitioners to provide medical nutrition therapy services.

D. Rehabilitative Services:

1. Mental Health Rehabilitation Services

Mental health rehabilitation assists individuals to restore and/or retain psychiatric stability, social integration skills, personal adjustment and/or independent living competencies in order to experience success and satisfaction in environments of their choice and to function as independently as possible. Interventions occur concurrently with clinical treatment and begin as soon as clinically appropriate.

The services must be recommended by a physician or other licensed practitioner of the healing arts, within their scope of practice and prescribed on an individualized treatment plan to achieve maximum reduction of a mental disability and restore the recipient to their optimal level of functioning.

Each individual service must be identified on a written rehabilitation plan. This is also referenced as the treatment plan. Providers are required to maintain case records. Components of the rehabilitation plan and case records must be consistent with the federal rehabilitation regulations. Rehabilitation services may only be covered by Medicaid if they are not the responsibility of other programs and if all applicable requirements of the Medicaid program are met. Services covered under the Title IV-E program are not covered under the rehabilitation program. Room and Board is not an allowable service under the mental health rehabilitative program. Services are not provided to recipients who are inmates of a public institution.

These services require utilization review according to the individual intensity of need and are time limited.

Rehabilitative mental health services may be provided in a community-based, outpatient services, home-based, and school-based environment. Depending on the specific services they may be provided in a group or individual setting. All collateral services that are delivered to a person that is an integral part of the recipient's environment such as medically necessary training, counseling and therapy, must directly support the recipient.

Services are based on an intensity of needs determination. The assessed level of need specifies the amount, scope and duration of mental health rehabilitation services required to improve, retain a recipient's level of functioning or prevent relapse. The determination cannot be based upon the habilitative needs of the recipient.

Intensity of needs determination is completed by a trained Qualified Mental Health Professional (QMHP) or Qualified Mental Health Associate (QMHA) and is based on several components related to person- and family-centered treatment planning. These components include:

- A comprehensive assessment of the recipient's level of functioning;
- The clinical judgment of the QMHP; or
- The clinical judgment of the case manager working under clinical supervision who is trained and qualified in mental health intensity of services determinations; and
- A proposed Treatment Plan.

A re-determination of the intensity of needs must be completed every 90 days or anytime there is a substantial change in the recipient's clinical status.

Nevada Medicaid utilizes an intensity of needs grid to determine the amount and scope of services based upon the clinical level of care of the recipient. The grid is based upon the current level of care assessments: Level of Care Utilization System (LOCUS) for adults and Child and Adolescent Services Intensity Instrument (CASII) for children. The determined level on the grid guides the interdisciplinary team in planning treatment.

Within each level there are utilization standards for the amount of services to be delivered. The six levels are broken out by the following categories in order from less intense to more intense;

Level of Care Utilization System (LOCUS)

- Level 1- Recovery maintenance and health management,
- Level 2- Low intensity community based services,
- Level 3- High intensity community based services,
- Level 4- Medically monitored non-residential services,
- Level 5- Medically monitored residential services, and
- Level 6 -Medically managed residential services.

Child and Adolescent Services Intensity Instrument (CASII)

- Level 1- Basic services, Recovery maintenance and health management,
- Level 2-Outpatient services,
- Level 3- Intensive outpatient services,
- Level 4- Intensive integrated services,
- Level 5- Non-secure, 24-hour services with psychiatric monitoring,
- Level 6- Secure, 24-hour services with psychiatric management.

All mental health rehabilitation services must meet the associated admission and continuing stay criteria and go through utilization management per the intensity of needs grid.

Service Array:

1. *Assessments:* Covered for problem identification (diagnosis) and to establish measurable treatment goals and objectives by a Qualified Mental Health Professional or designated Qualified Mental Health Associate in the case of a Mental Health Screen. An assessment is not intended for entry into each of the services. It is provided as an overall assessment of the recipient's needs. Assessments are limited to two per calendar year. Additional assessments may be prior authorized based upon medical necessity. Re-assessments utilizing the appropriate CPT codes are not subject to the initial assessment limitations.
2. *Mental Health Screens:* Determine eligibility for admission to treatment program. This is completed through a clinical determination of the intensity of need of the recipient. The objective of this service is to allow for the 90-day review for the intensity of needs determination and to determine either SED or SMI if it has not already been determined. The provider must meet the requirements of a QMHA.
3. *Neuro-cognitive/psychological and mental status testing:* This service is performed by a QMHP. Examples of testing are defined in the CPT; neuropsychological testing,

neurobehavioral testing, and psychological testing. Each service includes both interpretation and reporting of the tests. This service requires prior authorization.

4. *Basic Skills Training*: Services in this category are rehabilitative interventions that target concrete skills training such as: monitoring for safety, basic living skills, household management, self-care, social skills, communication skills, parent education, organization skills, time management, and transitional living skills. This service is provided in a variety of settings including community-based, outpatient services, and the home environment. The level of professional providing the services is dependent upon the needs of the recipient and the utilization management criteria. This service is provided by a QMHP or QMHA, under the direction of a QMHP, or provided by a QBA under the direct supervision of a QMHP or QMHA. This may be provided in a group (four or more individuals) or in an individual setting. These services require utilization review according to the individual intensity of need and are time limited.
5. *Psycho-social Rehabilitation*: Services in this category are rehabilitative interventions that target specific behaviors. These services may include: behavioral management and counseling, conflict and anger management, interpersonal skills, collateral interventions with schools and social service systems, parent and family training and counseling, community transition and integration, and self-management. This service is provided in a variety of settings including, community-based, outpatient services, and the home environment. The level of professional providing the services is dependent upon the needs of the recipient and the utilization management criteria. This is provided on an individual basis or in a group consisting of at least four individuals. Service is provided by a QMHP or a QMHA. The services provided may be directly attributable to an individual provider. Recipients must either be severely emotionally disturbed or seriously mentally ill. The level of care of the recipient is consistent with the high intensity community based services. These services require utilization review according to the individual intensity of need and are time limited. This service is reimbursed in 15-minute increments.
6. *Crisis Intervention*: A service provided by a QMHP to recipients who are experiencing a psychiatric crisis and a high level of personal distress. Crisis intervention services are brief, immediate and intensive interventions to reduce symptoms, stabilize the recipient, restore the recipient to his/her previous level of functioning, and to assist the recipient in returning to the community as rapidly as possible, if the recipient has been removed from their natural setting. The individual demonstrates an acute change in mood or thought that is reflected in the recipient's behavior and necessitates crisis intervention to stabilize and prevent hospitalization. The Individual is a danger to himself, others or property or is unable to care for self as a result of personal illness. These services may be mobile and may be provided in a variety of settings, including, but not limited to, psychiatric emergency departments, homes, hospital emergency rooms, schools, child protective custody and homeless shelters. Crisis intervention services include follow-up and de-briefing sessions to ensure stabilization and continuity of care.

The service may be provided telephonically, as long as the service meets the definition of crisis intervention. Face to face crisis intervention is reimbursable for either one QMHP or a team that is composed of at least one QMHP and another QMHP or QMHA. This service is allowable for all levels of care. These services require utilization review according to the individual intensity of need and are time limited.

7. *Medication Management Training and Support* - Provided by a QMHP other than a physician. Typically, this service is provided by a registered nurse. This service is for monitoring of compliance, side effects, recipient education and coordination of requests to a physician for changes in medication(s). This service may be provided in the home and community-based program. This service is provided at all levels of care. This service is not the same as medication management that is provided by a physician under physician services.
8. *Mental Health Therapy*: Provided by a QMHP for individual, group, and/or family therapy with the recipient present and for family therapy without the recipient present. Therapy delivered must be of a direct benefit to the recipient. Minimum size for group therapy is three individuals and a maximum therapist to participant ratio is one to ten. Mental health therapy is billed utilizing the appropriate CPT codes for licensed professionals. Mental health therapy is available at all levels of care. The intensity of the service increases based on the need of the recipient. These services require utilization review according to the individual intensity of need and are time limited.
9. *Day Treatment Program*: A community-based psycho-social program of rehabilitative services designed to improve individual and group functioning for effective community integration. This is not an Institution for Mental Illness (IMD), a Residential Treatment Facility, nor is it an institution as defined under federal regulation. Admission to this program requires: severe emotional disturbance or serious mental illness and recipient's clinical and behavioral issues require intensive, coordinated, multi-disciplinary intervention within a therapeutic milieu. Day treatment is provided in a structured therapeutic environment which has programmatic objectives such as but not limited to: development of skills to promote health relationships and learn to identify ingredients that contribute to healthy relationships, development of coping skills and strategies, development of aggression prevention plans, problem identification and resolution, ability to learn respectful behaviors in social situations, development of the ability to demonstrate self-regulation on impulsive behaviors, development of empathy for peers and family and develop a clear understanding of recipients cycles of relapse and a relapse prevention plan. Services must be provided by a QMHP or by a QMHA under the direct supervision of a QMHP. The services provided may be directly attributable to an individual provider. The staff ratio is one to five participants. The average time per day this program is offered is three hours per day. Mental health therapy is a separate billable service under the appropriate CPT codes.

Mental health therapy and day treatment cannot be billed for the same time period. This service is consistent with intensive integrated outpatient services. These services require utilization review according to the individual intensity of need and are time limited. This service is reimbursed in hourly increments

10. *Peer-to-Peer Support Services*: These supportive services assist a recipient and/or their family with accessing mental health rehabilitation services or community support services for needed stabilization, preventive care or crisis intervention. These services may include: empathic personal encouragement, self-advocacy, self-direction training, and peer recovery. These services must be a direct benefit to the recipient. Services may be provided in a group (requires five or more individuals) or individual setting. The services are identified in the recipient's treatment plan and must be provided by a Peer Supporter working collaboratively with the case manager or child and family team/interdisciplinary team. A minimum amount of services are offered based on the intensity of needs and prior authorization is required for utilization of services above the minimum amount. These services require utilization review according to the individual intensity of need and are time limited.

A Peer Supporter is a qualified individual currently or previously diagnosed with a mental health disorder who has the skills and abilities to work collaboratively with and under the direct supervision of a QMHP in the provision of supportive assistance for rehabilitation services as identified in the treatment plan. Peer Supporters are contractually affiliated with a Behavioral Health Community Network, psychologist, or psychiatrists in order to be provided with medical supervision. Supervision by the QMHP must be provided and documented at least monthly. The selection of the Peer Supporter is based on the best interest of the recipient. The Peer Supporter must be approved by a QMHP. A Peer Supporter can not be the legal guardian or spouse of the recipient. A Peer Supporter must meet the minimum qualifications of a QBA.

Service Limitations

Rehabilitation mental health services are therapies or interventions identified in the treatment plan that are intended to result in improving or retaining a recipient's level of functioning. These services are person- and family-centered, culturally competent, and must have measurable outcomes. The amount and duration of the service is reflective of the intensity of needs determination of the recipient. Services require authorization through Nevada Medicaid's QIO-like vendor. The level of professional providing the service is dependent upon the needs of the recipient and the utilization management criteria.

Provider Qualifications

- a. **Qualified Mental Health Professional**: A person who meets the definition of a QMHA and also meets the following documented minimum qualifications: 1) Holds any of the following educational degrees and licensure; Doctorate degree in psychology and license; Bachelor's degree in nursing, APN (psychiatry), graduate degree in social work with

the following: a graduate degree in counseling and a license as a marriage and family therapist, or a clinical professional counselor, or is employed by the State of Nevada mental health agency and meets class specification qualifications of a Mental Health Counselor. The following licensed interns are covered as a QMHP: Licensed clinical social worker intern, licensed marriage and family therapist intern, licensed clinical professional counselor interns, or a Psychological Intern registered through the Psychological Board of Examiners defined in NAC 641.165. Interns must be supervised in accordance with state regulations and may only provide services within the scope of their licensure.

- b. Qualified Mental Health Associate: A person who meets the following minimum documented qualifications; 1) Registered nurse OR 2) holds a bachelor's degree in a social services field with additional understanding of mental health rehabilitation services, and case file documentation requirements; AND 3) whose education and experience demonstrate the competency under clinical supervision to direct and provide professional therapeutic interventions within the scope of their practice and limits of their expertise, identify presenting problems, participate in treatment plan development and implementation, coordinate treatment, provide parenting skills, training, facilitate discharge plans, and effectively provide verbal and written communication on behalf of the recipient to all involved parties, AND 4) Has an FBI background check in accordance with the provider qualifications of a QBA.
- c. Qualified Behavioral Aide: A person who has an educational background of a high-school diploma or GED equivalent. A QBA may only provide the following services: basic skills training and peer support services. A QBA must have the documented competencies to assist in the provision of individual and group rehabilitation services which are under the direct supervision of a QMHP or QMHA, read, write and follow written or oral instructions, perform mental health rehabilitation services as documented in the treatment plan, identify emergency situations and respond accordingly, communicate effectively, document services provided, maintain confidentiality, successfully complete approved training program, CPR certification, and have completed an FBI criminal background check to ensure no convictions of applicable offenses have been incurred. QBA's are required to participate in and successfully complete an approved training program which includes basic training, periodic and continuing in service training. Training must be interactive and not solely based on self-study guides or videotapes and should ensure that a QBA will be able to interact appropriately with individuals with mental health disorders. Training must also include:
- Case file documentation;
 - Recipient's rights;
 - HIPAA compliance;
 - Communication skills;
 - Problem solving and conflict resolution skills;
 - Communication techniques for individuals with communication or sensory impairments; and
 - CPR certification

The entity that is providing supervision over the QBA shall provide annually a minimum of eight hours of service training for each QBA. The purpose of the annual training is to facilitate the development of specialized skills or knowledge not included in the basic training and/or to review or expand skills or knowledge included in the basic training. Consideration must be given to topics suggested by recipients. Documentation of the completed training and achieved competencies meeting this requirement must be maintained by the entity. Training requirements may be waived if the QBA can provide written verification of comparable education and training. The entity must document this validation.

14. Services for individuals age 65 or older in institutions for mental diseases

- A. Inpatient hospital services are limited to those certified for payment by a Professional Standards Review Organization. Inpatient psychiatric services are not to exceed five days unless the attending physician documents why additional services are required. Emergency inpatient mental health services require no prior authorization. However, Medicaid's Peer Review Organization must be contacted for certification purposes within 24 hours or the first working day after the admission for certification purposes.

An emergency psychiatric admission must meet at least one of the following three criteria:

- (1) Active suicidal ideation accompanied by a documented suicide attempt or documented history of a suicide attempt(s) within the past 90 days; or
 - (2) Active suicidal ideation accompanied by physical evidence (e.g., a note) or means to carry out the suicide threat (e.g., gun, knife or other deadly weapon); or
 - (3) Documented aggression within the 72-hour period before admission:
 - (a) Which resulted in harm to self, others, or property;
 - (b) Which manifests that control cannot be maintained outside inpatient hospitalization; and
 - (c) Which is expected to continue if no treatment is provided.
- B. Nursing facility services require prior authorization from the Medicaid office on Form NMO-49.

24.a.2 Brokered Transportation

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
MEDICAL ASSISTANCE PROGRAM

State/Territory: Nevada

SECTION 3 – SERVICES: GENERAL PROVISIONS

3.1 Amount, Duration, and Scope of Services

Medicaid is provided in accordance with the requirements of sections 1902(a), 1902(e), 1903(i), 1905(a), 1905(p), 1905(r), 1905(s), 1906, 1915, 1916, 1920, 1925, 1929, and 1933 of the Act; section 245A(h) of the Immigration and Nationality Act; and 42 CFR Parts 431, 440, 441, 442, and 483.

A. Categorically Needed

28. Any other medical care and any other type of remedial care recognized under State law, specified by the Secretary (in accordance with section 1905(a)(28) of the Social Security Act and 42 CFR 440.170).

a. Transportation (provided in accordance with 42 CFR 440.170 as an optional medical service) excluding “school-based” transportation.

Not Provided:

Provided without a broker as an optional medical service:
(If state attests “Provided without a broker as an optional medical service” then insert supplemental information.)

Describe below how the transportation program operates including types of transportation and transportation related services provided and any limitations.

Describe emergency and non-emergency transportation services separately. Include any interagency or cooperative agreements with other Agencies or programs.

Non-emergency transportation is provided through a brokerage program as an optional medical service in accordance with 1902(a)(70) of the Social Security Act and 42 CFR 440.170(a)(4).

(If the State attests that non-emergency transportation is being provided through a brokerage program then insert information about the brokerage program.)

The State assures it has established a non-emergency medical transportation program in accordance with 1902(a)(70) of the Social Security Act in order to more cost-effectively provide transportation, and can document, upon request from CMS, that the transportation broker was procured in compliance with the requirements of 45 CFR 92.36 (b)-(i).

(1) The State will operate the broker program without the requirements of the following paragraphs of section 1902(a);

(1) state-wideness (indicate areas of State that are covered)

(10)(B) comparability (indicate participating beneficiary groups)

(23) freedom of choice (indicate mandatory population groups)

(2) Transportation services provided will include:

wheelchair van

taxi

stretcher car

bus passes

tickets

secured transportation

other transportation (if checked describe below other transportation).

- Charter air flight
- Commercial air
- Rotary Wing
- Fixed wing
- Ground ambulance
- Bus, local, city
- Bus, out of town

(3) The State assures that transportation services will be provided under a contract with a broker who:

(i) is selected through a competitive bidding process based on the State's evaluation of the broker's experience, performance, references, resources, qualifications, and costs:

- (ii) has oversight procedures to monitor beneficiary access and complaints and ensures that transportation is timely and transport personnel are licensed qualified, competent and courteous:
 - (iii) is subject to regular auditing and oversight by the State in order to ensure the quality and timeliness of the transportation services provided and the adequacy of beneficiary access to medical care and services:
 - (iv) complies with such requirements related to prohibitions on referrals and conflict of interest as the Secretary shall establish (based on prohibitions on physician referrals under Section 1877 and such other prohibitions and requirements as the Secretary determines to be appropriate.)
- (4) The broker contract will provide transportation to the following categorically needy mandatory populations:
- Low-income families with children (section 1931)
 - Deemed AFCD-related eligibles
 - Poverty-level related pregnant women
 - Poverty-level infants
 - Poverty-level children 1 through 5
 - Poverty-level children 6 – 18
 - Qualified pregnant women AFDC – related
 - Qualified children AFDC – related
 - IV-E foster care and adoption assistance children
 - TMA recipients (due to employment) (section 1925)
 - TMA recipients (due to child support)
 - SSI recipients
- (5) The broker contract will provide transportation to the following categorically needy optional populations:
- Optional poverty-level - related pregnant women
 - Optional poverty-level - related infants
 - Optional targeted low-income children

- Non-IV-E children who are under State adoption assistance agreements
- Non-IV-E independent foster care adolescents who were in foster care on their 18th birthday
- Individuals who meet income and resource requirements of AFDC or SSI
- Individuals who would meet the income & resource requirements of AFDC if child care costs were paid from earnings rather than by a State agency
- Individuals who would be eligible for AFDC if State plan had been as broad as allowed under Federal law
- Children aged 15-20 who meet AFDC income and resource requirements
- Individuals who would be eligible for AFDC or SSI if they were not in a medical institution
- Individuals infected with TB
- Individuals screened for breast or cervical cancer by CDC program
- Individuals receiving COBRA continuation benefit
- Individuals in special income level group, in a medical institution for at least 30 consecutive days, with gross income not exceeding 300% of SSI income standard
- Individuals receiving home and community based waiver services who would only be eligible under State plan if in a medical institution
- Individuals terminally ill if in a medical institution and will receive hospice care
- Individuals aged or disabled with income not above 100% FPL
- Individuals receiving only an optional State supplement in a 209(b) State
- Individuals working disabled who buy into Medicaid (BBA working disabled group)
- Employed medically improved individuals who buy into Medicaid under TWWIA Medical Improvement Group
- Individuals disabled age 18 or younger who would require an institutional level of care (TEFRA 134 kids).

(6) Payment Methodology

(A) The State will pay the contracted broker by the following method:

 (i) risk capitation (ii) non-risk capitation (iii) other (e.g., brokerage fee and direct payment to providers) (If checked describe any other payment methodology)

(B) Who will pay the transportation provider?

 (i) Broker (ii) State (iii) Other (if checked describe who will pay the transportation provider)

(C) What is the source of the non-Federal share of the transportation payments?

Describe below the source of the non-Federal share of the transportation payments proposed under the State plan amendment. If more than one source exists to fund the non-Federal share of the transportation payment, please separately identify each source of non-Federal share funding.

(D) The State assures that no agreement (contractual or otherwise) exists between the State or any form of local government and the transportation broker to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly). For instance, the NET broker will facilitate rides for recipients requiring door-to-door transport (Paratransit). DHCFP will reimburse the Regional Transportation Commission (RTC) directly for any costs incurred for these services. This assurance is not intended to interfere with the ability of a transportation broker to contract for transportation services at a lesser rate and credit any savings to the program.

(E) The State assures that payments proposed under this State plan amendment will be made directly to transportation providers and that the transportation provider payments are fully retained by the transportation providers and no agreement (contractual or otherwise) exists between the State or local government and the transportation provide to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly).

- (7) The broker is a non-governmental entity:
- The broker is not itself a provider of transportation nor does it refer to or subcontract with any entity with which it has a prohibited financial relationship as described at 45 CFR 440.170(4)(ii).
 - The broker is itself a provider of transportation or subcontracts with or refers to an entity with which it has a prohibited financial relationship; and
 - Transportation is provided in a rural area as defined at 412.62(f) and there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.
 - Transportation is so specialized that there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.
 - The availability of other non-governmental Medicaid participating providers or other providers determined by the State to be qualified is insufficient to meet the need for transportation.
- (8) The broker is a governmental entity and provides transportation itself or refers to or subcontracts with another governmental entity for transportation. The governmental broker will:
- Maintain an accounting system such that all funds allocated to the Medicaid brokerage program and all costs charged to the Medicaid brokerage will be completely separate from any other program.
 - Document that with respect to each individual beneficiary's specific transportation needs, the government provider is the most appropriate and lowest cost alternative.
 - Document that the Medicaid program is paying no more for fixed route public transportation than the rate charged to the general public and no more for public para-transit services than the rate charged to other State human services agencies for the same service.

- (9) Please describe below how the NEMT brokerage program operates. Include the services that will be provided by the broker. If applicable, describe any services that will not be provided by the broker and name the entity that will provide these services.

The NET broker provides transportation to and from medically necessary Nevada Medicaid covered services. Transportation is provided by the least expensive means available which is in accordance with the recipient's medical condition and needs and to the nearest appropriate Medicaid health care provider or medical facility. NET is available to all eligible Medicaid recipients with limitations.

Recipients call the NET broker for reservations. The NET broker verifies the recipient's eligibility and the existence of a medical services appointment. Recipients are screened for the most appropriate level of service. Recipients who use the system frequently or require high cost transportation may be further assessed by the Medicaid District Office to ensure appropriate utilization. The NET broker authorizes and schedules the rides with providers. The broker determines efficient routes.

The NET broker provides NET both statewide and out of state. Recipients traveling out of state may have the cost of meals and lodging en route to and from medical care, and while receiving medical care reimbursed. An attendant's costs may be covered if an attendant is required to ensure the recipient receives required medical services.

Medicaid does not reimburse the costs of non-emergency travel which had not been prior authorized or transportation to non-covered medical services. Ambulance charges for waiting time, stairs, plane loadings and in-town mileage and No shows, where a ride does not occur are also not reimbursable.

Full benefit dual eligible recipients may receive NET services to Access Medicaid only services.

Limitations:

Recipients whose eligibility is pending at the time of transport are not eligible for NET. QMBs and SLMBs for whom the State only pays their Medicare premiums are not eligible for NET. Emergency services only recipient may not receive NET for transport home from place of emergent services. Nursing facility NET for institutionalized recipients is included in NF rates. The NET broker may schedule rides for Paratransit services and the DHCFP will reimburse the RTC directly for any costs incurred.

Service Limitations

Recipients must contact the NET broker to obtain prior authorization for transportation in all but emergency situations. Medicaid does not reimburse the costs of: meals and lodging, transportation to non-covered medical services, ambulance charges for waiting time, stairs, plane loadings and in-town mileage, or non-emergency travel which had not been prior authorized. Medicaid does not reimburse the transportation of full benefit dual eligible Medicare Part D recipients for non-emergency travel which had not been authorized, transportation for non-covered prescription drugs, or non-emergency transportation for recipients whose eligibility is pending at the time of transport.

Provider Qualifications

To be a NET provider, a vendor must have a current provider agreement with Nevada Medicaid NET broker, a State issued exemption from TSA regulation, proof of a liability insurance policy, pursuant to NRS 706.291 for a similar situated motor carrier, a criminal background check and an alcohol and substance abuse testing program in place for the drivers, and vehicles adequately maintained to meet the requirements of the contract. Vehicles shall comply with the Americans with Disabilities Act (ADA) regulations.

- 24.d. Nursing facility services for patients under 21 years of age require prior authorization from the Nevada Medicaid Office on Form NMO-49.
- 24.f. Personal care services covered under Item 26, Page 10a.

State: NEVADA

- 26a. Nevada Medicaid PERSONAL CARE SERVICES (PCS) assist, support, and maintain recipients living independently in their homes and in settings outside the home. These services are to be provided where appropriate, medically necessary, and consistent with program utilization control procedures. Personal Care Services may be an alternative to institutionalization. These services and hours are established based on medical necessity and must be prior authorized by Medicaid and established using a Medicaid defined functional assessment. Personal care services cannot exceed hours determined by a functional assessment conducted by State Medicaid staff or their designee. Services may be reassessed when a significant change in condition or circumstance occurs or annually as specified in policy.

Personal care services include a range of human assistance provided to persons with disabilities and chronic conditions of all ages, which enables them to accomplish tasks they would normally do for themselves if they did not have a disability. Assistance may be in the form of hands-on assistance (actually performing a personal care task for a person) or cuing so that the person performs the task by him/herself. Such assistance most often relates to performance of activities of daily living (ADLs) and instrumental activities of daily living (IADLs). ADLs include eating, bathing, dressing, toileting, transferring, and maintaining continence. IADLs capture more complex life activities and include light housework, laundry, meal preparation, transportation, and grocery shopping. Personal care services can be provided on a continuing basis or on episodic occasions. Skilled services that may be performed only by a health professional are not considered personal care services.

Personal care services may be provided by any willing and qualified provider through a Provider Agency (PA), Intermediary Service Organization (ISO), or by an Independent Contractor when a PA or ISO is not available in that area of the state. All providers must meet established qualifications of 16 hours of basic training, background checks, and TB testing. Legally responsible individuals (e.g. spouse, legal guardian, parent of minor child, legally responsible stepparent, or foster parent) may not be reimbursed for providing personal care services.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
TARGETED CASE MANAGEMENT SERVICES

1. General assurances for targeted case management services:
 - A. Individuals have the free choice of any qualified Medicaid provider in accordance with 42CFR§431.51.
 - B. Targeted Case Management services can not restrict an individual's access to other services under the plan.
 - C. An individual cannot be compelled to receive targeted case management services, targeted case management services cannot be a condition of receipt of other Medicaid services, and other Medicaid covered services cannot be a condition to receive targeted case management services.
 - D. Targeted case management services provided in accordance with section §1915(g) of the Act will not duplicate payments made to public agencies or private entities under State plan and other program authorities. Interventions to be reimbursed for under the Targeted Case Management service must be considered a covered Medicaid service. Medicaid reviews appropriateness of service through medical documentation and claim level audits at least annually. Medicaid performs provider training meetings to review covered and non-covered services and the circumstances in which TCM may be reimbursed.
 - E. Comprehensive targeted case management services are provided on a one-to-one (telephonic or face-to-face) basis. Requirements for a single-case manager are effective March 4, 2010.
 - F. Targeted case management service can not authorize, approve or deny the provision of other services under the plan.
 - G. Providers are to maintain case records in accordance with Medicaid policy:
 - a. The name of the individual receiving services, the dates of case management services, the name of the provider agency and person chosen by the recipient to provide services.
 - b. The nature, content, and units of case management services received.
 - c. Whether the goals specified in the care plan have been achieved.
 - d. If an individual declines services listed in the care plan, this must be documented in the individual's case record.
 - e. Timelines for providing services and reassessment.
 - f. The need for and occurrences of coordination with case managers of other programs.
2. Limitations:

Targeted case management does not include the following:

- A. Targeted case management activities that are an integral component of another covered Medicaid service.
- B. The direct delivery of an underlying medical, educational, social, or other service to which an eligible individual has been referred.
- C. Activities integral to the administration of foster care programs.
- D. Activities, for which an individual may be eligible, that are integral to the administration of another non-medical program, except for targeted case management that is included in an individualized education program or individualized family service plan consistent with section 1903(c) of the Social Security Act.

Service: Targeted Case Management in accordance with 1915(g) of the Act.

- 1. Target Group: Non SED/Non SMI
 - A. Children, Adolescents and Adults who are Non SED/SMI are persons who are not seriously mentally ill or severely emotionally disturbed, have a significant life stressor, and:
 - i. A current International Classification of Diseases (ICD) diagnosis, diagnosis from the current Mental, Behavioral, Neurodevelopmental Disorders section including Z codes 55-65, R45.850 and R45.851, which does not meet Seriously Mentally Ill or Severely Emotionally Disturbed criteria.
 - ii. A Locus score of Level I or II, or
 - iii. A CASII Level of 0, 1, 2, or above.

2. Geographic area to be serviced:

- Statewide
- Limited geographic area

3. Service:

Services are not comparable in amount, duration and scope.

Targeted case management services are services furnished to assist individuals, eligible under the State plan that reside in a community setting or are transitioning to a community setting, in gaining access to needed medical, social, educational, and other services. The assistance provided through this service are:

- A. Comprehensive assessment and periodic reassessment of individual needs, to determine the need for any medical, educational, social, or other services.
- B. Development (and periodic revision) of a specific care plan based on the information collected through the assessment; specifies goals and actions to address services needed; activities insuring active participation of the individual and others in developing goals; and identifies a course of action to respond to the needs of the individual.
- C. Referral and related activities to help the eligible individual obtain needed services, including activities that help link the individual with medical, social, and educational providers or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the care plan.

- D. Monitoring and follow-up activities, including activities and contacts that are necessary to ensure that the care plan is effectively implemented and adequately addresses the needs of the eligible individual. Activities may be with the individual, family members, service providers, or other entities or individuals and conducted as frequently as necessary, including at least one annual monitoring, to help determine whether the following conditions are met:
- i. Services are being furnished in accordance with the individual's care plan.
 - ii. Services in the care plan are adequate.
 - iii. There are changes in the needs or status of the eligible individual.
- E. Targeted case management services may include contacts with non-eligible individuals that are directly related to the identification of the eligible individual's needs and care, for the purposes of helping the eligible individual access services, identifying needs and supports to assist the eligible individual in obtaining services, providing case managers with feedback, and alerting case managers to changes in the eligible individual's needs.

4. Frequency of Assessments and Monitoring:

- A. Initial Assessment requires a face-to-face assessment.
- B. Reassessment requires an annual face-to-face visit. A reassessment may occur more frequently if there is a change in the eligible individual's condition.
- C. The assessment and reassessment is limited to no more than four per 365 days. This does not preclude qualified providers from adjusting the care plan and service arrangements more frequently through monitoring activities.

5. Provider Qualifications

- A. Minimum qualifications of a case manager providing services for Non SED/SMI are:
1. A Bachelor's degree in a health-related field, Registered Nurse (RN), Master's level professional (LCSW or LMFT), APN in mental health, psychologist, LCSW or LMFT interns that are supervised within the scope of their license, or a mental health professional who works under the direct supervision of a person listed above. A mental health professional is an individual who is employed and determined by a state mental health agency to meet established class specifications and who has the established education and experience.

A mental health professional may work under the direct supervision of a licensed intern within their scope of practice.

 - A. Covered services will be provided to juveniles on probation (referred or under the supervision of juveniles' caseworkers).
 - B. Covered services will be provided to family member who are Medicaid eligible whose children are on probation.

2. Geographic area to be serviced:

- Statewide
- Limited geographic area

3. Service:

Services are not comparable in amount, duration, and scope.

Targeted case management services are services furnished to assist individuals, eligible under the State plan that reside in a community setting or are transitioning to a community setting, in gaining access to needed medical, social, educational, and other services. The assistance provided through this service are:

- A. Comprehensive assessment and periodic reassessment of individual needs, to determine the need for any medical, educational, social, or other services.
- B. Development (and periodic revision) of a specific care plan based on the information collected through the assessment; specifies goals and actions to address services needed; activities insuring active participation of the individual and others in developing goals; and identifies a course of action to respond to the needs of the individual.
- C. Referral and related activities to help the eligible individual obtain needed services, including activities that help link the individual with medical, social, and educational providers or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the care plan.
- D. Monitoring and follow-up activities, including activities and contacts that are necessary to ensure that the care plan is effectively implemented and adequately addresses the needs of the eligible individual. Activities may be with the individual, family members, service providers, or other entities or individuals and conducted as frequently as necessary, including at least one annual monitoring, to help determine whether the following conditions are met:
 - i. Services are being furnished in accordance with the individual's care plan.
 - ii. Services in the care plan are adequate.
 - iii. There are changes in the needs or status of the eligible individual.
- E. Targeted case management services may include contacts with non-eligible individuals that are directly related to the identification of the eligible individual's needs and care, for the purposes of helping the eligible individual access services, identifying needs and supports to assist the

eligible individual in obtaining services, providing case managers with feedback, and alerting case managers to changes in the eligible individual's needs.

4. Frequency of Assessments and Monitoring:

Initial Assessment requires a face-to-face assessment.

- A. Reassessment requires an annual face-to-face visit. A reassessment may occur more frequently if there is a change in the eligible individual's condition.
- B. The assessment and reassessment is limited to no more than four per 365 days. This does not preclude qualified providers from adjusting the care plan and service arrangements more frequently through monitoring activities.

5. Provider Qualifications:

A. Targeted case management services will be provided only through qualified provider agencies. Qualified targeted case management services provider agencies must meet the following criteria:

- 1. Have full access to all relevant records concerning the child's needs for services including records of the Nevada District Family and Juvenile Courts.
- 2. Have established referral systems and demonstrated linkages and referral ability with community resources required by the target population.
- 3. Have a minimum of five years' experience in providing all core elements of target services to the target populations.
- 4. Have an administrative capacity to ensure quality of services in accordance with State and Federal requirements.
- 5. Have a financial management capacity and system that provides documentation of services and costs in accordance with OMB A-87 principles.
- 6. Have a capacity to document and maintain individual case records in accordance with State and Federal requirements, and
- 7. Have a demonstrated ability to meet all State and Federal laws governing the participation of providers in the State Medicaid program, including the ability to meet Federal and State requirements for documentation, billing and audits.

B. Individual case managers working for provider agencies must meet the following minimum qualification.

- 1. meet the minimum qualifications for case managers as established by qualified provider agencies and
- 2. have a minimum of a bachelor's degree in social work, sociology, psychology, criminal justice or a related field and

State Plan under Title XIX of the Social Security Act

TARGETED CASE MANAGEMENT SERVICES

[Juvenile Parole]

Target Group (42 Code of Federal Regulations 441.18(a)(8)(i) and 441.18(a)(9)):

Nevada Medicaid eligible children on parole, under the age of 21 years old, who are:

1. At high risk for medical compromise due to one of the following conditions:
 - a. Failure to take advantage of necessary health care services, or
 - b. Noncompliance with their prescribed medical regime, or
 - c. An inability to coordinate multiple medical, social and other services due to the existence of an unstable medical condition in need of stabilization, or
 - d. An inability to understand medical directions because of comprehension barriers, or
 - e. A lack of community support system to assist in appropriate follow-up care at home, or
 - f. Substance abuse, or
 - g. A victim of abuse, neglect or violence; and
2. In need of assistance in accessing necessary medical, social, educational, or other services, when comprehensive case management is not being provided elsewhere.

Target group includes individuals transitioning to a community setting. Case-management services will be made available for up to 180 consecutive days of a covered stay in a medical institution. The target group does not include individuals between ages 22 and 64 who are served in Institutions for Mental Disease or individuals who are inmates of public institutions. (State Medicaid Directors Letter (SMDL), July 25, 2000)

Areas of State in which services will be provided (§1915(g)(1) of the Act):

- Entire State
 Only in the following geographic areas:

Comparability of services (§§1902(a)(10)(B) and 1915(g)(1))

- Services are provided in accordance with §1902(a)(10)(B) of the Act.
 Services are not comparable in amount duration and scope (§1915(g)(1)).

Definition of services (42 CFR 440.169): Targeted case management services are defined as services furnished to assist individuals, eligible under the State Plan, in gaining access to needed medical, social, educational and other services. Targeted Case Management includes the following assistance:

1. Comprehensive assessment and periodic reassessment of individual needs, to determine the need for any medical, educational, social or other services. These assessment activities include:
 - taking client history;

State Plan under Title XIX of the Social Security Act**TARGETED CASE MANAGEMENT SERVICES****[Juvenile Parole]**

- identifying the individual's needs and completing related documentation; and
- gathering information from other sources such as family members, medical providers, social workers, and educators (if necessary), to form a complete assessment of the eligible individual;

Assessment and/or periodic reassessment to be conducted at a minimum of once every six months to determine if an individual's needs, conditions, and/or preferences have changed.

2. Development (and periodic revision) of a specific care plan that is based on the information collected through the assessment that:
 - specifies the goals and actions to address the medical, social, educational, and other services needed by the individual;
 - includes activities such as ensuring the active participation of the eligible individual, and working with the individual (or the individual's authorized health care decision maker) and others to develop those goals; and
 - identifies a course of action to respond to the assessed needs of the eligible individual;
3. Referral and related activities (such as scheduling appointments for the individual) to help the eligible individual obtain needed services including:
 - activities that help link the individual with medical, social, educational providers, or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the care plan; and
4. Monitoring and follow-up activities:
 - activities and contacts that are necessary to ensure the care plan is implemented and adequately addresses the eligible individual's needs, and which may be with the individual, family members, service providers, or other entities or individuals and conducted as frequently as necessary, and including at least one annual monitoring, to determine whether the following conditions are met:
 - services are being furnished in accordance with the individual's care plan;
 - services in the care plan are adequate; and
 - changes in the needs or status of the individual are reflected in the care plan. Monitoring and follow-up activities include making necessary adjustments in the care plan and service arrangements with providers.

State Plan under Title XIX of the Social Security Act**TARGETED CASE MANAGEMENT SERVICES****[Juvenile Parole]**

- Periodic Reviews will be completed at least every six months. These activities may be conducted as specified in the care plan, or as frequently as necessary to ensure execution of the care plan.
- Monitoring does not include ongoing evaluation or check-in of an individual when all care plan goals have been met.

X Case management includes contacts with non-eligible individuals that are directly related to identifying the eligible individual's needs and care, for the purposes of helping the eligible individual access services; identifying needs and supports to assist the eligible individual in obtaining services; providing case managers with useful feedback, and alerting case managers to changes in the eligible individual's needs. (42 CFR 440.169(e))

Qualifications of providers (42 CFR 441.18(a)(8)(v) and 42 CFR 441.18(b)):

TCM Provider Agency Qualifications:

The organization providing case management services for Juvenile Parole Services must meet the following provider qualification requirements:

1. A minimum of five years' experience of working successfully with children and families in the target population, including a demonstrated capacity to provide all components of case management.
2. Establish a system to coordinate services for individuals who may be covered under another program which offers components of case management or coordination similar to TCM including, but not limited to, the coordination of services with Managed Care providers, Division of Child and Family Services, as well as State waiver programs; and
3. Demonstrated programmatic and administrative experience in providing comprehensive case management services and the ability to increase their capability to provide their services to the target group; and
4. Must be an agency employing staff with case management qualifications; and
5. Establish referral systems and demonstrated linkages and referral ability with essential social and health service agencies; and
6. A minimum of five years' experience in responding successfully to the needs of children and families in the target population on a countywide 24 hours, seven days a week basis.
7. A minimum of five years' case management experience in coordinating and linking community medical, social, educational, or other resources needed by the target population on a countywide basis.

State Plan under Title XIX of the Social Security Act

TARGETED CASE MANAGEMENT SERVICES

[Juvenile Parole]

8. A minimum of five years' experience in documenting and maintaining individual case records that is in accordance with all applicable state and federal requirements.
9. A minimum of five years' experience of demonstrated capacity in meeting the case management service needs of the target population.
10. Demonstrated capacity to provide training and supervision to individual case managers, including training pertaining to Medicaid-covered services.

Qualifications of individual case managers:

1. Bachelor's degree in criminal justice, psychology, social work or a closely related field; or equivalent college and two years of experience in the criminal justice system to include conducting casework services, making program eligibility determinations, investigating offenders, preparing detailed reports for the purposes of justifying criminal sanctions and/or prosecution, or coordinating with law enforcement agencies, the juvenile justice system, community-based placements, and related State agencies regarding the preparation of parole agreements, placement, program development, obtaining services and the legal process of assigned youth; and
2. Ability to work in and with legal systems, including the court system and law enforcement; and
3. Ability to learn state and federal rules, laws, and guidelines relating to the target population and to gain knowledge about community resources.

Freedom of choice (42 CFR 441.18(a)(1)):

The State assures that the provision of case management services will not restrict an individual's free choice of providers in violation of section 1902(a)(23) of the Act.

1. Eligible individuals will have free choice of any qualified Medicaid provider within the specified geographic area identified in this plan.
2. Eligible individuals will have free choice of any qualified Medicaid providers of other medical care under the plan. Freedom of Choice Exception (§1915(g)(1) and 42 CFR 441.18(b)):

Access to Services (42 CFR 441.18(a)(2), 42 CFR 441.18(a)(3), 42 CFR 441.18(a)(6)):

The State assures the following:

- Case management (including targeted case management) services will not be used to restrict an individual's access to other services under the plan.

State Plan under Title XIX of the Social Security Act**TARGETED CASE MANAGEMENT SERVICES****[Juvenile Parole]**

- Individuals will not be compelled to receive case management services, condition receipt of case management (or targeted case management) services on the receipt of other Medicaid services, or condition receipt of other Medicaid services on receipt of case management (or targeted case management) services; and
- Providers of case management services do not exercise the agency's authority to authorize or deny the provision of other services under the plan.

Payment (42 CFR 441.18(a)(4)):

Payment for case management or targeted case management services under the plan does not duplicate payments made to public agencies or private entities under other program authorities for this same purpose.

Case Records (42 CFR 441.18(a)(7)):

Providers maintain case records that document for all individuals receiving case management as follows: (i) The name of the individual; (ii) The dates of the case management services; (iii) The name of the provider agency (if relevant) and the person providing the case management service; (iv) The nature, content, units of the case management services received and whether goals specified in the care plan have been achieved; (v) Whether the individual has declined services in the care plan; (vi) The need for, and occurrences of, coordination with other case managers; (vii) A timeline for obtaining needed services; (viii) A timeline for reevaluation of the plan.

Limitations:

Case management does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §440.169 when the case management activities are an integral and inseparable component of another covered Medicaid service (State Medicaid Manual (SMM) 4302.F).

Case management does not include, and Federal Financial Participation (FFP) is not available in expenditures for, services defined in §441.169 when the case management activities constitute the direct delivery of underlying medical, educational, social, or other services to which an eligible individual has been referred, including for foster care programs, services such as, but not limited to, the following: research gathering and completion of documentation required by the foster care program; assessing adoption placements; recruiting or interviewing potential foster care parents; serving legal papers; home investigations; providing transportation; administering foster care subsidies; making placement arrangements. (42 CFR 441.18(c))

State Plan under Title XIX of the Social Security Act**TARGETED CASE MANAGEMENT SERVICES****[Juvenile Parole]**

FFP only is available for case management services or targeted case management services if there are no other third parties liable to pay for such services, including as reimbursement under a medical, social, educational, or other program except for case management that is included in an individualized education program or individualized family service plan consistent with §1903(c) of the Act. (§§1902(a)(25) and 1905(c))

Limitations on translation: Arranging for translation activities and/or providing translation as part of the TCM service, including the costs of purchasing translation services from a vendor to enable communication between the client and case manager, is included in the TCM rate. When a case manager provides translation that is unrelated to providing the TCM service, the translation is not claimable as TCM.

Case Management Services Do Not Include:

1. Targeted case management activities that are an integral component of another covered Medicaid service.
2. The direct delivery of an underlying medical, educational, social, or other service to which an eligible individual has been referred.
3. Activities integral to the administration of foster care programs.
4. Activities, for which an individual may be eligible, that are integral to the administration of another non-medical program, except for targeted case management that is included in an individualized education program or individualized family service plan consistent with section 1903(c) of the Social Security Act.

TRANSPORTATION

In accordance with 42 CFR440.170, 42 CFR431.53, 45 CFR92.36.

The State of Nevada, Division of Health Care Financing and Policy (DHCFP) assures it has established a non-emergency transportation (NET) program in order to more cost effectively provide transportation, and can document on request from CMS, that the transportation broker was procured in compliance with requirements of 45CFR92.36(b-f). The State will operate the broker program without the requirements of the following paragraphs of Section 1902(a)(1),(10)(b), and (23).

The State ensures that transportation services will be provided under a contract with a broker who:

1. Is selected through a competitive bidding process based on the state's evaluation of the broker's experience, performance, references, resources, qualifications, and costs;
2. Has oversight procedures to monitor recipient access and complaints and ensures the transportation personnel are licensed, qualified, competent, and courteous;
3. Is subject to regular auditing and oversight by the state in order to ensure that quality of the transportation services provided and adequacy of recipient access to medical care and services;
4. Complies with such requirements related to prohibitions on referrals and conflict of interest as the Secretary shall establish.

The State assures that the NET Broker itself is not a provider of transportation. The NET broker may not hold ownership in any NET provider with whom the broker subcontracts or arranges NET through a non-contractual relationship. This prohibition applies to the corporation, if the broker is incorporated and to the owners, officers, or employees of the broker.

The State of Nevada assures the availability of medically necessary transportation to and from medical providers for eligible Medicaid recipients in the following ways:

Eligible Medicaid program recipients are informed verbally and in writing of the availability of non-emergency transportation services by the Nevada Medicaid contracted Transportation Broker.

Emergency transportation does not require prior authorization. Claims must be submitted to the DHCFP FFS Fiscal Agent or the recipient's Medicaid MCO, if applicable, for processing. Non Emergency Transportation (NET) is contracted by a broker to provide transportation to medically necessary covered services statewide 24 hours a day, seven (7) days per week, including weekends and holidays. The NET broker operates within all applicable Federal, State and local laws.

All NET services require prior authorization by DHCFP's NET broker with the exception of NET services provided by Indian Health Services (HIS) clinics. The NET broker is required to authorize the least expensive alternative conveyance available consistent with the recipient's medical condition and needs.

The NET broker will facilitate rides for recipients requiring door-to-door transport (Paratransit). DHCFP will reimburse the Regional Transportation Commission (RTC) directly for any costs incurred for these services.

Nursing facility NET is included in NF rates.

TRANSPORTATION

Transportation services must be:

1. Medically necessary;
2. Only to and from Nevada Medicaid covered services;
3. Provided by the least expensive means available which is in accordance with the recipient's medical condition and needs;
4. To the nearest appropriate Medicaid health care provider or medical facility.

Covered transportation services may be provided by:

1. Charter air flight;
2. Commercial air;
3. Rotary wing;
4. Fixed wing;
5. Ground ambulance;
6. Air ambulance;
7. Bus, local city;
8. Bus, out of town;
9. Para-transit – Public;
10. Para-transit – Private;
11. Private vehicle; and
12. Taxi.

Travel expenses include:

1. The cost of the ambulance, taxicab, common carrier, or other appropriate means;
2. The cost of meals and lodging en route to and from medical care, and while receiving medical care;
3. An attendant's costs may be covered if an attendant is required to ensure the recipient receives required medical services.

Medicaid does not reimburse the costs of:

1. Non-emergency travel which had not been prior authorized;
2. Transportation to non-covered medical services; or
3. Ambulance charges for waiting time, stairs, plane loadings and in-town mileage;
4. Non-emergency transportation for recipients whose eligibility is pending at the time of transport.
5. No shows, where a ride does not occur.

- C. The Quality Improvement Organization-like vendor under contract with Nevada Medicaid will be responsible for transplant approval for program eligibles based on written Medicare criteria when appropriate, the following Medicaid criteria, and on medical judgment of recipient appropriateness.

STATE PLAN UNDER TITLE XIX OF THE
SOCIAL SECURITY ACT

State: Nevada

Attachment 3.1-E
Page 2

Transplants will not be approved if they are not medically necessary and if:

1. The procedure is specified as experimental by the National Institutes of Health;
2. Another procedure costing less or which is less risky will achieve the same result;
3. The transplant will not make a difference in the recipient's health and performing the transplant will merely serve an academic purpose.
4. The transplant is relatively unsafe given the age and prognosis of the recipient;
and
5. The transplant does not meet appropriate Medicare criteria.

Determination of acceptability for transplants will not be made on the basis of race, color, sex, national origin, handicapping condition, or age except as given in the above criteria.

- D. In the absence of a familial or unrelated organ donor, organs must be procured from an Organ Procurement Organization meeting the requirements of 42 CFR 486. Organ donor search and match services will be approved for payment by Nevada Medicaid or its vendor(s) at negotiated rates.

If transplant services are not available in Nevada, out-of-state services may be approved, including transportation, evaluation, transplant, and follow-up services.

Payment for transportation will be prior authorized by Nevada Medicaid or its vendor(s) to and from an approved transplant facility for all covered medically necessary transplant services.

1932(a)(1)(A)

A. Section 1932(a)(1)(A) of the Social Security Act.

The State of Nevada enrolls Medicaid beneficiaries on a mandatory basis into managed care entities (managed care organization (MCOs) and/or primary care case managers (PCCMs)) in the absence of section 1115 or section 1915(b) waiver authority. This authority is granted under section 1932(a)(1)(A) of the Social Security Act (the Act). Under this authority, a state can amend its Medicaid state plan to require certain categories of Medicaid beneficiaries to enroll in managed care entities without being out of compliance with provisions of section 1902 of the Act on statewideness (42 CFR 431.50), freedom of choice (42 CFR 431.51) or comparability (42 CFR 440.230).

This authority may *not* be used to mandate enrollment in Prepaid Inpatient Health Plans (PIHPs), Prepaid Ambulatory Health Plans (PAHPs), nor can it be used to mandate the enrollment of Medicaid beneficiaries described in 42 CFR 438.50(d).

Where the state's assurance is requested in this document for compliance with a particular requirement of 42 CFR 438 et seq., the state shall place check mark to affirm such compliance.

B. Managed Care Delivery System.

The State will contract with the entity(ies) below and reimburse them as noted under each entity type.

1. MCO
 - a. Capitation
2. PCCM (individual practitioners)
 - a. Case management fee
 - b. Bonus/incentive payments
 - c. Other (please explain below)
3. PCCM (entity based)
 - a. Case management fee
 - b. Bonus/incentive payments
 - c. Other (please explain below)

The State of Nevada Division of Health Care Financing and Policy (DHCFP – aka Nevada Medicaid) oversees the administration of all Medicaid Managed Care Organizations (MCOs) and Medicaid PCCM program(s) in the state. Nevada Medicaid operates a fee-for-service and a managed care reimbursement and service delivery system with which to provide covered medically necessary services to its Medicaid eligible population. Contracted Managed Care Organizations (MCOs) are currently the primary managed care entities providing Medicaid managed care in Nevada; at this time, Nevada Medicaid does not contract with PIHPs or PAHPs.

Payment Methods

Capitation:

MCO contracts are comprehensive risk contracts and are paid a risk-based capitated rate for each eligible, enrolled Medicaid beneficiary on a per-member, per-month (PMPM) basis. These capitated rates are certified to be actuarially sound.

Stop Loss:

Stop Loss occurs when costs of care exceed a threshold during a specified time period. Stop Loss is a re-insurance program where risk is shared between the DHCFP and the MCO for outlier episodic claims. For inpatient claims above a defined threshold, the State pays 75%, and the MCO Vendor has a co-pay of the remaining 25%.

Very Low Birth Weight Newborns (VLBW):

Payments for high-risk very low birth weight newborns are revenue neutral. VLBW payments are paid out of the zero-to-one year age band of capitation based on the risk-adjusted expectation of VLBW birth occurrences, per number of member-months' exposure. MCO plans submit clinical proof of VLBW (<1500 grams) occurrences and are paid according to date and time of delivery. Should eligible VLBW births exceed actuarial limits, MCO plans are fully at-risk for the remainder of the plan year.

PCCM:

PCCM contracts are paid at a PMPM basis for each eligible, enrolled Medicaid beneficiary. In addition, incentive payments could be made when the PCCM achieves specific cost savings goals and/or quality improvement measures.

For states that elect to pay a PCCM a bonus/incentive payment as indicated in B.2.b. or B.3.b, place a check mark to affirm the state has met *all* of the following conditions (which are representative of the risk incentive rules for managed care contracts published in 42 CFR 438.6(c)(5)(iv)).

- a. Incentive payments to the PCCM will not exceed 5% of the total FFS payments for those services provided or authorized by the PCCM for the period covered.

Not applicable to Nevada's PCCM as the incentive methodology was approved by CMS in the Nevada comprehensive Care Waiver (NCCW).

- b. Incentives will be based upon a fixed period of time.
- c. Incentives will not be renewed automatically.
- d. Incentives will be made available to both public and private PCCMs.
- e. Incentives will not be conditioned on intergovernmental transfer agreements.
- f. Incentives will be based upon specific activities and targets.

C. Public Process.

Describe the public process including tribal consultation, if applicable, utilized for both the design of the program and its initial implementation. In addition, describe what methods the state will use to ensure ongoing public involvement once the state plan program has been implemented. (*Example: public meeting, advisory groups.*)

Pursuant to 42 CFR 438.50(b)(4), the State shall provide public notice to promote public involvement in the design and initial implementation of the program as well as during contract procurement. The public notice shall be a notice of publication published in a newspaper in Southern Nevada and in a newspaper in Northern Nevada. The Medical Care Advisory Committee (MCAC) advises the DHCFP regarding provisions of services for the health and medical care of Medicaid beneficiaries. Under the PCCM, an outreach plan is required and designed to educate stakeholders on its activities within the State.

2. **Excluded Groups.** Within the populations identified above as Mandatory or Voluntary, there may be certain groups of individuals who are excluded from the managed care program. Please indicate if any of the following groups are excluded from participating in the program:

Other Insurance--Medicaid beneficiaries who have other health insurance.

Reside in Nursing Facility or ICF/MR--Medicaid beneficiaries who reside in Nursing Facilities (NF) or Intermediate Care Facilities for the Mentally Retarded (ICF/MR).

Nursing Facility:

The MCO is required to cover the first 45 days of a nursing facility admission. The MCO shall notify the DHCFP of any nursing facility stay admission expected to exceed forty-five (45) days. The beneficiary will be disenrolled from the MCO and the stay will be covered by FFS commencing on the 46th day of the facility stay.

ICF/ID:

Residents of ICF/ID facilities are not eligible for enrollment with the MCO. If a beneficiary is admitted to an ICF/ID after MCO enrollment, the beneficiary will be disenrolled from the MCO and the admission, bed day rate, and ancillary services will be reimbursed through FFS.

Enrolled in Another Managed Care Program - Medicaid beneficiaries who are enrolled in another Medicaid managed care program

Eligibility Less Than 3 Months - Medicaid beneficiaries who would have less than three months of Medicaid eligibility remaining upon enrollment into the program.

Participate in HCBS Waiver--Medicaid beneficiaries who participate in a Home and Community Based Waiver (HCBS, also referred to as a 1915(c) waiver).

Beneficiaries who are receiving HCBS Waiver are not eligible for enrollment with the MCO. If a beneficiary is made eligible for the HCBS Waiver after MCO enrollment, the beneficiary will be disenrolled and the HCBS Waiver will be reimbursed through FFS.

Retroactive Eligibility--Medicaid beneficiaries for the period of retroactive eligibility.

Other (Please define):

Swing bed stays in acute hospitals over forty-five (45) days

The MCO is required to cover the first forty-five (45) days of a swing bed. The MCO shall notify the DHCFP of any swing bed stay expected to exceed forty-five (45) days. The beneficiary will be disenrolled from the MCO and the stay will be covered by FFS commencing on the forty-sixth (46th) day of the facility stay.

Residential Treatment Center (RTC)

Medicaid beneficiaries will be disenrolled from the MCO in the month following the RTC admission. The RTC admission, bed day rate, and ancillary services will be reimbursed through FFS thereafter for Title XIX Medicaid Beneficiaries.

Hospice

Medicaid beneficiaries who are receiving hospice services are not eligible for enrollment with the MCO. If a Medicaid beneficiary is made eligible for hospice services after MCO enrollment, the beneficiary will be disenrolled from the MCO and the hospice services will be reimbursed through FFS.

Seriously Emotionally Disturbed/Severely Mentally Ill SED/SMI, with limitations

The MCO is required to notify the DHCFP if a Title XIX Medicaid beneficiary elects to disenroll from the MCO following the determination of SED/SMI. However, in the event the Medicaid beneficiary, who has received such a determination, chooses to remain enrolled with the MCO, the MCO will be responsible for providing all patient care.

Nevada Medicaid Newly Eligibles, defined as childless adults ages 19-64, and the expanded parent and caretakers ages 19-64, who are made eligible as part of the PPACA expansion population and who are receiving the Alternative Benefit Plan, cannot opt out of managed care, where available, based on a determination of Serious Mental Illness (SMI).

F. Enrollment Process.

1. Definitions.

- a. Auto Assignment- assignment of a beneficiary to a health plan when the beneficiary has not had an opportunity to select their health plan.
- b. Default Assignment- assignment of a beneficiary to a health plan when the beneficiary has had an opportunity to select their health plan.

2. Please describe how the state effectuates the enrollment process. Select an enrollment methodology from the following options and describe the elements listed beneath it:

- a. The applicant is permitted to select a health plan at the time of application.

- i. How the state fulfills its obligations to provide information as specified in 42 CFR 438.10(e).

At the time of application, the applicant is provided with each MCO plan's telephone number and website. The MCOs have complete lists of active providers on their websites. The applicants also have access to a comparison chart of the MCOs which highlights each plan's added benefits.

- ii. What action the state takes if the applicant does not indicate a plan selection on the application.
A first time beneficiary, that is one who has never been enrolled in an MCO and who is not joining an established case, will be asked to

State: Nevada

Citation

Condition or Requirement

complete their selection of an MCO at the time of Medicaid application. Their enrollment will go into effect immediately upon approval of their Medicaid eligibility.

Absent a choice by the applicant, the State will complete a default enrollment process, and they will be assigned to an MCO based upon an algorithm developed by the State to distribute enrollees among the MCOs.

The beneficiary has a 90-day period in which they are entitled to change MCOs. Beneficiaries may also change their MCO once every 12 months during open enrollment.

For a beneficiary, new to Medicaid or returning, who is joining an open case where another family member is currently enrolled in an MCO; they will automatically be assigned to the same MCO as the rest of the family and will not have a 90 day right to change period. Their enrollment will go into effect immediately upon approval of their Medicaid eligibility.

These new case members, as well as the rest of the family, remain locked-in until the next open enrollment period.

A returning Medicaid beneficiary who had a lapse in managed care enrollment for 2 months or less due to a loss in Medicaid eligibility will automatically be assigned to their former MCO. For those returning in the first month, their enrollment will go into effect the beginning of that month with no lapse in enrollment. For those returning in the second month, their enrollment will go into effect immediately upon approval of their Medicaid eligibility. They will not have a 90 day right to change period and will be considered locked-in until the next open enrollment period.

A returning Medicaid beneficiary, who had a lapse in managed care enrollment for 2 months or less for reasons other than a loss in Medicaid eligibility OR for more than 2 months no matter the reason, will have enrollment rules applied as follows. Their enrollment will go into effect immediately upon approval of their Medicaid eligibility.

If the beneficiary is returning to an open case where another family member is currently enrolled in an MCO, they will automatically be assigned to the same MCO as the rest of the family and they will not have a 90 day right to change period and will be considered locked-in until the next open enrollment period.

If there are no other family members on the case currently enrolled in an MCO, and the beneficiary made a new MCO choice on their application, they will be enrolled into their MCO of choice and may disenroll without cause within the first 90 days of enrollment.

If the beneficiary did not make a new choice on their application, they will be assigned to their former MCO and may disenroll without cause within the first 90 days of enrollment.

State: Nevada

Citation

Condition or Requirement

Regardless of which enrollment or default assignment process is used, the head of household will be notified of all choices that need to be made, the timeframe for making these choices, and the consequence of not making a choice.

For the MCOs, the total maximum lock-in period is 12 months inclusive of the initial 90 days up front to disenroll without cause. The beneficiaries will be notified of their option to change MCOs at least 60 days prior to the end of the lock-in period. Beneficiaries will be allowed to change MCOs during the annual open enrollment period.

- iii. If action includes making a default assignment, describe the algorithm used and how it meets all of the requirements of 42 CFR 438.50(f).

To reduce large disparities and adverse risk between MCOs, the State uses a default assignment algorithm for auto-assignment of first time beneficiaries. The algorithm will give weighted preference to any new MCO, as well as MCOs with significantly lower enrollments. This is based on a formula developed by the State. The State may also adjust the auto-assignment algorithm in consideration of the MCO's clinical performance measure results or other measurements. The algorithm is as follows:

*Auto Assignment Algorithm				
Number of Plans in Geographic Service Area	Percentage of Beneficiaries Assigned to Largest Plan	Percentage of Beneficiaries Assigned to 2nd Largest Plan	Percentage of Beneficiaries Assigned to 3rd Largest Plan	Percentage of Beneficiaries Assigned to 4th Largest Plan
2 plans	34%	66%		
3 plans	17%	33%	50%	
4 plans	10%	10%	30%	50%
* The function of the algorithm is to ultimately achieve no more than a 10% differential in enrollment between all MCO contractors. Once the differential is achieved, use of this algorithm will be discontinued and head of households will be auto assigned on rotating basis.				

- iv. The state's process for notifying the beneficiary of the default assignment. (Example: *state generated correspondence.*)

State: Nevada

Citation	Condition or Requirement
----------	--------------------------

Once an assignment has been made using the State's enrollment rules, the appropriate Welcome to Managed Care letter is mailed by the State's fiscal agent

- b. The beneficiary has an active choice period following the eligibility termination.
 - i. How the beneficiary is notified of their initial choice period, including its duration.
 - ii. How the state fulfills its obligations to provide information as specified in 42 CFR 438.10(e).
 - iii. Describe the algorithm used for default assignment and describe the algorithm used and how it meets all of the requirements of 42 CFR 438.50(f).
 - iv. The state's process for notifying the beneficiary of the default assignment.
- c. The beneficiary is auto-assigned to a health plan immediately upon being determined eligible.
 - i. How the state fulfills its obligations to provide information as specified in 42 CFR 438.10(e).
 - ii. The state's process for notifying the beneficiary of the auto-assignment. (*Example: state generated correspondence.*)
 - iii. Describe the algorithm used for auto-assignment and describe the algorithm used and how it meets all of the requirements of 42 CFR 438.50(f).

1932(a)(4)
42 CFR 438.50

3. State assurances on the enrollment process.

Place a check mark to affirm the state has met all of the applicable requirements of choice, enrollment, and re-enrollment.

- a. The state assures it has an enrollment system that allows Beneficiaries who are already enrolled to be given priority to continue that enrollment if the MCO or PCCM does not have capacity to accept all who are seeking enrollment under the program.
- b. The state assures that, per the choice requirements in 42 CFR 438.52, Medicaid Beneficiaries enrolled in either an MCO or PCCM model will have a choice of at least two entities unless the area is considered rural as defined in 42 CFR 438.52(b)(3).

This exception to choice applies to the PCCM(s). Under the NCCW authority, beneficiaries are allowed to choose from at least two care managers. This does not apply to the MCOs, which are only located in urban areas.

State: Nevada

c. The state plan program applies the rural exception to choice requirements of 42 CFR 438.52(a) for MCOs and PCCMs in accordance with 42 CFR 438.52(b). Please list the impacted rural counties: All 15 rural Nevada counties.

This provision is not applicable to this 1932 State Plan Amendment.

d. The state applies the automatic reenrollment provision in accordance with 42 CFR 438.56(g) if the recipient is disenrolled solely because he or she loses Medicaid eligibility for a period of 2 months or less.

This provision is not applicable to this 1932 State Plan Amendment.

1932(a)(4)
42 CFR 438.56

G. Disenrollment

1. The state will limit disenrollment for managed care.

2. The disenrollment limitation will apply for twelve months (up to 12 months).

The state assures that beneficiary requests for disenrollment (with and without cause) will be permitted in accordance with 42 CFR 438.56(c).

3. Describe the state's process for notifying the Medicaid Beneficiaries of their right to disenroll without cause during the first 90 days of their enrollment. (*Examples: state generated correspondence, HMO enrollment packets etc.*)

A beneficiary in their 90 day right to change period is notified by a Welcome to managed Care letter mailed by the State's fiscal agent. The letter provides the beneficiary with the instructions and timeframe for requesting a switch in their MCO plan.

4. Describe any additional circumstances of "cause" for disenrollment (if any).

For cause disenrollments can be determined by the DHCFP on a case by case basis where one MCO is better able to provide for unusual needs of a specific family member, while at the same time the other MCO is better able to provide for unusual needs of a different family member.

H. Information Requirements for Beneficiaries

1932(a)(5)(c)
42 CFR 438.50
42 CFR 438.10

The state assures that its state plan program is in compliance with 42 CFR 438.10(e) for information requirements specific to MCOs and PCCM programs operated under 1932(a)(1)(A)(i) state plan amendments.

1932(a)(5)(D)(b)

I. List all benefits for which the MCO is responsible.

The MCOs are responsible for providing their members all Medicaid State Plan benefits, except the following services:

should request and receive medical records regarding those covered services/treatments provided by HIS. The MCO is required to coordinate all services with IHS.

Non-emergency transportation

The DHCFP or its designee will authorize and arrange for all medically necessary non-emergency transportation. The MCO must verify medical appointments upon request by the DHCFP or its designee.

School Based Child Health Services (SBCHS)

The DHCFP has an agreement with several school districts to provide selected medically necessary covered services through School Based Child Health Services (SBCHS) to eligible Title XIX Medicaid beneficiaries. Eligible Medicaid enrollees, who are three (3) years of age and older, can be referred to a school based child health service for an evaluation by their private physician, school physician, special education teacher, school nurse, school counselor, parent or guardian, or social worker. If the child is found eligible for these services, then an Individual Education Plan (IEP) is developed for the child, which is sent to the child's PCP within the managed health care plan. Title XIX Medicaid eligible children are not limited to receiving health services through the school districts. Services may be obtained through the Vendor rather than the school district, if requested by the parent/legal guardian.

All Pre-Admissions Screening and Resident Review (PASRR) and Level of Care (LOC)

Assessments are performed by the State's Fiscal Agent. Conducting a PASRR and LOC will not prompt MCO disenrollment, however, if the beneficiary is admitted to a nursing facility as the result of a PASRR and LOC, the MCO is responsible for the first 45 days of admission.

Adult Day Health Care

Adult Day Health Care (ADHC) services for eligible managed care beneficiaries are covered under fee-for-service. The Vendor is responsible for ensuring referral and coordination of care for ADHC services.

Targeted Case Management

Targeted Case Management (TCM) has a specific meaning for Nevada Medicaid and Nevada Check Up. TCM, as defined by Chapter 2500 in the Medicaid Services Manual is carved out of the managed care contracts. Case management, with differs from TCM, is required from the contracted Vendors.

Orthodontic Services

The contracted MCOs are required to provide all covered medically necessary dental services with the exception of orthodontic services, which are covered under FFS.

beneficiaries per service area. The MCOs are required to use geo-mapping and data-driven analyses to ensure compliance with access standards and take appropriate corrective action, if necessary, to comply with such access standards. The contract includes appointment access standards. If a recipient is having access to care issues, they can contact their MCO for assistance, which must ensure timely access to covered services. The MCOs partner actively with the DHCFP, community providers and stakeholders to identify and address issues and opportunities to improve health care access and availability for Medicaid and CHIP members.

1932 (a)(1)(A)(ii) N. Selective Contracting Under a 1932 State Plan Option

To respond to items #1 and #2, place a check mark. The third item requires a brief narrative.

1. The state will intentionally limit the number of entities it contracts under a 1932 state plan option.
2. The state assures that if it limits the number of contracting entities, this limitation will not substantially impair beneficiary access to services.
3. Describe the criteria the state uses to limit the number of entities it contracts under a 1932 state plan option. (*Example: a limited number of providers and/or enrollees.*)

Historically Nevada has limited its managed care program to two managed care organizations to ensure an adequate number of enrollees to support the administrative and quality management requirements of the program. In the future, due to the large increase in enrollment in managed care resulting from Nevada implementing the expansion to the Medicaid population authorized by the Patient Protection and Affordable Care Act, Nevada may increase the number of managed care organizations it contracts with.

4. The selective contracting provision in not applicable to this state plan.

- 1. Program Title:** **NEVADA 1915(i) STATE PLAN HOME AND COMMUNITY BASED SERVICES** - Including Adult Day Health, HCBS Home-Based Habilitation and HCBS Partial Hospitalization.

§1915(i) Home and Community Based Services (HCBS) State Plan Services
ADMINISTRATION AND OPERATION

2. State-wideness:

- The State implements this supplemental benefit package statewide, per §1902(a)(1) of the Act.
- The State implements this benefit without regard to the state wideness requirements in §1902(a)(1) of the Act.:
 - Geographic Limitation. HCBS state plan services will only be available to individuals who reside in the following geographic areas or political subdivisions of the State.:
 - Limited Implementation of Participant-Direction. HCBS state plan services will be implemented without regard to state-wideness requirements to allow for the limited implementation of participant-direction. Participant-direction is available only to individuals who reside in the following geographic areas or political subdivisions of the State. Individuals who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State.:

ADMINISTRATION AND OPERATION

3. State Medicaid Agency (SMA) Line of Authority for Operating the HCBS State Plan Supplemental Benefit Package:

- The HCBS state plan supplemental benefit package is operated by the SMA. Specify the SMA division/unit that has line authority for the operation of the program (*select one*):
 - The Medical Assistance Unit: **Division of Health Care Financing and Policy**
 - Another division/unit within the SMA that is separate from the Medical Assistance Unit

- The HCBS state plan supplemental benefit package is operated by: a separate agency of the State that is not a division/unit of the Medicaid agency. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this delegation of authority is available through the Medicaid agency to CMS upon request.

§1915(i) Home and Community Based Services (HCBS) State Plan Services
ADMINISTRATION AND OPERATION

4. Distribution of State Plan HCBS Operational and Administrative Functions.

- The State assures that in accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration or supervision of the state plan. When a function is performed by other than the Medicaid agency, the entity performing that function does not substitute its own judgment for that of the Medicaid agency with respect to the application of policies, rules and regulations. Furthermore, the Medicaid Agency assures that it maintains accountability for the performance of any operational, contractual, or local regional entities.:

For items 1., 4., 5., 6., 7., 8., 9. and 10., the Medicaid Fiscal Intermediary which is the QIO-like agency in Nevada will serve as the contracted entity.

For item 10, the Nevada Divisions of Aging Services (DAS), Division of Child and Family Services (DCFS), and Mental Health and Developmental Services (MHDS) as well the Office of Disability Services (ODS) will assist in disseminating information concerning the state plan HCBS and enrolling potential recipients.

§1915(i) Home and Community Based Services (HCBS) State Plan Services

ADMINISTRATION AND OPERATION

5. **Conflict of Interest Standards.** The State assures the independence of persons performing evaluations, assessments, and plans of care. Written conflict of interest standards ensure, at a minimum, that persons performing these functions are not:

- related by blood or marriage to the individual, or any paid caregiver of the individual
- financially responsible for the individual
- empowered to make financial or health-related decisions on behalf of the individual
- for assessments and plan of care
- providers of State plan HCBS for the individual, or those who have interest in or are employed by a provider of State plan HCBS; except at the option of the State, when such individuals are the only willing and qualified provider in a geographic area, and the State devises conflict of interest protections. *(If the State chooses this option, specify the conflict of interest protections the State will implement):*

The individual performing assessment, eligibility, and plan of care must be an independent third party.

2. Medically Needy.:

- The State does not provide HCBS state plan services to the medically needy.
- The State provides HCBS state plan services to the medically needy:
 - The State elects to waive the requirements at section 1902(a)(10)(C)(i)(III) of the Social Security Act relating to community income and resource rules for the medically needy.
 - The State does not elect to waive the requirements at section 1902(a)(10)(C)(i)(III).

§1915(i) Home and Community Based Services (HCBS) State Plan Services
NEEDS-BASED EVALUATION/REEVALUATION

1. Responsibility for Performing Evaluations / Reevaluations. Independent evaluations / reevaluations to determine whether applicants are eligible for HCBS are performed:

Directly by the Medicaid agency

By Other: QIO-like agency

§1915(i) Home and Community Based Services (HCBS) State Plan Services
NEEDS-BASED EVALUATION/REEVALUATION

2. Qualifications of Individuals Performing Evaluation/Reevaluation. There are qualifications (that are reasonably related to performing evaluations) for persons responsible for evaluation/reevaluation for eligibility.:

1. The QIO-like agency employs licensed registered nurses and licensed social workers to evaluate/re-evaluate for eligibility.
2. All the individuals performing evaluations/reevaluations will have professional credentials and experience in evaluating an individual's needs for medical and social supports.

§1915(i) Home and Community Based Services (HCBS) State Plan Services

NEEDS-BASED EVALUATION/REEVALUATION

3. **Process for Performing Evaluation/Reevaluation.** Describe the process for evaluating whether individuals meet the needs-based State plan HCBS eligibility criteria and any instrument(s) used to make this determination. If the reevaluation process differs from the evaluation process, describe the differences:

Prior authorization must be obtained through the QIO-like vendor using universal needs assessment tool. This same process is used to both evaluate and reevaluate whether an individual is eligible for the 1915(i) services.

§1915(i) Home and Community Based Services (HCBS) State Plan Services
NEEDS-BASED EVALUATION/REEVALUATION

- 4. Needs-based HCBS Eligibility Criteria.** Needs-based criteria are used to evaluate and reevaluate whether an individual is eligible for HCBS state plan services. The criteria take into account the individual's support needs and capabilities and may take into account the individual's ability to perform two or more ADLs, the need for assistance, and other risk factors:

The "1915(i) Home and Community Based Services Universal Needs Assessment Tool" will be used to evaluate and reevaluate whether an individual is eligible for the Nevada 1915(i) HCBS state plan services. In order to qualify for services, the individual meets at least two of the following:

1. the inability to perform 2 or more ADLs;
2. the need for significant assistance to perform ADLs;
3. risk of harm;
4. the need for supervision;
5. functional deficits secondary to cognitive and /or behavioral impairments.

§1915(i) Home and Community Based Services (HCBS) State Plan Services
NEEDS-BASED EVALUATION/REEVALUATION

5. **Needs-based Institutional and Waiver Criteria.** There are needs-based criteria for receipt of institutional services and participation in certain waivers that are more stringent than the criteria above for receipt of HCBS state plan services. Individuals receiving institutional services and participating in certain waivers on the date that more stringent criteria become effective are exempt from the new criteria until such time as they no longer require that level of care. *(Include copies of the State’s official documentation of the need-based criteria for each of the following):*

- *Applicable Hospital*
- *NF*
- *ICF/MR*

Differences Between Level Of Care Criteria

State Plan HCBS needs-based eligibility criteria	NF (& NF LoC waivers)	ICF/MR (& ICF/MR LoC waivers)	Long Term Care Hospital LoC

§1915(i) Home and Community Based Services (HCBS) State Plan Services

PERSON-CENTERED PLANNING & SERVICE DELIVERY

1. The State assures that there is an independent assessment of individuals determined to be eligible for HCBS. The assessment is based on:
- An objective face-to-face evaluation by an independent agent trained in assessment of need for home and community-based services and supports;
 - Consultation with the individual and others as appropriate;
 - An examination of the individual’s relevant history, medical records, care and support needs, and preferences;
 - Objective evaluation of the inability to perform, or need for significant assistance to perform 2 or more ADLs (as defined in §7702B(c)(2)(B) of the Internal Revenue Code of 1986);
 - Where applicable, an evaluation of the support needs of the individual (or the individual’s representative) to participant-direct; and
 - A determination of need for at least one State plan home and community-based service before an individual is enrolled in the State plan HCBS benefit.

§1915(i) Home and Community Based Services (HCBS) State Plan Services

PERSON-CENTERED PLANNING & SERVICE DELIVERY

2. The State assures that, based on the independent assessment, the individualized plan of care:
- Is developed by a person-centered process in consultation with the individual, the individual's: treating physician, health care or supporting professional, or other appropriate individuals, as defined by the State, and where appropriate the individual's family, caregiver, or representative;
 - Identifies the necessary HCBS to be furnished to the individual;
 - Takes into account the extent of, and need for, any family or other supports for the individual;
 - Prevents the provision of unnecessary or inappropriate care;
 - Is guided by best practices and research on effective strategies for improved health and quality of life outcomes; and
 - Is reviewed at least annually and as needed when there is significant change in the individual's circumstances.

PERSON-CENTERED PLANNING & SERVICE DELIVERY

3. **Responsibility for Face-to-Face Assessment of an Individual's Support Needs and Capabilities.** There are educational/professional qualifications (that are reasonably related to performing assessments) of the individuals who will be responsible for conducting the independent assessment, including specific training in assessment of individuals with physical and mental needs for HCBS.:

A physician or other licensed practitioner of the healing arts within the scope of this professional practice as defined and limited by Federal and State law with experience in conducting assessments will be responsible for conducting the face-to-face independent assessments and reassessments of an individual's support needs and capabilities.

§1915(i) Home and Community Based Services (HCBS) State Plan Services

PERSON-CENTERED PLANNING & SERVICE DELIVERY

4. **Responsibility for Service Plan Development.** There are qualifications (that are reasonably related to developing plans of care) for persons responsible for the development of the individualized, person-centered plan of care.

The service plan is developed by the service provider. An interdisciplinary team will formulate the plan in conjunction with the recipient. The team must include staff trained in person-centered planning, and must include a licensed health care professional and may include other individuals who can contribute to the plan development. Recipient and family involvement in service planning must be documented in the Service Plan.

The Conflict of Interest Standards specified in Administration and Operation, question #5 are applicable to service plan development.

§1915(i) Home and Community Based Services (HCBS) State Plan Services

PERSON-CENTERED PLANNING & SERVICE DELIVERY

- 5. Supporting the Participant in Service Plan Development.** Supports and information are made available to the participant (and/or the additional parties specified, at the choice of the participant) to direct and be actively engaged in the service plan development process.:

Participants are provided by the service case manager or the DHCFP District Office staff with information about the person-centered planning process, their opportunity to select who participates in the planning, the services available and the available providers.

The provider will ensure the recipient, or the recipient's legal representative, is fully involved in the treatment planning process and choice of providers. The provider will also ensure the participant has an understanding of the needed services and the elements of the Service Plan. Participant's, family's (at the choice of the participant) and/or legal representative's participation in treatment planning must be documented on the Service Plan.

Providers will ensure the recipient or the recipient's legal representative is fully involved in the plan of care and ongoing day to day delivery of services, while promoting the rights of the client in regards to choice of services and providers.

§1915(i) Home and Community Based Services (HCBS) State Plan Services
PERSON-CENTERED PLANNING & SERVICE DELIVERY

6. Informed Choice of Providers:

A physician or other licensed practitioner of the healing arts conducts the needs-based assessment and refers the recipient to the local Medicaid District Office for a list of providers who meet Medicaid requirements and have a Medicaid contract to provide needed services. The Medicaid District Office will provide information and assistance in contacting Medicaid providers, including a list of providers and service descriptions. The recipient or the recipient's representative contacts the provider to select a provider of services. The provider of services is responsible for obtaining a written statement that the recipient was offered a choice of providers.

§1915(i) Home and Community Based Services (HCBS) State Plan Services

SERVICES**Service Title: Home and Community Based Services (HCBS) Day Treatment or Other Partial Hospitalization Services for Individuals with Chronic Mental Illness**

Service Definition (Scope): Partial Hospitalization Services for Individuals with Chronic Mental Illness is a comprehensive interdisciplinary program aimed at supporting individuals with chronic mental illness and substance related disorders that require assistance with the acquisition, retention, or improvement of skills related to living in home and community based settings. The services are furnished under a medical model by a hospital or in an outpatient hospital setting. The service helps recipients with chronic mental illnesses reside in the most normative and least restrictive, family centered environment, and integrated setting appropriate to the their medical needs. The goal is to divert recipients from institutional settings to home and community based settings.

Services include:

- Day treatment,
- Partial hospitalization,
- Intensive Outpatient,
- Medication management,
- Medication management training and support,
- Crisis intervention,
- Screening, assessments, and diagnosis,
- Care coordination,
- Family, group, and individual therapy,
- Psychosocial rehabilitation,
- Communications skills,
- Occupational therapy, and
- Basic skills training:
 - maintenance of the home and community living environment,
 - restoration and maintenance of activities of daily living,
 - community integration and adaptation skills training and development, and
- Therapeutic social and leisure skills training and development.

The service must be prescribed by a physician or other licensed practitioner of the healing arts within the scope of this professional practice as defined and limited by Federal and State law.

QUALITY MANAGEMENT STRATEGY

<p>Describe the process(es) for remediation and systems improvement.</p>	<p>Serious occurrence reports, Participant Experience Surveys and program review reports that identify issues related to a specific participant will be referred to the District Office case manager to assess and remediate immediately, if appropriate. Central Office program specialists will analyze all review findings, prepare reports as indicated above, make recommendations for remediation and submit to a management team or program chief. The report will include an executive summary that highlights important issues that require attention and remediation. Providers will be informed and educated when problems are identified. When necessary a plan of improvement will be required of specific providers that do not meet standards specified in the Medicaid Services Manual. If corrective action is determined by DHCFP to not be adequate, appropriate actions will be taken and may include temporary suspension or full termination of provider Medicaid contracts. Program specialists will assess the effectiveness of remediations and report results to the management team or program chief. The Management Team or Program Chief will review and approve the report or return to the program specialist for additional information or action. When complete the program specialist and the management team or Program Chief will determine whether the monitoring system has been effective or needs improvement.</p> <p>The State plans to treat remediation and improvement activities for delegated functions by a similar methodology to the process described above. Once any issue is identified through management procedures or reports related to claims utilization, level of care determinations, notices of decision, fair hearing outcomes, audit findings, or utilization management trends, DHCFP works directly with the responsible delegated entity to remediate the findings and prioritize in its systems improvement processes. DHCFP is in the process of developing a meaningful, statewide monitoring, analysis and remediation system for these occurrences. DCHFP will assess how best to distinguish and prioritize incident reports to identify trends and work with affected entities to effectively prioritize based on the impact to the recipient and the needs of all parties involved.</p>

COORDINATION OF TITLE XIX WITH SPECIAL SUPPLEMENTAL FOOD PROGRAM
FOR WOMEN, INFANTS AND CHILDREN (WIC)

The following method is used to provide for the coordination between the Medicaid Agency and the Special Supplemental Food Program for Women, Infants and Children (WIC) for the dissemination of the program's benefits to Medicaid applicant/recipients.

- A. Maintain communication with State's WIC operations to promote timely and accurate dissemination of WIC program benefits and modifications.
- B. Generate a one time informational mailing of the WIC program's benefits to all Medicaid applicants and recipients to insure notification of the target population, (i.e. all individuals who are determined to be eligible for medical assistance and who are pregnant women, breastfeeding or postpartum women... or children under the age of five).
- C. Revise initial and redetermination applicant and recipient interview procedures to distribute written WIC information and to verbally describe the availability of the WIC program's benefits to insure dissemination of information whether or not the potential beneficiary can read.

**STATE OF NEVADA
STATE PLAN AMENDMENT
MEDICAID MANDATORY MANAGED CARE PROGRAM**

Under Section 1932(A)(1)(A)
Mandatory Managed Care Program

I. Eligibility

1. Eligible Categories

The State of Nevada Mandatory Managed Care Program will include the following Medicaid eligibility categories:

1. Temporary Assistance for Needy Families (TANF);
2. Two parent TANF;
3. TANF - Related Medical Only;
4. TANF - Post Medical;
5. TANF - Transitional Medical;
6. TANF Related (Sneede vs. Kizer); and
7. Child Health Assurance Program (CHAP).

2. Eligible Category Exemptions

The State of Nevada Mandatory Managed Care Program assures the exclusion of the following Medicaid eligible individuals from mandatory enrollment:

1. Adults diagnosed as seriously mentally ill (SMI) by the Nevada State Division of Mental Hygiene and Mental Retardation (MH/MR).
2. Children diagnosed as seriously emotionally disturbed (SED) by the Nevada State Division of Child and Family Services (DCFS) or MH/MR in rural areas.
3. Children who are inpatients of a Residential Treatment Center(RTC);
4. Individuals with comprehensive health coverage from another organization or agency which cannot be billed by a managed care organization.
5. Children with special health care needs.
Children with special health care needs are defined as:
 1. Those who have, or are at risk for, chronic physical, developmental, behavioral, or emotional conditions; and
 2. Who also require health and related services of a type and amount beyond that required by children in general; and
 3. Receiving services through a family-centered, community-based, coordinated care system receiving grant funds, under section 501(a)(1)(D) of Title V of the Social Security Act. There are two facilities in Nevada named Special Children's Clinics, one in Washoe County and one in Clark County; or
 4. Participants utilizing or obtaining services through the First Step or Happy programs or
 5. Participant/guardian self-identification of potential child with special health care needs.

C. Excluded Medicaid Eligible Categories

Individuals federally exempt from mandatory enrollment are:

1. Children under the age of 19:
 - a. Children eligible for SSI under Title XIX;
 - b. Children described in section 1902(e)(3) of the Social Security Act (Katie-Beckett);
 - c. Children in foster care or other out-of-town placement;
 - d. Children receiving foster care or adoption assistance; or
 - e. Children as identified under I.B.5. above.
2. The Aged, Blind and Disabled eligible for SSI, as a state institutional case or through a Home- and Community-Based Waiver.
3. Dual Medicare-Medicaid eligibles.
4. American Indians who are members of a Federally-recognized tribe.

D. Voluntary Participants

The State will allow American Indians, participants diagnosed SED or SMI and children as identified in I.B.5., to voluntarily enroll in an HMO under the mandatory managed care program. These categories of enrollees are not subject to mandatory lock-in enrollment provisions.

II. Enrollment

A. Process

The State will conduct enrollment sessions with all Medicaid eligibles in groups of 10 - 30 at a time.

1. The sessions are scheduled in conjunction with the initial eligibility interview or the redetermination interview where third party liability information is also collected.
2. Attendance at the enrollment sessions is voluntary.
3. The State assures the information will be presented to non-English speaking participants in a culturally competent manner.

3. Methodology

The content of the enrollment session is provided through:

1. A video;
2. State or State contract staff presentation following the video and responding to participant questions;
3. State written information; and
4. State approved HMO materials.

1. **Content**

The content of the enrollment sessions includes information as follows:

1. Rights and responsibilities of the participant;
2. Services and items covered by the HMO;
3. Benefits outside the managed care contract and how the recipients may access these services;
4. Grievance and appeal rights provided by the HMO and the State Fair Hearing process, and the procedures for using them;
5. Lists of providers participating with each HMO
6. Service areas covered by each HMO
7. When information is available, performance and quality of services provided by the HMOs, including a comparison chart regarding benefits, cost sharing, and service areas;
8. Assurances that recipients may disenroll with cause at any time and without cause within the first 90 days of enrollment in the HMO, and at least every 12 months. The total lock-in period is 12 months inclusive of the initial 90 days up front to disenroll without cause. The recipients will be notified of their option to change HMOs at least 60 days prior to the end of the lock-in period.
9. Instructions for disenrolling from one HMO and choosing another, including the caution that if another HMO is not chosen, the State will select one for the recipient.
10. Explanation of enrollment exemptions as given in I.B. above.
11. Attendees will be asked to complete their selections of HMOs and PCPs/PCs at the end of the session or prior to the eligibility decision date. If none is chosen, the State will complete a default enrollment, in accordance with 1932(a)(4)(C) and 1932(a)(4)(D), maintaining existing provider-recipient relationships, or relationships with traditional Medicaid providers wherever possible. When this criteria is not possible, the default process will provide an equitable distribution of auto-enrollees among the HMOs. When an attendee does not select an HMO, the State will assign family unit cases to an HMO in the following order:
 1. Enroll the attendee in the HMO the attendee had previously chosen under the Nevada Medicaid voluntary enrollment managed care program, if applicable;
 2. Enroll a weighted number of enrollees based on the number of contracts each HMO has with Nevada Medicaid-defined traditional providers. These providers are:
 - 1) University of Nevada School of Medicine
 - 2) University Medical Center
 - 3) Federally Qualified Health Care Centers
 - 4) Other State-identified essential community providers.
 3. If no previous enrollment under the voluntary managed care program exists and there is no difference between the number of contracts with traditional providers between HMOs, a family case unit will be assigned to the HMOs by a consecutive rotation between the HMOs in the service area.

III. Geographic Areas

The State assures individuals will have a choice of at least two HMOs in each geographic area. Those geographic areas are limited to Clark and Washoe counties. In accordance with NAC 695C.160, Medicaid eligible recipients are exempt from mandatory participation if they live more than 25 miles from a managed care contracted physician and hospital. When fewer than 2 HMOs are available for choice in the geographic areas listed, the managed care program will be voluntary.

IV. Cost Sharing

There is no cost sharing for Medicaid services.

V. Program Administration

A. Exemption Process

Medicaid eligibles specified in I.C. above are identified by an aid category number, except for I.C.1.e. and I.C.4. individuals. First, these persons (aid category identified) will not be required to attend the enrollment session. Second, the computer system will not allow a Medicaid eligible with an exempt aid category number to enroll. If a Medicaid eligible given in category I.A. above becomes exempt under I.C. above, the computer system will identify the exempt aid category and require disenrollment. Medicaid eligibles listed in category I.B. and I.C.4. above will be excluded from mandatory enrollment by the following methods:

1. Medicaid will have data base matches with the State Division of MH/MR for SMI individuals, DCFS for SED and Division of Health which operates the two Special Children=s Clinics for children with special health care needs. The participants will be identified through a data match of name, Social Security number and birth date. Matching recipients will not be enrolled in an HMO or will be disenrolled if enrollment has occurred after notification to the recipient, parent or guardian.
2. The above-mentioned agencies will notify Medicaid when:
 1. A client was erroneously enrolled and not identified by the data match, and
 2. New clients to their agencies, who were previously enrolled in an HMO, will be disenrolled after notification to the recipient, parent or guardian.
3. The recipient, parent or guardian may identify themselves or child as meeting the definition of an SMI, SED or child with special health care needs at any time, starting with the eligibility interview and/or orientation session. Medicaid will immediately verify their status and take appropriate action.
4. Exclusion of categories I.B.3. and 4 and I.C.4. will begin in the eligibility interview and/or orientation session. Recipients will be asked to identify themselves. Medicaid staff present in the orientation session will also assist clients based on questions and information given to determine if they are not required to enroll in the mandatory program.
5. Medicaid staff, dealing with the inpatient placement of children into Residential Treatment Centers, will provide the Medicaid Managed Care Unit (MCU) staff with additional identification for category I.B.3. above.
6. Once a person is identified as exempt, a computer record code is used for identification.

B. Provider Panel & Credentials

Any HMO, licensed by the Nevada Department of Business & Industry, Division of Insurance, able to provide services as outlined by the conditions of the Mandatory Managed Care contract, will be considered for participation. The State assures all contracts with HMOs will comply with all pertinent sections of 1932 and 1903(m) of the Social Security Act.

1. The State assures it will monitor the contracted HMOs to ensure sufficient numbers of medical providers, willing and open to accept Medicaid recipients, to meet the requirement of the contract. Services shall be provided at levels no less than those given by Medicaid under fee-for-service to all participants, as defined in the State Plan, Nevada State Medicaid Service Manuals and Provider Bulletins.
 2. The Mandatory Managed Care contract contains specific provisions regarding primary care physicians. Each HMO must maintain a specified ratio of PCPs to participants (1 PCP/across board specialist: 1500 participants; 1 PCP with extender: 1800 participants) in each geographic service area; a specified percentage of each HMO=s provider panel (50% per geographic area) must be willing and currently open to Medicaid enrollees; and the State reserves the right to stop enrollment in an HMO when it is discovered that the HMO-PCP panel does not fall within the ratio or percentage requirements.
 3. Prior to the effective date of any contract, MCU staff will conduct a readiness review, including review of PCP contracts. The HMO must have its contracts with providers in good order and signed. If an HMO lacks sufficient contracts, the state will not begin enrollment in the HMO. The effective date of the Medicaid contract with an HMO is dependent upon the HMO meeting all contract requirements.
 4. The State will conduct reviews at least annually. Provider contracts will be reviewed again and, if the HMO is deficient, the State will suspend enrollment and request a plan of corrective action. Between readiness reviews and annual reviews, the State will review any information regarding access problems and conduct reviews and apply contract suspension of enrollment rules when necessary.
3. Compliance
- The State further assures all requirements of sections 1903(m) and 1932 of the Social Security Act will be met. All relevant provisions are included in the contract with the HMOs, either as contractor or State responsibility. On site reviews will be conducted as both scheduled and unscheduled activities by MCU staff.
1. The MCU will monitor and oversee the operation of the mandatory managed care program, assuring compliance with all federal program requirements, federal and state laws and regulations, and the requirements of the contract agreed upon by Medicaid and the HMOs.
 2. Compliance will be evaluated by review and analysis of reports prepared and sent to the MCU by the HMO contractors. Deficiencies in one or more areas will result in the HMO being required to prepare a corrective action plan, which will also be monitored by the MCU.
 3. Reports from the grievance and complaint process will be analyzed and used for evaluation purposes.

4. MCU staff will provide technical assistance as necessary to ensure the HMOs have adequate information and resources to comply with all the requirements of law and their contract.
5. MCU staff will evaluate each HMO for financial viability/solvency, access and quality assurance.

D. Cultural & Linguistic Sensitivity

Specific, designated enrollment sessions with Hispanic interpretation services are, and will continue to be, provided. Additional translator services are available through the Language Bank, which covers a wide variety of languages and dialects. Primary care physicians and other providers are required to list the languages spoken in their practices. This information is included on the provider lists from which recipients make their health care choices. Appropriate methods for communicating with the visually and hearing impaired participants and accommodations for the physically disabled participants are available and access provided through the Medicaid staff on a pre-identified, individual basis.

E. Coordination with Out-of-Plan and Excluded Services

The State assures the services provided within the managed care network, and out-of-plan and excluded services, will be coordinated. The required coordination is specified in the State contract with the HMOs and is specific to service type and/or service provider.

VI. Rates & Payments

Rates for the two geographic areas of Nevada, Clark and Washoe counties, are established through a consulting actuarial firm, Nevada Medicaid fee-for-service rates, as well as other health care cost data, were considered in the development of the fees. The contract with the Actuary requires that calculated rates shall be actuarially sound and consistent with the Upper Payment Limit requirement at 42 CFR 447.361. State payments to contractors will comply with the upper payment limit provisions in 42 CFR 447.361 or 447.362, as applicable.

DHCFP, via its title XIX State Plan Attachment 3.1.E, covers corneal, kidney, liver, and bone marrow transplants and associated fees for adult recipients. For children to the age of 21 any medically necessary transplant that is not experimental will be covered. The health plan may claim transplant case reimbursement from DHCFP for inpatient medical expenses above the threshold of \$100,000 in a one-year period (State Fiscal Year). Seventy five percent (75%) of the expenses above \$100,000 are reimbursed to the health plan.

At the discretion of DHCFP administration, a recipient enrolled in a health maintenance organization may elect to re-enroll in (or receive treatment from) another HMO at any time that is in the medical best interest of the recipient, or the financial best interest of DHCFP, so long as this is done with the recipient's full understanding of the reason for the reassignment and with the recipients complete agreement. For those same reasons, and within those same restrictions and guidelines stated above, DHCFP may also assign the management and payment of a fee for service recipient's transplant to an HMO, so long as the recipient has elected such assignment, that assignment is only for the purpose of the transplant and there is no disruption of the recipient's medical home other than what is absolutely necessary for the success of the transplant. In any case, as soon as the transplant is complete, the recipient will be returned to his original health care delivery model, including the return to the original HMO.

Associate Regional Administrator
Division of Medicaid and Children's Health Operations, CMS

Dear Ms. Nagle:

Enclosed please find Nevada's State Plan Amendment (SPA) #12-009. This SPA amends Nevada's State Plan effective July 1, 2012.

On behalf of the State of Nevada Division of Health Care Financing and Policy, I would like to request an exception to 42 CFR 455.508(b) which requires States to have a minimum 1.0 FTE Contractor Medical Director for Nevada's Medicaid RAC. The Nevada Medicaid RAC contract was awarded to HMS Holdings Corp and continues through December 31, 2016. Due to the nature and level of clinical review work projected to be performed, it is reasonable to consider that a full time Contracted Medical Director is not warranted for this individual state RAC contract. The State proposes to hire a 0.5 FTE CMD and utilize our contractor's contracted physician review panel for specialty peer reviews as required. In addition to this approach, our contractor has a full time (FTE) National Medical Director who is licensed in another state that brings national knowledge and experience to our RAC program, while the NV licensed CMD, and NV licensed contract physician review panel brings local state perspective and understanding of state health policy and coverage issues. We believe this approach will work well for the State and minimize cost prohibitive concerns resulting from the requirement of hiring a FTE CMD under this contingency fee based contract. The DHCFP and HMS believe that the spirit and intent of the Medicaid rule for a full time Contract Medical Director is to follow the Medicare RAC guidelines. We are empathetic to the concerns posed by providers regarding the availability of a licensed physician Contracted Medical Director and we intend to ensure that a Contracted Medical Director is available. However, CMS requires *Medicare RACs to employ one full time Contract Medical Director to oversee each awarded 7 to 20-state Medicare region, not each state*. Because of this, the DHCFP would like to be granted the ability to determine the appropriate staffing level for our Contracted Medical Director.

Our RAC administrator, HMS, employs Contracted Medical Directors (CMDs) who are currently licensed, have extensive knowledge of state coverage and payment rules, and have appropriate clinical experience. The CMD selected for the RAC will work closely with HMS's

*Nevada Department of Health and Human Services
Helping People -- It's Who We Are And What We Do*

Corporate Medical Officer (CMO), Dr. David Sand. Dr. Sand has extensive RAC experience, including serving as a CMD in the Medicare RAC pilot program, and as a member of HMS's physician panel to oversee clinical activities and determinations. The CMD for the Nevada RAC will oversee the medical review process, assist review staff upon request or as required, oversee quality assurance procedures, and maintain relationships with provider associations.

All of the physicians used by HMS are subjected to rigorous credentialing, including primary verification of licensure and certification by an American Board of Medical Specialties or American Osteopathic Association recognized board, as well as queries of the National Practitioners' Data Bank and the Department of Health and Human Services Office of the Inspector General's List of Excluded Individuals and Entities. No physician with a significant entry or exclusion is permitted to serve on their panel.

As detailed above, we believe that the approach used by HMS exceeds CMS' Final Rule statement that the RAC must employ an FTE CMD. Under the RAC contract, HMS will provide:

1. A Nevada-licensed CMD, whose staffing hours would be correlated with the volume of the RAC contract clinical reviews;
2. A panel of Nevada-licensed physician reviewers as needed; and
3. A resource of 800 physician peer reviewers nationwide.

As demonstrated by HMS's current Program Integrity contracts, due to the deep and ongoing involvement of their Chief Medical Officer, Contracted Medical Directors, and physician panel, we are confident that HMS can achieve the highest levels of quality, accuracy, and objectivity required of the Nevada RAC without employing a separate full time Nevada CMD. This approach ensures that the CMD has adequate knowledge and experience working on RAC programs, rather than having to place individuals in this role that may not have experience serving as a RAC CMD. For these reasons, the State of Nevada DHCFF does not believe employing a FTE CMD is appropriate for our state RAC and would request that we be given the ability to determine the appropriate staffing levels for our CMD.

Thank you for your consideration and should you have any questions regarding this request, please contact Marta Stagliano, Chief, Compliance at (775) 684-3623 or Marta.Stagliano@dchfp.nv.gov.

Sincerely,

Michael J. Willden, Director

Nevada Medicaid maintains interagency agreements with Nevada State Health Division and Rehabilitation Division. The Health Division provides family planning services, Early and Periodic Screening, Diagnosis and Treatment Services (EPSDT), Special Children's Clinic Services, Crippled Children's Services, TB Control, Pre-screening for institutional care and Maternal and Child Health Services. The Rehabilitation Division administers the vocational rehabilitation program throughout the State. (The Health Division provides Maternal and Child Health Services and EPSDT services in all rural counties and Crippled Children's Services statewide.)

Nevada Medicaid also maintains interagency agreements with other Title V grantees, the Health Division, the Clark County Health District, Washoe County District Health Department and Economic Opportunity Board. In Clark County the Health District and Economic Opportunity Board provide EPSDT and Maternal and Child Health services; in Washoe County the Health Department provides them.

The above mentioned agreements meet all of the following requirements:

1. They specify:
 - a. The mutual objectives and responsibilities of each party to the agreement;
 - b. The services each party offers and under what circumstances;
 - c. The cooperative and collaborative relationship at the State level;
 - d. The kinds of services to be provided by local agencies; and
 - e. The methods for:
 - 1) Early identification of individuals under age 21 in need of medical or remedial services;
 - 2) Reciprocal referrals;
 - 3) Coordinating plans for health services provided or arranged for recipients;
 - 4) Payment or reimbursement;
 - 5) Exchange of reports of services provided to recipients;
 - 6) Periodic review and joint planning for changes in the agreements;

- 7) Continuous liaison between the parties including designation of State and local liaison staff; and
- 8) Joint evaluation of policies which affect the cooperative work of the parties.

Nevada Medicaid, if requested by the Title V grantee, reimburses the grantee or the provider for the cost of services furnished to recipients by or through the grantee, in accordance with the Nevada Medicaid State Plan.

All of the current above mentioned agreements are on file at the Nevada Medicaid Office and are available for review.

(a) Liens

— The State imposes liens against an individual's real property on account of medical assistance paid or to be paid.

The State complies with the requirements of section 1917(a) of the Act and regulations at 42 CFR 433.36(c) (g) with respect to any lien imposed against the property of any individual prior to his or her death on account of medical assistance paid or to be paid on his or her behalf.

— The State imposes liens on real property on account of benefits incorrectly paid.

— The State imposes TEFRA liens 1917(a)(1)(B) on real property of an individual who is an inpatient of a nursing facility, ICF/MR, or other medical institution, where the individual is required to contribute toward the cost of institutional care all but a minimal amount of income required for personal needs.

The procedures by the State for determining that an institutionalized individual cannot reasonably be expected to be discharged are specified in Attachment 4.17-A. (NOTE: If the State indicates in its State Plan that it is imposing TEFRA liens, then the State is required to determine whether an institutionalized individual is permanently institutionalized and afford these individuals notice, hearing procedures, and due process requirements.

X The State imposes liens on both real and personal property of an individual after the individual's death.

The State complies with the requirements of section 1917(b) of the Act and regulations at 42 CFR 433.36(h)-(i).

Adjustments or recoveries for Medicaid claims correctly paid are as follows:

- (1) For permanently institutionalized individuals, adjustments or recoveries are made from the individual's estate or upon sale of the property subject to a lien imposed because of medical assistance paid on behalf of the individual for services provided in a nursing facility, ICF/MR, or other medical institution.

X Adjustments or recoveries are made for all other medical assistance paid on behalf of the individual.

- (2) X The State determines "permanent institutional status" of individuals under the age of 55 other than those with respect to whom it imposes liens on real property under (ss)1917(a)(1)(B) (even if it does not impose those liens).

- (3) For any individual who received medical assistance at age 55 or older, adjustments or recoveries of payments are made from the individual's estate for nursing facility services, and related hospital and prescription drug services.

X In addition to adjustment or recovery of payments for services listed above, payments are adjusted or recovered for other services under the State Plan as listed below:

All other Medicaid services currently covered under Nevada's State Plan for recipients age 55 and over, except for Medicare cost sharing as identified in Section 4.17(b)(3-Continued).

4.17 (b) Adjustments or Recoveries

(3) (Continued)

Limitations on Estate Recovery – Medicare Cost Sharing:

- i. Medical assistance for Medicare cost sharing is protected from estate recovery for the following categories of dual eligibles: QMB, SLMB, QI, QDWI, QMB+, SLMB+. This protection extends to medical assistance for four Medicare cost sharing benefits: (Part A and B premiums, deductibles, coinsurance, co-payments) with dates of service on or after January 1, 2010. The date of service for deductibles, coinsurance, and co-payments is the date the request for payment is received by the State Medicaid Agency. The date of service for premiums is the date the State Medicaid Agency paid the premium.
- ii. In addition to being a qualified dual eligible the individual must also be age 55 or over. The above protection from estate recovery for Medicare cost sharing benefits (premiums, deductibles, coinsurance, co-payments) applies to approved mandatory (i.e., nursing facility, home and community-based services, and related prescription drugs and hospital services) as well as optional Medicaid services identified in the State plan, which are applicable to the categories of duals referenced above.

- (2) With respect to liens on the home of any individual who the State determines is permanently institutionalized and who must as a condition of receiving services in the institution apply their income to the cost of care, the State will not seek adjustment of recovery of medical assistance correctly paid on behalf of the individual until such time as none of the following individuals are residing in the individual's home:
 - (a) a sibling of the individual (who was residing in the individual's home for at least one year immediately before the date that the individual was institutionalized), or
 - (b) a child of the individual (who was residing in the individual's home for at least two years immediately before the date that the individual was institutionalized) who establishes to the satisfaction of the State that the care the child provided permitted the individual to reside at home rather than become institutionalized.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
LIENS AND ADJUSTMENT OR RECOVERIES

1. The State defines "estate" as follows:

"ESTATE" - means all real and personal property and other assets included in the estate of a deceased recipient of Medicaid and any other assets in or to which he/she had an interest or legal title at the time of their death, to the extent of that interest or title. The term includes assets passing by reason of joint tenancy, *tenants-in-common*, life estate, survivorship, living trust, annuity, homestead or other arrangement.

2. The State uses the following notification procedures):

a. Advance Notice Procedure

- 1) All Medicaid applicants are notified of the Medicaid Estate Recovery program at their initial application process and annual redetermination, via the Signature and Affirmation (2920-EM (9/01) which they read and sign. Along with the application or redetermination, the applicant is provided with "Medicaid Estate Recovery Notification of Program Operation" (form 6160) which is signed and dated by the eligibility worker to confirm that a copy was provided to the applicant. The applicant keeps a copy of this form and a copy is filed in the permanent section of the client's case file.

b. Recovery Notification Procedures

Immediately following case identification, all known heirs, survivors and designated representatives are notified of:

- 1) the State's interest in the decedent's estate and of the right to recovery,
- 2) the amount of Medicaid assistance paid, to date, on behalf of the decedent,
- 3) the priority of estate creditors as defined by Nevada State Law, and
- 4) the method through which an undue hardship waiver may be pursued.

3. The State defines undue hardship as severe financial duress or a significant compromise to an individual's health care or shelter needs.

4. Application for Undue Hardship Waiver - Any heir or survivor may seek an undue hardship waiver by submitting a written request for a waiver by completing an "Application (Request) for a Hardship Waiver Regarding Recovery of Correctly Paid Medicaid Benefits" form, within thirty (30) days of notification of the Division's intent to recover. Documentary evidence that supports the applicant's claim should be attached. The written decision of the Administrator will be provided to the applicant 90-days from receipt of the request.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEVADA

Attachment 4.17-A
Page 2

5. The State will waive enforcement of any estate recovery claim when the requesting party is able to show, through convincing evidence, the state's pursuit of estate recovery subjects them to undue hardship. A claim for emotional hardship is not considered sufficient to warrant waiver approval. No waiver will be granted if the Division finds the undue hardship was created by estate planning methods by which the waiver applicant or deceased client divested, transferred or otherwise encumbered assets, in whole or part, to avoid estate recovery. In determining whether undue hardship exists, the following criteria will be used:
 - a. The asset to be recovered is the sole income-producing asset of the applicant; or,
 - b. The recovery of the assets would result in the applicant becoming eligible for governmental public assistance based on need and/or medical assistance programs; or,
 - c. A doctor's written verification of a medical condition that compromises the applicant's ability to repay the Medicaid claim.
6. If an undue hardship waiver is requested and the State determines that none of the above conditions apply, full payment of the claim may be ordered, recovery may be temporarily waived, compromised, or modified. The following factors shall be considered individually or in combination when making a decision to temporarily waive, modify, or compromise estate recovery:
 - a. The gross annual income, property and other assets of the applicant and their immediate family;
 - b. The type and level of care provided by the applicant (caregiver) to the decedent and the extent to which the care delayed or prevented the institutionalization of the decedent;
 - 1) The State uses the following process for determining if the applicants will be considered as caregivers when through clear evidence they substantiate:
 - a) Maintained residency in the Medicaid recipient's home for at least two years immediately preceding the recipient's death or admission into a nursing facility, intermediate care facility for the mentally retarded or other medical institutions; and
 - b) Provided care for the Medicaid recipient which meets or exceeds published state standard established for Intermediate Care Level (ICL 1), which includes as necessary, assisting the individual with ambulatory needs, feeding, grooming, personal hygiene, oral hygiene, nail care, bathing toilet activities, skin care and medical needs.
 - c. The applicant continuously resided with the decedent for two years or more immediately prior to the decedent's death and continues to reside in the decedent's residence and the prior occupancy permitted the decedent to reside at home rather than in an institution;
 - d. The estimated value of the real or personal property at issue. If the cost of recovering the asset(s) of the deceased Medicaid recipient is more than the value of the asset(s), it would not be cost effective to recover, and/or;
 - e. The financial impact of recovery against immediate family members of the applicant.

- f. Applicants who seek a recovery delay (i.e., temporary waiver) will be given the opportunity to provide written details or complete an “Application for a Hardship Waiver Regarding Recovery of Correctly Paid Medicaid Benefits” form, within 30-days of notification of the Division’s intent to recover.
7. The following collection methods may be utilized when recovery is temporarily waived, compromised, or modified:
- a. Reduction of recovery amount;
 - b. Reasonable payment schedule based on the asset to be recovered; and/or
 - c. Where not prohibited by law, imposition of a lien against the assets of the deceased Medicaid recipient.
 - 1) Before imposition of a lien, the Division shall notify all persons having an interest in the estate of the deceased Medicaid recipient and petition the appropriate district court for the imposition of a lien per NRS 422.29355.
 - 2) If a lien is placed on an individual’s home, adjustment or recovery will only be made when:
 - a) there is no surviving spouse;
 - b) there is no child under the age of 21; or
 - c) there is no blind or disabled (as defined in Section 1614 of the Social Security Act) child of the Medicaid recipient.
 - 3) The lien will become due and payable upon the sale, refinance, transfer or change in title to the real property; and /or escrow funding, but only when there is no surviving spouse, children under 21, blind or disabled children of the Medicaid recipient. Recovery is limited to the Medicaid recipient’s interest in the property at the time of claim payment not to exceed the Medicaid claim or the percentage of interest of the Medicaid recipient in the asset.
 - 4) Upon payment of the claim, or need of the statutory exemptions, the division will prepare a release of lien or subordinate the lien. This release will be provided to the appropriate entity; such as, an escrow company or the county recorder’s office.
8. The following time frames are used by the State in considering the waiving of estate recoveries:
- a. Any beneficiary, heir or family member claiming entitlement to receive the assets of the deceased Medicaid recipient may apply for a hardship waiver by submitting a written request for a waiver within 30-days of being notified of intent to recover to the Medicaid Estate Recovery unit.
 - b. The Division may request additional information or documentation from the waiver applicant. If some or all of the additional information or documentation is not provided within 30 days of the request, the hardship waiver request will be considered solely on the basis of the information and documentation provided.

- c. Within 90-days of receipt of the undue hardship waiver request, the Division Administrator OR his appointed representative, will issue a written decision granting or denying the applicant's request for an undue hardship waiver.
9. The State defines cost-effective as follows (include methodology/thresholds used to determine cost effectiveness):
 - a. Cost-effective recovery is accomplished when the amount recovered exceeds the administrative (direct or indirect) expense associated with obtaining the recovery such as, but not limited to, legal fees and expenses.
 - b. Many of the estate recovery activities have been automated thereby minimizing correspondence costs. Individual case analysis and management is not required until a ninety (90) day delinquency has occurred.
 - c. Therefore, case costs would begin to accrue after this time. Costs such as, but not limited to, staff costs, document filing fees, legal costs, postage, copying, travel and indirect administrative costs would be considered.
 10. The Division may elect not to recover a Medicaid Estate Recovery claim when the State determines that it is not cost-effective to do so.
 - a. Cost-effectiveness will be decided on a case-by-case basis.
 - b. If the Medicaid claim is \$100 or less or the value of the asset to be recovered is \$100 or less, recovery may not be pursued.
 11. Hearing and Appeal Procedures
 - a. If the undue hardship waiver is denied, the decision may be appealed within 30 days through the appropriate district court (Administrative Procedure Act 233B.130).
 12. Action to Enforce Recovery:
 - a. Actions to enforce recovery of Medicaid Estate Recovery claims are accomplished through legal means using, if necessary, the appropriate court of jurisdiction. Use of the court protects the due process right of all and guarantees safe protection of the law.
 - b. NRS. 150.220; "Priority of Creditors" list the order in which assets are to be distributed after death. Money owed to the Department of Human Resources as a result of benefits paid to the Medicaid recipient is listed as Number 6 in order of payment.
 - c. Time Frames Involved
 - 1) Action to Enforce

Recovery Limitations of time to contest specific actions are detailed in Nevada State Law NRS 422.2785.

Exceptions:				
1.	Services furnished to children under the age of 19.			
2.	Services furnished to pregnant women if such services relate to the pregnancy.			
3.	Services furnished to any individual who is an inpatient in a hospital, long-term care facility or other medical institution and who is required, as a condition of receiving services in the institution, to spend down for medical costs all but a minimal amount required for personal needs.			
4.	Services provided in a facility equipped to furnish the required care to meet a medical emergency.			
5.	Services and supplies furnished to individuals of child-bearing age as part of the family planning program.			
6.	Services furnished by a health maintenance organization (HMO); (at such time as HMO services become a part of the Nevada Medicaid program).			

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEVADA

- B. The method used to collect cost sharing charges for the categorically needy individuals:
- Providers are responsible for collecting the cost sharing charges from individuals.
 - The agency reimburses providers the full Medicaid rate for a service and collects the cost sharing charges from individuals.
- C. The basis for determining whether an individual is unable to pay the charge, and the means by which such an individual is identified to providers, is described below:

The provider determines whether the recipient can pay by asking. However, certain groups of recipients are exempt from copayment by Medicaid policy. These individuals are identified by notation on their Medicaid certificate. The recipients include: those under the age of 19; pregnant women for those services related to pregnancy; institutionalized individuals; those receiving emergency services; those receiving family planning services; and those receiving services as part of an HMO program. Co-payment amounts are deducted automatically from the computer-calculated Medicaid payments to the provider.

State: NEVADA

- D. The procedures for implementing and enforcing the exclusions from cost sharing contained in 42 CFR 447.53(b) are described below:

Providers were informed by bulletin December 8, 1983; the recipient's Medicaid Certificate would show under the notes column the recipient was exempt from copayment. Through Medicaid's post-payment review system, three percent of the recipients whose services are paid each month are sent VOS forms which include a question about recipient payment for service. In addition, recipients are informed of their exempt status.

- E. Cumulative maximums on charges:

- State policy does not provide for cumulative maximums.
- Cumulative maximums have been established as described below:

4.19(m) Medicaid Reimbursement for Administration of Vaccines under the Pediatric Immunization Program

1928(c)(2) (i) A provider may impose a charge for the administration of a qualified pediatric
(C)(ii) of Act vaccine as stated in 1928(c)(2)(C)(ii) of the Act. Within this overall provision, Medicaid reimbursement to providers will be administrated as follows:

(ii) The State:

___ sets a payment rate at the level of the regional maximum established by the DHHS Secretary.

___ is a Universal Purchase State and sets a payment rate at the level of the regional maximum established in accordance with State law.

X sets a payment rate below the level of the regional maximum established by the DHHS Secretary.

___ is a Universal Purchase State and sets a payment rate below the level of the regional maximum established by the Universal Purchase State.

1926 of (iii) Medicaid beneficiary access to immunization is assured through the following
the Act methodology:

The Nevada State Health Division is designated as the lead Agency for the Pediatric Immunization Program. As such, the Health Division is responsible for the ordering, storage and shipping of vaccine from the Centers for Disease Control and Prevention as well as for the recruitment, education, and review of immunization practices of providers. The Nevada Medicaid Program (through the Division of Health Care Financing and Policy) reimburses health care professionals who are contracted with the Nevada Medicaid Program for the administration of immunizations provided to Medicaid eligible individuals.

The Division of Health Care Financing and Policy (Nevada Medicaid Program) and the Nevada State Health Division are sister agencies. Nevada Medicaid staff collaborate with the Health Division and staff of the District Offices to provide outreach regarding immunizations.

Nevada Medicaid Program Managed Care Organizations (MCO) require network providers to enroll in the Vaccines for Children (VFC) Program and to work with the Health Division regarding immunizations.

PAYMENT FOR INPATIENT HOSPITAL SERVICES
ASSURANCES AND RELATED INFORMATION

- A. State Assurances and Findings. The State assures that it has made the following findings:
1. 447.253(b)(1)(i) - The State pays for inpatient hospital services through the use of rates that are reasonable and adequate to meet the costs that must be incurred by efficiently and economically operated providers to provide services in conformity with applicable State and Federal laws, regulations, and quality and safety standards.
 2. With respect to inpatient hospital services
 - a. 447.253(b)(1)(ii)(B) - The methods and standards used to determine payment rates take into account the situation of hospitals which serve a disproportionate number of low income patients with special needs.
 - b. 447.253(b)(1)(ii)(B) - The State elects in its State Plan to cover inappropriate level of care services (that is, services furnished to hospital inpatients who require a lower covered level of care such as skilled nursing services or intermediate care services) under conditions similar to those described in Section 1861 (v)(1)(G) of the Act. The methods and standards used to determine payment rates specify that the payments for this type of care must be made at rates lower than those for inpatient hospital level of care services, reflecting the level of care actually received, in a manner consistent with Section 1861(v)(1)(G) of the Act.
 - c. 447.253(b)(1)(ii)(C) - The payment rates are adequate to assure that recipients have reasonable access, taking into account geographic location and reasonable travel time, to inpatient hospital services of adequate quality.
 3. 447.253(b)(2) - The proposed rate will not exceed the upper payment limits as specified in 42 CFR 447.272:
 - a. 447.272(a) - Aggregate payments made to hospitals for inpatient services when considered separately, will not exceed the amount that can reasonably be estimated would have been paid for under Medicare Payment principles.
 - b. 447.272(b) - Aggregate payments to State-operated hospitals for inpatient services when considered separately will not exceed the amount that can reasonably be estimated would have been paid for under Medicare payment principles.

- c. 447.272(c) B Aggregate disproportionate share hospital (DSH) payments do not exceed the DSH payment limits at 42 CFR 447.296 through 447.299.
- d. OBRA 93 B DSH payments to each hospital, including those owned or operated by the state or an instrumentality or unit of government within the state, beginning in SFY 1996, are limited to 100% of uncompensated costs.

B. State Assurances. The State makes the following additional assurances:

- 1. For hospitals --
 - a. 447.253(c) - In determining payment when there has been a sale or transfer of the assets of a hospital, the State's methods and standards provide that payment rates can reasonably be expected not to increase in the aggregate solely as a result of changes of ownership, more than payments would increase under Medicare under 42 CFR 413.130, 414.134, 413.153 and 413.157 insofar as these sections affect payment for depreciation, interest on capital indebtedness, return on equity (if applicable), acquisition costs for which payments were previously made to prior owners, and the recapture of depreciation.
- 2. 447.253(e) - The State provides for an appeals or exception procedure that allows individual providers an opportunity to submit additional evidence and receive prompt administrative review, with respect to such issues as the State determines appropriate, of payment rates.
- 3. 447.253(f) - The State requires the filing of uniform cost reports by each participating provider.
- 4. 447.253(g) - The State provides for periodic audits of the financial and statistical records of participating providers.
- 5. 447.253(h) The State has complied with the public notice requirements of 42 CFR 447.205. Notice published on N/A (Amendment not significant).
- 6. 447.253(i) - The State pays for inpatient hospital services using rates determined in accordance with the methods and standards specified in the approved state plan.

Estimated proposed payment per Medicaid day as a result of this amendment:
\$576.02

Estimated payment per Medicaid day for the immediately preceding rate period:
\$576.02

Amount of change: 0 Percent of change: 0%

Nevada=s aggregate DSH payment for this year and the immediately preceding year is \$73,560,000. The DSH program this year is based on uncompensated costs for the majority of the hospitals, and not on Medicaid utilization. The amendment to the DSH methodology will have no effect on the payment per day.

2. 447.255(b) - The estimated short term and long-term effect of the change in the estimated average rate on:

a. The availability of services on a statewide and geographic area basis: NONE

b. The type of care furnished: NONE

c. The extent of provider participation: NONE

d. The degree to which costs are covered in hospitals that serve a disproportionate number of low income patients with special needs.

The change in the disproportionate share program will restrict payment to those hospitals that specialize in providing mental health services to low income patients. Since payments to such specialized hospitals was minimal there is no indication that this change will limit provider participation, type of care provided or availability of services. In aggregate, none of the remaining hospitals will receive less and some will receive more as a result of the proposed change.

PAYMENT FOR INPATIENT HOSPITAL SERVICES METHODS AND STANDARDS

I. HOSPITALS UNDER PROSPECTIVE RATES

Types of rates: Inpatient hospital services, which have been authorized for payment at the acute level by a quality improvement organization (QIO-like vendor), as specified in the contract between the QIO-like vendor and Nevada Medicaid, are reimbursed by all-inclusive, prospective per diem rates by type of admission. The all-inclusive prospective rates cover routine and ancillary services furnished by the hospital, including direct patient care for professional services furnished to inpatients by hospital-staffed physicians and practitioners. All-inclusive per diem rates are developed for Maternity, Newborn, Neonatal, Rehabilitative/Specialty Hospital, Level I Trauma, Medical/Surgical, and Psychiatric/Substance Abuse Treatment admissions, as described in Sections II, III, and IV. All-inclusive rates for selected Organ Transplants are described in Section III. Administrative day rate development is covered in Section V. Critical Access Hospitals under Medicare retrospective cost reimbursements are described in Section VII.

II. PROSPECTIVE RATE DEVELOPMENT (Prior to September 1, 2003)

The primary goals of the inpatient hospital rate methodology are: Rates should be based on actual, reasonable, and allowable hospital costs, and the rate development method should comply with federal requirements. The prospective rates are inclusive of all ancillary services required by patients.

A. Basic data sources for tier rate development.

1. The most recently filed Hospital Health Care Complex Cost Report (HCFA 2552) was the basis for identifying allowable cost. Routine cost limits were not applied.
2. Paid claims and billing information were taken from the Nevada database for Medicaid claim payment history report for services provided during the period covered by the HCFA 2552.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

Attachment 4.19-A

Page 2

B. Adjustments made to determine allowable cost.

The following adjustments were made to each individual hospital's cost report:

1. An audit adjustment was applied to the total Medicaid cost for each hospital. The adjustment was determined by using an average for each hospital of the audit adjustment percentages for the three most recent years available. Adjustments for two years were used if three were not available.
2. Since the hospitals' cost report periods vary, all cost data was indexed to the same period, using the Medicare inflation factor for non-prospective payment system (non-PPS) hospitals.

III. Conversion of Existing Tier Rates to Per Diem Rates as of September 1, 2003

The current hospital inpatient tier rates for Medical/Surgical, Maternity, and Newborn inpatient categories are in effect for Medicaid payments made through August 31, 2003.

In order to convert to a MMIS system on September 1, 2003, hospital reimbursement tier rates will be converted to per diem rates. The Maternity and Newborn service categories will be retained. The service category Medical/Surgical will be converted to Level I Trauma and Medical/Surgical categories.

These per diem rates will be effective for claims paid on or after September 1, 2003, with admission dates before September 8, 2008. The Level I Trauma will be retained at the September 1, 2003 amount.

A. Maternity Rate Conversion

An all-inclusive per diem rate is paid for obstetrical hospital admissions. The rate also covers related admissions such as false labor, undelivered OB, and miscarriages.

Historical Medicaid data for the Calendar Year (CY) ended December 31, 2002, has been extracted showing Medicaid Maternity admissions and Maternity patient days by tier. Projected Maternity payments for each tier are calculated as CY2002 Maternity admissions per tier times the current tier rate. Total projected Maternity payments are the sum of all projected tier payments.

The conversion per diem rate for Maternity has been determined by the following formula:

$$\frac{\text{Total Projected Maternity Payments}}{\text{CY2002 Historical Maternity Patient Days}} = \text{Maternity Per Diem Rate}$$

For services performed on or after January 1, 2006, the maternity per diem rate will be determined by multiplying a factor of 1.1001 times the conversion per diem rate.

For services performed on or after July 1, 2007, the maternity per diem rate will be determined by multiplying a factor of 1.0757 times the conversion per diem rate.

For services performed for claims with an admission date on or after September 8, 2008, the maternity per diem rate will be calculated as follows:

1. Charges submitted for claims paid in SFY 2007 were used from the Nevada Medicaid claims data.
2. The number of days admitted (the length of stay) for claims paid in SFY 2007 was used to calculate each claim's billed charges per day.
3. The per diem rate will be 34% of the median of billed charges per day for Nevada in-patient hospitals for obstetric services.

This rate will be used as a prospective rate until rebased as directed by the Department of Health and Human Services. There will be no cost settlement.

For services performed for claims with an admission date on or after July 9, 2015, the maternity per diem rate will be determined by multiplying a factor of 1.05 times the September 8, 2008 per diem rate.

B. Newborn Rate Calculation

An all-inclusive per diem rate will be developed for newborns admitted through routine delivery at a hospital.

Historical Medicaid data for the Calendar Year (CY) ended December 31, 2002, has been extracted showing Medicaid Newborn admissions and Newborn patient days by tier. Projected Newborn payments for each tier are calculated as CY2002 Newborn admissions per tier times the current tier rate. Total projected Newborn payments are the sum of all projected tier payments.

The conversion per diem rate for Newborn has been determined by the following formula:

$$\frac{\text{Total Projected Newborn Payments}}{\text{CY2002 Historical Newborn Patient Days}} = \text{Newborn Per Diem Rate}$$

For services performed on or after January 1, 2006, the newborn per diem rate will be determined by multiplying a factor of 1.1001 times the conversion per diem rate.

For services performed on or after July 1, 2007, the newborn per diem rate will be determined by multiplying a factor of 1.0757 times the conversion per diem rate.

For services performed for claims with an admission date on or after September 8, 2008, the newborn per diem rate will be calculated as follows:

1. Charges submitted for claims paid in SFY 2007 were used from the Nevada Medicaid claims data.
2. The number of days admitted (the length of stay) for claims paid in SFY 2007 was used to calculate each claim's billed charges per day.
3. The per diem rate will be 34% of the median of billed charges per day for Nevada in-patient hospital routine services related to the care of a newborn.

This rate will be used as a prospective rate until rebased as directed by the Department of Health and Human Services. There will be no cost settlement.

For services performed for claims with an admission date on or after July 9, 2015, the newborn per diem rate will be determined by multiplying a factor of 1.05 times the September 8, 2008 per diem rate.

C. Neonatal Intensive Care Rate Calculation

For admissions prior to September 8, 2008:

A separate rate is used for patients admitted to Level III Neonatal Intensive Care Units. The current rate was developed from historical costs pursuant to Section II, Prospective Rate Development. The calculated cost per day of each neonatal unit was arrayed from highest to lowest. The prospective per diem rate was then calculated at the 55th percentile and indexed.

For admissions on or after September 8, 2008:

1. Charges submitted for claims paid in SFY 2007 were used from the Nevada Medicaid claims data.
2. The number of days admitted (the length of stay) for claims paid in SFY 2007 was used to calculate each claim's billed charges per day.
3. The per diem rate will be 34% of the median of billed charges per day for Nevada in-patient hospital services for Neonatal Intensive Care.

D. Rehabilitative and Specialty Hospital Rate Calculation

A few Nevada hospitals are licensed to provide acute care in single diagnostic category. Rehabilitative and specialty hospital patients generally have hospital stays of ninety or more days. The length of stay does not significantly influence the cost per day.

To the extent these hospitals participate in Medicaid, they are reimbursed as follows:

1. Inpatient hospital services which have been certified for payment at the acute level by a QIO-like vendor are reimbursed an all-inclusive per diem rate at the lowest rate acceptable to both parties. In establishing the lowest rate acceptable to both parties, Nevada Medicaid reviews cost information filed by the provider, amounts paid by other insurers and national literature on comparable costs for similar services. The rate cannot exceed the reasonable and customary charges of the facility for similar services.

E. Medical/Surgical Rate Development

The current tier rate will be paid for Medical/Surgical payments made on or prior to August 31, 2003. Beginning September 1, 2003, an all-inclusive per diem rate will be paid for general hospital admission, not meeting the criteria of patients described in Parts B. - D. and F. of this Section or Section IV.

Historical Medicaid data for the Calendar Year (CY) ended December 31, 2002, has been extracted showing Medicaid Medical/Surgical admissions and Medical/Surgical patient days by tier. Projected Medical/Surgical payments for each tier are calculated as CY2002 Medical/Surgical admissions per tier times the current tier rate. Total projected Medical/Surgical payments are the sum of all projected tier payments.

The conversion per diem rate for the Medical/Surgical category has been determined by the following formula:

$$\frac{\text{Total Projected Medical/Surgical Payments}}{\text{CY2002 Historical Medical/Surgical Patient Days}} = \text{Medical/Surgical Per Diem Rate}$$

For services performed on or after January 1, 2006, the medical/surgical per diem rate will be determined by multiplying a factor of 1.1001 times the conversion per diem rate.

For services performed on or after July 1, 2007, the medical/surgical per diem rate will be determined by multiplying a factor of 1.0757 times the conversion per diem rate.

For services performed for claims with an admission date on or after September 8, 2008, the medical/surgery per diem rate will be calculated as follows:

1. Charges submitted for claims paid in SFY 2007 were used from the Nevada Medicaid claims data.
2. The number of days admitted (the length of stay) for claims paid in SFY 2007 was used to calculate each claim's billed charges per day.
3. The per diem rate will be 22% of the median of billed charges per day for Nevada in-patient hospital services for medical/surgery procedures.

This rate will be used as a prospective rate until rebased as directed by the Department of Health and Human Services. There will be no cost settlement.

For services performed for claims with an admission date on or after July 9, 2015, the medical/surgical per diem rate will be determined by multiplying a factor of 1.05 times the September 8, 2008 per diem rate.

F. Level I Trauma Centers

Nevada Medicaid will pay an enhanced rate for full trauma team cases at Level I Trauma Centers. For payments made on or before August 31, 2003, the enhanced trauma rate is 1.63 times the Medical/Surgical tier rate. For services paid September 1, 2003, and after the enhanced trauma rate is 1.63 times the Medical/Surgical rate in effect on September 1, 2003.

B. Rate Conversion

1. Hospital Services will be reimbursed at 35% of the Hospital Billed Charges for each transplant procedure as listed in the 2014 Milliman Study.
2. Procurement will be reimbursed at 100% of the Procurement charges for each transplant procedure as listed in the 2014 Milliman Study with the exception of Cornea Procurement. Cornea procurement will be reimbursed at 100% of the Procurement charges as listed in the 2013 The Lewin Group Study.

For hospitals with accredited transplant programs, Nevada Medicaid will pay the lower of 1) billed charges; or 2) an all-inclusive fixed fee set forth below for the entire admission period (from admission date to discharge date). Organ procurement is a separate reimbursable charge, over and above the facility inpatient component of the transplant service. Organ procurement is reimbursed the lower 1) billed charges; or 2) the maximum reimbursement set forth below.

The maximum reimbursement rate for organ transplant procedures and procurement are:

Organ	Hospital Services	Procurement
Liver	\$139,685	\$95,000
Kidney	\$41,860	\$84,400
 Tissue		
Bone Marrow - Autologous	\$74,305	\$10,700

Bone Marrow - Allogeneic Unrelated	\$167,860	\$55,700
Cornea	\$7,000	\$2,500

Commencing July 1, 2016 and annually thereafter, the amounts listed above shall be adjusted for inflation using the Consumer Price Index for Inpatient Services; BLS Series CUUR0000SS5702.

IV. PSYCHIATRIC/SUBSTANCE ABUSE TREATMENT RATE DEVELOPMENT

Psychiatric/substance abuse treatment admissions can vary from short stays to several weeks. The length of stay does not significantly impact the cost per day. Therefore, a per diem rate is a more appropriate method to pay acute care hospitals providing this type of service.

1. Psychiatric/substance abuse treatment costs for each hospital are divided by the number of psychiatric/substance abuse treatment days to determine a cost per day. The Medicaid related costs of freestanding psychiatric hospitals are determined using the steps in Section II, Parts A and B, then dividing their Medicaid costs by their total Medicaid days to determine the cost per day. The calculated cost per day of each general acute care hospital and freestanding psychiatric hospital is arrayed from highest to lowest. The prospective per diem rate is then calculated at the 55th percentile and indexed in accordance with Section II, Part E of this plan.
 - a. These rates do not apply to facilities accredited as Residential Treatment Centers by the Joint Commission on Accreditation of Health Organizations (JCAHO).

For services performed on or after July 1, 2014, the psychiatric/substance abuse per diem rate will be determined as follows:

2. General acute hospitals providing inpatient psychiatric services will be reimbursed with a per diem.
 - a. Billed charges for inpatient psychiatric claims paid in SFY ending June 30 2013 were used from the Nevada Medicaid claims data.
 - b. The aggregate average billed charges per day was calculated for all Nevada Medicaid enrolled general acute hospitals using this data.
 - c. The per diem rate will be 37% of the aggregate average billed charges per day for Nevada Medicaid enrolled inpatient general acute hospital psychiatric services.
3. Freestanding psychiatric hospitals are reimbursed at the lowest rate acceptable to Nevada Medicaid and the provider. In establishing the lowest rate acceptable to both parties, Nevada Medicaid will review cost information filed by the provider, rates received from other state Medicaid programs and other information it deems pertinent to calculate an average cost per day. Considering this information, Nevada Medicaid will then assign an individual rate to each provider. This rate will remain in effect until the DHCFP authorizes a change. The rate cannot exceed the reasonable and customary charges of the facility.

4. State-operated Inpatient Psychiatric Hospitals are reimbursed under Medicare principles of retrospective reimbursement described in 42 CFR 413 and further specified in CMS Publication 15.
 - a. In no case may payment exceed audited allowable costs.
 - b. Interim rates will be based upon the most recent audited cost reports for the current state fiscal year. The interim rate for the initial year of operation will be based upon cost and utilization projections.
 - c. Each facility is paid an interim rate subject to a cost settlement.

V. ADMINISTRATIVE DAY RATE DEVELOPMENT

For those patients who remain in an acute care hospital awaiting admittance to a long-term care facility, an administrative day rate is used. Services so reimbursed are call “administrative days.”

The administrative rate is based on statewide weighted average payment rate established in 2003 for skilled and intermediate levels of care. The administrative rate is lower than the hospital rate as described in Part II of the State Plan.

For services performed for claims with an admission date on or after July 9, 2015, the intermediate level administrative day per diem rate will be determined by multiplying a factor of 1.05 times the rate.

VI. RESIDENTIAL TREATMENT CENTERS

Nevada Medicaid will only pay for stays in facilities accredited by the Joint Commission on Accreditation Health Organizations (JCAHO) as Residential Treatment Centers (RTCs). All stays must be pre-approved by the QIO-like vendor. These services will be reimbursed at the lowest rate acceptable to both parties. In establishing the lowest rate acceptable to both parties, Nevada Medicaid reviews cost information filed by the RTC, amounts paid by other insurers, and national literature on costs for RTCs. Each facility will have a negotiated rate established for each general level of service. If a placement is being proposed which is different from the general level of care offered by the facility, a rate will be negotiated after considering the average cost per day of the facility and the additional will be reviewed based upon cost information received on or prior July 1 of the year of review. The rate cannot exceed the reasonable and customary charges of the facility for similar services.

VII. HOSPITALS UNDER MEDICAID RETROSPECTIVE COST REIMBURSEMENT
(CRITICAL ACCESS HOSPITALS)

A few Nevada hospitals have been designated by Medicare as Critical Access Hospitals.

To the extent these hospitals participate in Medicaid, they are reimbursed under Medicare's retrospective cost reimbursement, as follows:

- A. Inpatient hospital services which have been certified for payment at the acute level by the QIO-like vendor, as specified in the contract between the QIO-like vendor and Nevada Medicaid, upon final settlement are reimbursed allowable costs under hospital-specific retrospective Medicare principles of reimbursement in accordance with 42 CFR 413 and further described in CMS Publications 15-I and 15-II.
1. Critical Access Hospitals (CAH) will use the CMS-2552-10 cost report form and apply Medicare cost principles and cost apportionment methodology.
 2. Critical Access Hospitals will file this cost report with the state annually within five months of their respective fiscal year end.
 3. In general, underpayments will be paid to the provider in a lump sum upon discovery and overpayments will either be recouped promptly or a negative balance set up for the provider. However, other solutions acceptable to both parties may be substituted.
 4. The federal share of any overpayment is refunded to the federal government in accordance with 42 CFR 433 Subpart F.
- B. On an interim basis, each hospital is paid for certified acute care at the Provider specific interim Medicaid inpatient per diem rate as follows:
1. Effective July 1, 2009, the base interim rate for Critical Access Hospitals (CAH) will be the FY2007 Total Medicare inpatient per diem rate. This interim rate is defined as total Medicare in-patient cost divided by total Medicare in-patient days, and applies to the revenue codes billed by general acute hospitals that fall under the Medical/Surgery level of service category for inpatient services.
 2. The CAH Medical/Surgery interim rate will be updated annually for each provider on either January 1st or July 1st, depending upon the facilities' fiscal year as reported on the Medicare/Medicaid cost report. The annual rate is not to exceed 150% or decrease more than 25% from the facilities' prior year interim rate.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-A
Page 15a

3. The updated CAH Medical/Surgery interim rate will be calculated by dividing the total Title XIX program inpatient costs by the total program inpatient days as reported in the latest available as-filed or latest available audited Medicare/Medicaid cost report.
4. If Title XIX data reported in the latest available as-filed or latest available audited Medicare/Medicaid cost report is not sufficient to calculate the adjusted CAH Medical/Surgery interim rate, the CAH Medical/Surgery interim rate will default to the Medical/Surgery rate paid to general acute care hospitals for the same service. This applies only to Critical Access Hospitals that have an existing CAH Medical/Surgery interim rate for the prior year.
5. Maternity, newborn, Psychiatric/Substance Abuse and administrative days will be reimbursed at the rate paid to general acute care hospitals for the same in-patient services.
6. Critical Access Hospitals that do not have a CAH Medical/Surgery interim rate for the prior year based on the methodology in Paragraph VII.B.3, will be assigned either the prior years' Total Medicare inpatient per diem rate if available or the rate paid to general acute care hospitals for the same Medical/Surgery level of services until such time as the CAH Medical/Surgery interim rate can be updated according to the methodology detailed in Paragraphs VII.B.2 and VII.B.3.

Facilities accredited as Residential Treatment Centers by the Joint Commission on Accreditation of Health Organization (JCAHO) are not considered specialty or general acute hospitals. Residential Treatment Centers are paid in accordance with Paragraph VI above.

III. HOSPITALS SERVING LOW-INCOME PATIENTS
DISPROPORTIONATE SHARE HOSPITALS (DSH)

A. Eligibility – A Nevada hospital will qualify for DSH payment if it meets the conditions of either Paragraph 1 or 2.

1. Subject to the provisions of Subparagraph c, a Nevada hospital will be deemed to qualify for DSH payment if it meets either of the conditions under subparagraphs a or b. The data used to determine eligibility is from the prior State Fiscal Year ending June 30th. For example, eligibility for SFY 14 DSH is done in the third quarter of SFY 13, using data from SFY 12.

a. A hospital's Medicaid inpatient utilization rate (MIUR) is at least one standard deviation above the mean MIUR for hospitals receiving Medicaid payment in the State.

i. MIUR is the total number of inpatient days of Medicaid eligible patients, including patients who receive their Medicaid benefits through a health maintenance organization, divided by the total number of inpatient days of all patients during a fiscal year.

b. The hospital's low-income utilization rate (LIUR) is at least 25%. LIUR is the sum (expressed as a percentage) of the fractions, calculated as follows:

i. Total Medicaid patient revenues paid to the hospital, plus the amount of the cash subsidies for patient service received directly from State and local governments in the cost reporting period, divided by the total amount of revenues of the hospital for patient services (including the amount of such cash subsidies) in the same cost reporting period; and,

ii. The total amount of the hospital's charges for inpatient hospital services attributable to charity care (care provided to individuals who have no source of payment, third-party or personal resources) in a cost reporting period, less the portion of any cash subsidies received directly from the state or local government for inpatient hospital services, divided by the total amount of hospital charges for inpatient services in the hospital in the same period. The total inpatient hospital charges attributed to charity care shall not include contractual allowances and discounts (other than for indigent patients not eligible for Medicaid assistance under an approved Medicaid State plan), that is, reductions in charges given to other third-party payors, such as HMOs, Medicare or Blue Cross Blue Shield.

c. A hospital must:

i. have a MIUR of not less than one percent;

- ii. have at least two obstetricians with staff privileges at the hospital who have agreed to provide obstetric services to individuals entitled to such services under State Medicaid plan. In the case of a hospital located in a rural area (that is, an area outside of a Metropolitan Statistical Area, as defined by the Executive Office of Management and Budget) the term “obstetrician” includes any physician with staff privileges at the hospital to perform non-emergency obstetric procedures. This does not apply to a hospital in which:
 - (a) the inpatients are predominantly individuals under 18 years of age; or
 - (b) non-emergency obstetric services were not offered as of December 22, 1987.
 - iii. not be an institution for mental disease or other mental health facility subject to the limitation on DSH expenditures under Section 4721 of the Balanced Budget Act of 1997.
2. Subject to the provisions of subparagraph 1c above, a hospital will qualify for DSH payments if it is:
- a. a public hospital (i.e., hospital owned or operated by a Nevada hospital district, county or other unit of local government); or
 - b. in Nevada counties, which do not have a public hospital, the private hospital which provided the greatest number of Medicaid inpatient days in the previous year; or
 - c. a private hospital – located in a Nevada county which has a public hospital, if the public hospital has a MIUR greater than the average for all the hospitals receiving Medicaid payment in the State.

- B. Distribution Pools: Hospitals qualified under Paragraph "A" above will be grouped into distribution pools on the following basis:
1. Distribution pools are established as follows:
 - a) All public hospitals qualifying under Paragraph A above and in counties whose population is 700,000 or more, the total annual disproportionate share payments will be 87.97% of the total computable DSH allotment for the State Fiscal Year.
 - b) All private hospitals qualifying under paragraph A above and in counties whose population is 700,000 or more, the total annual disproportionate share payments will be 1.69% of the total computable DSH allotment for the State Fiscal Year.
 - c) All private hospitals qualifying under Paragraph A above and in counties whose population is 100,000 or more but less than 700,000, the total annual disproportionate share payments will be 5.86% of the total computable DSH allotment for the State Fiscal Year.
 - d) All public hospitals qualifying under Paragraph A above and in counties whose population is less than 100,000, the total annual disproportionate share payments will be 1.34% of the total computable DSH allotment for the State Fiscal Year.
 - e) All private hospitals qualifying under Paragraph A above and in counties whose population is less than 100,000, the total annual disproportionate share payments will be 3.14% of the total computable DSH allotment for the State Fiscal Year.
 - f) Note: There is no public hospital in counties whose population is 100,000 or more but less than 700,000.
 2. The total amount distributed to an individual hospital may not, under any circumstance, exceed the total uncompensated care costs (DSH limit) for that facility.
 3. Total annual uncompensated care costs equal the cost of providing services to Medicaid inpatients, Medicaid outpatients and uninsured patients, less the sum of:

Regular Medicaid FFS rate payments (excluding DSH payments);
Medicaid managed care organization payments;
Supplemental/enhanced Medicaid payments;
Uninsured revenues; and
Federal Section 1011 payments for uncompensated services to eligible aliens with no source of coverage.
 4. An "uninsured patient" is defined as an individual without health insurance or other source of third party coverage (except coverage from State or local programs

based on indigency). A system must be maintained by the hospitals to report revenues on Medicaid and uninsured patient accounts to determine uncompensated care cost consistent with Section 1923 (g) of the Social Security Act and implementing regulations at 42 CFR 447 Subpart E. Costs for Medicaid and uninsured patients will be based upon the methodology used in the HCFA 2552 report. Revenue will be deducted from cost. The total costs on the report will be subject to an independent audit. The HCFA 2552 report must be submitted within six months of the hospital's fiscal year end.

C. Calculation of Hospital DSH Payments

1. Using supplemental payment data for the DSH program year and the same period outlined on Subparagraph A.1 for all other data, the Division will calculate the DSH payments for each hospital as follows:
 - a. Fifty percent of the pool amount will be distributed based on the percent to total of the uncompensated care percentage of the hospitals within the pool.
 - i. Uncompensated Care Percentage is the uncompensated care cost of the hospital divided by the net patient revenues of the hospital, as reported on the Medicare Cost Report, which is required to be filed with the State.
 - (a) Net patient revenues are total patient revenues less contracted allowances and discounts. This comes from Medicare cost report, Worksheet G-3 Line 3, less any net patient revenue from non-hospital inpatient and non-hospital outpatient services.
 - b. The remaining 50% of the pool amount will be distributed based on the percent to total of the uncompensated care cost of the hospitals within the pool.
2. The DSH payments will be made monthly to the eligible hospitals. Payments will be based on the State Fiscal Year. DSH payment will in no instance exceed a hospital's DSH limit. If any hospital's calculated DSH payment exceeds its DSH limit, the excess will be redistributed to the remaining hospitals within the pool using the same formula above.

D. Adjusting DSH payments based on DSH Independent Certified Audit results

1. The Division will audit each hospital for each year in which the hospital received a disproportionate share payment pursuant to NRS, NAC and in accordance with the provisions of Title XIX of the Social Security Act, 42 U.S.C. §§ 1396 et seq.
2. After conducting an audit, if a hospital's eligibility changes or its initial DSH payment exceeded its audited DSH limit, the Division will recalculate the

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-A
Page 25

following for all hospitals in the affected pool:

- a. Audited uncompensated care costs
 - b. Audited uncompensated care percentages
 - c. Final DSH payment amounts using the same methodology as defined in Paragraph C. Final DSH payment amounts are calculated using the audited amounts in Subparagraph D 2a and b.
 - d. The amount of monies available for redistribution within each pool based on a comparison of each hospital's final DSH payment amount and the initial DSH payment received by each hospital in the pool.
3. For all hospitals in the affected pool(s), the Division will reconcile each hospital's initial DSH payment to its final DSH payment as calculated in Paragraph D 2. Any hospital whose initial DSH payment is greater than the final DSH payment will return the difference to the Division, and any hospital whose initial DSH payment is less than the final DSH payment will be paid the difference. The final DSH payment amount for an individual hospital, as calculated in Paragraph D 2 and in accordance with the methodology in Paragraph C, will in no instance exceed that hospital's audited DSH limit.
4. If each hospital within a pool of hospitals has received the maximum amount of disproportionate share payments allowable by federal and state statutes and regulations, the Division will use the money returned to pay additional disproportionate share payments as follows in the method described in Paragraph C above:
- a. If the money was returned by a hospital that is a member of Pool A, to hospitals in Pool B;
 - b. If the money was returned by a hospital that is a member of Pool B, to hospitals in Pool C;
 - c. If the money was returned by a hospital that is a member of Pool C, to hospitals in Pool D;
 - d. If the money was returned by a hospital that is a member of Pool D, to hospitals in Pool E; or
 - e. If the money was returned by a hospital that is a member of Pool E, to hospitals in Pool A.

IX. MEDICARE CROSS OVER CLAIMS

Payment of crossover claims will be as follows:

- A. The lower of the Medicare deductible amount or the difference between the Medicare payment and Medicaid prospective payment for that service.

Page 27

X. HOSPITALS OUT OF STATE

Elective out-of-state admissions require prior authorization by Nevada Medicaid's Peer Review Organization, which must verify medical services required by Medicaid-eligible or pending-eligible clients are not available in Nevada. The out-of-state payment rate for inpatient care is based on one of the following criteria, whether emergency or elective in nature.

- A. For California hospitals, the following rates will be paid:
 - 1. If the hospital has no signed contract with the State of California to provide Medi-Cal services, the California interim reimbursement Medi-Cal rate.
 - 2. If the hospital has a signed contract with the State of California to provide Medi-Cal services, the Medi-Cal contract rate is paid. If the contract rate is not made available to Nevada Medicaid, the California interim Medi-Cal rate is paid.
- B. For Utah hospitals the payment rate is 45% of billed charges.
- C. For all other states' hospitals, the payment rate will be either the Nevada Medicaid prospective rate or the Medicaid rate for the state in which the hospital is located, but not more than billed charges. To receive the Medicaid rate for the state in which the hospital is located, the hospital must attach documentation to the UB-92 Billing Claim, produced and generated by that state's Medicaid program, verifying the state's payment rate to that hospital.
- D. All other states' freestanding psychiatric/substance abuse hospitals are reimbursed 70% of billed charges.
- E. For Medicare crossover claims, the payment will be the lower of the Medicare deductible amount or the difference between the Medicare payment and the Nevada Medicaid prospective payment for that service.
- F. For services that cannot be provided by a provider that accepts payments under (A) through (E), the State will maintain a list of other qualified out-of-state providers and will negotiate competitive rates that will not exceed the provider's customary charge.

Page 28

XI. RATE ADJUSTMENTS

Payment is made for services provided in inpatient hospital facilities in accordance with Section 1902(a)(13) of the Social Security Act as amended by Section 4711 of the Balanced Act of 1997. Prospective payment rates are based using the most current hospital costs reports (HCFA 2552) and cost reimbursement series (CRS) reports following the steps described in Section II - V above. Rates in effect on June 30, 1999 will be continued without adjustment except as may be directed by the Department of Human Resources.

XII. MONITORING FUTURE RATES

Nevada Medicaid monitors cost and utilization experience of all hospitals by evaluation of the cost reports filed each year. Payments are examined closely. Should modification of any elements or procedures such as creation or deletion of a rate or group appear necessary, this State Plan Attachment will be amended.

XIII. ADVANCES

Upon request, each hospital may receive each month an advance payment that represents expected monthly Medicaid reimbursement to that facility. Each advance is offset by claims processed during the month. Month-end +/- discrepancies automatically adjust the advance issued the following month.

XIV. DIRECT GRADUATE MEDICAL EDUCATION PAYMENTS

This section of the state plan contains the provisions for making additional Medicaid payments to recognize the additional direct costs incurred by hospitals with approved graduate medical education programs.

Fee-for-Service (FFS) Direct Graduate Medical Education (GME) Payments

A. Qualifying Hospitals:

Non-state government owned hospitals that participate in the Medicaid program are eligible for additional reimbursement related to the provision of Direct GME activities. To qualify for these additional Medicaid payments, the hospital must report costs associated with residents, interns or fellows who participate in an approved medical residency program on their CMS Form 2552, Hospital Cost Report.

If there is not a non-state government owned hospital located in a county, certain private hospitals may qualify for additional reimbursement related to the provision of Direct GME activities. To qualify for these additional Medicaid payments, the hospital must report costs associated with residents, interns or fellows who participate in an approved medical residency program on their CMS Form 2552, Hospital Cost Report. The private hospitals that qualify under this section are Northeastern Nevada Regional Hospital located in Elko County and Renown Regional Medical Center in Washoe County.

No payment under this section is dependent on any agreement or arrangement for providers or related entities to donate money or services to a governmental entity.

B. FFS Direct GME Definitions:

- (i) Base Year Per Resident Amount - for hospitals receiving Medicaid GME supplemental payments prior to July 1, 2017, the base-year per resident amount is the Medicaid allowable inpatient direct GME cost as reported on CMS Form 2552-96, Hospital Cost Report; Worksheet B, Part I, Line 22, Column 22 and Line 23, Column 23, divided by the un-weighted FTE residents from Worksheet S-3; Part I; Line 12 and Line 14, Column 7 of the Hospital Cost Report ending in June 30, 2008.

For hospitals that begin receiving Medicaid GME supplemental payments on or after July 1, 2017, the base-year per resident amount is the Medicaid allowable inpatient direct GME cost as reported on CMS Form 2552-10, Hospital Cost Report; Worksheet B, Part I, Line 21, Column 21, and Line 22, Column 22, divided by the un-weighted FTE residents from Worksheet S-3; Part I; Line 27 of Column 9 of the Hospital Cost Report ending in June 30, 2015.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-A
Page 31a

For hospitals that did not have approved GME program costs in its Hospital Cost Report for the period ending on June 30, 2015, the base year per resident amount will be calculated in the same manner as above for hospitals that begin participating in the GME supplemental payment on or after July 1, 2017 based on the first CMS Form 2552-10, Hospital Cost Report that includes the approved GME program costs.

- (ii) Current Number of FTE Residents - means the number of FTE interns, residents or fellows who participate in an approved medical residency program, including programs in osteopathy, dentistry and podiatry, as required in order to become certified by the appropriate specialty board reported on CMS Form 2552-10, Hospital Cost Report; Worksheet S-3: Part I; Line 27, Column 9.
- (iii) FFS Medicaid Patient Load – is the ratio of FFS Medicaid inpatient days to total hospital inpatient days. The FFS Medicaid patient load ratio is determined by the following: Medicaid inpatient days as reported on CMS Form 2552-10, Hospital Cost Report; Worksheet S-3, Part I; Lines 14, 16,17 and 18; Column 7; divided by the hospital’s total inpatient days, as reported on worksheet S-3; Part I; Lines 14, 16, 17 and 18; Column 8.
- (iv) The cost report data used to determine a hospital’s GME payment amount is subject to state review to ensure compliance with federal principles, including those at 42 CFR 412, 42 CFR 413, and Provider Reimbursement Manual Part I and Part II.

C. Methodology for Determining FFS Direct GME Payments:

The hospitals that qualify for FFS Medicaid GME payments will have their hospital specific payment amount determined as follows:

- (i) The base-year per resident amount is multiplied by the latest available market basket adjustment factor for each federal fiscal year used for Medicare Inpatient Prospective Payment Systems (IPPS) as published in the Federal Register. The market basket change reflects the Medicare payment increases before application of any Medicare adjustments.
- (ii) The results in (i) are multiplied by the current number of FTE residents; the current number of FTE residents and the FFS Medicaid patient load will be updated annually using data from the most recent Medicare Hospital Cost Report (CMS Form 2552-10) submitted to Medicare by each qualifying hospital;
- (iii) The results in (ii) are multiplied by the FFS Medicaid patient load which results in the total direct FFS GME payment for the hospitals;
- (iv) The annual FFS direct GME supplemental payment for each hospital will be included in the FFS UPL calculation for the annual time period.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-A
Page 31b

D. Payments of FFS Direct GME:

- (i) The state will determine the annual direct FFS GME amount payable to qualifying hospitals prospectively for period that will begin each July 1. On a quarterly basis, each qualifying hospital will receive a FFS GME payment equal to 25% of the annually determined FFS GME amount. Quarterly payments will be made in each calendar quarter during the state's fiscal year.

Managed Care Organization (MCO) Direct GME Payments

A. Qualifying Hospitals:

Non-state government owned hospitals that participate in the Medicaid program are eligible for additional reimbursement related to the provision of Direct GME activities. To qualify for these additional Medicaid payments, the hospital must report costs associated with residents, interns or fellows who participate in an approved medical residency program on their CMS Form 2552, Hospital Cost Report.

If there is not a non-state government owned hospital located in a county, certain private hospitals may qualify for additional reimbursement related to the provision of Direct GME activities. To qualify for these additional Medicaid payments, the hospital must report costs associated with residents, interns or fellows who participate in an approved medical residency program on their CMS Form 2552, Hospital Cost Report. The private hospitals that qualify under this section are Northeastern Nevada Regional Hospital located in Elko County and Renown Regional Medical Center in Washoe County.

No payment under this section is dependent on any agreement or arrangement for providers or related entities to donate money or services to a government entity.

B. MCO Direct GME Definitions:

- (i) Base Year Per Resident Amount - for hospitals receiving Medicaid GME supplemental payments prior to July 1, 2017, the base-year per resident amount is the Medicaid allowable inpatient direct GME cost as reported on CMS Form 2552-96, Hospital Cost Report; Worksheet B, Part I, Line 22, Column 22 and Line 23, Column 23, divided by the un-weighted FTE residents from Worksheet S-3; Part I; Line 12 and Line 14, Column 7 of the Hospital Cost Report ending in June 30, 2008.

For hospitals that begin receiving Medicaid GME supplemental payments on or after July 1, 2017, the base-year per resident amount is the Medicaid allowable inpatient direct GME cost as reported on CMS Form 2552-10, Hospital Cost Report; Worksheet B, Part I, Line 21, Column 21, and Line 22, Column 22, divided by the un-weighted FTE residents from Worksheet S-3; Part I; Line 27 of Column 9 of the Hospital Cost Report ending in June 30, 2015.

For hospitals that did not have approved GME program costs in its hospital cost report period ending in June 30, 2015, the base year per resident amount will be calculated in the same manner as above for hospitals that begin participating in the GME supplemental payment on or after July 1, 2017 based on the first CMS Form 2552-10, Hospital Cost Report that includes the approved GME program costs.

- (ii) Current Number of FTE Residents - means the number of full-time-equivalent interns, residents or fellows who participate in an approved medical residency program, including programs in osteopathy, dentistry and podiatry, as required in order to become certified by the appropriate specialty board reported on CMS Form 2552-10, Hospital Cost Report; Worksheet S-3: Part I; Line 27, Column 9.
- (iii) MCO Medicaid Patient Load – is the ratio of MCO Medicaid inpatient days to total hospital inpatient days. The MCO Medicaid patient load ratio is determined by the following: Medicaid inpatient days as reported on CMS Form 2552-10, Hospital Cost Report; Worksheet S-3; Part I; Lines 2, 3 and 4, Column 7 are divided by the hospital's total inpatient days, as reported on Worksheet S-3; Part I; Lines 14, 16, 17 and 18; Column 8.
- (iv) The cost report data used to determine a hospital's GME payment amount is subject to state review to ensure compliance with federal principles, including those at 42 CFR 412, 42 CFR 413, and Provider Reimbursement Manual Part I and Part II.

C. Methodology for Determining MCO Direct GME Payments:

The hospitals that qualify for GME payments will have their hospital specific MCO payment amount determined as follows:

- (i) The base-year per resident amount is multiplied by the latest available market basket adjustment factor for each federal fiscal year used for Medicare IPPS as published in the Federal Register. The market basket change reflects Medicare payment increases before application of any Medicare adjustments;
- (ii) The results in (i) are multiplied by the current number of FTE residents; the current number of FTE residents and the MCO Medicaid patient load will be updated annually using data from the most recent Medicare Hospital Cost Report (CMS Form 2552-10) submitted to Medicare by each qualifying hospital;
- (iii) The results in (ii) are multiplied by the MCO Medicaid patient load which results in the total direct MCO GME payment for the hospitals;

D. Payments of MCO Direct GME:

- (i) The state will determine the annual direct MCO GME amount payable to qualifying hospitals prospectively for period that will begin each July 1. On a quarterly basis, each qualifying hospital will receive an MCO GME payment equal to 25% of the annually determined MCO GME amount. Quarterly payments will be made in each calendar quarter during the state's fiscal year.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

Attachment 4.19-A

Page 32

XV. FEDERAL UPPER PAYMENT LIMIT

In order to preserve access to inpatient hospital services for needy individuals in the state of Nevada, the state's Medicaid hospital reimbursement system shall provide for supplemental payments to non-state, governmentally owned or operated hospitals and private hospitals. Supplemental payments shall be made to non-state, governmentally owned or operated hospitals effective for services provided on after January 1, 2002. Supplemental payments shall be made to private hospitals effective for services provided on or after January 2, 2010. These supplemental payments shall be determined on an annual basis and paid to qualifying hospitals on a quarterly basis. The supplemental payments to non-state, governmentally owned or operated hospitals shall not exceed, when aggregated with other payments made to non-state, governmentally owned or operated hospitals, 100% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles for non-state, governmentally owned or operated hospitals, except that payments for the period prior to May 14, 2002, such payments shall not exceed 150% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles for non-state, governmentally owned or operated hospitals. The supplemental payments to private hospitals shall not exceed, when aggregated with other payments made to private hospitals, 100% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles for private hospitals.

The upper payment limit will be determined on an annual basis. In general, this approach identifies the upper limit through the application of Medicare's prospective payment system, which is a diagnosis related group (DRG) payment system. The upper limit computes, for each hospital, the Medicare DRG payment amount for each Medicaid discharge by determining a Medicare equivalent case mix index based on Medicaid discharges. This upper limit also uses a payment per discharge calculation of the amount of Medicare pass-through and add-on reimbursement including but not limited to outlier, direct graduate medical education, organ acquisition, routine and ancillary pass-through, IME, DSH, and capital payments. The Medicare pass-through and add-on reimbursement are identified from the Medicare cost report and adjusted for Medicaid where applicable. The hospital's Medicare payment per discharge, which includes the DRG and the pass-through/add on amounts, are applied to the number of Medicaid discharges. The latest available information is used for Medicare DRG, Medicare pass-through and add-on payments, Medicare discharges, and Medicaid discharges. Inflation factors are accordingly applied to determine an individual hospital's Medicare payment for the UPL period. The sum of each hospital's estimated Medicare payment for Medicaid discharges is the aggregate upper payment limit for the hospital class.

SUPPLEMENTAL PAYMENT FOR NON-STATE GOVERNMENTALLY OWNED OR OPERATED HOSPITALS

The state will determine annually the payments to be made to non-state, governmentally owned or operated hospitals under this section of the plan using the following methodology:

1. Identify all non-state government owned (NSGO) or operated acute care hospitals.
2. For each facility identified in Step #1, compute total Medicaid Fee-for-Service inpatient hospital payments using latest available data projected to the current period.
3. For each facility, calculate the difference between payments identified in Step #2, and the hospital's Medicare UPL. This difference is the total maximum disbursement available under this section of the state plan.

These calculations will be set on a prospective basis and will not be retroactively adjusted to previous fiscal years.

A. Calculation of Supplemental Payment for NSGO Hospitals

The state shall determine the maximum annual supplemental amount payable to hospitals prospectively for period that will begin each July 1. The state shall determine the amount of supplemental payments to each facility using the following criteria:

- a. Total supplemental payments under this section of the state plan will not exceed the difference between Medicaid payments and the Medicare UPL calculated in Step #3 above.
- b. Facilities participating in the supplemental payment program will be identified.
- c. Total supplemental payments will be apportioned to public hospitals participating in the supplemental payment program using each hospital's participation percentage. This percentage is calculated by dividing each supplemental payment hospital's Medicaid days by the total Medicaid days for all supplemental payment hospitals.
- d. Medicaid days for each supplemental payment hospital shall be identified using the most recent Medicare cost report data available at the time the calculation are prepared.
- e. Once these participation percentages are determined they will be final and not subject to recalculation, except when errors are found in the calculations. The state will not recalculate the percentages following receipt of more accurate data, such as a more current or audited Medicare cost report.

B. Adjustment to Supplemental Payment for NSGO Hospitals to Preserve DSH

1. The total annual supplemental payment for each hospital will be the lesser of:
 - a) The total supplemental payment as calculated above in Paragraph A; or

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-A

Page 32a.i

- b) If the uncompensated care limit of DSH Distribution Pool A or Distribution Pool D per the Medicaid State Plan Attachment 4.19-A, Page 23 for the same time period beginning July 1 as above is less than the maximum amount of DSH payment available to the Distribution Pool, the supplemental payment as calculated in this section above for the individual hospitals in the DSH Distribution Pool will be reduced by the amount necessary to allow the Distribution Pool to receive the maximum DSH payment allowable. In no event will the adjustment for each individual hospital reduce the supplemental payment as calculated in Section A to less than \$0.
2. For the purpose of the reduction discussed in Paragraph B.1.b above, the Supplemental Payment for NSGO Hospitals for all hospitals in each DSH Pool will be reduced by the lesser of:
 - a) The amount of the smallest calculated annual Supplemental Payment for NSGO Hospitals in Paragraph A, if there are sufficient DSH funds in the pool to distribute this DSH payment amount equally to all hospitals in the pool, or
 - b) The remaining amount of DSH funds available in the pool which will be distributed by dividing a hospital's maximum allowed DSH payment by the total maximum allowed DSH payments for the hospitals in the distribution calculation.

No hospital will receive a DSH payment greater than the hospital's uncompensated care limit. If a hospital in the pool is projected to have negative uncompensated care costs, as determined in Section VIII of this Attachment 4.19-A, prior to the adjustment calculation described in Paragraph B.2, the hospital will be excluded from the adjustment calculation; the Supplemental Payment for NSGO Hospitals for such hospital will be that as calculated in Paragraph A. If a hospital in the pool has its annual Supplemental Payment for NSGO Hospitals reduced to \$0, this hospital will be removed from further repetitions of Paragraph B.2.

The process in Paragraph B.2.a – b will be repeated until all DSH funds allocated to the DSH Distribution Pool have been distributed or the annual Supplemental Payment for NSGO Hospitals for all hospitals in the DSH Pool have been reduced to \$0.

C. Payment of the Supplemental Payment for NSGO Hospitals

On a quarterly basis, hospitals will receive a supplemental payment equal to 25% of the annually determined supplemental amount. A quarterly payment will be made in each calendar quarter during the state's fiscal year.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-A
Page 32b

SUPPLEMENTAL PAYMENT FOR INPATIENT HOSPITALS

In order to preserve access to inpatient hospital services for needy individuals in the state of Nevada, effective on or after January 1, 2014, the state's Medicaid reimbursement system shall provide for supplemental payments to inpatient hospitals. These supplemental payments shall be determined on an annual basis and paid to qualifying private and public inpatient hospitals on a quarterly basis. The payments will be based on inpatient hospital Medicaid Fee-for-Service utilization. No payment under this section is dependent on any agreement or arrangement for providers or related entities to donate money or services to a governmental entity.

A. Amount for Distribution

1. For the period July 1, 2018 to June 30, 2019 the total computable payment will be \$96,367,052.42.
2. The aggregated amount of supplemental payments to inpatient hospitals shall not exceed the Upper Payment Limit (UPL) for each one of the respective periods. The supplemental payment for the period of July 1, 2018 to June 30, 2019 will be accounted for in the UPL room available for July 1, 2018 to June 30, 2019.

B. Eligibility

1. Nevada Acute Care Inpatient Hospitals (PT 11), that are not designated as Critical Access Hospitals (CAH) (PT 75), Psychiatric Inpatient Hospitals (PT 13), Rehabilitation, Specialty or Long Term Acute Care (LTAC) (PT 56), will be deemed to qualify.
2. Nevada Acute Care Inpatient Hospitals (PT 11) certified as Trauma I, Trauma II and Trauma III levels will additionally qualify for the distribution of the Trauma case portion of the allotment.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nevada

Page 32c

C. Methodology

1. Data Source

- a. Days count, by date of service, obtained from the Nevada Medicaid Management Information System (MMIS) for the Med/Surg/ICU, Maternity, NICU and Psych/Detox revenue codes.
- b. Data used is from the calendar year two years prior.
 - i. For example, the calculation for payment in State Fiscal Year 2014 would be computed in calendar year 2013 using data from calendar year 2011.
- c. Case Mix Index (CMI) is calculated using the same claims data described above, in (a) and (b) by Contractor University of Nevada Las Vegas, Center for Health Information Analysis (CHIA).
- d. Trauma cases are determined using the same claims data described above, in (a) and (b) by counting the number of patient discharges which have a trauma revenue code.

2. Calculation – The calculation will be computed annually, based on the total allocation amount specified above in A.1 with quarterly payments to be made during calendar year quarters as described in D.1 using the following methodology:

- a. Identify all eligible hospitals as described above in (A).
- b. Determine which hospitals are trauma certified (Levels 1, 2 and 3).
- c. Determine the total allocation.
- d. Determine the total count of trauma cases for any trauma certified hospital.
- e. Calculate 3% of the total allocation to determine the trauma portion of the allocation.
- f. Level I and Level II trauma cases will be given a weight of 100% of the amount to be paid for each trauma case; Level III trauma cases will be given a weight of 50%.
- g. Divide the number of Level I plus Level II plus half the number of Level III trauma cases into the product of 2 (e) above to determine the amount to be paid for each 100% weighted trauma case.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nevada

Attachment 4.19-A
Page 32d

- a. To calculate the 50% weighted trauma case amount, divide the 100% weighted trauma case by 2.
- b. Multiply the number of trauma cases of hospitals certified as trauma Level I and Level II by the 100% weighted amount determined in (g), to calculate the payment for each hospital in this category.
- c. Multiply the number of trauma cases of hospitals certified as trauma Level III by the amount determined in (h), to calculate the payment for each hospital in this category.
- d. Subtract the trauma portion of the allocation from the total allocation to determine the amount remaining for distribution to eligible hospitals as identified in step 2 (a).
- e. Multiply the number of each hospital's Medicaid Fee-for-Service days, by their Medicaid CMI to determine the number of adjusted days per hospital.
- f. Divide the remaining allocation (the amount in step (c) reduced by the amount in step (e)) by the total adjusted days to determine the per day rate.
- g. Multiply the per day rate times the individual hospital adjusted days to determine each hospital payment.
- h. Add hospital day rate payment amount to the trauma payment, if any, to determine the total payment to each hospital.

B. Payment

1. Payment issued to hospitals participating in the supplemental payment will be deducted and tracked to ensure that total Medicaid payments do not exceed the aggregate amount of (UPL) calculated for the corresponding period. (see A.2 above).
2. One fourth of the total annual allocation (not to exceed the aggregate amount of UPL for the corresponding period) will be paid out quarterly to each eligible hospital, in supplemental payments, in the last month of the quarter for which the payment is calculated (Effective July 1, 2015: e.g. the supplemental payment for SFY 2016 Quarter 1 will be issued in September 2015).
3. Each hospital will be issued the supplemental payment by EFT as a financial transaction through the MMIS.

B. SUPPLEMENTAL PAYMENT FOR PRIVATE HOSPITALS

In order to preserve access to inpatient hospital services for needy individuals in the state of Nevada, effective for services provided on or after January 2, 2010, the state's Medicaid hospital reimbursement system shall provide for supplemental payments to private hospitals affiliated with a state or unit of local government in Nevada through a Low Income and Needy Care Collaboration Agreement (Affiliated Private Hospitals). A Low Income and Needy Care Collaboration Agreement is defined as an agreement between a hospital and a state or unit of local government to collaborate for purposes of providing healthcare services to low income and needy patients. These supplemental payments shall be determined on an annual basis and paid to qualifying hospitals on a quarterly basis.

The supplemental payments are payments for Medicaid Fee-for-Service inpatient hospital service. The supplemental payments shall not exceed, when aggregated with other payments made to private hospitals, 100% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles for private hospitals.

The state will determine the payments to be made under this section of the plan using the following methodology:

1. Identify all Nevada private hospitals. Non-state government owned or operated acute care hospitals and state owned hospitals do not qualify under this methodology.
2. For those facilities identified in Step #1, compute the Medicare UPL according to the methodology set out on Page 32 above.
3. The amount computed in Step #2, less the Medicaid Fee-for-Service inpatient hospital payments to those facilities identified in Step #1, is the total maximum disbursement available under this section of the state plan in each fiscal year. If the payments under this section of the plan exceed this total maximum disbursement, the state will calculate the percentage by which the Medicare UPL is exceeded and reduce payments to all hospitals under this section of the state plan by the same percentage.

The Medicaid director shall then determine the amount of supplemental payments to each facility using the following criteria.

1. Total supplemental payments under this section of the state plan will not exceed the difference between Medicaid payments and the Medicare UPL calculated in Step #3 above.
2. Facilities participating in the supplemental payment program will be identified. All Affiliated Private Hospitals are eligible to participate in the supplemental payment program.

3. Each Affiliated Private Hospital will receive quarterly supplemental payments. The annual supplemental payments in any fiscal year will be the lesser of:
 - a) The difference between the hospital's Medicaid inpatient billed charges and Medicaid payments the hospital receives for services processed for Fee-for-Service Medicaid recipients during the fiscal year.
 - b) For hospitals participating in the Nevada Medicaid DSH program, the difference between the hospital's total uncompensated costs (as defined in Section VIII) and the hospital's Medicaid DSH payments during the fiscal year.

XVI. INPATIENT HOSPITAL SERVICES REIMBURSEMENT TO INDIAN HEALTH SERVICE AND TRIBAL 638 HEALTH FACILITIES

Effective January 1, 2000, Nevada Medicaid will reimburse Indian Health Services facilities and Tribal 638 facilities for inpatient hospital services a daily rate in accordance with the most recent published Federal Register notice. This rate does not include physician services.

Physician services are reimbursed in accordance with Attachment 4.19-B, Item 5 of the Nevada State Plan.

Methodology for Identifying Provider-Preventable Conditions

Beginning July 1, 2012, Nevada, which pays claims on a per-diem basis, will use two methods to identify PPCs: screening Prior Authorization requests and a retrospective review of claims.

PRIOR AUTHORIZATION (PA)

Prior Authorizations (PAs) will be screened for PPC codes and reviewed by the fiscal agent's medical review staff, which will make determinations for denials of payment for continued stay requests and/or level of care increases if the request appears to be related to a PPC. Payment denial does not consider medical necessity. Providers can appeal a PPC denial utilizing the existing appeals process.

RETROSPECTIVE REVIEW

Prior Authorization

A provider who caused a PPC may be discovered in the process of reviewing a PA request from a second provider from whom the patient seeks treatment. If it is determined in the PA screening that a provider other than the provider requesting the PA may be responsible for causing a PPC, a retrospective review of claims of the provider possibly causing the PPC will be done. Payments associated with treating the PPC will be recovered, from the original provider, if those increases in payments can be reasonably isolated to the PPC event.

Claims Review

Under NRS 449.485 and R151-8 the Nevada Division of Health Care Financing and Policy (DHCFP) and University of Nevada Las Vegas (UNLV) Center for Health Information and Analysis (CHIA) collects and maintains billing record fields for Nevada hospitals and ambulatory surgical centers. This data set captures the Present on Admission (POA) indicator for the UB-04 claims for principal and each secondary (other) diagnosis field. Claims data with dates of service on or after July 1, 2012 will be reviewed and those fitting the criteria for PPCs will be identified. Providers will be supplied information identifying claims with the potential PPCs and will be given 30 days to review and respond to any discrepancies. Provider-confirmed PPCs will be subject to payment adjustment.

Payment Adjustment

For per diem payments, the number of covered days shall be reduced by the number of days associated with any PPC not present on admission. Nevada will use nationally accepted standards to determine the number of days attributable to the diagnosis absent the PPC and the incremental number of days attributable to the PPC. Reimbursement may also be reduced for level of care changes attributable to a PPC.

PAYMENT FOR MEDICAL CARE AND SERVICES

1. This paragraph intentionally left blank.
2. Outpatient Hospital
 - a. Payments for services billed by Outpatient Hospitals using Current Procedural Terminology (CPT) codes will be calculated using the January 1, 2014 unit values for the Nevada-specific resource based relative value scale (RBRVS) and the 2014 Medicare Physician Fee Schedule conversion factor. Payment will be the lower of billed charges, or the amounts specified below:
 - i. Surgical Codes 10000 – 58999 and 60000 – 69999 will be reimbursed at 90% of the Medicare facility rate.
 - ii. Radiology Codes 70000 – 79999 will be reimbursed at 100% of the Medicare facility rate.
 - iii. Effective February 15, 2012, Radiopharmaceutical and Contrast codes will be reimbursed at the 2012 Medicare Mean Unit Cost plus 5%.
 - iv. Medicine Codes 90000 – 99199 will be reimbursed at 85% of the Medicare facility rate.
 - v. Vaccine Products require a National Drug Code (NDC) and will be reimbursed according to the drug reimbursement algorithm set forth on page 3 of Attachment 4.19-B.
 - vi. Evaluation and Management Codes 99201 – 99499 will be reimbursed at 90% of the Medicare facility rate.
 - vii. Obstetrical Service Codes 59000 – 59999 will be reimbursed at 90% of the Medicare facility rate.
 - viii. Anesthesia Codes 00100 – 01999 will be reimbursed based on the Centers for Medicare and Medicaid Services (CMS) 2009 base units for anesthesia. Payment is determined by adding the base units plus time units and multiplying the result by the CMS 2013 anesthesia conversion factor of \$22.57. Anesthesia Codes 01967 – 01969 are occurrence-based codes that are paid a flat rate. Anesthesia Codes 99100 – 99140 are not covered.
 - ix. Prescribed drugs (Page 3, Paragraph 12a).
 - x. Outpatient laboratory and pathology services (Page 1a, Paragraph 3).
 - xi. Dental services (CDT Codes, Page 2c, Paragraph 10).
 - xii. Durable medical equipment; prosthetics and orthotics (Page 2, Paragraph 7c); and disposable supplies (Page 2, Paragraph 7d).

Assurance: Except as otherwise noted in the plan, state developed fee schedule rates are the same for both public and private providers of the service. The agency's outpatient hospital fee schedule rates were set as of January 1, 2017 and are effective for services provided on or after that date. All rates are published on our website:

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Nevada

Attachment 4.19-B
Page 1 (Continued)

c. **Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC)**

Nevada Medicaid uses a Prospective Payment System (PPS) for FQHCs/RHCs as required by S.S.A. §1902 (a) (15) [42 U.S.C. § 1396a (a) (15)] and S.S.A. §1902 (bb) [42 U.S.C. §1396a (bb)]. The PPS for FQHCs/RHCs was implemented and took effect on January 1, 2001.

Prospective Payment System (PPS) Reimbursement for Existing Facilities

On January 1, 2001, the State began paying FQHCs/RHCs (including “FQHC look alike clinics”) based on a PPS rate methodology, per CMS requirements. The baseline for a PPS was set at 100% of the average of an FQHC/RHC per visit rate based on the reported reasonable and allowable costs of providing Medicaid-covered services during the FQHC/RHC fiscal years 1999 and 2000, adjusted to take into account any reported increase (or decrease) in the scope of services furnished during FY 2001 by the FQHC/RHC (calculating the payment amount on a per visit basis). Medicaid-covered services that are considered to be FQHC/RHC services are those services that were identified and approved to be provided by the facility as it applies to HRSA in order to be deemed as an FQHC/RHC facility.

Beginning in Federal fiscal year 2002, and for each fiscal year thereafter, each FQHC/RHC is entitled to the payment amount (on a per visit basis) to which the center or clinic was entitled under the Act in the previous year, increased each October 1st (FFY) by the percentage increase (or decrease) in the Medicare Economic Index (MEI) for primary care services as defined in Section 1842 (i)(3) of the Social Security Act, which is intended to account for the basic cost increases associated with providing such services.

After February 6, 2016, the DHCFFP will allow reimbursement for up to three encounters/visits per person per day provided that the FQHC has separate PPS rates for each reimbursable service type; medical, mental behavioral health and dental. FQHCs that only provide two of the specified service types will be allowed reimbursement for up to two encounters/visits per patient per day. For FQHCs that only have one PPS rate will be allowed reimbursement for only one encounter/visit per patient per day. For FQHCs that do not have separate Service Specific Prospective Payment Systems (SSPPS) rates already established, they may opt to change to an Alternative Payment Methodology (APM) wherein their costs/visits will be reviewed after a full year of providing and receiving reimbursement for up to three (or two) visits/encounters per patient per day, resulting in separate Service Specific Alternative Payment Methodology (SSAPM) rates being established.

FQHCs may choose to retain their current SSPPS rates and not bill up to three encounters/visits per patient per day, which will not result in a change to an SSAPM and a current review of their costs and visits.

PPS rates will not be subject to rebasing after their initial computation unless authorized by Congress. Only the actual costs related to any reported change in scope of services will be calculated (based on a full year of providing those services) and an adjustment or add-on to the baseline PPS rate will be made. Any other changes to the PPS rate(s) will be considered an APM and will be outlined below in this State plan.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Nevada

Attachment 4.19-B
Page 1 (Continued p. 1)

Prospective Payment System (PPS)-Service Specific Reimbursement for New Facilities

Newly qualified FQHCs/RHCs after Federal fiscal year 2012 will have initial payments (interim Service Specific PPS (SSPPS) rates) established either by reference to payments to one or more other clinics in the same or adjacent areas with similar caseloads and/or similar scope of services or based on an average of rates for other FQHC/RHC clinics throughout the State.

Once their average per visit reasonable costs of providing Medicaid-covered services based on their first full year of operation can be determined, the initial interim SSPPS payments of the FQHC/RHC will be cost settled and any over or under payments will be reconciled and the SSPPS rate will then be established based on the actual cost to provide those services for their first full year. The per visit SSPPS rate(s) will then be adjusted annually every October 1st beginning at the next federal fiscal year by the percentage change in the Medicare Economic Index (MEI) for primary care services as defined in Section 1842 (i)(3) of the Social Security Act, for that calendar year as published in the Federal Register. The MEI adjustment is the mechanism used to account for the basic cost increases associated with providing such services. All required documentation of actual costs for the first full year of providing services must be furnished to the DHCFP no later than six months after completion of the first full year of services. If the required documentation is not received within six months after the completion of a full year of services, the annual MEI adjustments will be suspended until such time as the documentation is received and an actual SSPPS rate is determined.

PPS/SSPPS rates will not be subject to rebasing after their initial computation unless authorized by Congress. Only the actual costs related to any reported change in scope of services will be calculated (based on a full year of providing those services) and an adjustment or add-on to the baseline PPS/SSPPS rate will be made. Any other changes to the PPS/SSPPS rate(s) will be considered an Alternative Payment Methodology (APM) and will be outlined below in this State Plan.

Alternative Payment Methodology (APM) Reimbursement

For any fiscal year after FY 2002, a State may use an APM methodology other than the Medicaid PPS, but only if the following statutory requirements are met. First, the APM must be agreed to by the State and by each individual FQHC/RHC to which the State wishes to apply the methodology. Second, the methodology must result in a payment to the center or clinic that is at least equal to the amount to which the center or clinic is entitled under the Medicaid PPS. Third, the methodology must be described in the approved State plan.

Service Specific APM (SSAPM) rates are based on the specific service type being provided. SSAPM rates are set at 100% of the average of an FQHC/RHC per visit rate based on the reported reasonable and allowable costs of providing Medicaid-covered services during the time period under review (calculating the payment amount on a per visit basis per service type). For FQHCs that have separate service specific APM rates established, the DHCFP will allow reimbursement for up to three (or two) SSAPM encounters/visits per patient per day for the different service types: one medical, one behavioral health and one dental.

Effective October 1st (FFY) of each year after an SSAPM rate has been established, for services

TN No. 13-017

furnished on or after that date, the DHCFP will adjust the SSAPM rate by the percentage increase in the MEI applicable to primary care services as published in the Federal Register for that calendar year, which will account for basic cost increases associated with providing such services.

APM to Reflect Other Payment Adjustments

FQHC/RHC's may request an APM to reflect other payment adjustments in the event of extraordinary circumstances, not otherwise reimbursed by other sources, including but not limited to acts of God; acts of nature; acts of terrorism and acts of war. However, if an FQHC/RHC's existing PPS/SSPPS/SSAPM rate is sufficient to cover its overall costs, including those associated with the extraordinary circumstances, other payment adjustment is not warranted. The FQHC/RHC must show that its PPS/SSPPS/SSAPM rate is not sufficient to cover the costs associated with the extraordinary circumstance. The adjusted rate will only apply to the extent, and only for the period of time, that the additional costs for the event are reimbursable under federal Medicaid law and regulations governing claims for federal financial participation (FMAP). The DHCFP will work with the provider to gather the appropriate data at the time the incident occurs and a written request for a rate adjustment is made by the Provider.

Change in Scope of Services

PPS/SSPPS/SSAPM rates may be adjusted to take into account any requested, documented and approved increase (or decrease) in the scope of services furnished by the FQHC/RHC in any given fiscal year. The FQHC/RHC must submit a written request detailing the change in scope of services to the Division within 60 days of the effective date of those changes in order for the rate adjustment to be retroactive to the date of the Change in Scope of Services. If a written request is not received within 60 days of those changes, the effective date for a rate adjustment will be the date the written request for a Change in Scope of Services was received by the DHCFP. Documentation and notification to support an increase or decrease in the scope of services is the responsibility of the provider and must specify all the changes up for review.

An FQHC/RHC requesting a rate adjustment for changes in scope of services must submit data/documentation/schedules that substantiate the changes in scope and the related adjustment of reasonable costs following Medicare principals of reimbursement.

An interim rate will be determined using the first three months of actual cost data available from the provider. After a full year of providing the services related to the change in scope, an analysis will be performed on the actual costs for a full year of service and an adjustment will be made to the PPS/SSPPS/SSAPM. Adjustments to the PPS/SSPPS/SSAPM rate for qualified/approved changes in scope will be based on Medicare Cost Reimbursement methodology, allocating costs related to patient care based upon a providers audited and approved costs for the change in scope services. The PPS/SSPPS/SSAPM rate adjustment will then be determined by dividing the approved allocated costs by the number of approved total visits for the given time period.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Nevada

Attachment 4.19-B
Page 1 (Continued p. 3)

A Change in Scope of Services has been defined as a change in the type, intensity, duration and/or amount of any service that meets the definition of FQHC/RHC services as defined in Section 1905 (a)(2)(B) and (C) of the Social Security Act; and the service is included as a covered Medicaid service under the Medicaid state plan. General increases or decreases in costs associated with programs that were already a part of an established PPS/SSPPS/SSAPM rate do NOT constitute a Change in Scope. A Change in Scope must meet all of the following requirements:

- The change in the scope of services is a change in the type, intensity, duration, or amount of services, or any combination thereof as defined in Section 1905 (a)(2)(B) and (C) of the Social Security Act.
- The cost is allowable under Medicare reasonable cost principals set forth in 45 CFR Part 75 Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards and /or 42CFR Part 413 Principles of Reasonable Cost Reimbursement.
- The net change in the FQHC/RHC's per visit PPS/SSPPS/APM rate must equal or exceed 4% for the affected FQHC/RHC site(s). For FQHC/RHC's that filed consolidated cost reports for multiple sites to establish the initial Prospective Payment reimbursement rate (PPS), the 4% threshold will be applied to the average per visit rate (medical, dental and mental health) of all sites that provide the specific service for the purposes of calculating the cost associated with a scope of service change. "Net change" means the per visit rate change attributable to the cumulative effect of all increases and decreases for a particular fiscal year for the specific service type.

A Change in Scope of Services includes any of the following:

- A change in the types of services offered, i.e., the addition of dental services, may qualify as a Change in Scope which may warrant an adjustment to the PPS/SSPPS/SSAPM rate or the establishment of a new PPS/SSPPS/SSAPM rate.
- A change in intensity/duration or character of services offered by an FQHC/RHC attributable to changes in the types of patients served may qualify, such as services to patients with HIV/AIDS or other chronic diseases and other special populations requiring more intensive and frequent care.
- A change in the magnitude, intensity or character of currently offered services, demonstrated and documented by an increase or decrease in the patient volume of certain high risk populations that require more intensive and frequent care, which may reasonably be expected to span at least one year may qualify.
- A change in the type, intensity, duration or amount of service caused by changes in technology and medical practice used may qualify.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Nevada

Attachment 4.19-B
Page 1 (Continued p. 4)

If a Change in Scope rate increase request is denied, the provider may request a formal rate appeal from the DHCFP. Rate appeal procedures are defined in the Medicaid Service Manual (MSM) Chapter 700.

Definition of a “Visit”/“Encounter”

A “visit” or an “encounter” for the purposes of reimbursing FQHC/RHC services is defined as face-to-face contact with one or more qualified health professionals and multiple contacts with the same health professional that take place on the same day with the same patient for the same service type.

Qualified Health Professional

To be eligible for PPS/SSPPS/SSAPM reimbursement, services must be delivered exclusively by one or more of the following licensed Qualified Health Professionals or a provider working under his or her direct supervision: Physician, Osteopath, Podiatrist, Physician’s Assistant, Advanced Practice Registered Nurse, Certified Nurse Midwife, Clinical Psychologist, Clinical Social Worker, Dentist or Dental Hygienist and other Medicaid Qualified Providers.

Documentation Required to Support a Request for Change in Scope of Services

- Year End Payroll Reports for identified time periods
- Trial Balances for all Revenues and Expenses for identified time periods
- Grouping Schedule/Mapping of Trial Balance Accounts to the Cost Reports
- Detailed General Ledger with Vendor Information for identified time periods
- Claims reports showing Unique Patient Visits, DOS, Procedure Codes, Service Facility ID#, Amount Paid and Payer
- Other Items as Deemed Necessary

Record keeping and Audit

All participating FQHC/RHC’s shall maintain an accounting system which identifies costs in a manner that conforms to generally accepted accounting principles and must maintain documentation sufficient to support all cost/visit data.

The DHCFP, its fiscal agent or a designated and contracted financial entity may conduct periodic on-site or desk audits of all cost data, including financial and statistical records of the FQHCs/RHCs.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Nevada

Attachment 4.19-B
Page 1 (Continued p. 5)

FQHCs/RHCs must submit information (statistics, costs and financial data or other data) as deemed necessary by the DHCFP or its fiscal agent. Failure to submit requested documentation may result in denial of a rate adjustment request.

The DHCFP will conduct one audit annually (at a minimum) to the claims submitted by the FQHC/RHC for supplemental payments.

Supplemental Payments for FQHCs/RHCs Enrolled with a Managed Care Entity (MCE)

FQHCs/RHCs that provide services under a contract with a Medicaid Managed Care Entity (MCE) will receive quarterly or monthly (as agreed upon between the provider and the state) supplemental payments for furnishing such services, that are a calculation of the difference between the payments the FQHC/RHC receives from the MCE(s) for all qualified Medicaid FQHC/RHC visits and the payments the FQHC/RHC would have received under the PPS/SSPPS or SSAPM methodology.

At the end of each payment period, the total amount of MCE payments received by the FQHC/RHC will be reviewed against the amount that the actual number of visits provided under the FQHC's/RHC's contract with MCE(s) would have yielded under the PPS/SSPPS/SSAPM methodology. If the amount exceeds the total amount of MCE payments, the FQHC/RHC will be paid the difference, if the amount is less, the FQHC/RHC will refund the difference to the DHCFP. The FQHC/RHCs must provide sufficient documentation (as requested) to the DHCFP to facilitate supplemental payment calculations. If the required documentation is not provided to support the supplemental payment, future supplemental payments may be suspended.

Documentation Required to Calculate/Support Supplemental Payments

The FQHC/RHC will submit an electronic request for supplemental payment which will contain at least the following information for each line item of every qualified encounter during the reporting time period (Quarterly or Monthly): Medicaid Billing Provider ID#, Recipient MCE ID Number, Recipient Medicaid ID Number, Date of Service, Procedure Code(s), MCE Name, Total Billed Amount, MCE Paid Amount, Other Paid Amount, Total Amount Paid and Recipient Date of Birth.

The FQHC/RHC will submit claim data for supplemental payment no later than 30 days after the end of the reporting period agreed upon with the DHCFP (Quarterly or Monthly).

Any discrepancy found in the audits will be adjusted based on the audit findings.

4. EPSDT and Family Planning

I. Early and periodic screening, diagnosis and treatment (EPSDT) services will be reimbursed the lower of a) billed charge, or b) fixed fee per unit as indicated for specific services listed elsewhere in this attachment.

A. School Based Child Health Services (SBCHS) delivered by school districts and provided to children with disabilities in accordance with the Individuals with Disabilities Act (IDEA). Services include:

1. Physician's services,
2. Physician's assistant services,
3. Nursing services including registered nurses, licensed practical nurses and advanced nurse practitioners,
4. Psychological services,
5. Physical therapy services,
6. Speech therapy, language disorders and audiology services,
7. Occupational therapy services, and
8. Medical supplies, equipment and appliance services – Assistive Communication Devices, audiological supplies and other Durable Medical Equipment (DME).

B. SBCHS – Reimbursement Methodology

SBCHS described in Attachment 3.1-A, Page 2a-2h of the Nevada State Plan and provided by an enrolled school district are reimbursed the lower of: a) billed charges; or b) a fixed fee schedule.

A fixed fee schedule: as indicated for specific services listed elsewhere in this attachment e.g., psychologist services, nursing services and therapy services. All rates are published on the agency's website:

<http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/>

The Agency's rates are set as of July 1, 2009 and are effective for services on or after July 1, 2009.

Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of SBCHS and the fee schedule and any annual/periodic adjustments to the fee schedule are published on the agency's website: <http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/>

- C. Intensive Behavior Intervention services as stated in Nevada State Plan Attachment 3.1-A, Intensive Behavior Intervention.

Intensive Behavior Intervention Services (IBI) Reimbursement Methodology

IBI Services described in Attachment 3.1-A, Page 2i-2k of the Nevada State Plan and provided by an enrolled qualified medical professional according to IBI requirements listed in Attachment 3.1-A, Pages 2j and 2k, are reimbursed the lower of: a) billed charges; or b) a fixed fee schedule.

A fixed fee schedule: as indicated for specific services listed elsewhere in this attachment e.g., Intensive Behavior Intervention. All rates are published on the agency's website: <http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/>

The Agency's rates are set as of January 1, 2016 and are effective for services on or after January 1, 2016.

Payments for services billed by IBI Qualified Medical Professionals will be reimbursed based on provider qualifications and procedure codes.

- i. Nevada Licensed Physician (MD) or Board Certified Behavior Analyst (BCBA) or Psychologist with a specialty in Behavior Intervention (PhD) will be reimbursed at 65% of Medicare rates as published in the Federal Register on July 14, 2014. 42 CFR 411, 412, 416, *et al.*
- ii. Board Certified Assistant Behavior Analyst (BCaBA) will be reimbursed at 60% of the IBI Physician rate as shown above in (i).
- iii. Registered Behavioral Technicians (RBT) rate methodology:
 - a. The rates are based on several factors used to determine the cost associated with performing the applicable services. This model was developed to reflect provider requirements, operational service delivery, recruitment, credentialing, ongoing training/certification and administrative considerations. The following elements were used to determine the rates:
 1. Wage Information – The wage is based on similarly qualified occupations (required education and training) identified by Medicaid staff as comparable.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-B
Page 1b (Continued p.1)

2. Employee Related Expenses (ERE) – ERE includes paid vacation, sick leave, holiday, health/life insurance, disability, worker’s compensation, payroll taxes, Medicare and Federal Income taxes.
3. Productivity Adjustment Factor – Costs include non-billable services that are required for normal business operations such as staff meetings, personnel requirements, travel time and mileage. This also includes non-billable time spent by staff to include required case documentation and record keeping and time associated with missed/cancelled appointments.
4. Allowances for Supervisory Time – Costs for the time spent supervising the field staff, which is not reimbursable under separate billing codes, as required by regulations.
5. Certification/Training Expenses – Costs include initial and ongoing certification and training costs required to maintain provider qualifications.
6. Administrative Overhead (10% Cap) – This includes costs associated with non-direct care activities required for normal business operations, such as building rent/utility costs, program support staff and office supplies, etc.

Except as otherwise noted in the plan, state developed fee schedule rates are the same for governmental and private providers of Intensive Behavior Intervention (IBI) services and the related fee schedule is published on the agency’s website:

5. Payments for services billed by Physicians using Current Procedural Terminology (CPT) codes will be calculated using the January 1, 2014 unit values for the Nevada-specific resource based relative value scale (RBRVS) and the 2014 Medicare Physician Fee Schedule conversion factor. Payment will be the lower of billed charges, or the amounts specified below:
- a. Surgical Codes 10000 – 58999 and 60000 – 69999 will be reimbursed at 95% of the Medicare facility rate.
 1. Pediatric enhancement for recipients under the age of 21 will be the lesser of billed charges or 115% of the currently established Medicaid rates for Surgical Codes 10000 – 58999 and 60000 – 69999.
 - b. Radiology Codes 70000 – 79999 will be reimbursed at 100% of the Medicare facility rate. Effective February 15, 2012, Radiopharmaceutical and Contrast codes will be reimbursed at the 2012 Medicare Mean Unit Cost plus 5%.
 - c. Medicine Codes 90000 – 99199 will be reimbursed at 85% of the Medicare non-facility rate.
 1. Pediatric enhancement for recipients under the age of 21 will be the lesser of billed charges or 115% of the currently established Medicaid rates for Procedure Codes 93000 – 93350.
 - d. Evaluation and Management Codes 99201 – 99499 will be reimbursed at 90% of the Medicare non-facility rate effective July 1, 2015 through June 30, 2016. Effective July 1, 2016 Evaluation and Management Codes 99201 – 99499 will be reimbursed at 95% of the Medicare non-facility rate.
 - e. Obstetrical Service Codes 59000 – 59999 will be reimbursed at 95% of the Medicare non-facility rate.
 - f. Anesthesia Codes 00100 – 01999 will be reimbursed based on the Centers for Medicare and Medicaid Services (CMS) 2009 base units for anesthesia. Payment is determined by adding the base units plus time units and multiplying the result by the CMS 2013 anesthesia conversion factor of \$22.57. Anesthesia Codes 01967 – 01969 are occurrence-based codes that are paid a flat rate. Anesthesia Codes 99100 – 99140 are not covered.
 - g. Medicine Codes 90281 – 90399, and all other pharmaceuticals that are not identified above, will be reimbursed according to the drug reimbursement algorithm set forth on Page 3 of Attachment 4.19-B.

Assurance: Except as otherwise noted in the plan, state developed fee schedule rates are the same for both public and private providers of the service. The agency's physician fee schedule rates were set as of October 1, 2017 and are effective for services provided on or after that date. All rates are published on our website:

7. Home Health Care Services:

a. Home health care services include the following services and items:

1. physical therapy – 1 unit per 15 minutes,
2. occupational therapy – 1 unit per 15 minutes,
3. speech therapy – 1 unit per 15 minutes,
4. family planning education – 1 unit per visit,
5. skilled nursing services (RN/LPN visits) 1 unit per 60 minutes or 1 unit per 15 minutes for brief visits or 1 unit per 15 minutes for extended visits (after 1st hour),
6. home health aide services – 1 unit per 60 minutes or 1 unit per 30 minutes for extended visits (after 1st hour),
7. durable medical equipment, prosthetics, orthotics, and
8. disposable medical supplies.

b. Reimbursements for Home Health Care services, listed above in a.1. through a.6, provided by Home Health Agencies (HHA) are the lower of a) billed charges, or b) a fixed fee schedule which includes the rate for each of the home health services and a rate for “mileage” as an add-on. The agency’s rates were set as of July 1, 2016, and are effective for services on or after that date. All rates can be found on the official Web site of the Division of Health Care Financing and Policy at <http://dhcfp.nv.gov/Resources/Rates/>

Effective July 1, 2016, pediatric enhancement rates do not apply for services listed above in a.5.

c. Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS)

1. Reimbursement for purchase of DMEPOS is the lower of: a) usual and customary charge, or b) a fixed fee schedule rate.
2. Reimbursement for rental of DMEPOS is the lower of: a) usual and customary charge, or b) a fixed fee schedule rate.
3. If there is no fee schedule available, reimbursement will be the lowest of: a) manufacturer’s suggested retail price (MSRP) less 25%, verifiable with quote or manufacturer’s invoice that clearly identifies MSRP; b) if there is no MSRP, reimbursement will be acquisition cost plus 20%, verifiable with manufacturer’s invoice; or c) the actual charge submitted by the provider.

Payments for DMEPOS will be calculated using the 2016 Nevada-specific non-rural fee schedule issued by the Centers for Medicare and Medicaid Services (CMS). Reimbursement will be set at 100% of the Nevada-specific rates.

d. Disposable supplies:

1. If a supply item is billed through point of sale (POS), using a National Drug Code (NDC) number, reimbursement is the lower of: a) usual and customary charge, or b) gross amount due or c) Wholesale Acquisition Cost (WAC) + 8% as indicated on the current national drug data base utilized in Point-of-Sale plus a handling fee. For drugs without a WAC acquisition cost will be reimbursed plus a handling fee.

12. a. Nevada Medicaid will meet all reporting and provision of information requirements of Section 1927(b)(2) and the requirements of subsections (d) and (g) of Section 1927.

The State assures that the State will not provide reimbursement for an innovator multi-source drug, subject to the Federal Upper Limits (42 CFR 447.332(a)), if, under applicable State law, a less expensive non-innovator multi-source drug could have been dispensed.

1. Payment for multi-source drugs shall be the lowest of (a) Federal Upper Limit (FUL) as established by the Centers for Medicare and Medicaid Services (CMS) for listed multi-source drugs plus a professional dispensing fee of \$10.17 per prescription; (b) State Maximum Allowable Cost (MAC) plus a professional dispensing fee of \$10.17 per prescription; (c) Actual Acquisition Cost (AAC) plus a professional dispensing fee of \$10.17 per prescription; or (d) the pharmacist's usual and customary charge.
2. Payment for covered outpatient drugs other than multi-source drugs shall not exceed the lower of (a) AAC plus a professional dispensing fee of \$10.17 per prescription; or (b) the pharmacist's usual and customary charge to the general public.
3. Actual Acquisition Cost (AAC) is defined by Nevada Medicaid as the Agency's determination of the actual prices paid by pharmacy providers to acquire drug products marked or sold by specific manufacturers and is based on the National Average Drug Acquisition Cost (NADAC). Wholesale Acquisition Cost (WAC) + 0% will be offered for those drugs not available on NADAC, plus a professional dispensing fee of \$10.17 per prescription.
4. A generic drug may be considered for MAC pricing if there are two or more therapeutically equivalent, multi-sources, non-innovator drugs with a significant cost difference. The MAC will be based on drug status (including non-rebatable, rebatable, obsolete, therapeutic equivalency ratings) marketplace availability and cost. The obsolete drug status will be taken into account to ensure that the MAC pricing is not influenced by the prices listed for obsolete drugs. The MAC will be based on drug prices obtained from a nationally recognized comprehensive data file maintained by a vendor under contract with the Department.
5. Ingredient cost reimbursement for 340B covered entities shall be the lowest of (a) AAC, or (b) the 340B ceiling price. A professional dispensing fee of \$10.17 will also be paid.
6. Drugs acquired through the federal 340B drug pricing program and dispensed by 340B contract pharmacies are not covered.
7. For drugs that are purchased outside the 340B program, the ingredient cost reimbursement will be based on AAC plus a professional dispensing fee of \$10.17 per prescription.
8. For drugs purchased through the Federal Supply Schedule (FSS), the ingredient cost reimbursement is based on AAC plus a professional dispensing fee of \$10.17 per prescription.

9. For drugs acquired at a nominal price (outside of 340B or FSS), the ingredient cost reimbursement is based on AAC plus a professional dispensing fee of \$10.17 per prescription.
10. Providers that are approved to be reimbursed through an encounter rate(s) meet AAC requirements.
11. For drugs (such as specialty drugs) not distributed by a retail community pharmacy, and distributed primarily through the mail, the ingredient cost reimbursement is based on AAC plus a professional dispensing fee of \$10.17 per prescription.
12. For drugs (such as a long-term care facility drugs) not distributed by a retail community pharmacy, the ingredient cost reimbursement will be based on AAC plus a professional dispensing fee of \$10.17 per prescription.
13. For physician-administered drugs, the ingredient cost reimbursement shall be the lowest of (a) MAC; (b) AAC; or (c) the physician's usual and customary charge.
 - a. For 340B physician-administered drugs, the ingredient cost reimbursement will be the lowest of (a) AAC or (b) 340B ceiling price.
14. For clotting factor drugs, ingredient cost reimbursement will be the lowest of AAC plus a professional dispensing fee of \$10.17 per prescription, or the pharmacist's usual and customary charge.
 - a. For clotting factor drugs provided by 340B entities, the ingredient cost reimbursement will be the lowest of (a) AAC, or (b) 340B ceiling price, plus a professional dispensing fee of \$10.17 per prescription.
15. Out-of-state providers will be reimbursed a professional dispensing fee of \$10.17 per prescription.
16. The state of Nevada does not cover investigational drugs.

Non-Residential Mental Health services provided by a state or local government entity are reimbursed according to a methodology used to certify costs as representing expenditures eligible for FFP and may be used only by providers who undergo all Medicaid cost identification, reporting, reconciliation and settlement procedures.

The lower of: a) billed charges; or b) an interim rate. The Interim rate is the rate for a specific service for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period.

To determine the Medicaid-allowable direct and indirect costs of providing Non-Residential Mental Health services the following steps are performed:

1. Interim Rates

Governmental providers are reimbursed on an interim basis for direct medical services per unit of service at the lesser of the provider's billed charges or a provider-specific interim rate. A provider-specific interim rate is an annual rate for the specific services for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period. Interim rates are based on program experience and cost data reported during the prior fiscal year.

2. Annual Cost Report Process

Each governmental provider will complete an annual cost report in the format proscribed by Nevada Medicaid in the Medicaid Operations Manual for all medical services delivered during the previous state fiscal year covering July 1 through June 30. The cost report is due on or before December 1 of the year following the close of the reporting period.

The primary purposes of the cost report are to:

- a. document the provider's total Medicaid-allowable cost for delivering the medical services, including direct costs and indirect costs, based on the methodologies/steps described below.
- b. reconcile its interim payments to its total Medicaid-allowable costs.

The annual Medicaid Cost Report includes a certification of funds statement to be completed, certifying the provider's actual, incurred allocable and allowable costs/expenditures. All filed annual Cost Reports are subject to audit by DCHFP or its designee.

To determine the Medicaid-allowable direct and indirect costs of providing covered services to Medicaid-eligible clients, the following steps are performed:

- A. Facilities that are primarily providing medical Services:
- (a) Direct costs for covered services include unallocated payroll costs and other unallocated costs that can be directly charged to covered medical services. Direct payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. Other direct costs include costs directly related to the delivery of covered services, such as supervision, materials and supplies, professional and contracted services, capital outlay, and travel. These costs must be in compliance with Medicaid non-institutional reimbursement policy and are accumulated on the annual cost report, resulting in total direct costs.
 - (b) Total direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs for covered services.
 - (c) Indirect costs are determined by applying the agency specific approved indirect cost rate to its net direct costs. If the provider has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These allocated indirect costs are reduced by any unallowable amount based on Medicaid non-institutional reimbursement policy. The indirect costs details are accumulated on the annual cost report.
 - (d) Net direct costs (Item b) and indirect costs (Item c) are combined.
 - (e) A CMS approved time study is required when providers of service do not spend 100% of their time providing the Medical services described in the applicable Section 3.1-A State Plan pages and is used to determine the percentage of time that medical service personnel spend on direct medical services, general and administrative time, and all other activities to account for 100% of the time to assure that there is no duplicate claiming. This CMS approved time study methodology will be used to separate administrative activities and direct services. The direct medical services time study percentage is applied against the net direct and indirect costs.
 - (f) Medicaid's portion of total allowable costs is calculated by multiplying the result from Item (e) above to the ratio of the total units of service provided to Medicaid eligible clients to the total units of service provided.
 - (g) Total Medicaid allowable costs (Item f) is reduced by any revenue, e.g. Medicaid co-payments, TPL, received for the same services to arrive at the total Medicaid net allocable and allowable costs.

- B. Facilities that are used for multiple purposes and the provision of medical services are not the primary purpose:
- (a) Direct costs include unallocated payroll costs and medical equipment and supplies. Unallocated payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. These costs are accumulated on the annual cost report.
 - (b) The Direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs.
 - (c) Indirect costs are determined by applying the agency specific approved indirect cost rate to its net direct costs (Item b.). If the entity has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These indirect costs are reduced by any unallowable amount. For these facilities, allowable costs are only those cost that are "directly attributable" to the professional component of providing the medical services and are in compliance with Medicaid non-institutional reimbursement policy. For those costs incurred that "benefit" multiple purposes but would be incurred at the same level if the medical services did not occur are not allowed, e.g. room and board, allocated cost from other related organizations. The indirect cost details are accumulated on the annual cost report.
 - (d) Net direct costs (Item (b)) and indirect costs (Item (c)) are combined.
 - (e) A CMS approved time study is required when providers of service do not spend 100% of their time providing the Medical services described in the applicable Section 3.1-A State Plan pages and is used to determine the percentage of time that medical service personnel spend on direct medical services, general and administrative time, and all other activities to account for 100% of the time to assure that there is no duplicate claiming. This CMS approved time study methodology will be used to separate administrative activities and direct services. The direct medical services time study percentage is applied against the net direct and indirect costs.
 - (f) Medicaid's portion of the total net allocable and allowable costs is calculated by multiplying the result from Item (e) above to the ratio of total units of service provided to Medicaid eligible clients to the total units of service provided.
 - (g) Total Medicaid allowable costs (Item f) is reduced by any revenue received for the same services, e.g. Medicaid co-payments and TPL, to arrive at the total Medicaid net
 - (h) allocable and allowable costs.

3. Cost Reconciliation Process

Governmental providers will be responsible for reconciling total allowable computable costs reported on the cost report to the provider's Medicaid interim payments for Medicaid services delivered during the reporting period as document in the MMIS, resulting in cost reconciliation. The cost reconciliation process must be completed within twenty-four months of the end of the reporting period covered by the annual Cost Report.

4. Cost Settlement Process

If a governmental provider's interim payments exceed the actual, certified costs of the provider for services to Medicaid clients, the DHCFP will recoup the federal share of the overpayment using one of the following two methods:

1. Off-set all future claims payments from the provider until the amount of the federal share of the overpayment is recovered;
2. The provider will return an amount equal to the overpayment.

If the actual, certified costs exceed the interim Medicaid payments, the DHCFP will pay the federal share of the difference to the provider in accordance with the final actual certification agreement.

The DHCFP will issue a notice of settlement that denotes the amount due to or from the provider.

- B. Reimbursement Methodology for Non-residential Mental Health Rehabilitation Services provided by non-governmental entities and governmental entities who do not undergo the Medicaid cost identification and reporting procedures:

Non-residential mental health rehabilitation services:

Examination, Psychiatric Diagnostic Interview – 1 unit per 75 to 80 minutes
Examination, Interactive Psychiatric Diagnostic Interview – 1 unit per 75 to 80 minutes
Individual Psychotherapy – 1 unit per 20 to 30 minutes; or 1 unit per 45 to 50 minutes; or 1 unit per 75 to 80 minutes
Psychoanalysis – 1 unit per 60 minutes
Family Psychotherapy – 1 unit per 60 minutes
Group Psychotherapy – 1 unit per 90 minutes; or 1 unit per 120 minutes
Individual Psychophysiological Therapy – 1 unit per 20 to 30 minutes; or 1 unit per 45 to 50 minutes
Biofeedback – 1 unit per 20 to 30 minutes; or one unit per 40 to 50 minutes
Psychological Testing – 1 unit per 60 minutes
Psychological Testing – 1 unit per 60 minutes
Developmental Testing – 1 unit per 60 minutes
Examination, Neurobehavioral Status – 1 unit per 60 minutes
Neuropsychological Testing – 1 unit per 60 minutes
Neuropsychological Testing – 1 unit per 60 minutes
Assessment, Health and Behavior – 1 unit per 15 minutes
Intervention, Health and Behavior – 1 unit per 15 minutes
Evaluation and Management – 1 unit per 10 minutes; or 1 unit per 15 minutes; or 1 unit per 25 minutes; or 1 unit per 40 minutes
Screening, Behavioral Health – 1 unit per 15 minutes
Out of Office Therapy – 1 unit per 15 minutes
Out of Office Assessment – 1 unit per 90 minutes
Medication training and support, out of office – 1 unit per 15 minutes
Medication training and support in office – 1 unit per 15 minutes
Peer to Peer support, individual – 1 unit per 15 minutes
Crisis Intervention, telephonic, face to face, team – 1 unit per 15 minutes
Day treatment – 1 unit per 15 minutes
Basic Skills Training, individual or group – 1 unit per 15 minutes
Psychosocial rehabilitation, individual or group – 1 unit per 15 minutes

Not all above unit values are billing units, for those codes that have a unit of measure defined as an “encounter” in the current Procedural Coding Expert, the values listed are time comparables for rate development.

1. Non-residential mental health rehabilitation services provided by private entities or governmental entities that do not undergo the Medicaid cost identification and reporting procedures will be reimbursed based on a statewide fee schedule.

Rate Methodology:

The rates are market based. This model is developed to reflect service definitions, provider requirements, operational service delivery and administrative considerations. The following elements are used to determine the rates:

- Wage information is taken from the Bureau of Labor Statistics (BLS). The wage is based on similar occupations reported by BLS and identified by Medicaid staff as comparable to services provided under the mental health rehabilitation program.
- Employee related expenses (ERE) percentage of 27% was based on input from the Task Force members and Medicaid Staff. It includes paid vacation, paid sick leave, holiday pay, health insurance, life insurance, disability, workers compensation and legally required payroll taxes.
- Productivity adjustment factor which accounts for the amount of non-billable time spent by staff. This includes the time staff needs to complete required documentation and record keeping, time associated with missed appointments and average travel time by the provider.
- Program Support costs – costs based on average of four hours per day. This is to assist with paperwork and follow-up related to treatment.
- Allowance for supervisory time – costs for the time directly spent in supervising the medical professional providing these services.
- Allowances for capital costs – the costs are not included in the Administrative overhead. It includes the average hourly expense for building rental and maintenance, equipment leasing and utility expenses.
- Administrative overhead, 10%, is the percentage of service costs that should result from non-direct care activities. It includes insurance, administrative staff, operations and management activities and office supplies. Capital and related expenses is not included. It also does not include staff training.

The following steps are used to determine the rates:

1. The State will use Nevada-specific hourly wages from the Bureau of Labor Statistics.
2. The hourly amount is increased by the 27% ERE.
3. A productivity factor is applied to the hourly compensation calculated in Item 2 to equal to the hourly rate.
4. The adjusted hourly rate per individual is the hourly rate per individual (Item 3) increased by the program support costs per hour per individual, allowance for supervisory time and capital costs per hours.
5. Administrative overhead (10%) is applied to the adjusted hourly rate per individual (Item 4).
6. Total hourly rate is the sum of the adjusted hourly rate per individual before administrative overhead (Item 4) and the administrative overhead (Item 5).
7. Total hourly rate is scaled to the proper unit based on the unit of service.
8. Group rate is the individual rate divided by the group size assumption.

Basic Skills Training rate effective January 1, 2019 was determined using wage information obtained from the provider network through a wage survey.

When a Nevada specific hourly wage cannot be determined using the Bureau of Labor Statistics, the State may use wage information obtained from the provider network.

These rates have been compared to other private sector Fee-for-Service rates. Documentation of the assumptions used, rate development methodology and fee schedule payment rates will be maintained by The Division of Health Care Financing and Policy.

The Agency's rates were set as of January 1, 2006 and are effective for services on or after that date. The Basic Skills Training rate that is established under SPA 18-010 will be effective January 1, 2019. All rates, including the Basic Skills Training rate, are published on the Agency's website at <http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/>

Services provided by an out-of-state provider require prior authorization by Nevada Medicaid, which must verify that the services required by Medicaid-eligible or pending-eligible clients are not available in Nevada. The out-of-state payment rate for services provided by an out-of-state provider is based on one of the following criteria:

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEVADA

Attachment 4.19-B

Page 3i Continued

1. The out-of-state provider will be paid the lesser of the provider's billed charges or the Fee-for-Service rate that is paid to an in-state provider for the service.
2. If the out-of-state provider refuses to accept this rate, then the out-of-state provider may be paid the lesser of the provider's billed charges or the same Fee-for-Service rate as it would be paid by its home state Medicaid program.

18. Prior to the beginning of each rate year, governmental providers of emergency medical transportation, ground ambulance services, must select one of the reimbursement methodologies described below. Governmental providers must select their reimbursement methodology by April 30 for the rate year beginning July 1 and will not be able to change the selected reimbursement methodology until the following rate year.

- I. Reimbursement methodology for emergency medical transportation, ground or air ambulance services, provided by non-governmental entities and governmental entities that do not undergo the Medicaid cost identification, reporting, reconciliation and settlement procedures.

Emergency Medical Transportation: Ground Ambulance or Air Ambulance (fixed wing or rotary aircraft): lower of: a) billed charge, or b) fixed basic rate plus fixed fee per mile. Effective July 1, 2013, the reimbursement rates will be increased 15%.

- II. Reimbursement methodology for emergency medical transportation, ground ambulance services, provided by a government entity which selects cost identification, reporting, reconciliation and settlement.

Governmental entities may select a reimbursement methodology for emergency medical transportation that is based on cost identification, reporting, reconciliation and settlement. This methodology reimburses governmental entities for uncompensated care costs for providing emergency medical transportation services to Nevada Medicaid beneficiaries. Uncompensated care costs are allowable costs in excess of payments made by Nevada Medicaid. This reimbursement will include a base payment per emergency medical transportation claim plus a final supplemental payment adjustment so that total reimbursement does not exceed or fall short of the total cost of providing services to Medicaid beneficiaries.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State NEVADA

Attachment 4.19-B

Page 4.1

A. Definitions:

1. "Emergency Medical Transportation" is synonymous with "Emergency Medical Response." It includes both the act of transporting an individual from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient, as well as the advanced, limited-advanced and basic life support services provided to an individual by emergency medical transportation providers before or during the act of transportation.
2. "Emergency Medical Response" is a cost objective that includes expenditures for medical services performed at the point of injury or illness, typically outside of a medical facility, to evaluate or treat a health condition. An emergency medical response is classified as "medical" by dispatch if the primary reason for the response is to provide medical services.
3. "Direct costs" means all costs that can be identified specifically with particular final cost objectives in order to meet all medical transportation mandates.
4. "Shared Direct Costs" are direct costs that can be allocated to two or more departmental functions or cost objectives on the basis of shared benefits.
5. "Indirect costs" means costs for a common or joint purpose benefitting more than one cost objective that are allocated to each benefitting objectives using an agency approved indirect rate or an allocation methodology. Indirect costs rate or allocation methodology must comply with 2 CFR, Part 200 and CMS non-institutional reimbursement policies.
6. "Service Period" means the period from July 1st through June 30th of each Nevada state fiscal year.

B. Provider Eligibility for Medicaid Reimbursement Based on Cost Identification.

To be eligible to receive reimbursement based on cost identification for emergency medical transportation, a provider must meet all of the requirements described below:

1. The provider is owned or operated by an eligible government entity to include the state, a city, a county, a consolidated city and county, a fire protection district organized pursuant to Nevada Revised Statutes Chapter 474 or a federally recognized Indian tribe.
2. The provider is enrolled as a Nevada Medicaid provider for the period being claimed.
3. The provider delivers emergency medical transportation services to Nevada Medicaid beneficiaries.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State NEVADA

Attachment 4.19-B
Page 4.2

4. The provider has a Cost Allocation Plan (CAP) approved by the State Medicaid Agency on file with the State.

C. Interim Medicaid Payment

1. “Base Payment” is the interim reimbursement paid for each transport as a result of Medicaid claiming by the provider throughout the year. The base payment in the period October 1, 2015 through September 30, 2017 is determined by the Nevada Medicaid Fee-for-Service ambulance fee schedule. For periods beginning October 1, 2017, the base payment is the average cost per transport as determined in the most recent available cost report. The average cost per transport is determined by dividing the total allowable costs of providing emergency medical transportation services by the total number of emergency medical transports.

D. Methodology for Reimbursement of Emergency Medical Transportation Services Based on Cost Identification.

1. A provider’s specific allowable cost per-medical transport rate will be calculated based on the provider’s audited financial data reported on the CMS-approved cost report. The per-medical transport cost rate will be the sum of actual allowable direct and indirect costs of providing medical transport services divided by the actual number of medical transportation services provided for the applicable service period.
 - a. Direct costs for providing medical transport services include only the unallocated payroll costs for those emergency response staff who dedicate 100% of their time to providing medical transport services; medical equipment and supplies, and other costs directly related to the delivery of covered services, such as first-line supervision, materials and supplies, professional and contracted services, capital outlay, travel and training. These costs must be in compliance with Medicaid non-institutional reimbursement policies and are directly attributable to the provision of the medical transport services.
 - b. Shared direct costs for emergency medical transportation services as defined by Section A.1, must be allocated for personnel, capital outlay and other costs; such as, medical supplies, professional and contracted services, training and travel. The personnel costs will be allocated based on the percentage of total hours logged performing emergency medical transportation activities versus other activities. The capital and other direct costs will be allocated based on the percentage of total call volume.
 - c. Indirect costs are determined based on the provider’s approved cost allocation plan.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State NEVADA

Attachment 4.19-B

Page 4.3

- d. The provider specific per-medical transport cost rate is calculated by dividing the total net medical transport allowable costs (Item 1.a, Item 1.b and Item 1.c) of the specific provider by the total number of medical transports provided by the provider for the applicable service period.
 2. Medicaid's portion of the total allowable cost for providing emergency medical transportation services by each eligible provider is calculated by multiplying the total number of Medicaid FFS transports provided by the provider's specific per-medical transport cost rate (Paragraph D.1.d) for the applicable service period.
- E. Eligible Provider Reporting Requirements:

Eligible provider shall:

1. Report and certify total computable allowable costs annually on a CMS-approved Nevada Medicaid Emergency Transportation Services Cost Report, which is to be submitted annually by December 1 to the State Medicaid Agency. The Cost Report includes a certification of expenditures statement that states the total costs reported are accurately reported and allowable.
 2. Provide documentation to serve as evidence supporting the information on the cost report and the cost determination as specified by the State Medicaid Agency.
 3. Keep, maintain and have readily retrievable, such records as specified by the State Medicaid Agency.
 4. The provider will comply with the allowable cost requirements provided in 42 CFR, Part 413, 2 CFR, Part 200 and Medicaid non-institutional reimbursement policies.
- F. State Medicaid Agency's Responsibilities:
1. The State will submit to CMS claims based on total computable certified expenditures for emergency transportation services provided that are allowable and in compliance with federal laws and regulations and Medicaid non-institutional reimbursement policies.
 2. As part of its financial oversight responsibilities, the State will review each provider's Cost Report for reasonableness and accuracy and reconcile the Cost Report to the provider claims data obtained from the Medicaid Management Information System (MMIS). The state will complete the cost report review and settlement process of the interim payments for the service

period within three years of the postmark date of the cost report.

3. If the interim Medicaid payments exceed the actual certified costs of a provider, the State will recoup any overpayments and return the Federal share to the Federal government in accordance with 42 CFR 433.316. If the actual certified costs exceed the interim Medicaid payments, the DHCFP will pay the federal share of the difference to the provider in accordance with the final actual certification agreement.

III. Non-emergency transportation:

- A. Non-emergency transportation is authorized through a contracted NET Broker, as specified in Attachment 3.1-D.
- B. Reimbursement Methodology for Non-Emergency Paratransit services provided by the Regional Transportation Commission (RTC) operated by local government entities:
 1. The lower of: A) billed charges; or b) a cost based rate.

The cost based rate is calculated annually using each public provider's annual operating budget and service utilization forecast and an applicable 10% indirect cost rate. Each public provider will submit an annual operating budget and service utilization forecast at least 60 days before the start of the next fiscal year. The budget forecast must reflect a projection for allowable, necessary and proper direct cost in providing services. The cost based rate is calculated as follows:

- a. Direct costs include the costs for fuel, tires and subcontracted costs that are directly related in providing the non-emergency transportation services. These costs must be in compliance with the Medicare reimbursement principle and OMB A-87.
- b. The total direct costs (from Item A) are reduced by any federal grant funds received for the same services to arrive at the net allowable direct costs.
- c. Indirect costs are determined by applying a ten percent indirect cost rate to the net allowable direct costs (from Item B).

15. a. Services of Religious non-medical Healthcare Institution nurses: NOT PROVIDED.
 - b. Services in Religious non-medical Healthcare Institutions sanatoria: NOT PROVIDED.
 - c. Hospice Services: Reimbursed at the established annual Medicaid rate regardless of billed charges. The agency's rates were set as of October 1, 2008 and are effective for services on or after that date. Rates are adjusted annually each year thereafter in accordance with 42CFR 418.
 - d. Hospice provided in a long-term care facility: Reimbursed 95% of the nursing facility daily rate for room and board provided by the nursing facility or long term care facility.
16. Emergency hospital services out-of-state: lower of: a) billed charges, or b) local Medicaid maximums. The agency's rates were set as of July 1, 2005 and are effective for services on or after that date.
 17. Personal care services in recipients' home and setting outside the home: fixed hourly rate established by the State of Nevada legislative body. The agency's rates were set as of July 1, 2009 and are effective for services on or after that date.

All Targeted Case Management groups will be reimbursed using the following methodologies effective as of July 1, 2009.

23. Targeted Case Management (TCM) services will be reimbursed as follows:

Prior to the beginning of each rate year, each of the governmental providers providing TCM services must select one of the reimbursement methodologies described below for reimbursement. For example, by April 30, 2009, governmental providers must select a methodology for the rate year beginning July 1, 2009. Once a selected methodology is determined for a rate year, governmental providers will not be able to change the selected methodology until the following rate year.

- A. Reimbursement Methodology for Targeted Case Management Services provided by a non-governmental entity and governmental entities who do not undergo the Medicaid cost identification and reporting procedures:
 - I. TCM: One unit per 15 minutes.
 - II. TCM services provided by a private/non-governmental entity and governmental entities that do not undergo the Medicaid cost identification and reporting procedures will be reimbursed the lower of a) billed charges, or b) a fixed quarter hour rate.
 - III. The quarterly hour rate is a market based model. This model reflects service definitions, provider requirements, operational service delivery and administrative considerations. The following elements are used to determine the rate:
 - 1. Wage Information is taken from the Bureau of Labor Statistics (BLS). The wage is based on similar occupations reported by BLS and identified by Medicaid staff as comparable to CM and TCM services.
 - 2. Employee related expenses (ERE) percentage of 27% was based on input from the Provider Rates Task Force members and Medicaid Staff. It includes paid vacation, paid sick leave, holiday pay, health insurance, life insurance, disability, workers compensation and legally required payroll taxes.
 - 3. Productivity adjustment factor which accounts for the amount of non-billable time spent by staff. This includes the time staff needs to complete required documentation and record keeping, time associated with missed appointments and average travel time by the provider.
 - 4. Allowance for supervisory time – costs for the time directly spent in supervising the professional providing this CM and/or TCM service.
 - 5. Allowance for capital costs – the costs are not included in the administrative overhead. It includes the average hourly expense, for building rental and maintenance, equipment leasing and utility expenses.
 - 6. Allowance for mileage – the average costs related to the miles to travel to clients.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEVADA

Attachment 4.19-B
Page 4 (Continued p.1)

7. Administrative overhead, 10%, is the percentage of service cost that should result from non-direct care activities. It includes insurance, administrative staff, operations and management activities and office supplies. Capital and related expenses is not included. It also does not include staff training.

IV. The following steps are used to determine the fixed quarter hour rate:

1. The State will use Nevada-specific hourly wages from the Bureau of Labor Statistics.
2. This hourly compensation is increased by the 27% ERE.
3. A productivity factor is applied to the hourly compensation calculated in Item 2 to equal the adjusted hourly rate.
4. Allowance for supervisory time is determined.
5. Administrative overhead (10%) is applied to the sum of adjusted hourly rate (Item 3) and the allowance for supervisory (Item 4).
6. Allowance for mileage cost is determined.
7. Allowance for capital costs is determined.
8. Fixed hourly rate is the sum of adjusted hourly rate (Item 3), allowance for supervisory time (Item 4), administrative overhead (Item 5), allowance for mileage (Item 6), and allowance for capital costs (Item 7).
9. Quarter hour rate is the fixed hourly rate (Item 8) divided by 4.

This rate has been compared to other private sector fee-for-service rates.

Documentation of the assumptions used, rate development methodology, and fee schedule payment rates will be maintained by the DHCFP.

The Agency's rates were set as of January 1, 2006 and are effective for services on or after January 1, 2006. All rates are published on the Agency's website at www.dhcfp.nv.gov

B. Reimbursement Methodology for Targeted Case Management Services provided by a state or local government entity:

Targeted Case Management services provided by a state or local government entity are reimbursed according to one of the following two payment methodologies. The second methodology must be used by providers who undergo all Medicaid cost identification, reporting, reconciliation and settlement procedures.

- I. The lower of: a) billed charges; or b) a cost based rate. The cost-based rate is an annual rate developed based on historic costs. Cost based rates will be calculated annually and are determined by dividing estimated reimbursable costs of providing Medicaid-covered services by the projected total direct medical service utilization for the upcoming fiscal period.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEVADA

Attachment 4.19-B
Page 4 (Continued p. 2)

Each public provider will submit an annual operating budget and service utilization forecast at least 60 days before the start of the next fiscal year. The budget forecast must reflect a projection for allowable, necessary and proper expenses in providing Medicaid-covered services. Allowable costs are those direct and indirect costs deemed allowable by CMS which are incurred and are proper and necessary to efficiently deliver needed services. Direct costs include unallocated payroll costs and other unallocated costs that can be directly charged to covered medical services. Direct payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. Other direct costs include costs directly related to the delivery of covered services, such as supervision, materials and supplies, professional and contracted services, capital outlay, and travel. These direct costs are accumulated on the annual cost report, resulting in total direct costs.

The Agency's rates were set as of July 1, 2007 and are effective for services on or after July 1, 2009. All rates are published on the Agency's website at www.dhcfp.nv.gov

- II. The lower of: a) billed charges; or b) an interim rate. The Interim rate is the rate for a specific service for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period.

To determine the Medicaid-allowable direct and indirect costs of providing Targeted Case Management services the following steps are performed:

1. Interim Rates

Governmental providers are reimbursed on an interim basis for direct medical services per unit of service at the lesser of the provider's billed charges or a provider-specific interim rate. A provider-specific interim rate is an annual rate for the specific services for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period. Interim rates are based on program experience and cost data reported during the prior fiscal year.

2. Annual Cost Report Process

Each governmental provider will complete an annual cost report in the format prescribed by Nevada Medicaid in the Medicaid Operations Manual for all medical services delivered during the previous state fiscal year covering July 1 through June 30. The cost report is due on or before December 1 of the year following the close of the reporting period. The primary purposes of the cost report are to:

- a. document the provider's total Medicaid-allowable cost for delivering the medical services, including direct costs and indirect costs.
- b. reconcile its interim payments to its total Medicaid-allowable costs.

The annual Medicaid Cost Report includes a certification of expenditures statement to be completed, certifying the provider's actual, incurred allocable and allowable costs/expenditures. All filed annual Cost Reports are subject to audit by the DCHFP or its designee.

To determine the Medicaid-allowable direct and indirect costs of providing covered services to Medicaid-eligible clients, the following steps are performed:

- A. Settings that are primarily providing medical services:
- (a.) Direct costs for covered services include unallocated payroll costs and other unallocated costs that can be directly charged to covered medical services. Direct payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. Other direct costs include costs directly related to the delivery of covered services, such as supervision, materials and supplies, professional and contracted services, capital outlay and travel. These costs must be in compliance with Medicaid non-institutional reimbursement policy and are accumulated on the annual cost report, resulting in total direct costs.
 - (b.) Total direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs for covered services.
 - (c.) Indirect costs are determined by applying the agency specific approved indirect cost rate to its net direct costs. If the provider has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These allocated indirect costs are reduced by any unallowable amount based on Medicaid non-intuitional reimbursement policy. The indirect costs details are accumulated on the annual cost report.
 - (d.) Net direct costs (b) and indirect costs (c) are combined.
 - (e.) A CMS approved time study is required when providers of service do not spend 100% of their time providing the Targeted Case Management services described in the applicable Section 3.1-A State plan pages and is used to determine the percentage of time that case management service personnel spend on direct Targeted

Case Management services, general and administrative time, and all other activities to account for 100% of the time to assure that there is no duplicate claiming. This CMS approved time study methodology will be used to separate administrative activities and direct services. The direct Targeted Case Management services time study percentage is applied against the net direct and indirect costs.

- (f.) Medicaid's portion of total allowable costs is calculated by multiplying the result from item (e) above to the ratio of the total units of service provided to Medicaid eligible clients to the total units of service provided.
 - (g.) Total Medicaid allowable costs (f) is reduced by any revenue, e.g. Medicaid co-payments, TPL, received for the same services to arrive at the total Medicaid net allocable and allowable costs.
- B. Facilities that are used for multiple purposes and the provision of medical services is not the primary purpose:
- (a) Direct costs include unallocated payroll costs and medical equipment and supplies. Unallocated payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff.
 - (b) The Direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs.
 - (c) Indirect costs are determined by applying the agency specified approved indirect cost rate to its net direct costs (Item b.). If the entity has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These indirect costs are reduced by any allowable amount. For these facilities, allowable costs are only those costs that are "directly attributable" to the professional component of providing the medical services and are in compliance with Medicaid non-institutional reimbursement policy. For those costs incurred that "benefit" multiple purposes but would be incurred at the same level if the medical services did not occur are not allowed, e.g., room and board, allocated cost from other related organizations. The indirect cost details are accumulated on the annual cost report.

- (d) Net direct costs (Item (b)) and indirect costs (Item (c)) are combined.

- (f) Medicaid's portion of the total net allocable and allowable costs is calculated by multiplying the result from Item (e) above to the ratio of total units of service provided to Medicaid eligible clients to the total units of service provided.
- (g) Total Medicaid allowable costs (Item f) is reduced by any revenue received for the same services, e.g. Medicaid co-payments and TPL, to arrive at the total Medicaid net allocable and allowable costs.

3. Cost Reconciliation Process

Governmental providers will be responsible for reconciling total computable costs reported on the cost report to the provider's Medicaid interim payments for Medicaid services delivered during the reporting period as document in the MMIS, resulting in cost reconciliation. The cost reconciliation process must be completed within twenty-four months of the end of the reporting period covered by the annual Cost Report.

4. Cost Settlement Process

If a governmental provider's interim payments exceed the actual, certified costs of the provider for services to Medicaid clients, the DHCFP will recoup the federal share of the overpayment using one of the following two methods:

- 1. Off-set all future claims payments from the provider until the amount of the federal share of the overpayment is recovered;
- 2. The provider will return an amount equal to the overpayment.

If the actual, certified costs exceed the interim Medicaid payments, the DHCFP will pay the federal share of the difference to the provider in accordance with the final actual certification agreement.

The DHCFP will issue a notice of settlement that denotes the amount due to or from the provider.

25. Newly developed Current Procedural Terminology (CPT) codes determined to be for Nevada Medicaid covered services: Codes for those services with a rate methodology which uses resource based relative value scale (RBRVS), as specified elsewhere in this Attachment, will be entered into the system using the Nevada specific unit value developed by Medicare. The 2014 Medicare Physician Fee Schedule conversion factor will be used to calculate payment for these newly developed codes where the RBRVS is used. The maximum allowable will be established by multiplying the unit value and the 2014 conversion factor and then paying the appropriate percentage, as specified elsewhere in this Attachment, based on the provider type, service type and CPT code range.

If a code is billed that has no Nevada specific Medicare rate, the Division will determine if there is national Medicare pricing. If so, the service will be paid at the appropriate percentage of the rate, as specified elsewhere in this Attachment. If there is no national Medicare pricing, the Division will establish pricing based on similar services.

26. Surgical services provided in both hospital-based and freestanding Ambulatory Surgical Centers (ASC)
- a. Payments for services billed by hospital-based and freestanding Ambulatory Surgical Centers (ASC) will be calculated using the Centers for Medicare & Medicaid Services (CMS) Ambulatory Payment Classification (APC) grouping as published in 42 CFR Parts 405, 410, 412, 413, 416 and 419. A Nevada ASC Base Rate will be established for each service by multiplying the associated 2016 ASC payment weight from the APC group (found in CMS-1633-FC-Addenda file) by the 2016 ASC conversion factor of 44.177 (found in CMS-1633-FC; CMS-1607-F2), then multiplying the result by the 2016 NV Wage Index of 0.9299 (Found in CMS-1633-FC Wage Index file).
 - 1. Surgical codes 10000 – 58999 and 60000 – 69999 will be reimbursed at 85% of the NV ASC Base Rate.
 - b. Services that CMS identifies as excluded from payment in an ASC setting, but are deemed appropriate to be performed in that setting by NV Medicaid Policy, will be paid using the CMS Outpatient Prospective Payment System (OPPS) relative weight from the associated APC group for that service in place of the ASC payment weight to establish the NV ASC Base Rate.
 - c. In the case of multiple procedures, the following adjustments to the fee schedule are made:
 - 1) First procedure 100% of fee schedule
 - 2) Second procedure 50% of fee schedule
 - 3) Third procedure 25% of fee schedule
 - 4) Fourth procedure 10% of fee schedule
 - 5) Fifth and thereafter procedures 5% of fee schedule
 - d. Professional services are reimbursed as indicated in Page 1c of Section 4.19-B.
 - e. Cornea Procurement will be reimbursed at 100% of the procurement charges as listed in the 2013 The Lewin Group Study.

Assurance: Except as otherwise noted in the plan, state developed fee schedule rates are the same for both public and private providers of the service. The agency's outpatient surgery (ASC) fee schedule rates were set as of January 1, 2017 and are effective for services provided on or after that date. All rates are published on our website: <http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/>

Methods and Standards Used to Determine Payment
For Emergency Medical Services for Illegal Aliens

Hospital, emergency clinics and county social service/welfare departments have been informed about the availability of emergency medical services and application procedures for aliens who have not been lawfully admitted for permanent residence or otherwise are not permanently residing in the United States under color of law.

When a hospital, clinic or county social service department determines a person receiving emergency services is indigent and an illegal alien, the alien will be referred to the State Welfare Division District Office for application. If the applicant is unable or reluctant to go to the Welfare District Office, the hospital/clinic/social service department will assist the applicant in completing the application and gathering verification and will send the application and verification to the Welfare District Office with the billing(s).

The District Office eligibility worker will request from the provider a bill or other evidence services were rendered and will obtain an application (if not already completed) and necessary verifications/information. The eligibility worker will approve eligibility for the months in which services were rendered and the applicant meets income/resource and other criteria (e.g., disability or incapacity). (A Medicaid card will not be issued to the client.) Providers will be notified of client eligibility so applicable bills may be submitted to the Medicaid fiscal agent for payment determination and processing based on whether the alleged qualifying services actually met the emergency criteria. The fiscal agent will notify providers of the reason for any payment denial.

Medicaid will make payment only for the alien's care and services which are necessary for the treatment after sudden onset of an emergency medical condition. As defined in Section 1903(v), an "emergency medical condition means a medical condition (including emergency labor and delivery) manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in:

- (A) placing the patient's health in serious jeopardy,
- (B) serious impairment to bodily functions, or
- (C) serious dysfunction of any bodily organ or part.

Payment for Qualified Medicare Beneficiaries (QMBs)

For Qualified Medicare Beneficiaries, Nevada Medicare will pay the Medicare deductibles and coinsurance subject to the following limitation: The Medicare payment (allowable charge) plus the deductible and coinsurance may not exceed the Medicaid maximum allowable payment. For Medicare services, which are not covered by Nevada Medicaid, or for which Nevada Medicaid does not have an established payment rate, Nevada Medicaid will pay the Medicare deductible and coinsurance amounts.

QMB claims for services which are covered by Medicare are not subject to Medicaid limitations. Medicaid will reimburse the deductible and coinsurance up to the Medicaid maximum allowable payment. Also, prior authorization is not required for Medicare allowable services for dually entitled QMBs. If Medicare benefits are exhausted or Medicare does not cover the service and the service is covered by Medicaid, prior authorization is required if the service or benefit normally requires it.

Enhanced Rates for Practitioner Services Delivered in a Teaching Environment

In order to ensure access to practitioner services by needy individuals in the state of Nevada and to recognize the higher cost of providing practitioner services in a teaching environment, enhanced payments will be made for services provided by Designated Practitioners through one of the following four eligible public teaching entities:

- University of Nevada, Las Vegas School of Dental Medicine
- University of Nevada, Las Vegas School of Medicine
- University of Nevada, Reno School of Medicine
- University Medical Center of Southern Nevada

Enhanced payments apply to claims paid on or after July 1, 2017 to Medicaid-enrolled Designated Practitioners providing approved Medicaid services through one of the eligible public teaching entities under the Nevada Medicaid State Plan. Medicaid Services must be billed under the Medicaid Billing Provider ID of a Designated Billing Provider.

The State of Nevada DHCFP must concur with the public teaching entity's designation of eligible practitioners in order for the payment adjustment to be applied.

The following Designated Practitioners are eligible for enhanced payments:

- Advanced Practitioner of Registered Nursing (APRN)
- Audiologist
- Clinical Psychologist
- Dentist
- Licensed Clinical Professional Counselor, Intern or Psychological Assistant
- Licensed Clinical Social Worker (LCSW)
- Licensed Marriage and Family Therapist (LMFT)
- Licensed Nurse Practitioner
- Licensed Registered Nurse
- Oral Surgeon
- Physician (MD or DO)
- Physician Assistant (PA-C)
- Speech Pathologist
- Optometrist
- Ophthalmologist
- Registered Dietician
- Registered Behavioral Technician

For the purposes of these enhanced payments for services provided by Designated Practitioners delivered in a teaching environment, the following definitions shall apply:

- Designated Practitioner means an individual practitioner or a practitioner group designated by one of the eligible public teaching entities as participating in medical education programs. To qualify for designation as a Designated Practitioner, the practitioner or practitioner group must be either an employee of the designating eligible public teaching entity or under contract with the designating eligible public teaching entity. Designations may apply to both public and private practitioners and practitioner groups.
- Designated Billing Provider means one of the eligible public teaching entities or a billing provider/provider group that facilitates meaningful medical education and is contracted by the designating eligible public teaching entity for billing Medicaid services provided by the Designated Practitioners.

Medicaid Services means Fee-for-Service (FFS) practitioner services enumerated by Healthcare Common Procedure Coding System (HCPCS)/Common Procedural Terminology (CPT)/Code on Dental Procedures (CDT)/Code, delivered to Medicaid eligible recipients, and paid during the Claims Payment Period. The source of the service and payment data shall be the Nevada MMIS.

- The following services are excluded from the enhanced payment:
 - Services delivered to Medicaid eligible recipients enrolled in Medicaid Managed Care Organizations or Pre-Paid Ambulatory Health Plans (PAHP).
 - Clinical diagnostic lab procedures
 - Services provided to Medicaid recipients also eligible for Medicare
 - The technical component of radiological services
 - Services provided by practitioners/practitioner groups not designated by one of the eligible public teaching entities as Designated Practitioners for the entire Claims Payment Period
 - Services not billed by a Designated Billing Provider
- Medicaid Base Rate(s) means the applicable Medicaid FFS reimbursement rate(s) published by the DHCFP, applicable on the date of service.
- Claims Payment Period means the three-month period directly prior to the first day of each payment quarter.
- Base Period means the state fiscal year (July 1 – June 30) prior to the Claims Payment Period.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEVADA

Attachment 4.19-B

Page 9a

- Average Commercial Rate (ACR) means, for each procedure (HCPCS/CPT/CDT) code, the average reimbursement amount of the top five commercial payers to the public teaching entity. "Commercial payers" exclude Medicare, Workers Compensation and any other payer(s) not subject to market forces. The ACR for each procedure code is established separately for each public teaching entity every Base Period.

If an eligible public teaching entity's contracts with commercial payers do not include a rate for a Medicaid Service delivered by a Designated Practitioner, and the Designated Billing Provider's contracts with commercial payers do include a rate for the Medicaid Service, the designating public teaching entity's average ACR percentage increase over the Medicaid Base Rates will be applied to the Medicaid Base Rate for the Medicaid Service.

If an eligible public teaching entity does not have contracts in place with commercial payers during a Base Period, the ACRs will be calculated based on the public teaching entity's contracts with commercial payers in effect during the Claims Payment Period.

The enhanced payment for each eligible service will be the lesser of:

- The difference between Billed Charges and the Medicaid Base Rate.
- The difference between 100% of the ACR and the Medicaid Base Rate.

Each eligible public teaching entity will provide the following listings to the DHCFP no later than the fifth business day of the first month of a quarter:

- A list of Designated Practitioners to include the Practitioner Name, Practitioner National Provider Identification number (NPI), Designation Start Date, Designation End Date (if applicable) for the prior quarter.
- A list of Designated Billing Providers to include the Billing Provider Name, Billing Provider ID, Designation Start Date, Designation End Date (if applicable) for the prior quarter.

No later than the last business day of the first month of the quarter, the DHCFP will provide a separate report to each eligible public teaching entity which includes the utilization data for the services paid during the Claims Payment Period that were billed by their Designated Billing Providers and delivered by their Designated Practitioners. The public teaching entity must review the report and acknowledge the completeness and accuracy of the report no later than the last business day of the second month of the quarter. After receipt of this acknowledgement, the DHCFP will approve and process the quarterly enhanced payments for each Designated Billing Provider no later than the last business day of the last month of the quarter. The process includes a reconciliation that takes into account all valid claim replacements affecting claims previously processed, as well as a process for recoupment of erroneous enhanced payments.

The enhanced payments will be sent to the Designated Billing Providers through the identification number used to bill Medicaid under the FFS program.

End Stage Renal Disease (ESRD) Dialysis Procedure Payment and ESRD Facilities

Hemodialysis (HD) and peritoneal dialysis (PD) services, CPT Codes 90999 and 90945 respectively, will be paid the lower of 1.) billed charges, or 2.) a fixed fee. Dialysis services are all services provided in conjunction with the dialysis treatment as defined in the Medicare ESRD Facility Prospective Payment System.

The bundled prospective payment rate will be set according to the most current Centers for Medicare & Medicaid Services (CMS) ESRD Prospective Payment System base rate. The bundled rate will include all resources used in providing outpatient dialysis treatment, including biological, drugs and laboratory services.

The fixed fee for 90999 (HD) will be 100% of the Medicare ESRD Prospective Payment System (PPS) base rate multiplied by the current ESRD Wage Index Locality Factor for Nevada for independent and hospital-based facilities. The fixed fee for 90945 (PD) is set as an HD-equivalent session. This is accomplished by dividing HD rate by seven, and multiplying the result by three.

Vaccine Products require a National Drug Code (NDC) and will be reimbursed according to the drug reimbursement algorithm set forth on Page 3 of Attachment 4.19-B.

Assurance: Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers of ESRD services. The agency's fee schedule rates were set as of January 1, 2017, and are effective for services on or after that date. All rates are published on the agency's website at: <http://dhcfp.nv.gov/Resources/Rates/RatesMain/>.

1915(i) Home and Community Based Services (HCBS) State Plan Services
METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES Home and Community Based Services (HCBS) Adult Day Health Care (ADHC)

Reimbursement Methodology for Adult Day Health Care (ADHC) Services provided by a non-governmental entity and governmental entities who do not undergo the Medicaid cost identification and reporting procedures:

Prior to the beginning of each rate year, each of the governmental providers providing ADHC services must select one of the reimbursement methodologies described below for reimbursement. For example, by April 30, 2013, governmental providers must select a methodology for the rate year beginning July 1, 2013. Once a selected methodology is determined for a rate year, governmental providers will not be able to change the selected methodology until the following rate year.

Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers of ADHC services. The Agency's rates were set as of October 1, 2017 and are effective for services on or after that date. All rates are published on the Agency's website at <http://dhcfp.nv.gov/Resources/Rates/FeeSchedules/>

The billable unit of service for ADHC is one unit per 15 minutes or the daily rate.

- If services are authorized and provided for less than six hours per day, provider should bill one unit for each 15 minutes;
- If services are authorized and provided for six hours or more per day, provider should bill the per diem rate.

Rate Methodology:

The rate is market based. This model is developed to reflect service definitions, provider requirements, operational service delivery and administrative considerations. The following elements are used to determine the rate:

- Wage information is taken from the Bureau of Labor Statistics (BLS). The wage is based on similar occupations reported by BLS and identified by Medicaid staff as comparable to ADHC services.
- Employee related expenses (ERE) percentage of 27% was based on input from the Task Force members and Medicaid Staff. It includes paid vacation, paid sick leave, holiday pay, health insurance, life insurance, disability, workers compensation, and legally required payroll taxes.
- Productivity adjustment factor which accounts for the amount of non-billable time spent by staff. This includes the time staff needs to complete required documentation and record keeping, time associated with missed appointments and average travel time by the provider.
- Administrative overhead, 10%, is the percentage of service cost that should result from non-direct care activities. It includes insurance, administrative staff, operations and management activities and office supplies. Capital and related expenses is not included. It also does not include staff training.

- Allowances for capital costs – the costs are not included in the Administrative overhead. It includes the average hourly expense for building rental and maintenance, equipment leasing and utility expenses.

The following steps are used to determine the rate:

1. The State will use Nevada-specific hourly wages from the Bureau of Labor Statistics as of May 2004 inflated to June 2006.
2. This hourly compensation is increased by the 27% ERE.
3. A productivity factor is applied to the hourly compensation calculated in Item 2 to equal to the adjusted hourly rate.
4. Administrative overhead (10%) is applied to the adjusted hourly rate (Item 3).
5. Determine allowance for capital costs per hour.
6. Fixed hourly rate is the sum of adjusted hourly rate (Item 3), administrative overhead (Item 4) and capital costs (Item 5).
7. Fixed hourly rate is scaled to the proper unit based on the procedure code.

This rate has been compared to government entities who do not follow all cost reporting rules and other private sector fee-for-service rates. Documentation of the assumptions used, rate development methodology, and fee schedule payment rates will be maintained by The Division of Health Care Financing and Policy.

- A. Reimbursement Methodology for Adult Day Health Care (ADHC) services provided by a state or local government entity:

ADHC services provided by a state or local government entity are reimbursed according to the following payment methodology. This methodology is used by providers who undergo all Medicaid cost identification, reporting, reconciliation and settlement procedures.

- I. The lower of: a) billed charges; or b) an interim rate. The Interim rate is the rate for a specific service for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period.

To determine the Medicaid-allowable direct and indirect costs of providing Adult Day Health Care Services the following steps are performed:

1. Interim Rates

Governmental providers are reimbursed on an interim basis for direct medical services per unit of service at the lesser of the provider's billed charges or a provider-specific interim rate. A provider-specific interim rate is an annual rate for the specific services for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period. Interim rates are based on program experience and cost data reported during the prior fiscal year.

2. Annual Cost Report Process

Each governmental provider will complete an annual cost report in the format prescribed by Nevada Medicaid for all medical services delivered during the previous state fiscal year covering July 1 through June 30. The cost report is due on or before December 1 of the year following the close of the reporting period.

The primary purposes of the cost report are to:

- a. document the provider's total Medicaid-allowable cost for delivering the medical services, including direct costs and indirect costs.
- b. reconcile its interim payments to its total Medicaid-allowable costs.

The annual Medicaid Cost Report includes a certification of expenditures statement to be completed, certifying the provider's actual, incurred allocable and allowable costs/expenditures. All filed annual Cost Reports are subject to audit by the DHCFP or its designee.

B. Settings that are primarily providing medical services:

- a) Direct costs for covered services include unallocated payroll costs and other unallocated costs that can be directly charged to covered medical services. Direct payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. Other direct costs include costs directly related to the delivery of covered services, such as supervision, materials and supplies, professional and contracted services, capital outlay and travel. These costs must be in compliance with Medicaid non-institutional reimbursement policy and are accumulated on the annual cost report, resulting in total direct costs.
- b) Total direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs for covered services.
- c) Indirect costs are determined by applying the cognizant agency approved indirect cost rate to its net direct costs. If the provider has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These allocated indirect costs are reduced by any unallowable amount based on Medicaid non-institutional reimbursement policy. The indirect cost details are accumulated on the annual cost report.
- d) Net direct costs (b) and indirect costs (c) are combined.
- e) A CMS approved time study is required when providers of service do not spend 100% of their time providing the ADHC services described in the applicable section 3.1-A State Plan pages and is used to determine the percentage of time that service personnel spend on direct ADHC.

- f) Services, general and administrative time, and all other activities to account for 100 Services, general and administrative time and all other activities to account for 100 per percent of the time to assure that there is no duplicate claiming. This CMS approved time study methodology will be used to separate administrative activities and direct services. The direct Adult Day Health Care Services time study percentage is applied against the net direct and indirect costs.
 - g) Medicaid's portion of total allowable costs is calculated by multiplying the result from item (e) above to the ratio of the total units of service provided to Medicaid eligible clients to the total units of service provided.
 - h) Total Medicaid allowable costs (f) is reduced by any revenue, e.g. Medicaid co-payments, TPL, received for the same services to arrive at the total Medicaid net allocable and allowable costs.
- C. Facilities that are used for multiple purposes and the provision of medical services is not the primary purpose:
- a) Direct costs include unallocated payroll costs and medical equipment and supplies. Unallocated payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff.
 - b) The Direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs.
 - c) Indirect costs are determined by applying the cognizant agency approved indirect cost rate to its net direct costs (Item b.). If the entity has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These indirect costs are reduced by any allowable amount. For these facilities, allowable costs are only those costs that are "directly attributable" to the professional component of providing the medical services and are in compliance with Medicaid non-institutional reimbursement policy. For those costs incurred that "benefit" multiple purposes but would be incurred at the same level if the medical services did not occur are not allowed, e.g., room and board, allocated cost from other related organizations. The indirect cost details are accumulated on the annual cost report.
 - d) Net direct costs (Item (b)) and indirect costs (Item (c)) are combined.
 - e) A CMS approved time study is required when providers of service do not spend 100% of their time providing the Adult Day Health Care Services described in the applicable section 3.1-A State Plan pages and is used to determine the percentage of time that service personnel spend on direct Adult Day Health Care Services, general and administrative time, and all other activities to account for 100 percent of the time to assure that there is no duplicate claiming. This CMS approved time study methodology will be used to separate administrative activities and direct services. The direct Adult

Day Health Care Services time study percentage is applied against the net direct and indirect costs.

- f) Medicaid's portion of the total net allocable and allowable costs is calculated by multiplying the result from Item (e) above to the ratio of total units of service provided to Medicaid eligible clients to the total units of service provided.
- g) Total Medicaid allowable costs (Item f) is reduced by any revenue received for the same services, e.g. Medicaid co-payments and TPL, to arrive at the total Medicaid net allocable and allowable costs.

3. Cost Reconciliation Process

Governmental providers will be responsible for reconciling total computable costs reported on the cost report to the provider's Medicaid interim payments for Medicaid services delivered during the reporting period as documented in the MMIS, resulting in cost reconciliation. The cost reconciliation process must be completed within twenty-four months of the end of the reporting period covered by the annual Cost Report.

4. Cost Settlement Process

If a governmental provider's interim payments exceed the actual, certified costs of the provider for services to Medicaid clients, the DHCFP will recoup the federal share of the overpayment using one of the following two methods:

- 1. Off-set all future claims payments from the provider until the amount of the federal share of the overpayment is recovered;
- 2. The provider will return an amount equal to the overpayment.

If the actual, certified costs exceed the interim Medicaid payments, the DHCFP will pay the federal share of the difference to the provider in accordance with the final actual certification agreement.

The DHCFP will issue a notice of settlement that denotes the amount due to or from the provider.

The out-of-state payment rate for services provided by an out-of-state provider is based on one of the following criteria:

- a. The out-of-state provider will be paid the lesser of the provider's billed charges or the fee-for-service rate that is paid to an in-state provider for the service.
- b. If the out-of-state provider refuses to accept this rate, then the out-of-state provider may be paid the lesser of the provider's billed charges or the same fee-for-service rate as it would be paid by its home state Medicaid program.
- c. For services that cannot be provided by a provider that accepts payment under (A) or (B), the State will maintain a list of other qualified out-of-state providers, and will negotiate competitive rates that will not exceed the provider's customary charge.

This rate has been compared to other private sector Fee-for-Service rates. Documentation of the assumptions used, rate development methodology, and fee schedule payment rates will be maintained by The Division of Health Care Financing and Policy.

Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers of ADHC services. The agency's rates were set as of October 1, 2017, and are effective for services on or after that date. Habilitation

Home and Community Based Services (HCBS) Home-Based Habilitation

The billable units of service for Home-Based Habilitation Services are:

- Half Day Medical Rehab – 1 unit is 3 hrs
- Full Day Medical Rehab – 1 unit is 6 hrs
- Residential Medical Rehab – 1 unit is 24 hours
- Community/work integration training – 1 unit per 15 mins

The Home-Based Habilitation Services are reimbursed the lower of a) billed charges for b) fee schedule rates of:

- Half Day Medical Rehab - \$220.38/unit
- Full Day Medical Rehab - \$440.75/unit
- Residential Medical Rehab - \$651.00/per diem
- Community/work integration training - \$5.38/unit

The fee schedule rates for the billing units of the Home-Based Habilitation services are developed based on the following components:

- Wage information – except for physician, wage information is based on reports from the Bureau of Labor Statistics (BLS) and identified by Medicaid staff as comparable to Home-Based Habilitation services. The healthcare professionals for home-based habilitation services include:
 - Case Managers
 - Therapists (PT/OT/ST)
 - Registered Nurses
 - Rehab Technicians
 - Psychologists
- Physician Contract Costs – estimate of hourly cost of contracted physician is based on BLS reports for gross salary of primary care physicians, grossed up to reflect ratio of practice revenue to pre-tax salary equivalent.
- Employee related expenses (ERE) percentage of 27% includes employee benefits such as life insurance, medical insurance, employee education benefits, etc. and statutory employer contributions such as social security, unemployment insurance, workers' compensation and Medicare.
- Other costs and economy factor: Approximately 35% of total business costs relate to non-direct care activities. Non-direct care activities include facility rent/lease, purchased services, accounting, legal, utilities, supplies, postage, copying, administrative/business travel, insurance, fidelity bond, etc.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

The economy factor, approximately 15%, represents an additional premium in addition to direct and other costs to attract willing and qualified service providers.

The following steps are used to form a reasonable basis to determine the average fee schedule rates:

1. The State will use the hourly wage information of each healthcare professional, from the BLS and the contract rate estimate for physicians.
2. The hourly compensation for each professional is allocated to each billable service unit, i.e. half day, full day and 24 hours residential, based on the average proportion of the time each healthcare professional provided for each billable service unit.
3. The aggregate amount of each individual professional's allocated compensation by billable service unit (Item 2) is increased by 27% of ERE to equal to direct care costs by each billable service unit.
4. Other costs and economy factor are applied to the direct care costs by each billable service unit (Item 3) to equal the estimated amount of all other costs and economy factor by each billable unit.
5. The sum of direct care costs (Item 3) and other costs and economy factor (Item 4) of all the billable services is adjusted to account for the impact of utilization patterns to arrive at the fee schedule rate for each of the billable services. The utilization of each billable service unit is:
 - Half Day Medical Rehab - 5%
 - Full Day Medical Rehab - 50%
 - 24 hour Residential - 45%

The agency's rates were set as of January 1, 2006 and are effective for services on or after January 1, 2006. All rates are published on the agency's website at: <http://dhcfp.nv.gov>.

1915(i) Home and Community Based Services (HCBS) State Plan Services
METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

For Individuals with Chronic Mental Illness, the following services provided by a government entity:

- Home and Community Based Services (HCBS) Day Treatment or Other Partial Hospitalization Services for Individuals with Chronic Mental Illness

Partial Hospitalization - 1 unit per 60 mins
Intensive Outpatient Program - per Diem

Rate Methodology:

HCBS Day Treatment or Other Partial Hospitalization services provided by a state or local government entity for individuals with chronic mental illness are reimbursed according to a methodology used to certify costs as representing expenditures eligible for FFP and may be used only by providers who undergo all Medicaid cost identification, reporting, reconciliation and settlement procedures.

- I. the lower of: a) billed charges; or b) an interim rate. The Interim rate is the rate for a specific service for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period.

To determine the Medicaid-allowable direct and indirect costs of providing HCBS Day Treatment or Other Partial Hospitalization services the following steps are performed:

1. Interim Rates

Governmental providers are reimbursed on an interim basis for direct medical services per unit of service at the lesser of the provider's billed charges or a provider-specific interim rate. A provider-specific interim rate is an annual rate for the specific services for a period that is provisional in nature, pending the completion of cost reconciliation and a cost settlement for that period. Interim rates are based on program experience and cost data reported during the prior fiscal year.

2. Annual Cost Report Process

Each governmental provider will complete an annual cost report in the format proscribed by Nevada Medicaid in the Medicaid Operations Manual for all medical services delivered during the previous state fiscal year covering July 1 through June 30. The cost report is due on or before December 1 of the year following the close of the reporting period. The primary purposes of the cost report are to:

- a. document the provider's total Medicaid-allowable cost for delivering the medical services, including direct costs and indirect costs, based on the methodologies/steps described below; and
b. reconcile its interim payments to its total Medicaid-allowable costs.

1915(i) Home and Community Based Services (HCBS) State Plan Services

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

The methodologies/steps are incorporated in the approved Cost Allocation Plan (PACAP) to facilitate the accumulation of Medicaid allocable and allowable cost.

The annual Medicaid Cost Report includes a certification of the provider's actual, incurred allocable and allowable Medicaid costs/expenditures. All filed annual Cost Reports are subject to audit by DCHFP or its designee.

To determine the Medicaid-allowable direct and indirect costs of providing covered services to Medicaid-eligible clients, the following steps are performed:

- A. Facilities that are primarily providing medical services
 - (a) Direct costs for covered services include unallocated payroll costs and other unallocated costs that can be directly charged to covered medical services. Direct payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. Other direct costs include costs directly related to the delivery of covered services, such as supervision, materials and supplies, professional and contracted services, capital outlay, and travel. These costs must be in compliance with Medicaid non-institutional reimbursement policy and are accumulated on the annual cost report, resulting in total direct costs.
 - (b) The direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs resulting in adjusted direct costs for covered services.
 - (c) Indirect costs are determined by either applying the agency specific approved indirect cost rate to its net direct costs. If the provider has no approved indirect cost rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan. These allocated indirect costs are reduced by any unallowable amount based on Medicaid non-institutional reimbursement policy. The indirect costs details are accumulated on the annual cost report.
 - (d) Net direct costs (Item b) and indirect costs (Item c) are combined.
 - (e) A CMS approved time study is required when providers of service do not spend 100% of their time providing the Medical services described in the applicable section 3.1-A State plan pages and is used to determine the percentage of time that medical service personnel spend on direct medical services, general and administrative time, and all other activities to account for 100 percent of the time to assure that there is no duplicate claiming. This CMS approved time study methodology will be used to separate administrative activities and direct services.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

The direct medical services time study percentage is applied against the net direct and indirect costs.

- (f) Medicaid's portion of total allowable costs is calculated by multiplying the result from Item (e) above to the ratio of the total units of service provided to Medicaid eligible clients to the total units of service provided.
 - (g) Total Medicaid allowable costs (Item f) is reduced by any revenue, e.g. Medicaid co-payments and TPL, received for the same service to arrive at the total Medicaid net allocable and allowable costs.
- B. Facilities that are used for multiple purposes, and the provision of medical services is not the primary purpose
- (a) Direct costs include unallocated payroll costs and medical equipment and supplies. Unallocated payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct care staff. These costs are accumulated on the annual cost report.
 - (b) The Direct costs from Item (a) are reduced by any amount that is not in compliance with Medicaid non-institutional reimbursement policy and are further reduced by any federal payments for those costs, resulting in adjusted direct costs.
 - (c) Indirect costs are determined by applying the agency specific approved indirect cost rate to its net direct costs (Item b.). If the entity has no approved indirect costs rate, the allocated indirect costs can be derived from the allocation process through the provider's approved cost allocation plan.

These indirect costs are reduced by any unallowable amount. For these facilities, allowable costs are only those costs that are "directly attributable" to the professional component of providing the medical services and are in compliance with Medicaid non-institutional reimbursement policy. For those costs incurred that "benefit" multiple purposes but would be incurred at the same level if the medical services did not occur are not allowed, e.g. room and board, allocated cost from other related organizations. METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

For Individuals with Chronic Mental Illness, the following services provided by non-governmental entities and governmental entities who do not undergo the Medicaid cost identification and reporting procedures:

- Home and Community Based Services (HCBS) Day Treatment or Other Partial Hospitalization Services for Individuals with Chronic Mental Illness

The billable units of service for HCBS Day Treatment or Other Partial Hospitalization Services for Individuals with Chronic Mental Illness are:

Partial Hospitalization - 1 unit per 60 mins

Intensive Outpatient Program – per Diem

Rate Methodology:

The rate is market based. This model is developed to reflect service definitions, provider requirements, operational service delivery and administrative considerations. The following elements are used to determine the rate:

- Wage information is taken from the Bureau of Labor Statistics (BLS). The wage is based on similar occupations reported by BLS and identified by Medicaid staff as comparable to services provided under the intensive outpatient program and partial hospitalization program.
- Employee related expenses (ERE) percentage of 27% was based on input from the Task Force members and Medicaid Staff. It includes paid vacation, paid sick leave, holiday pay, health insurance, life insurance, disability, workers compensation, and legally required payroll taxes.
- Productivity adjustment factor which accounts for the amount of non-billable time spent by staff. This includes the time staff needs to complete required documentation and record keeping, time associated with missed appointments and average travel time by the provider.
- Program Support costs – costs based on average of 4 hours per day. This is to assist with paperwork and follow-up related treatment.
- Allowance for supervisory time – costs for the time directly spent in supervising the medical professional providing these services.
- Allowance for capital costs – the costs is not included in the Administrative overhead. It includes the average hourly expense for building rental and maintenance, equipment leasing and utility expenses.
- Administrative overhead, 10%, is the percentage of service cost that should result from non-direct care activities. It includes insurance, administrative staff, operations and management activities and office supplies. Capital and related expenses is not included. It also does not include staff training.

1915(i) Home and Community Based Services (HCBS) State Plan Services
METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

The following steps are used to determine the rates:

1. The State will use Nevada-specific hourly wages from the Bureau of Labor Statistics as of May, 2004 inflated to June, 2006.
2. The hourly amount is increased by the 27% ERE.
3. A productivity factor is applied to the hourly compensation calculated in Item 2 to equal the hourly rate.
4. The hourly rate per individual is the hourly rate (Item 3) divided by the number of individuals based on staffing ratio assumption.
5. The adjusted hourly rate per individual is the hourly rate per individual (Item 4) increased by the program support costs per hour per individual, allowance for supervisory time and capital costs per hours.
6. Administrative overhead 10% is applied to the adjusted hourly rate per individual (Item 5).
7. Total hourly rate is the sum of the adjusted hourly rate per individual before administrative overhead (Item 5) and the administrative overhead (Item 6).
8. Total hourly rate is scaled to the proper unit based on the billable unit of service.

These rates have been compared to other private sector fee-for-service rates. Documentation of the assumptions used, rate development methodology, and fee schedule payment rates will be maintained by the DHCFP.

The agency's rates were set as of January 1, 2006 and are effective for services on or after January 1, 2006. All rates are published on the agency's website at: <http://dhcfp.nv.gov>

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

Services provided by an out-of-state provider require prior authorization by Nevada Medicaid, which must also verify that the services required by Medicaid-eligible or pending eligible clients are not available in Nevada. The out-of-state payment rate for services provided by an out-of-state provider is based on one of the following criteria:

- a. The out-of-state provider will be paid the lesser of the provider's billed charges or the fee-for-service rate that is paid to an in-state provider for the services.
- b. If the out-of-state provider refuses to accept this rate, then the out-of-state provider may be paid the lesser of the provider's billed charges or the same fee-for-service rate as it would be paid by its home state Medicaid program.
- c. For services that cannot be provided by a provider that accepts payments under (A) or (B), the State will maintain a list of other qualified out-of-state providers, and will negotiate competitive rates that will not exceed the provider's customary charge.

2. Presumptive Eligibility for Assessment and Initial HCBS. Period of presumptive payment for HCBS assessment and initial services, as defined by 1915(i)(1)(J):

- The State does not elect to provide for a period of presumptive payment for individuals that the State has reason to believe may be eligible for HCBS.

- The State elects to provide for a period of presumptive payment for independent evaluation, assessment, and initial HCBS. Presumptive payment is available only for individuals covered by Medicaid that the State has reason to believe may be eligible for HCBS, and only during the period while eligibility for HCBS is being determined. The presumptive period will be 60 days (not to exceed 60 days).

2. OUTPATIENT HOSPITAL SUPPLEMENTAL PAYMENTS

This section of the state plan contains the provisions for making additional Medicaid payments, in order to preserve access to outpatient hospital services for needy individuals in the state of Nevada. Effective for services provided on or after March 1, 2010, the state's Medicaid hospital reimbursement system shall provide for supplemental outpatient payments to non-state, governmentally owned or operated hospitals. These supplemental payments shall be determined on an annual basis and paid to qualifying hospitals on a quarterly basis. The supplemental payments shall not exceed, when aggregated with other fee-for-services outpatient hospital payments made to non-state, governmentally owned or operated hospitals, 100% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles in accordance with the federal upper limit regulations at 42 CFR §447.321.

a. Methodology for Determining Outpatient Supplemental Payments:

The hospitals that qualify for outpatient supplemental payments will have their payment amount determined using a payment-to-charge ratio UPL methodology.

Outpatient supplemental payments for each hospital will be calculated using following method:

- (i) Calculate Total Medicare Outpatient Payments from: CMS 2552-96 Wkst E Part B, Col 1, Line 17 + CMS 2552-96 Wkst E Part B, Col 1, Line 17.01 + CMS 2552-96 Wkst E Part B, Col 1, Line 21+22 [Add comparable fields for sub providers 1 and 2]
- (ii) Calculate Total Medicare Outpatient Charges from: CMS 2552-96 Wkst D Part V, Line 104, Col 5 + CMS 2552-96 Wkst D Part V, Line 104, Col 5.01 + CMS 2552-96 Wkst D Part V, Line 104, Col 5.02 + CMS 2552-96 Wkst D Part V, Line 104, Col 5.03 [Add comparable fields for sub providers 1 and 2]
- (iii) Calculate Medicare Outpatient Payment to Charge Ratio. The ratio is calculated by dividing the result of (i) by (ii)

- (iv) The result of (iii) is multiplied by Medicaid Outpatient charges in order to determine the Estimated Medicare Outpatient Services Upper Payment Limit. Total Medicaid Outpatient charges shall be derived from Nevada Medicaid Management Information System (MMIS) adjudicated claims data.
 - (v) Total Medicaid Outpatient Payments for the period are subtracted from the result (iv) to determine the annual amount of Outpatient Supplemental Payment. Total Medicaid Outpatient payment shall be derived from Nevada Medicaid Management Information System (MMIS) adjudicated claims data.
- b. Outpatient Supplemental Payments:
- (i) Each qualifying hospital will provide documentation of CMS form 2552 cost report for Medicare charge and payment information for the previous fiscal year to Medicaid by April 1st of each year.
 - (ii) Beginning April 2010, Medicaid will calculate the total outpatient supplement payment for qualifying hospitals using the methodology in section A. above. At the end of each calendar quarter, hospitals will receive a payment amount equal to 25% of the hospital's total outpatient supplemental payment.

Payment Adjustment for Provider Preventable Conditions

The Medicaid agency meets the requirements of 42 CFR Part 447, Subpart A, and Sections 1902(a)(4), 1902(a)(6), and 1903 with respect to non-payment for provider-preventable conditions.

Other Provider-Preventable Conditions

The State identifies the following Other Provider-Preventable Conditions (OPPCs) for non-payment under Section(s) 4.19-B.

Wrong surgical or other invasive procedure performed on a patient; surgical or other invasive procedure performed on the wrong body part; surgical or other invasive procedure performed on the wrong patient.

____ Additional Other Provider-Preventable Conditions identified below (*please indicate the section(s) of the plan and specific service type and provider type to which the provisions will be applied. For example – 4.19(d) nursing facility services, 4.19(b) physician services*) of the plan:

Methodology for Identifying Other Provider-Preventable Conditions

The State Agency's fiscal agent will review claims with dates of service on or after July 1, 2012 for OPPCs and report to the State. The state's Surveillance and Utilization Review (SUR) unit will review each claim identified in that report and recover payments associated with the OPPC.

Payment Adjustment

For OPPCs not present on admission, payment will be reduced to those costs not associated with an OPPC, using standard rates assigned to CPT and HCPCS codes for reimbursement by the DHCFFP.

The existing appeals process will be available to providers who dispute the determination.

Assurances

The reimbursement methodology described in Attachment 4.19B, Page 5 will not exceed the federal upper payment limit for such services as described in 42 CFR 442.321. To the extent reimbursements exceed upper payment limits, the State will return to CMS any federal funds used to reimburse these providers in excess of this limit. To establish the federal upper payment limit for these services the following methodology is used:

1. Segregation: Providers are divided into two primary categories – hospital based providers and free-standing clinics. These two categories are further segregated three additional categories:
 - a. Privately-owned or operated facilities.
 - b. State government-owned or operated facilities
 - c. Non-state government-owned or operated facilities
2. Free-Standing Privately-owned or operated facility UPL estimation
 - a. A sample of at least one calendar quarter of Medicaid claims for these providers will be used as base data.
 - b. Medicaid reimbursement is estimated for these claims using the methodology described in 4.19B, Page 5.
 - c. Medicare reimbursement is estimated using the guidelines established in the Medicare Claims Processing Manual and Transmittal AB-03-116.
 - d. The amounts calculated in b. and c. are compared. If b. is less than c. Medicaid reimbursement is in conformance with the provisions of 42 CFR 422.321.
3. Free-Standing state and non-state government-owned or operated facilities – there are no facilities providing services under attachment 4.19B, Page 5 in Nevada.
4. Hospital-based privately-owned or operated facilities.
 - a. The methodology utilizes Medicare cost principles to estimate UPL
 - b. The methodology includes all hospital outpatient services, including those provided under 4.19B, Page 1 and Page 5.
 - c. The most recently filed Medicare cost report outpatient cost to charge ratio is used for each facility.
 - d. A sample of at least one calendar quarter of Medicaid claims for the services described in 4.b. above will be used as base data.
 - e. Medicaid reimbursement is estimated for these claims using the methodology described in attachment 4.19B.
 - f. Medicare reimbursement is estimated by multiplying the total billed charges for each facility from d. above by the cost to charge ratio from b. above. The result is the Medicare UPL for these services.
 - g. The amounts calculated in e. and f. are compared. If e. is less than f. Medicaid reimbursement is in conformance with the provisions of 42 CFR 422.321
5. Hospital-based state government-owned or operated facilities – there are no facilities providing services under attachment 4.19B, Page 5 in Nevada.
6. Hospital-based non-state government owned or operated facilities estimations are based on the same methodology described in 4. above.

Payment of Medicare Part A and Part B Deductible/Coinsurance

Except for a nominal recipient copayment (as specified in Attachment 4.18 of this State plan), if applicable, the Medicaid agency uses the following general method for payment:

1. Payments are limited to State plan rates and payment methodologies for the groups and payments listed below and designated with the letters "SP".

For specific Medicare services which are not otherwise covered by this State plan, the Medicaid agency uses Medicare payment rates unless a special rate or method is set out on Page 3 in item ___ of this attachment (see 3. below).

2. Payments are up to the full amount of the Medicare rate for the groups and payments listed below, and designated with the letters "MR."
3. Payments are up to the amount of a special rate, or according to a special method, described on Page 3 in item ___ of this attachment, for those groups and payments listed below and designated with the letters "NR".
4. Any exceptions to the general methods used for a particular group or payment are specified on Page 3 in Item 1 of this attachment (see 3. above).

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT METHODS AND
STANDARDS FOR ESTABLISHING PAYMENT FOR ORGAN TRANSPLANT SERVICES AND
OUT-OF-STATE EMERGENCY SERVICES

In order to ensure adequate access to organ transplant services and to emergency services for a recipient while outside of the State of Nevada, Nevada Medicaid uses the following general method for payment for professional services related to organ transplant services and out-of-state emergency services:

1. Scope: This section is applicable to all professional services rendered by a physician outside of those services provided by the acute care hospital. This includes charges for attendant physicians and post discharge care. Additionally, this applies to all organ search and match services and emergency transportation services.
2. Reimbursement: Provider reimbursements under this supplement must conform to the following:
 - a) All providers are reimbursed by default according to Nevada Medicaid in-state provider rates as described in Attachment 4.19B of the State Plan.
 - b) If the provider refuses to accept these rates, Nevada Medicaid will negotiate reimbursement at the applicable rate of the provider's home state Medicaid program.
 - c) If the provider refuses to accept the rates in either a) or b) above, Nevada Medicaid will negotiate provider specific reimbursement agreements according to the following criteria:
 - 1) The service must only be available from a limited number of out-of-state providers. In Nevada Medicaid's judgment, the service provider which is most cost effective will be authorized to provide the service.
 - 2) Reimbursement agreements will be established only for a limited specific set of services applicable under this section and not for all general services the provider may render.
 - 3) Reimbursement agreements will be for a limited duration of time not to exceed two years to ensure the requirements in 1) above are met.
 - 4) Reimbursement agreements may be in the form of a total amount for the entire service (such as for a particular type of transplant), a percentage of billed charges, or a specific fee schedule.
 - 5) Under no circumstances will reimbursement agreements exceed the usual and customary charges of the provider.

Payments for Selected Critical Access Hospitals for Providing Telehealth Services

For dates of service beginning November 24, 2016 and ending July 31, 2019, Battle Mountain General Hospital, Grover C Dils Medical Center, Mount Grant General Hospital and Pershing General Hospital will be reimbursed for telehealth services using a cost-based methodology as described below:

1. Interim Payments
 - a) Each facility identified above is reimbursed on an interim basis for telehealth services provided at the Nevada Medicaid outpatient hospital services fee-for-services rates.
2. Quarterly Cost Reconciliation/Payment Process
 - a) Within 60 days after the end of each quarter each facility identified above will submit to the DHCFP a summary of all telehealth encounters paid during the previous quarter, identified by the telehealth Originating Site Facility Fee code, Q3014, and the related Medicaid charges.
 - b) The DHCFP will determine the total Medicaid charges for each facility by totaling the Medicaid charges for all telehealth encounters submitted under #a above.
 - c) The DHCFP will apply the facility's most current available Medicare approved telemedicine cost to charge ratio to the total Medicaid charges (see #b above) to determine the total cost of Medicaid telehealth services provided in the quarter.
 - d) If the total quarterly actual costs for providing Medicaid telehealth services as determined under #c exceeds the total interim Medicaid payments for the quarter, the DHCFP will pay the facility the difference.

If the facility's total interim quarterly Medicaid payments for the telehealth services exceeds the actual cost determined under #c above, the DHCFP will recoup the overpayment using one of the following two methods:

- i. Off-set all future claims payment from the facility until the amount of the overpayment is recovered;
- ii. The facility will return an amount equal to the overpayment.

PAYMENT FOR RESERVED BEDS FOR THERAPEUTIC LEAVE OF ABSENCE

1. Payment for reserved beds will not be made in an acute care facility.
2. Payment for therapeutic leave of absence, or reserved beds, may be made in an institution for mental diseases (IMD), a skilled nursing facility (SNF), a nursing facility (NF), an intermediate care facility (ICF) or an ICF for the mentally retarded (ICF/MR), subject to the following conditions:
 - a. The purpose of the therapeutic leave of absence is for rehabilitative home and community visits including preparation for discharge to community living;
 - b. The patient's attending physician authorizes the therapeutic leave of absence and the plan of care provides for such absences;
 - c. An IMD, SNF, NF, ICF, or ICF/MR will be reimbursed their per diem rate for reserving beds for Medicaid recipients who are absent from the facility on therapeutic leave up to a maximum of 24 days annually. For this purpose, annually is defined as a calendar year beginning on January 1 and ending on December 31 of the same year.

PAYMENT FOR NURSING FACILITIES
ASSURANCES AND RELATED INFORMATION

A. State Assurances and Findings. The State assures that it has made the following findings:

1. 447.253(b)(1)(i) - The State pays for long-term care facility services through the use of rates that are reasonable and adequate to meet the costs that must be incurred by efficiently and economically operated providers to provide services in conformity with applicable State and Federal laws, regulations and quality and safety standards.
2. With respect to nursing facility services -
 - a. 447.253(b)(1)(iii)(A) – Except for preadmission screening for individuals with mental illness and mental retardation under 42 CFR 483.20 (f), the methods and standards used to determine payment rates take into account the costs of complying with the requirements of 42 CFR Part 483 Subpart B.
 - b. 447.253(b)(1)(iii)(B) - The methods and standards used to determine payment rates provide for an appropriate reduction to take into account the lower costs (if any) of the facility for nursing care under a waiver of the requirements in 42 CFR 483.30 (c) to provide licensed nurses on a 24-hour basis.
 - c. 447.253(b)(1)(iii)(C) - The State has established procedures under which the data and methodology used to establish payment rates are made available to the public.
3. 447.253(b)(2) - The proposed rate will not exceed the upper payment limits as specified in 42 CFR 447.272:
 - a. 447.272(a) – Aggregate payments made to nursing facilities when considered separately, will not exceed the amount that can reasonably be estimated would have been paid for under Medicare Payment principles. (There are no state-operated nursing facilities to which this assurance is applicable.)
 - b. 447.272(b) – Aggregate payments to ICFs/MR will not exceed the amount that can reasonably be estimated would have been paid for under Medicare payment principles. And, aggregate payments to state-operated facilities (that is ICFs/MR) - when considered separately will not exceed the amount that can reasonably be estimated would have been paid for under Medicare payment principles.

B. State Assurances. The State makes the following additional assurances:

1. For nursing facilities and ICFs/MR

a. 447.253(d)(1) – When there has been a sale or transfer of the assets of a NF or ICF/MR on or after July 18, 1984, but before October 1, 1985, the State's methods and standards provide that payment rates can reasonably be expected not to increase in the aggregate, solely as a result of a change in ownership, more than payments would increase under Medicare under 42 CFR 413.130, 413.134, 413.153 and 413.157 insofar as these sections affect payment for depreciation, interest on capital indebtedness, return on equity (if applicable), acquisition costs for which payments were previously made to prior owners and the recapture of depreciation.

b. 447.253(d)(2) – When there has been a sale or transfer of the assets of a NF or ICF/MR on or after October 1, 1985, the State's methods and standards provide that the valuation of capital assets for purposes of determining payment rates will not increase (as measured from the date of acquisition by the seller to the date of the change of ownership) solely as a result of a change of ownership, by more than the lesser of:

(i) 1/2 of the percentage increase (as measured from the date of acquisition by the seller to the date of the change of ownership) in the Dodge construction index applied in the aggregate with respect to those facilities that have undergone a change of ownership during the fiscal year; or

(ii) 1/2 of the percentage increase (as measured from the date of acquisition by the seller to the date of the change of ownership) in the Consumer Price Index for All Urban Consumers (CPI-U) United State city average) applied in the aggregate with respect to those facilities that have undergone a change of ownership during the fiscal year.

2. 447.253(e) – The State provides for an appeals or exception procedure that allows individual providers an opportunity to submit additional evidence and receive prompt administrative review, with respect to such issues as the State determines appropriate, of payment rates.

PAYMENT FOR LONG TERM NURSING FACILITY SERVICES
METHODS AND STANDARDS

Payment is made for services provided in nursing facilities, including nursing facilities for the mentally retarded, in accordance with Section 1902(a) (13) of the Social Security Act as amended.

A. Hospital-Based Facilities: (Hospital-based facility is defined as: a) a facility sharing a common building or common tract of land with a hospital owned or operated by the state, or an instrumentality or unit of government within the state, located within a county of a population of 100,000 or less; or b) a facility (public or private) which prior to July 1, 1992, was paid for both inpatient hospital services under Attachment 4.19-A of the Medicaid State Plan and long-term nursing facility services under this section.

1. Hospital-based nursing facility services are paid for under Medicare reasonable cost-based reimbursement principles, including the routine cost limitation (RCL), and the lesser of cost or charges (LCC).

Effective October 1, 2001, hospital-based nursing facilities shall continue to be reimbursed under Medicare's cost-based reimbursement principles, along with the other provisions of Paragraphs A.2 and A.3.

Under this methodology, payment will follow any and all applicable Medicare upper payment limitation (UPL) requirements such that payments will not exceed the UPL. The rates the State of Nevada would pay per day of nursing facility care comply with the Medicare upper payment limit at 42 CFR 447.272, as amended.

The routine cost limit (RCL) used in cost settlements will be \$160.14 per day, effective October 1, 2001. This RCL will apply to cost reports ending on or after October 1, 2001, and will only apply to the portion of the cost report period on or after October 1, 2001. For those cost reports beginning prior to October 1, 2001 and ending on or after October 1, 2001, a weighted average RCL will be used. The RCL applicable to the portion of the cost report period prior to October 1, 2001 will be the per diem routine service cost paid to the facility during the most current cost report period ending prior to October 1, 2001. The RCL applicable to the portion of the cost report period on or after October 1, 2001, will be the RCL of \$160.14, as adjusted for inflation. For example: If a hospital-based facility with a June 30 year end was paid \$140 per day for routine service cost during its year ending June 30, 2001, the \$140 per day would be the RCL for this facility during the portion of the cost reporting year from July 1, 2001 through September 30, 2001. The RCL for the remainder of the year ending June 30, 2002 (October 1, 2001 through June 30, 2002) would be the \$160.14 RCL, as adjusted for inflation.

The \$160.14 RCL will be indexed (adjusted for inflation) from October 1, 2001 to the midpoint of the cost-reporting period to which it is applied. The Skilled and Intermediate Care Facilities without capital (non-seasonally adjusted) Table 9: Percent Change in Medical Prices as published by MEI will be used in indexing the RCL. If this index becomes unavailable, a comparable index will be used.

Page 2

The Medicaid program will re-base the RCL every other year, beginning July 1, 2003, using audited hospital-based nursing facility cost report data, input from the hospital-based nursing facility providers, and other information deemed appropriate.

1. In no case may payment for hospital-based nursing facility services exceed the provider's customary charges to the general public for these services.
2. Effective October 1, 2013, each facility will receive an interim payment of 100% of billed charges.

- B. Free-standing Nursing Facilities (Free-standing nursing facility is defined as any other facility providing nursing facility services, except hospital-based nursing facilities.):
1. Reimbursement Methodology – January 1, 2002 through June 30, 2002:
 - a. In preparing the free-standing nursing facilities for a resource utilization group (RUG) based Medicaid reimbursement system; a transitional rate setting process will be adopted effective January 1, 2002. The significant elements of this system include the following:
 - b. Base operating rates will be calculated for each facility effective January 1, 2002. The base operating rates will be calculated for each free-standing nursing facility using the weighted average operating rate for each facility effective October 1, 2001, (excluding SNL-3 days and rates). The days used to prepare the weighted average operating rates will be paid nursing facility days from January 1, 2001 through June 30, 2001 (excluding SNL-3 days) as shown on a paid claims listing prepared in November 2001. Each facility's capital rate effective October 1, 2001, will be added to their weighted average operating rate. If the statewide Medicaid day weighted average operating and capital rates, calculated as described above, exceed the budget target rate of \$121.02, a budget adjustment factor will be employed to adjust the calculated rates to meet the budget target.
 - c. For those facilities with unstable occupancy (i.e. facilities receiving their initial Medicaid certification on or after January 1, 2000), their base rate will be adjusted for changes in Medicaid acuity as follows:
 1. A snapshot Medicaid average case mix index (CMI) will be calculated for each facility effective October 1, 2001.
 2. Medicaid average CMIs will be prepared for these facilities as of January 1, 2002 and April 1, 2002, using the same weights as were used to prepare the October 1, 2001 snapshot.
 3. The change in average Medicaid CMI, for each unstable occupancy nursing facility as measured from October 1, 2001 to January 1, 2002, and from October 1, 2001 to April 1, 2002, will be used to proportionally increase or decrease 40% of that facility's operating rate effective January 1, 2002 and April 1, 2002.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-D
Page 4

2. Reimbursement Methodology July 1, 2002 through June 30, 2003:
 - a. Effective July 1, 2002, each nursing facility's base rate (the rate in effect for each facility on June 30, 2002) will be adjusted for the change in their average Medicaid CMI. The ratio to use in this calculation will be developed using as its numerator each facility's simple average of their Medicaid CMI as of January 1, 2002 and April 1, 2002. The denominator will be the simple average of each facility's Medicaid CMI calculated as of October 1, 2001 and January 1, 2002.
 - b. The rates in 2.a. will be further acuity-adjusted quarterly. In preparing these rate adjustments, the denominator of the fraction described in Item 2.a. above will remain unchanged for each facility. The numerator of the fraction for October 1, 2002 adjustment will reflect the simple average of each facility's Medicaid CMI as of April 1, 2002 and July 1, 2002. The July 2002 and October 2002 average Medicaid CMI will be used in the January 1, 2003 rate setting, while the October 2002 and January 2003 average Medicaid CMI will be used in the April 1, 2003 rate adjustments.
 - c. The acuity-adjusted rates, as described above in Items 2.a. and b., will be further adjusted by an adjustment factor to not exceed the industry Medicaid weighted average per patient day rate effective January 1, 2002 as described in B. 1. b. above.
 - d. Forty percent of each facility's weighted average operating rate will be subject to the acuity adjustments described in this section.
 - e. Facilities that were initially certified between July 1, 1999 and December 31, 1999, will have their rates adjusted to reflect the adjustments to rates that were made to unstable occupancy facilities during the period of January 1, 2002 through June 30, 2002. These rate adjustments will be effective July 1, 2002. The intent of this provision is to treat facilities initially certified during this period as if they had been identified as unstable occupancy facilities during the period from January 1, 2002 through June 30, 2002.

3. Reimbursement Methodology – Effective July 1, 2003:

Effective July 1, 2003, a nursing facility price-based reimbursement system will be implemented. Individual facility rates will be developed from prices established for three separate cost centers: operating, direct health care and capital. The allowable cost used in these rate setting activities will be nursing facility health care cost determined to be allowable in accordance with the Medicare/Medicaid provider reimbursement manual, commonly referred to as HIM 15.

- a. **Operating Cost Center** – The operating cost center will be comprised of all allowable cost excluding direct care cost, capital cost and direct ancillary service cost. The statewide price for this cost center will be set at 105% of the Medicaid day weighted median.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-D

Page 5b

- b. **Direct Health Care Cost Center** – The direct health care cost center will be comprised of allowable RN, LPN, and Nursing Aide salaries and wages; a proportionate allocation of allowable employee benefits; and the direct allowable cost of acquiring RN, LPN and Nurse Aide staff from outside staffing companies. The statewide price will be established for this cost center at 110% of the Medicaid day weighted median case mix neutralized cost. In preparing the case mix neutralization, a minimum of two calendar quarters from each facility’s available quarterly facility wide case mix index information that most closely matches their base year cost report will be used to calculate the Medicaid day weighted average. On a quarterly basis, each facility’s specific direct health care price is determined by adjusting the statewide price using as the numerator, the facility’s most current quarterly Medicaid case mix index and as the denominator, the Medicaid day weighted average of the facility wide case mix indexes used in setting the statewide price.

c. **Capital Cost Center** – This cost center will be comprised of allowable depreciation, capital related interest, rent / lease, and amortization expenses. A fair rental value (FRV) reimbursement system will be used to determine each facility’s capital rate. The following items will be used in determining each facility’s FRV rate:

i.	Value of New Beds (7/01/03)	\$73,000.00
ii.	Bed Value Indexed Annually (using Marshall Swift, Class C nursing facility index)	
iii.	Rate of Depreciation	1.5% Year
iv.	Maximum Age	40 Years
v.	Rental Rate	9.0% Annually
vi.	Minimum Occupancy Percent	92%

These values will be used to determine a facility’s FRV payment as demonstrated below:
(Example facility has 100 beds and is 10 years old)

Licensed Beds	100
Times Value/Bed	\$73,000
Gross Value	\$7,300,000
Depreciation Rate (1.5% x 10 Years)	15%
Depreciated Value (85%)	\$6,205,000
Rental Rate	9%

- 1) **Capital Renovations / Remodeling Projects** – The fair rental value of each facility will be adjusted (increased) to reflect the cost of major renovation/replacement projects completed by each facility not to exceed a 24-month period. The renovation/replacement adjustment would be made at the start of the first-rate year following completion of the renovation/replacement project.

The cost of renovation/replacement projects must be documented within each facility's depreciation schedule, must be reported to the Medicaid program by May 1st prior to the July 1st rate year when they would first be eligible for incorporation into the FRV rate setting process, and must exceed \$1,000.00 per licensed bed in order to be considered a major renovation/replacement. The cost of these renovation/replacement projects will be depreciated at a rate of 4% per year, but will also be indexed (inflated) annually using the bed value indexing methodology incorporated into this fair rental value system.

State: Nevada

Attachment 4.19-D

Page 5d.2

- 2) **Initial Age of Nevada Nursing Facilities for July 1, 2003 FRV Calculations** – The initial age for each facility shall be determined as of July 1, 2003, using each facility's year of construction. This age will be reduced for renovations and/or additions of beds that have occurred since the facility was built. If a facility added beds, these new beds will be averaged in with the original beds and a weighted average age for all beds will be used as the initial age. If a facility performed a major renovation project between the time the facility was built and the time when the initial age is determined, the cost of the renovation project will be used to determine the equivalent number of new beds that project represents. The equivalent number of new beds would then be used to determine the weighted average age of all beds for this facility. The equivalent number of new beds from a renovation project will be determined by dividing the cost of the renovation project by the cost of a new bed (using the new bed valuation methodology incorporated into the FRV system) at the time the renovation project was completed. Facility ages will be rounded to the nearest whole number.

- d. **Inflation Factor Used in Rate Setting** – When establishing the medians for the operating and direct health care cost centers, cost will be adjusted from the midpoint of each provider’s base year cost report to the midpoint of each state fiscal year using the Nursing Home Services without capital (non-seasonally adjusted Table 9: Percent Change in Medical Prices) as published by MEI. If this index becomes unavailable, a comparable index will be used. Only audited or desk reviewed cost reports will be used in the rate setting process. New cost report information will be brought into the rate setting process on a periodic basis. - a. **Budget Adjustment Factor** – In the event that the reimbursement system described in this section would result in anticipated payments to nursing facility providers being greater or less than the funding appropriated by the Nevada legislature, proportional increases or decreases will be made to the rates so that anticipated payments will equal legislative appropriations. This adjustment to rates will be made as a percentage increase or decrease in each provider's rate. The percentage will be determined in accordance with the following fraction: $(\text{Legislative appropriations} / (\text{The Sum of Each Facility's Calculated Rate Multiplied by Each Facility's Proportional Share of the Anticipated (Budgeted) Case Load for All Freestanding Nursing Facilities}))$. Medicaid days from the cost reports used in rate setting will be the basis for the proportional allocation of anticipated case load across all freestanding facilities.

C. Cost Reporting Requirements:

1. Hospital-based and free-standing nursing facilities must complete and file an annual cost report with the Medicaid program. Cost and other statistical information within the cost report must be reported in compliance with allowable and non-allowable cost definitions contained in the Medicare/Medicaid provider reimbursement manual (commonly referred to as HIM 15).
2. Free-standing nursing facility cost reports are to be received by the Medicaid program by the last day of the third month following a facility's fiscal year end. If the facility is unable to complete their cost report within this time frame, a request for a 30-day extension can be requested from the Medicaid program (DHCFP) prior to the original cost report due date. Reasonable extension requests will be granted.
3. Hospital-based nursing facility cost reports are to be filed with the Medicaid program following the cost report filing deadlines adopted by the Medicare program. If a facility requests an extension from the Medicare program, they must also request an extension from the Medicaid program (DHCFP). Extension requests approved by Medicare will automatically be approved by the Medicaid program, once the DHCFP receives evidence of Medicare approval from the facility.
4. Facilities failing to file a Medicaid cost report in accordance with these provisions may have their payments suspended or be required to pay back to the Medicaid program all payments received during the fiscal year period upon which they were to provide a cost report. Facilities may also be subject to late filing fees assessed in accordance with guidelines issued pursuant to the Medicaid Services Manual.

D. New Facilities and Change of Ownership:

1. New facilities are those entities whose beds have not previously been certified to participate in the Medicaid program. New free-standing facilities will be reimbursed an interim rate computed from the following Nursing Facility rate components in effect on the date of the facility's Medicaid certification:
 - a. The Fair Rental Value per diem will be determined based upon an initial capital survey the new provider completes and submits to the DHCFP, and upon the methodology described in Section B.3.c. of this attachment.
 - b. The operating component for the rate will be the "Operating Statewide Price" as described in Section B.3.a. of this attachment.
 - c. The direct health care component will be the "Statewide Direct Health Care Price" as described in Section B.3.b. of this attachment.
 - d. The "Budget Adjustment Factor," as described in Section B.3.h. of this attachment, will be applied to determine the Facility Medicaid Rate.

This interim rate will be paid until such time that the rate is rebased under the provisions of Section B.3.e of this attachment.

2. New hospital-based facilities will receive an interim rate equal to the average rate (expressed as a percent of charges) paid to all other hospital-based nursing facilities effective at the start of the state fiscal year in which the facility began providing services to Medicaid recipients.
3. A change of ownership exists if the beds of the new owner have previously been certified to participate in the Medicaid program under the previous owner's provider agreement. Rates paid to free-standing nursing facilities that have undergone a change of ownership will be based upon the base rate and acuity data of the previous owner. The new owner's acuity data will be used to adjust the facility's rate following the rate adjustment schedule discussed in this rule. Facilities (hospital-based and free-standing) that undergo a change in ownership are required to file a closing cost report for the seller within 45 days of the date of sale. A new cost reporting period for the buyer will start on the effective date of the transaction. The interim rate paid to a new hospital-based owner will be the same interim rate the prior owner was receiving.

Case Mix Index Calculation (Free-standing Nursing Facilities Only):

1. In calculating the case mix for each facility, CMS-mandated RUG and MDS systems will be utilized.
2. Each nursing facility resident in a facility, with a completed and submitted MDS shall be assigned to a RUG classification group on the first day of each calendar quarter. These RUG assignments will be based upon each resident's most current MDS assessment available on the first day of each calendar quarter. Using the facility's simple average of the individual residents' case mix indexes, two case mix indexes (CMIs) will be calculated for the facility. One being a facility wide CMI, which will be based upon all of the facility's residents, and the other being the Medicaid CMI, which will be calculated using only the Medicaid residents for each facility. Both of these average case mix indexes will be rounded to four decimal places.

E. Special Care Rates:

1. The Division of Health Care Financing and Policy shall establish special care rates for recipients ages 21 and over that are ventilator dependent, or behaviorally complex, and pediatric recipients less than 21 years of age with special high cost care needs and/or who are ventilator dependent. These special care rates will be all-inclusive per diem rates based on the costs of providing services to recipients.
 - a. Effective August 1, 2011 the per diem rate for recipients ages 21 and over that are ventilator dependent is the facility-specific fair rental value per diem, as computed under Section B.3.c. of this attachment, plus an add-on of \$495.00.
 - b. The per diem rate for behaviorally complex individuals is the facility-specific per diem rate plus an add-on rate for each of the following three tier categories. Tier definitions can be found in the Division of Health Care Financing and Policy Medicaid Services Manual Section 503.10, Page 15, as that section reads as of January 28, 2016.

Tier I.	\$111.23
Tier II.	\$222.45
Tier III.	\$326.26
 - c. The per diem rate for recipients less than 21 years of age with special high cost care needs that meet the Level of Care requirements for Pediatric Level I as defined, effective March 25, 2013, in the Medicaid Services Manual is \$635.00.
 - d. The per diem rate for recipients less than 21 years of age that meet the Level of Care requirements for Pediatric Level II as defined, effective March 25, 2013, in the Medicaid Services Manual is \$695.00.
2. The Division of Health Care Financing and Policy shall establish negotiated facility specific all-inclusive per diem rates for Medicaid recipients with unique high cost care needs. Nursing facilities may not bill the Medicaid program for special care recipients other than on a per diem basis using the established negotiated rate. Rates will address the following client care issues:
 - a. Patient's acuity
 - b. Availability of beds
 - c. Patient's freedom of choice
3. When special care rates are required or when multiple facilities are equally acceptable under E.2. above, the nursing facility with the lowest per diem rate will be selected. The per diem rate will not exceed the facility's usual and customary rate for similar services.

G. Nurse Aide Training Cost:

Nursing facilities are required to reimburse certified nurse's aides (CNAs) if the CNA paid for the training within one year of being employed by the facility and has not previously been reimbursed. The amount nursing facilities are required to reimburse the CNA is limited to the cost of the class and books at Nevada community colleges. The aide is to be reimbursed after three months of employment in the facility. Nursing facilities must follow the procedures specified by Nevada Medicaid to receive reimbursement from Medicaid for their share of the amount paid to the CNA. Facilities which conduct a training program will continue to bill Medicaid for the cost of the training and competency evaluation.

Supplemental Payment to Free-Standing Nursing Facilities

Effective October 1, 2011, free-standing nursing facilities will receive a supplemental Medicaid payment in addition to its standard or special care per diem payment. Supplemental payments are not available for nursing facilities owned by the State of Nevada or any of its political subdivisions. Fifty percent of the supplemental payment is based on Medicaid occupancy, MDS accuracy, and quality measures. Fifty percent of the payment is based on acuity. The amount available for supplemental payments is computed quarterly and reimbursed in the quarter in three equal monthly payments.

- A. The amount available for Supplemental Payments to Nursing Facilities (NF) will be calculated each quarter based on actual net revenues from patient services and actual patient days for each facility during the Base Quarter.
1. The Base Quarter is defined as the quarter beginning six months prior to the quarter in which the supplemental payments are being distributed. (For the quarter beginning October 1, 2011, the supplemental payment computation would be based on actual net revenues and bed days for the quarter April 1 through June 30, 2011.)
 2. The total amount available for Supplemental Payments is calculated by multiplying the net revenues from patient services in the Base Quarter by 6%.
 3. One percent of this amount each quarter is retained by Nevada Medicaid to pay administrative costs associated with the Supplemental Payment Program. The remaining funds are the amount available to pay the state share of Supplemental Payments to free-standing nursing facilities.
 4. The amount available to pay the state share of Supplemental Payments to free-standing nursing facilities is matched by federal Medicaid funds calculated according to the formula in 42 CFR 433.10 (b).
- B. Calculation of Fifty Percent of Supplemental Payments Based on Medicaid Occupancy, MDS Accuracy, and Quality
1. Fifty percent of the amount available to pay the state share of Supplemental Payments to Nursing Facilities is paid out based on the facility's Medicaid occupancy, MDS accuracy, and quality scores.
 2. Calculations for the Medicaid occupancy and MDS accuracy components of Supplemental Payments require bed day counts, which are the actual bed days reported by the free-standing nursing facilities for the Base Quarter.
 3. The Medicaid occupancy, MDS accuracy and quality components are calculated by assigning points to each facility for each component according to the methodologies described below. The unit reimbursement value for each of the component points is determined by calculating the amount available to pay the state share of Supplemental Payments to Nursing Facilities

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

for that component plus the federal Medicaid matching funds and dividing by the total points in the component for all facilities receiving Supplemental Payments for that quarter.

4. Supplemental Payment for Medicaid Occupancy, MDS Accuracy, and Quality Components

- i. Medicaid Occupancy Component: Distribution of 82% of the state funds available for the portion of the Supplemental Payments based on Medicaid occupancy, MDS accuracy, and quality plus the federal Medicaid matching dollars is based on Medicaid occupancy. The facility receives a Medicaid occupancy rate modifier, which is the Medicaid nursing facility and LTC hospice bed days divided by total occupied bed days times 100. The facility's Medicaid occupancy rate modifier is multiplied by the number of Medicaid nursing facility and LTC hospice bed days to yield the Medicaid occupancy points. The Medicaid occupancy points will be multiplied times the unit reimbursement value to determine the Medicaid occupancy component of the facilities' reimbursement.

<i>Equals</i>	Facility Total Medicaid Occupancy Component Payment

- ii. MDS Accuracy Component: Distribution of 9% of the state funds available for the portion of the supplemental payments based on Medicaid occupancy, MDS accuracy, and quality plus the federal Medicaid matching dollars are based on MDS accuracy rate from the most current review performed by Medicaid staff. To qualify for MDS accuracy payments, the facility must have an accuracy rate of 70% or higher. Accuracy rates will be rounded to the nearest whole percentage. If the partial

percentage point is less than 0.5%, it will be rounded down to the next whole percentage point. If the partial percentage point is 0.5% or greater, it will be rounded up to the next whole percentage point. Facilities who qualify for MDS accuracy payments will be assigned an MDS accuracy modifier as follows:

Accuracy Rate	Modifier
0 – 69%	0
70 – 79%	1
80 – 89%	3
90 – 100%	5

The MDS accuracy modifier is multiplied times the number of Medicaid nursing facility and LTC hospice bed days to determine MDS accuracy points. Each facility’s MDS accuracy points will be multiplied by the unit reimbursement value to determine the facility’s total reimbursement for MDS accuracy component.

	Facility MDS Accuracy Modifier
<i>Times</i>	Facility Occupied Medicaid NF and LTC Hospice Bed Days
<i>Equals</i>	Facility MDS Accuracy Points
<i>Times</i>	MDS Accuracy Unit Reimbursement Value
<i>Equals</i>	Facility Total MDS Accuracy Component Payment

- iii. Quality Component: Distribution of 9% of the state funds available for the portion of supplemental payments based on Medicaid occupancy, MDS accuracy, and quality plus the federal Medicaid matching dollars is based on quality measures. The quality component of the supplemental payment provides reimbursement for a facility’s efforts to improve resident care and safety. Quality measures are selected from MDS data compiled by the Nevada State Health Division Bureau of Health Care Quality and Compliance (HCQC). Four quality measures are chosen based on MDS data and input from HCQC and stakeholders. The four quality measures currently selected include: 1) Percent of long-stay residents who have moderate to severe pain; 2) Percent of high risk long-stay residents who have pressure sores; 3) Percent of long-stay residents who had a urinary tract infection; 4) Percent of long-stay residents who lose too much weight. Facilities receive one quality point for each percentage point they are better than the Nevada MDS average for each measure. Quality measure percentages are rounded to the nearest whole percentage. If the partial percentage point is less than 0.5%, it is rounded down to the next whole percentage point. If the partial percentage point is 0.5% or greater, it is rounded up to the next whole percentage point. The facility’s total quality points are multiplied by the unit reimbursement value for the quality component to determine the facility specific amount of the quality component of the supplemental payment. Nursing facilities that are identified by the Centers for Medicare and Medicaid Services as

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.19-D

Special Focus Facilities are not eligible for the quality component of the supplemental payments. Special Focus Facilities are nursing homes that have a history of persistent poor quality of care. These nursing homes have been selected for more frequent inspections and monitoring. A current list of Special Focus Facilities is available at the CMS Certification and Compliance website.

- 5. Facilities that do not have MDS or MDS Accuracy data available have MDS accuracy and quality component payments calculated using the average component points of all facilities receiving Supplemental Payments for which data is available. Facilities that are not enrolled as Medicaid providers are not eligible for payments of the MDS accuracy or quality components or any other components of this supplemental payment for the quarter.

C. Calculation of the Component of the Supplemental Payments Based on Acuity

- 1. Nursing facility standard per diem reimbursement is calculated for each Medicaid provider quarterly based on methodology described in the Medicaid State Plan, Attachment 4.19-D, Pages 5a through 5i. The per diem rate is adjusted for acuity and fair rental value. Fifty percent of the funds available for Supplemental Payments plus the Federal matching funds is paid under this acuity component as described below.

Calculation of the Supplemental Payment Portion Based on Acuity

The weighted average total amount of reimbursement based on acuity per Medicaid nursing and LTC hospice bed day is calculated by dividing the total for amount available for the acuity component of Supplemental Payments by the total nursing and LTC hospice bed days in the Base Quarter. This is added to the weighted average budget neutral per diem for all facilities to determine the total amount of reimbursement that will be based on acuity. Effective October 1, 2017, the weighted average budget neutral per diem is increased by 10%.

hospice bed days in the Base Quarter for facilities receiving Supplemental Payments into the total amount of reimbursement these facilities would have received if they were paid at the full per diem amount. The full rate per diem is the amount the facilities would receive if the budget adjustment factor in Nevada Medicaid State Plan, Attachment 4.19-D, Page 5i, were not applied to the per diem rates. The weighted average portion of reimbursement based on acuity is divided by weighted average full rate per diem to yield a budget adjustment factor for the acuity component of the Supplemental Payment.

Total Full Rate Reimbursement for Facilities Receiving Supplemental Payments

Divided by Total Nursing and LTC Hospice Days
Equals Weighted Average Full Rate Per Diem

Divided by Weighted Average Portion of Reimbursement Based on Acuity
Equals Weighted Average Full Rate Per Diem
Budget Adjustment Factor for Supplemental Payment

The budget adjustment factor for supplemental payments is applied to the facility specific full rate per diem to arrive at a facility specific unit reimbursement value based on acuity.

The facility specific NF per diem rate for each facility is calculated by multiplying the budget adjustment factor described in Attachment 4.19-D, Page 5i, times the facility specific per diem rate. This budget adjustment factor also equals the weighted average budget neutral per diem for all facilities divided by the weighted average full rate per diem.

The facility specific NF per diem rate is subtracted from the facility specific unit reimbursement value based on acuity to yield the facility specific unit reimbursement value for the Supplemental Payment based on acuity. The facility specific reimbursement unit value for the Supplemental Payment portion based on acuity is multiplied by the number of Medicaid nursing facility and hospice days in the Base Quarter to determine the quarterly Supplemental Payment based on acuity.

The state will make a one-time supplemental payment to each freestanding nursing facility that is not a state-owned or operated (SGO) or non-state government owned or operated (NSGO) for the quarter ending December 31, 2017. This payment will be equal to the difference between the individual facility's budget neutral per diem in effect for the quarter ending September 30, 2017 and what the individual facility's budget neutral per diem would have been with a 10% increase to the state's weighted average budget neutral per diem, multiplied by the facility's number of Medicaid Fee-for-Service days in the same quarter ending September 30, 2017.

- b. In no case may payment exceed audited allowable costs.
- c. Interim rates will be based upon the most recent audited cost reports for the current state fiscal year. The interim rate for the initial year of operation will be based upon cost and utilization projections.
- d. Each facility is paid an interim rate subject to settlement in accordance with a. through c. above.

Attachment 4.19-D
Page 12

2. ICFs/MR (non-state-operated):
 - a. Prospective Payment Rate: Non-state-operated ICFs/MR-Small (“small” is defined as facilities having six beds or less) will be paid a prospective payment rate for basic service costs, other than day training costs and property costs, on a per patient day basis. Day training costs and property costs, excluded from the basic prospective rate, will be reimbursed under Medicare principles of retrospective reimbursement as described in paragraph 1 above.
 1. The initial basic prospective payment rate per patient day will be the average of costs (excluding residential staff wages and benefits) of the four private ICFs/MR-Small operating a full year, from 1993 audited cost reports. Costs will be indexed to the common time period of December 31, 1993. Residential staff wages and benefits cost is calculated, and added to the average, at the rate of \$11 per hour for 6.4 full-time equivalents. The initial rate period is one year from July 1, 1995 through June 30, 1996. Therefore, the rate will be adjusted for inflation for the period June 30, 1993 - December 31, 1995 (the midpoint of the cost report period to the midpoint of the rate period) by the percentage change in the Consumer Price Index - All Urban and Clerical Workers (CPI), for calendar year 1993 times 2.5. The initial rate will be effective for private ICFs/MR-Small on July 1, 1995.
 2. Rates in effect March 31, 2002, will be continued without adjustment. When rebasing, costs will be indexed to a common point in time, arrayed from highest to lowest, and the cost of the 60th percentile facility selected. The rate will further be adjusted for inflation by the CPI. Only audited cost reports of private facilities completed by March 31st of the same year will be used.
 3. In addition, the rate will be adjusted for increased costs of services over basic inflation resulting from new federal or state guidelines.
 4. Day training costs must be approved by the Division of Mental Health Developmental Services (MHDS). These approvals must be obtained annually on all patients and anytime there is an increase in service cost.
 5. Property costs consist of a property lease (or in the case of an owned facility, interest and depreciation) as well as depreciation of equipment, property insurance and property taxes.
 - b. Prospective Payment Rate: Non-state-operated ICFs/MR-Large (“large” is defined as facilities having more than six beds) will be paid an all-inclusive prospective per diem rate equal to the interim rate in effect at December 31, 2003.
 1. These all-inclusive rates will be effective for services rendered after December 31, 2003, until the rates are rebased as directed by the Department of Health and Human Services.

The Medicaid agency meets the requirements of 42 CFR Part 447, Subpart A, and Sections 1902(a)(4), 1902(a)(6) and 1903 with respect to non-payment for provider-preventable conditions.

Other Provider-Preventable Conditions

Methodology for Identifying Other Provider-Preventable Conditions

The State Agency's fiscal agent will review claims with dates of service on or after July 1, 2012 for OPPCs and report to the State. The state's Surveillance and Utilization Review (SUR) unit will review each claim identified in that report and recover payments associated with the OPPC.

Payment Adjustment

For per diem payments, the number of covered days shall be reduced by the number of days associated with any PPC not present on admission. Nevada will use nationally accepted standards to determine the number of days attributable to the diagnosis absent the PPC and the incremental number of days attributable to the PPC. Reimbursement may also be reduced for level of care changes attributable to a PPC.

4.22 (continued)

- 42 CFR 433.151(a) (f) The Medicaid agency has written cooperative agreements for the enforcement of rights to and collection of third party benefits assigned to the State as a condition of eligibility for medical assistance with at least one of the following: (Check as appropriate.)
- State title IV-D agency. The requirements of 42 CFR 433.152(b) are met.
- Other appropriate State agency(s).
- Other appropriate agency(s) of another State.
- Courts and law enforcement officials.
- 1902(a)(60) of the Act (g) The Medicaid agency assures that the State has in effect the laws relating to medical child support under Section 1908 of the Act.
- 1906 of the Act (h) The Medicaid agency specifies the guidelines used in determining the cost effectiveness of an employer-based group health plan by selecting one of the following.
- The Secretary's method as provided in the State Medicaid Manual, Section 3910.
- The State provides methods for determining cost effectiveness on Attachment 4.22-C.

THIRD PARTY LIABILITY – IDENTIFYING LIABLE RESOURCES

Expansion of Third Party Liability – Payment of Claims associated to Cost Saving Programs in Attachment 4.22-B of the State Plan.

433.138(d)(1) &(d)(3) (IV-A); (Exchange of Data)

- (1) Nevada obtains information for the purpose of determining the legal liability of third parties from data exchanges with the Department of Employment, Training and Rehabilitation, Employment Security Division (ESD), Title IV-A Agency, Title IV-D Agency, Commercial Insurance Carriers, Referrals, Health Insurance Premium Program (HIPP), Third Party Liability (TPL) Reviews and from the diagnosis and trauma code edits for a data match. At the time of application for assistance, a match is done automatically.

The Division of Welfare and Supportive Services (DWSS) is the State IV-A agency for employment information. Employment information is utilized to determine Medicaid eligibility and employment TPL. The State's TPL management team updates and populates the data into the Medicaid Management Information System (MMIS).

The State of Nevada Department of Personnel conducts an exchange of data with the states TPL management team. A match of all Medicaid eligibles with responsible absent parent (IV-D) or parent (IV-A) by Social Security Number to determine if they are employed by the state of Nevada.

Support Enforcement (IV-D) has an automated quarterly match with ESD's quarterly wage report and can obtain information upon request. IV-D will follow up on court ordered health insurance or will seek a court order on employed non-custodial parents. TPL information is obtained through data match of majority insurers for court ordered health insurance to be populated into MMIS.

433.138(d)(4) and 433.138 (g)(3)(i) and (iii) (Workers Compensation and Motor Vehicle)

DWSS oversees initial application through single point entry system for Medicaid applications, applicants self-report through a form process; documentation requirement.

THIRD PARTY LIABILITY – IDENTIFYING LIABLE RESOURCES

Worker's Compensation and the Department of Motor Vehicles and Public Safety (DMV&PS) information is not available through Nevada's Department Motor Vehicle and Public Safety.

The DHCFP TPL management is responsible for review and submission of injury accident questionnaires for worker compensation and vehicle accidents. Claims which edit for trauma codes are referred to the Fiscal Agent (FA) Subrogation Unit for follow-up if the billed amount of the claim is greater than the tolerance level. The claim is reviewed to determine the possibility of other liable parties for claim payment. Managed Care Organizations and the Dental Benefit Administrator are required to data mine Medicaid enrollees through identifying potential casualty claims.

The claim is reviewed to determine if the nature of the trauma is one which warrants follow-up (e.g., a broken leg as a result of a fall in individual's own home versus a traffic accident). If an investigation is not in process or probable liability has not been established at the time the claim was filed, the investigator will begin research to determine if a probable third party is liable. If TPL is not established within 60 days, the claim is processed for payment.

The DMV&PS has a computerized system containing information of individuals involved in accidents, associated injuries for Nevada Highway Patrol reported accidents only. No medical insurance coverage information is reported. (A copy of the letter from DMV&PS is attached.)

433.138(e) (Diagnosis and Trauma Edits)

The Medicaid claims processing system on a per claim basis edits were updated to reflect new International Classification of Diseases (ICD) codes:

The TPL management team reviews to determine if the nature of the trauma is one which warrants follow-up (e.g., a broken leg as a result of a fall in individual's own home versus a traffic accident). If an investigation is not in process or probable liability has not been established at the time the claim was filed, the investigator will begin research to determine if a probable third party is liable. If TPL is not established within 60 days, the claim is processed for payment.

As of 2016, the Centers for Medicare & Medicaid Services (CMS) no longer specifies codes for follow up or reviews. CMS approved State Medicaid Agency (SMA) exemptions of specific codes from none productive trauma code recovery.

433.138(g) (1) (i) Follow-up procedures for identifying legally liable third-party resources:
and (g) (2) (i)

Within 45 days from application, redetermination, or anytime TPL is discovered, the DWSS collects TPL coverage and incorporates the information into the eligibility case file. The eligibility case file is shared with the DHCFP and used to update MMIS to be used for medical claims adjudication. TPL data is identified, verified and recorded into the MMIS monthly and used to cost avoid claims, as well as for pay and chase recoveries of claim overpayments.

433.138(g)(2)(i) & (ii) Upon discovery of a liable third party, post payment recovery is sought within 60 days or in the case of legal actions, a lien is filed to protect the State's rights and recoupment of medical payments are sought.

Information regarding probable liability and subrogation is forwarded to the DWSS monthly through a secured HIPAA compliant system. Information is maintained in a secured file by the Fiscal Agent third party recovery unit and/or third-party vendor for subrogation case audits and incorporated into the Medicaid and CHIP third-party data base for claims processing.

The tolerance levels for suspension or termination of recovery efforts are identified in Third Party Liability, Attachment 4.22-B.

THIRD PARTY LIABILITY – PAYMENT OF CLAIMS

The Nevada Medicaid program is designed to function primarily as a cost avoidance system, with cost savings. This method was chosen as the most efficient and least costly due to the multitude of insurance companies utilized by Nevada residents. Also, insurance data is fed through a secured transmittal bill paying system on an individual basis. Direct contact is made by the fiscal agent TPL unit directly with insurance carriers and all available information is collected.

The Nevada bill paying system has a direct connection to the Center for Medicare and Medicaid Services' system. Cost savings occur when post-payment recovery is also incorporated. Criteria have therefore been established for both systems with emphasis on cost effectiveness and FFP compliance.

42 CFR 433.139(b)(3)(ii)(C)

I. Cost Avoidance Method

- a. Claims with Medicaid paid amounts greater than zero are rejected on the remittance advice with insurance billing instructions and carrier information.
- b. Services identified by individual policies as non-covered are not subject to cost avoidance or recovery.

42 CFR 433.139(f)(2&3), 42 CFR 447.20 and 7 CFR 273.18(e)(8)(ii)

II. Post-Payment Recovery

- a. Recovery - Provider
 1. States only pursue recoveries from providers whenever Medicare is the primary source.
 2. Claims which were unidentified or missed in cost avoidance are subject to claims with Medicaid outlined in 1.a above. Recovery is made by computer history adjustments.
 3. Due to Medicare timely filing, recovery efforts are not attempted when more than 12 months have elapsed from date of service to the projected adjustment date.
- b. Recovery – Insurance Carrier
 1. When necessary, direct recovery is attempted through individual insurance carriers. This can occur when providers are unsuccessful with billing attempts, but the fiscal agent (FA) has sufficient information to pursue collection. Claims with Medicaid paid amounts of less than \$25 are not pursued.
 - A. Claims with Medicaid paid amounts of less than \$25 are not pursued.
 2. Claims with Medicaid paid amounts of \$25 or greater are pursued by the FA through the individual insurance company.

III. Casualty – Subrogation

42 CFR 433.139(f)(e)

- A. Claims which edit for trauma codes are processed through the regular processing cycle. If the billed amount is \$125 or greater and no insurance has paid on the claim, the claim is referred to the fiscal agent for subrogation follow-up.
- B. If the billed amount is less than \$125, no investigation is initiated unless large quantities of claims exist for this diagnosis or service date.
- C. Claims with billed amounts of \$125 or more are investigated and followed through the legal process until settlements are reached or a determination made to drop the case.

Sanctions for MCOs and PCCMs

- a) The State will monitor for violations that involve the actions and failure to act specified in 42 CFR Part 438 Subpart I and to implement the provisions in 42 CFR 438 Subpart I, in manner specified below:
- (1) civil penalties in the amounts specified in 42 CFR 438.704;
 - (2) appointment of temporary management for the contractor as provided in 42 CFR 438.706;
 - (3) granting enrollees the right to terminate enrollment without cause and notifying the affected enrollees of their right to disenroll;
 - (4) suspensions of all new enrollments, including default enrollment, after the effective date of the sanction;
 - (5) suspension of payment for recipients enrolled after the effective date of the sanction until CMS or the State is satisfied that the reason for the sanction no longer exists and is not likely to recur; or,
 - (6) any additional sanctions allowed under State statute or State regulations that address areas of non-compliance specified in 42 CFR 438.700 as well as additional areas of non-compliance. Additional sanctions may include liquidated damages and imposition of plans of correction in addition to its remedies at law.

Before imposing any intermediate sanction, liquidated damages, plans of correction, or other remedy against a managed care entity, DHCFP shall provide the Contractor with notice and such other due process protections as the State may provide, except that DHCFP will not provide the Contractor with a pre-termination hearing before imposing the sanction described in SSA, Section 1932(e)(2)(B) (Temporary Management).

- b) The State uses the definition below of the threshold that would be met before an MCO is considered to have repeatedly committed violations of section 1903(m) and thus subject to imposition of temporary management:

The State of Nevada may impose the optional sanction of temporary management if it finds through on-site survey, enrollee complaints, financial audits, or any other means that there is continued egregious behavior by the Contractor, including but not limited to behavior described in 42 CFR 438.700 or that is

INCOME AND ELIGIBILITY VERIFICATION SYSTEM PROCEDURES
REQUESTS TO OTHER STATE AGENCIES

The Nevada State Welfare Division requests information to verify Medicaid eligibility and recipient income for each applicant as specified under provisions of 42 CFR 435.948 (a) (1) through (a) (6).

Provision 42 CFR 435.948 (a) (6) is met by Nevada State Welfare as follows:

- a) All applications ask whether an applicant has lived in another state and whether benefits were applied/received in that state. If an applicant indicates he/she has applied/received benefits in another state, the worker will verify. Any resources indicated by the other state which were not claimed by the applicant in Nevada will be evaluated.

REQUIREMENTS FOR ADVANCE DIRECTIVES UNDER STATE PLANS
FOR MEDICAL ASSISTANCE

The following is a description of Nevada law concerning advance directives (NRS 449.540 to 449.690, inclusive, and sections 2 to 12, inclusive of Chapter 258, Statutes of Nevada 1991):

WHAT IS AN ADVANCE DIRECTIVE?

An advance directive is generally a written statement, which individuals complete in advance of serious illness, about how they want medical decisions made. The two most common forms of advance directive are:

- a "Living Will," or "Declaration";
- a "Durable Power of Attorney for Health Care."

An advance directive allows individuals to state their choices for health care or to name someone to make those choices for them, if they become unable to make decisions about their medical treatment. In short, an advance directive can enable individuals to make decisions about their future medical treatment. They can say "yes" to treatment they want, or say "no" to treatment they do not want.

WHAT IS A LIVING WILL OR DECLARATION?

A Living Will or Declaration generally states the kind of medical care individuals want (or do not want) if they become unable to make their own decisions. It is called a "Living Will" because it takes effect while they are still living.

WHAT IS A DURABLE POWER OF ATTORNEY FOR HEALTH CARE?

A "Durable Power of Attorney for Health Care" is a signed, dated, and witnessed paper naming another person, such as a husband, wife, daughter, son, or close friend as an "agent" or "proxy" to make medical decisions for an individual who should become unable to make such decisions. The power of attorney includes instructions about any treatment the individual may want or wish to avoid, such as surgery or artificial feeding.

IS IT REQUIRED TO WRITE AN ADVANCE DIRECTIVE UNDER THE LAW?

No. It is entirely up to the individual.

CAN AN INDIVIDUAL CHANGE HIS/HER MIND AFTER A LIVING WILL OR HEALTH CARE POWER OF ATTORNEY IS WRITTEN?

Yes. Individuals may change or cancel these documents at any time in accordance with state law. Any change or cancellation should be written, signed, and dated in accordance with state law, and copies should be given to the family doctor, or to others to whom the individual may have given copies of the original.

If an individual wishes to cancel an advance directive while in the hospital, the individual should notify his/her doctor, family, and others who may need to know.

Even without a change in writing, wishes stated in person directly to an individual's doctor generally carry more weight than a living will or durable power of attorney, as long as the individual can decide and can communicate his/her wishes. The individuals must be sure to state their wishes clearly and be sure that they are understood.

This is a form of a "Declaration," provided for under Nevada Statutes:

DECLARATION

If I should have an incurable and irreversible condition that, without the administration of life-sustaining treatment, will, in the opinion of my attending physician, cause my death within a relatively short time, and I am no longer able to make decisions regarding my medical treatment, I direct my attending physician, pursuant to NRS 449.540 to 449.690, inclusive, and section 2 to 12, inclusive, of this act, to withhold or withdraw treatment that only prolongs the process of dying and is not necessary for my comfort or to alleviate pain.

If you wish to include this statement, you must INITIAL the statement in the box provided. (If the statement reflects your desires, initial the box next to the statement.)

I direct my attending physician not to withhold or withdraw artificial nutrition and hydration by way of the gastrointestinal tract if such a withholding or withdrawal would result in my death by starvation or dehydration. []

This is the form of a "Durable Power of Attorney" for health care decisions provided for under Nevada Statutes:

DURABLE POWER OF ATTORNEY FOR HEALTH CARE DECISIONS

WARNING TO PERSONS EXECUTING THIS DOCUMENT

This is an important legal document. It creates a Durable Power of Attorney for Health Care. Before executing this document, you should know these important facts:

1. This document gives the person you designate as your attorney-in-fact the power to make health care decisions for you. This power is subject to any limitations or statement of your desires that you include in this document. The power to make health care decisions for you may include consent, refusal of consent, or withdrawal of consent to any care, treatment, service, or procedure to maintain, diagnose, or treat a physical or mental condition. You may state in this document any types of treatment or placements that you do not desire.
2. The person you designate in this document has a duty to act consistent with your desires as stated in this document or otherwise made known or, if your desires are unknown, to act in your best interests.
3. Except as you otherwise specify in this document, the power of the person you designate to make health care decisions for you may include the power to consent to your doctor not giving treatment or stopping treatment which would keep you alive.
4. Unless you specify a shorter period in this document, this power will exist indefinitely from the date you execute this document and if you are unable to make health care decisions for yourself, this power will continue to exist until the time when you become able to make health care decisions for yourself.
5. Notwithstanding this document, you have the right to make medical and other health care decisions for yourself so long as you can give informed consent with respect to the particular decision. In addition, no treatment may be given to you over your objection, and health care necessary to keep you alive may not be stopped if you object.
6. You have the right to revoke the appointment of the person designated in this document to make health care decisions for you by notifying that person of the revocation orally or in writing.

- 7. You have the right to revoke the authority granted to the person designated in this document to make health care decisions for you by notifying the treating physician, hospital, or other provider of health care orally or in writing.
- 8. The person designated in this document to make health care decisions for you has the right to examine your medical records and to consent to their disclosure unless you limit this right in this document.
- 9. This document revokes any prior Durable Power of Attorney for Health Care.
- 10. If there is anything in this document that you do not understand, you should ask a lawyer to explain it to you.

1. DESIGNATION OF HEALTH CARE AGENT

I, _____ (insert your name) do hereby designate and appoint:

Name: _____

Address: _____

Telephone: _____

as my attorney-in-fact to make health care decisions for me as authorized in this document.

(Insert the name and address of the persons you wish to designate as your attorney-in-fact to make health care decisions for you. Unless the person is also your spouse, legal guardian, or the person most closely related to you by blood, none of the following may be designated as your attorney-in-fact: 1) your treating provider of health care; 2) an employee of your treating provider of health care; 3) an operator of a health care facility; or 4) an employee of an operator of a health care facility.)

2. CREATION OF DURABLE POWER OF ATTORNEY FOR HEALTH CARE

By this document, I intend to create a durable power of attorney by appointing the person designated above to make health care decisions for me. This power of attorney shall not be affected by my subsequent incapacity.

3. GENERAL STATEMENT OF AUTHORITY GRANTED

In the event that I am incapable of giving informed consent with respect to health care decisions, I hereby grant to the attorney-in-fact named above full power and authority to make health care decisions for me before, or after my death, including: consent, refusal of consent, or withdrawal of consent to any care, treatment, service, or procedure to maintain, diagnose, or treat physical or mental condition, subject only to the limitations and special providers, if any, set forth in paragraph 4 or 6.

4. SPECIAL PROVISIONS AND LIMITATIONS

(Your attorney-in-fact is not permitted to consent to any of the following: commitment to or placement in a mental health treatment facility, convulsive treatment, psychosurgery, sterilization, or abortion. If there are any other types of treatment or placement that you do not want your attorney-in-fact's authority to give consent for or other restrictions you wish to place on his or her attorney-in-fact's authority, you should list them in the space below. If you do not write any limitations, your attorney-in-fact will have the broad powers to make health care decisions on your behalf which are set forth in paragraph 3, except to the extent that there are limits provided by law.)

In exercising the authority under this Durable Power of Attorney for Health Care, the authority of my attorney-in-fact is subject to the following special provisions and limitations:

5. DURATION

I understand that this power of attorney will exist indefinitely from the date I execute this document unless I establish a shorter time. If I am unable to make health care decisions for myself when this power of attorney expires, the authority I have granted by attorney-in-fact will continue to exist until the time when I become able to make health care decisions for myself.

(IF APPLICABLE)

I wish to have this power of attorney end on the following date:

6. STATEMENT OF DESIRES

(With respect to decisions to withhold or withdraw life-sustaining treatment, your attorney-in-fact must make health care decisions that are consistent with your known desires. You can, but are not required to, indicate your desires below. If your desires are unknown, your attorney-in-fact has the duty to act in your best interests; and, under some circumstances, a judicial proceeding may be necessary so that a court can determine the health care decision that is in your best interests. If you wish to indicate your desires, you may INITIAL the statement or statements that reflect your desires and/or write your own statements in the space below.) (If the statement reflects your desires, initial the box next to the statement.)

1. I desire that my life be prolonged to the greatest extent possible, without regard to my condition, the chances I have for recovery or long-term survival, or the cost of the procedures. [_____]

2. If I am in a coma which my doctors have reasonably concluded is irreversible, I desire that life-sustaining or prolonging treatments not be used. (Also should utilize provisions of NRS 449.540 to 449.690, inclusive, and sections 2 to 12, inclusive, of chapter 258, Statutes of Nevada 1991, if this subparagraph is initialed.) [_____]

3. If I have an incurable or terminal condition or illness and no reasonable hope of long-term recovery or survival, I desire that life-sustaining or prolonging treatments not be used. (Also should utilize provisions of NRS 449.540 to 449.690, inclusive, and sections 2 to 12, inclusive, of chapter 258, Statutes of Nevada 1991, if this subparagraph is initialed.) [_____]

4. I do not desire treatment to be provided and/or continued if the burdens of the treatment outweigh the expected benefits. My attorney-in-fact is to consider the relief of suffering, the preservation or restoration of functioning, and the quality as well as the extent of the possible extension of my life.

[_____]

(If you wish to change your answer, you may do so by drawing an "X" through the answer you do not want, and circling the answer you prefer.)

Other or Additional Statements of Desires: _____

7. DESIGNATION OF ALTERNATE ATTORNEY-IN-FACT

(You are not required to designate any alternative attorney-in-fact, but you may do so. Any alternative attorney-in-fact you designate will be able to make the same health care decisions as the attorney-in-fact designated in paragraph to act as your attorney-in-fact. Also, if the attorney-in-fact designated in paragraph 1 is your spouse, his or her designation as your attorney-in-fact is automatically revoked by law if your marriage is dissolved.)

If the person designated in paragraph 1 as my attorney-in-fact is unable to make health care decisions for me, then I designate the following persons to serve as my attorney-in-fact to make health care decisions for me as authorized in this document, such person to serve in the order listed below:

A. First Alternative Attorney-in-Fact
 Name: _____
 Address: _____
 Telephone: _____

B. Second Alternative Attorney-in-Fact

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: NEVADA

ELIGIBILITY CONDITIONS AND REQUIREMENTS

Enforcement of Compliance for Nursing Facilities

The State uses other factors described below to determine the seriousness of deficiencies in addition to those described at '488.404(b)(1):

- (1) The relationship of the one deficiency with other deficiencies:
- (2) The facility's prior survey history; and
- (3) The facility's ownership (or party/entity responsible for operating the facility), specifically, the prior and current status of the owner's (operator's) other facilities in relationship to the deficiency(ies) cited.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE/TERRITORY: NEVADA

CRITERIA FOR APPLICATION OF SPECIFIED REMEDIES
SPECIFIED REMEDIES AS ON PAGE 79C

DENIAL OF PAYMENT FOR NEW ADMISSIONS

- Sec. 133 1. The Bureau of Regulatory Health Services (bureau) may request the welfare division to deny Medicaid payment to a facility for new admissions if:
- (a) The facility does not substantially correct the deficiencies within 90 days or within the time required by federal Medicaid law after the facility is notified by the bureau of the deficiencies; or
 - (b) The bureau has cited a facility with substandard quality of care (severity score of level three or more and scope of level three or more as defined under federal survey guide-lines) on two of the last three consecutive standard surveys.
2. If the facility achieves and maintains compliance with the requirements, the bureau shall request the welfare division to resume payments to the facility prospectively; effective on the date compliance was achieved.
- Sec. 134 1. The bureau may request the welfare division to deny payment to a facility for new admissions who have certain specified diagnoses or special care needs if:
- (a) The facility is not currently able to provide appropriate care, services, or treatment for these persons; or
 - (b) Caring for these persons will adversely affect care provided to other recipients.

2. If the facility achieves and maintains compliance with the requirements, the bureau must request the welfare division to resume payment to the facility prospectively, effective on the date compliance was achieved.
- Sec. 135
1. The bureau may request the welfare division to suspend all or part of the Medicaid payments to a facility for services furnished to a Medicaid recipient on or after the date of the deficiency, regardless of whether the recipient was admitted before, on, or after the date of the deficiency.
 2. If the facility achieves compliance with the requirements, the bureau shall request the department of human resources to resume payments retroactively.

CIVIL MONEY PENALTIES

- Sec. 106 The bureau may impose a monetary penalty alone or in addition to other penalties. The purpose of a monetary penalty is to provide a fund for protecting the health, safety, rights, welfare, and well-being of recipients and the property of residents in facilities and to deter future deficiencies. If a penalty is imposed, the criteria in section 107 below must be applied.
- Sec. 107
1. Except as otherwise provided in subsection 4, the bureau may impose a monetary penalty on any facility that is not in compliance with any federal participation requirement, regardless of whether the deficiency constitutes an immediate and serious threat.
 2. If a monetary penalty is imposed, the initial penalty based on the severity and scope score of the deficiency must be imposed as provided in section 111 below.
 3. In addition to the initial penalty, the bureau may impose a monetary penalty for each day of noncompliance from the date the noncompliance occurs or is identified until compliance is verified.
 4. A facility is not subject to a monetary penalty for a de minimis deficiency. As used in this subsection, "de minimis deficiency" means a finding rated as having a severity level of one or two under federal survey guidelines.

- Sec. 108
1. The bureau shall impose an initial penalty pending a hearing or appeal. The payment of the penalty must not be stayed during the pendency of any administrative appeal.
 2. The payment of any daily penalties that accrue while the facility has a hearing pending on the initial determination of deficiencies leading to the imposition of sanctions must be stayed pending the appeal.
- Sec. 109
- If the bureau imposes a monetary penalty, the penalty must be imposed as provided in sections 109, 110, and 111 of this attachment. In imposing the penalty, the total penalty assessed against any facility bears interest at the rate of 10 percent per annum.
- Sec. 110
1. In no event may the principal amount of the total daily monetary penalty assessed against any facility exceed \$1,000 per deficiency per day.
 2. Where more than one deficiency is subject to a monetary penalty, the total daily penalty assessed against a facility may not exceed the maximum daily penalty per facility permitted by 42 U.S.C. ' 1396r for monetary penalties assessed against Medicaid facilities.
 3. If the maximum daily administrative penalty per facility permitted by federal law for a facility of the type being sanctioned is less than that permitted by 42 U.S.C ' 1396r, the lower maximum penalty amount must be imposed.
- Sec. 111
1. In determining the amount of an initial penalty, the bureau shall consider the severity alone if the severity level is four. In determining the amount of the monetary penalty where the severity level is less than four, both severity and scope must be considered. In determining whether to impose a daily monetary penalty, the bureau shall consider the severity and scope and the factors indicated for increased and decreased penalties provided in sections 112 and 114 of this attachment.
 2. For initial deficiencies with a severity level of four, an initial monetary penalty of \$500 per deficiency must be imposed. In addition, a penalty of \$10 per recipient per day may be imposed for each day the deficiency continues.

3. For initial deficiencies rated with a severity level of three and a scope level of three or more, a monetary penalty of \$400 per deficiency must be imposed. In addition, a penalty of \$8 per recipient per day may be imposed for each day the deficiency continues.
4. For initial deficiencies with a severity level of three and a scope of level of two, an initial monetary penalty of \$200 per deficiency must be imposed. In addition, a penalty of \$4 per recipient per day may be imposed for each day the deficiency continues.
5. For initial deficiencies with a severity level of two and a scope level of three, an initial monetary penalty of \$100 per deficiency-cy must be imposed. The payment of this penalty must be suspended if the facility has corrected the deficiencies within the time specified in the plan of correction. In addition, a penalty of \$2 per recipient per day may be imposed for each day the deficiency continues.

- Sec. 112
1. Penalties must be increased if deficiencies are uncorrected or repeated or compliance is falsely alleged.
 2. For each uncorrected deficiency present after the time specified by the bureau for correction of the deficiency, the monetary penalty must be computed at the rate of one and one-half times the rate that was or could have been assessed initially for a deficiency of that severity and scope
 3. For each repeat deficiency present within 18 months after an initial finding of the deficiency, the monetary penalty must be computed at the rate of one and one-half times the rate that was or could have been assessed initially for a deficiency of that severity and scope.
 4. The bureau may double the daily penalty that was or could have been assessed if the facility alleges compliance and the bureau finds on a survey that at the time compliance was alleged, the deficiencies continued to exist.

- Sec. 113
- There is a rebuttable presumption that deficiencies identified on a subsequent survey were present on each day between the date of the initial finding and the date of the subsequent finding.

- Sec. 114 1. If a facility against which a monetary penalty is imposed:
- (a) waives the right to a hearing;
 - (b) corrects the deficiencies that were the basis for the penalty; and
 - (c) pays the penalty within 15 days after notice of the penalty,
- the penalty must be reduced by 25 percent and no interest may be charged.
2. If, before a survey by the bureau, the facility identifies and corrects the deficiencies that are the basis for the penalty, the penalty must be reduced by 50 percent and no interest may be charged if the assessment is paid within the time required by sections 52 to 147, inclusive, of this attachment.
- Sec. 115 If a monetary penalty is assessed on a daily basis according to the number of recipients and the number of recipients fluctuates, the penalty must be computed on the basis of the average daily number of recipients during the three (3) months preceding the imposition of the penalty.
- Sec. 116 The effective beginning date of a daily monetary penalty is:
- 1. In the case of an immediate and serious threat, the date the deficiency occurred; and
 - 2. In any other case, the day the deficiency is identified.
- Sec. 117 1. Daily penalties and interest must be computed after compliance has been verified or the provider has been sent notice of termination of a license or provisional license. A daily penalty must end on the effective date of compliance or termination of the license of the facility.
2. If a provider achieves compliance, the bureau shall send a separate notice to the facility containing:
- (a) The amount of penalty per day;
 - (b) The number of days involved;

- (c) The due date of the penalty; and
- (d) The total amount due.

- 3. If a license of a facility is to be terminated, the bureau shall send the information required by subsection 2 in the notice of termination.
- 4. If the bureau's decision of noncompliance is upheld on appeal or the facility waives its right to a hearing, the monetary penalty must be imposed for the number of days between the effective date of the penalty and the date of correction of the deficiencies or, if applicable, the date the license of the facility is terminated.

- Sec. 118
- 1. The daily accrual of a monetary penalty must end if the facility demonstrates that substantial improvements have been made to correct the deficiencies and that the health, safety, and well-being of recipients are adequately protected and safeguarded.
 - 2. A monetary penalty may be imposed on a daily basis for no longer than six (6) months, after which the bureau shall deny, suspend, or revoke the license of the facility and, if the facility is a Medicaid facility and major deficiencies remain, request the welfare division to terminate the Medicaid provider agreement of the facility.
 - 3. If a deficiency in a Medicaid facility presents an immediate and serious threat and continues to exist on the 23rd day following the appointment of temporary management, the bureau shall request the welfare division to terminate the Medicaid provider agreement of the facility.
 - 4. If the provider can supply credible evidence that substantial compliance with participation requirements was attained on a date preceding that of the survey, monetary penalties accrue only until that date of correction for which there is credible evidence. As used in this subsection, "credible evidence" means actual documentation that compliance has been achieved.
- Sec. 119
- 1. Initial penalty assessment payments are due within 15 days after notice of the penalty and must be paid irrespective of any administrative appeal.

2. The daily monetary penalty is due and must be paid within 15 days after compliance is verified or termination of a license is effective and the facility is notified of the amount of the total daily penalty due.
 3. If the facility has appealed a decision imposing a monetary penalty, the daily penalty is due and must be paid after the final administrative decision is rendered and 15 days after the facility has been notified of the amount of the total daily penalty due.
- Sec. 120
1. If the facility fails to pay a monetary penalty, the health division may suspend the license of the facility.
 2. The health division shall provide proper notice of its intent to suspend the license of the facility.
 3. If the facility fails to pay the penalty, including any additional costs incurred in collection of the penalty, within 10 days after receipt of the notice, the health division shall suspend the license of the facility. The suspension must not be stayed during the pendency of any administrative appeal.
- Sec. 121
- Any costs, including attorney's fees, incurred by the bureau or the health division in the collection of any monetary penalty may be recovered from the facility.
- Sec. 122
1. The amount of any penalty owed by a Medicaid facility, if it has been determined, may be deducted from any money otherwise owed to the facility by the welfare division.
 2. If the facility does not pay a monetary penalty by the date it is due and no extension of time to pay is granted, the administrator of the health division shall notify the administrator of the welfare division of the amount of the penalty due and owing and shall request withholding of the amount owed.
 3. The administrator of the welfare division will take the appropriate steps to withhold the amount of the penalty owed, including any interest and costs of collection, from the Medicaid payment otherwise due the facility. Money so withheld must be remitted to the health division for deposit in the special fund established pursuant to section 124 below. Money withheld for costs of collection must be applied by the administrator of the health division to the account incurring the costs.

- Sec. 123 Unless it is waived as provided in section 114, interest at the rate prescribed in NRS 449.163 will be assessed on the unpaid balance of the penalty, beginning on the due date.
- Sec. 124
1. Unless otherwise required by federal law, money collected by the health division as administrative penalties must be deposited into a separate fund and applied to the protection of the health, safety, well-being, and property of recipients, including residents of facilities that the health division finds deficient.
 2. Any of the following applications of money collected, without limitation, are permissible:
 - (a) Reimbursement of costs related to the operation of a facility pending correction of deficiencies or closure;
 - (b) Reimbursement of residents for personal money lost; and
 - (c) Payment of the cost of relocating residents to other facilities.
- Sec. 125 The bureau may settle a case at any time before a final administrative hearing decision.

APPOINTMENT OF TEMPORARY MANAGEMENT

- Sec. 126
1. If a temporary manager is to be appointed, the bureau shall orally notify the facility of the appointment. Written notice that complies with the following requirements must be mailed within 24 hours after the oral notice:

"Except in an emergency or in a case in which the sanction is the issuance of a provisional license, the notice must be delivered at least 5 days before the imposition of the sanction and must include:

 1. A citation of the statutory and regulatory authority for the sanction;
 2. The factual findings providing the basis for the deficiency;

3. A description of any circumstances, such as self-correction or subsequent, uncorrected or repeated deficiencies, considered in determining the sanction;
 4. Instructions for responding to the notice, including a statement of the right of the facility to a hearing, the time within which a hearing must be requested, and the consequences of waiving a hearing; and
 5. If a monetary penalty is to be imposed, the amount of any initial and any daily monetary penalty per day of noncompliance."
2. If the facility does not accept the temporary manager or a temporary manager is not available within 10 days after the date of the deficiency, and the immediate and serious threat is not removed, the bureau shall deny, suspend, or revoke the license of the facility, and, if applicable, shall also recommend to the welfare division termination or suspension of the Medicaid provider agreement of the facility.
 3. If the facility accepts the temporary manager, the bureau shall:
 - (a) Notify the facility that, unless it removes the immediate and serious threat, its license will be denied, suspended, or revoked pursuant to NRS 449.160; and
 - (b) Where applicable, recommend to the welfare division that the Medicaid provider agreement of the facility be terminated, effective on the 23rd day after the date of appointment of the temporary manager.
 4. If the immediate and serious threat is not removed on or before the 23rd day after the appointment of the temporary manager, the bureau shall deny, suspend, or revoke the license of the facility, and, if applicable, recommend to the welfare division that the Medicaid provider agreement be terminated.

Sec. 127

Appointment of a temporary manager where there is not an immediate and serious threat must be made in conformity with the provisions for notice contained in section 126.

- Sec. 128 1. The temporary manager must:
- (a) Be a person qualified to operate the facility pursuant to the provisions of chapter 449 of NRS relating to the licensing of the facility;
 - (b) Demonstrate prior competency as an administrator of a medical facility or a facility for the dependent, or have other relevant experience pertinent to the deficiencies identified; and
 - (c) Have had no disciplinary action taken against him by any licensing board or professional society in any state.
2. The temporary manager may be an employee of the health division or a private person or agency that contracts with the health division to serve in that capacity.
- Sec. 129 The costs and expenses of temporary management, including the compensation of the manager, must be paid by the facility through the bureau while the temporary manager is assigned to the facility.
- Sec. 130 The temporary manager may take such action as is required to mitigate the immediate danger at the facility, including without limitation providing for the safe transfer of residents or prohibiting the transfer of residents.
- Sec. 131 If a facility fails to agree to the appointment of a temporary manager or fails to relinquish authority to the temporary manager, the health division shall:
- 1. Request the attorney general to bring an action pursuant to NRS 439.565;
 - 2. Deny, suspend, or revoke the license of the facility; and
 - 3. If applicable, request the welfare division to terminate the provider agreement of the facility in accordance with the requirements of the Medicaid program.

- Sec. 132 1. Temporary management of a facility must be terminated if the bureau determines that:
- (a) The facility has substantially corrected the deficiency and has secured management capable of ensuring continued compliance with applicable state and federal statutes, regulations, conditions, and standards;
 - (b) The facility has substantially corrected the deficiencies; or
 - (c) The license of the facility has been denied, revoked, or suspended.
2. If temporary management will be needed for more than 24 days, the bureau shall request the attorney general to initiate judicial proceedings as authorized by NRS 439.565.

IN EMERGENCY CASES, CLOSURE OF THE FACILITY AND/OR TRANSFER OF RESIDENTS

- Sec. 144 1. Except as otherwise provided in subsection 2, if the bureau proposes to close a facility, the health division shall, at least five (5) days before the transfer, notify or cause to be notified personally or by written or telephonic means:
- (a) each recipient; and
 - (b) any person indicated on the record of the recipient as a person to be notified in case of an emergency,
- of the nature of the emergency and the proposed transfer.
2. In an acute emergency, residents may be transferred without prior notice. As used in this subsection, "acute emergency" means that action must be taken without prior notice as a result of an immediate and serious threat.

- Sec. 145 If the residents of a residential facility are to be transferred, the following criteria must be applied in the following order to determine the most appropriate placement of each resident:
- 1. The medical and psychological health of the resident and the suitability of the proposed facility to meet the resident's medical and psychosocial needs;

2. The facility, if any, where the spouse or immediate family member of the resident is a resident; and
3. The geographical proximity of the proposed facility to the immediate family or regular visitors of the resident.

2. The issuance of a provisional license as provided by NRS 449.091;
3. The imposition of a limitation on the occupancy of a residential facility;
4. The imposition of a ban on admissions;
5. Monitoring of the facility by the bureau.

Sec. 88 For a facility that participates in Medicaid, in addition to imposing any sanction authorized by section 87 in this attachment, the bureau may recommend to the welfare division:

1. That the provider agreement of the facility be terminated.
2. That Medicaid payment for certain diagnostic categories or certain types of specialized care be denied.
3. That all or part of the payments to the facility be suspended.
4. That the facility be allowed to continue to participate as a Medicaid facility for 6 months after the date of the survey if:
 - (a) The bureau finds that it is more appropriate to impose alternative sanctions than to recommend termination of the facility from the Medicaid program;
 - (b) The facility has submitted an acceptable plan of correction;

- (c) The bureau approves the plan of correction; and
- (d) The facility agrees to repay the Federal Government for any payments received under the Medicare or Medicaid program if timely corrective action is not taken in accordance with the approved plan of correction.

If the facility does not substantially correct the cited deficiencies within six (6) months after the last day of the survey, the bureau shall recommend that the welfare division terminate the Medicaid agreement of any facility whose participation was continued under these conditions.

ELIGIBILITY CONDITIONS AND REQUIREMENTS

Survey and Certification Education Program

The State has in effect the following survey and certification periodic educational program for the staff and residents (and their representatives) of nursing facilities in order to present current regulations, procedures, and policies.

The survey and certification agency will:

1. Continue to actively participate in various private and public committees that deal with participation in Medicare of nursing facilities;
2. Participate in educational training programs, such as advance directives and the Americans With Disabilities Act;
3. Provide additional technical assistance, as needed, via telephone or by conference;
4. Participate in training for the Ombudsman. Survey staff shall continue to include the Ombudsman in the certification process as outlined in the Omnibus Budget Reconciliation Act of 1987;
5. Provide on an ongoing basis additional regulation information to residents/ provider staff during survey process;
6. Disseminate on an ongoing basis regulatory changes or clarifications to the provider/client community via informational newsletters/brochures and, as needed, through conferences or seminars;
7. Promote resident/client review of nursing facility records which are maintained within the certification agency. These records contain the last three years of compliance with licensing/certification requirements by the nursing facility and reflect a nursing facility's ability to meet the needs of the residents;

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

8. Disseminate and coordinate certification information through the Department of Human Resources, Bureau of Licensure and Certification;
9. Disseminate certification information through provider trade associations; and
10. Advise providers at the time of onsite surveys, regarding the availability of the survey and certification agency to answer resident/family/public questions regarding Medicare certification.

The State survey agency provides training to nursing facility staff, at least annually. This training covers regulatory changes, new technology, and care techniques as well as information on survey findings and expectations. Sessions may cover quality of care and quality of life issues as well as infection control, fire safety, assessments, care planning, and quality assurance.

In addition, the State survey agency issues on an as needed basis technical bulletins. These bulletins are used to advise medical facilities, including nursing facilities, of regulatory changes and to remind facilities of regulatory requirements that have surfaced during surveys and complaint investigations as areas of non-compliance.

During the facility surveys, staff meet with residents individually and in groups to discuss areas of regulation that reflect on resident rights and issues in a facility. This may include subjects such as how to file a complaint, right to formulate advance directives, confidentiality, and the treatment rights.

ELIGIBILITY CONDITIONS AND REQUIREMENTS

____ Process for the Investigation of Allegations of Resident Neglect and Abuse and Misappropriation of Resident Property

The State has in effect the following process for the receipt and timely review and investigation of allegations of neglect and abuse and misappropriation of resident property by a nurse aide or a resident in a nursing facility or by another individual used by the facility in providing services to such a resident.

INTERAGENCY COMPLAINT PROCEDURE

State agency receives complaint from complaining party.

Complaint is logged and prioritized per agency protocol. If the complaint is Priority One, the Health Division is notified immediately and the Health Division will investigate or a joint investigation will be arranged.

Complaint is investigated using the agency's legal authority to investigate.

Facility is notified of deficiencies (if any) and request/demand is made for corrective action.

If corrective action is appropriate, coded complaint form along with documentation is forwarded to the Health Division for follow up.

Health Division logs completed complaint into the "Complaint Registry."

Complaints requiring Health Division follow up will be investigated based on the Health Division assigned priority. A copy of the "Statement of Deficiencies and Plan of Correction" will be forwarded to the originating agency upon completion of the investigation and response by the provider.

SEE ATTACHED PRIORITY SYSTEM, CODING AND COMPLAINT FORM.

COMPLAINT PRIORITY SYSTEM

PRIORITY DEFINITION

1. A Priority One complaint is one in which it appears that a life threatening situation exists or there is an "immediate and Serious Threat" to the health and safety of the patients or residents. Priority One complaints may be referred by telephone and followed in writing by the originating agency. Priority One complaint shall be referred to the Health Division immediately and investigated within 72 hours.
2. A Priority Two complaint is one in which no "Immediate and Serious Threat" exists, but there is situation where expeditious investigation could prevent harm or improve care delivery to patients or residents. Priority Two complaints are investigated by the Health Division within 14 days.
3. A Priority Three complaint is a complaint of a routine nature. Priority Three complaints are investigated at the time of the next visit to the facility.

COMPLAINT FORM CODING

FIELD DESCRIPTION

1. Complaint number is constructed with the agency identifier as the first digit. "A" for Aging Services Division, "W" for Welfare Division and "H" for Health Division.

The next three digits are sequential numbers for counting complaints. Start a new numerical sequence at the beginning of the state fiscal year. Specific series may be assigned to field offices for tracking purposes. For example, 001 - 499 assigned to LV office, 500 - 999 assigned to CC office.

The last three digits are the type of facility. "SNF" for Skilled Nursing Facility, "ICF" for Intermediate Care Facility, "AGC" for Adult Group Care, "ADC" for Adult Day Care, "HHA" for Home Health Agency, "HOS" for Hospice, "JCA" for JCAHO accredited hospital, "UNL" for unlicensed facilities.

2. Four-digit number supplied by the Health Division. Leave blank for unlicensed facilities.
3. Priority 1-3 based on Priority System.
4. Date complaint received. (MM/DD/YY format)
5. Date complaint investigated. (MM/DD/YY format)
6. Date complaint closed. (MM/DD/YY format). This is the date that the complaint is forwarded to the Health Division.
7. Complaint category from Aging Services listing. Code this field after complaint is investigated. Code only the four most important complaint categories in the boxes marked 7a., 7b., 7c., and 7d.
8. Substantiated. "Y/N/R" answer only. Enter "R" if the complaint was referred to another agency or board with no investigation conducted by the originating agency. Complaints with an "R" in this block should have field "9" blank and an "N" in field "10."
9. Resolution OK. "Y/N" answer only.
10. Health Division Follow-up. Does this complaint require Health Division Follow-up? "Y/N" answer only.
11. This field is used for Health Division cross referencing.

Process for Investigations of Complaints and Monitoring

The State has in effect the following process for investigating complaints of violations of requirements by nursing facilities and monitors onsite on a regular, as needed basis, a nursing facility's compliance with the requirements of subsection (b), (c) and (d) for the following reasons:

- (i) the facility has been found not to be in compliance with such requirements and is in the process of correcting deficiencies to achieve such compliance;
- (ii) the facility was previously found not to be in compliance with such requirements and has corrected deficiencies to achieve such compliance, and verification of continued compliance is indicated; or
- (iii) the State has reason to question the compliance of the facility with such requirements.

In addition to the routine complaint investigation process, the Bureau conducts annual inspections for Federal and State requirements.

A written plan of correction is required for all deficiencies identified and a follow-up survey is carried out to ensure the necessary corrections.

4.42 Employee Education About False Claims Recoveries

- a. The Medicaid agency meets the requirements regarding establishment of policies and procedures for the education of employees of entities covered by section 1902(a)(68) of the Social Security Act (the Act) regarding false claims recoveries and methodologies for oversight of entities' compliance with these requirements.

- 1. Definitions.

- a. An "entity" includes a governmental agency, organization, unit, corporation, partnership or other business arrangement (including any Medicaid managed care organization, irrespective of the form of business structure or arrangement by which it exists), whether for-profit or not-for-profit, which receives or makes payments, under a State Plan approved under title XIX or under any waiver of such plan, totaling at least \$5,000,000 annually.

If an entity furnishes items or services at more than a single location or under more than one contractual or other payment arrangement, the provisions of section 1902(a)(68) apply if the aggregate payments to that entity meet the \$5,000,000 annual threshold. This applies whether the entity submits claims for payments using one or more provider identification or tax identification numbers.

A governmental component providing Medicaid health care items or services for which Medicaid payments are made would qualify as an "entity" (e.g., a state mental health facility or school district providing school-based health services). A government agency which merely administers the Medicaid program, in whole or part (e.g., managing the claims processing system or determining beneficiary eligibility), is not, for these purposes, considered to be an entity.

An entity will have met the \$5,000,000 annual threshold as of January 1, 2007, if it received or made payments in that amount in Federal fiscal year 2006. Future determinations regarding an entity's responsibility stemming from the requirements of section 1902(a)(68) will be made by January 1 of each subsequent year, based upon the amount of payments an entity either received or made under the State Plan during the preceding Federal fiscal year.

State: Nevada

- b. An “employee” includes any officer or employee of the entity.
 - c. A “contractor” or “agent” includes any contractor, subcontractor, agent, or other person which or who, on behalf of the entity, furnishes, or otherwise authorizes the furnishing of, Medicaid health care items or services, performs billing or coding functions, or is involved in the monitoring of health care provided by the entity.
2. The entity must establish and disseminate written policies which must also be adopted by its contractors or agents. Written policies may be on paper or in electronic form, but must be readily available to all employees, contractors, or agents. The entity need not create an employee handbook if none already exists.
 3. An entity shall establish written policies for all employees (including management), and of any contractor or agent of the entity, that include detailed information about the False Claims Act and the other provisions named in section 1902(a)(68)(A). The entity shall include in those written policies detailed information about the entity’s policies and procedures for detecting and preventing waste, fraud, and abuse. The entity shall also include in any employee handbook a specific discussion of the laws described in the written policies, the rights of employees to be protected as whistleblowers and a specific discussion of the entity’s policies and procedures for detecting and preventing fraud, waste, and abuse.
 4. The requirements of this law should be incorporated into each State’s provider enrollment agreements.
 5. The State will implement this State Plan amendment on January 1, 2007.
- b. ATTACHMENT 4.42-A describes, in accordance with section 1902(a)(68) of the Act, the methodology of compliance oversight and the frequency with which the State will re-assess compliance on an ongoing basis.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nevada

Attachment 4.42A

Page 1

METHODOLOGIES FOR COMPLIANCE OVERSIGHT

Methods for administration of the State Plan in accordance with 1902(a)(68) of the Social Security Act, and 1396a(a)(68) of Title 42, United States Code are:

1. The Nevada Division of Health Care Financing and Policy (DHCFP) will ensure entities, providers and contractors who reach the \$5,000,000 threshold as defined in 4.42(a)(1)(A), comply and maintain compliance with the above-mentioned Acts and Regulations by:
 - a. Making current state policy and procedures, covering 1902(a)(68), available to all providers and contractors.
 - b. Providing written notice to each entity, informing them of their obligation to comply with the above-mentioned Acts and Regulations as a condition of their continued participation in the Medicaid program.
 - c. Requiring each entity submit, within 90 days of receipt of the notice, a certification declaring the entity, and any contractor or agent of the entity, is in compliance. The certification is to be accompanied by a new Provider Agreement or Managed Care contract, a copy of their written policies, current employee handbook, if one exists, and documentation of staff having received detailed information on the regulations.
 - d. Reviewing, on an annual basis, the written policies and documents submitted by each entity to ensure they comply with 42 USC section 1396(a)(68). The documents will be used to create and maintain a record file on each entity.
 - e. Requiring each entity submit a new certification, annually, to attest to their continued compliance, and include any revisions made to their policies.
 - f. Identifying, at the beginning of each federal fiscal year, providers and contractors who have reached the \$5,000,000 threshold in the previous fiscal year, and providing them written notice of their obligation to comply with the regulations.

Initial notifications were mailed on March 27, 2007. Future notifications will be mailed, annually, within the first quarter of each calendar year.

2. The DHCFP may take administrative action for non-compliance through non-renewal of provider enrollment or contract, or suspension or termination of provider status.

6.3 State Financial Participation

State funds are used in both assistance and administration.

- State funds are used to pay all of the non-Federal share of total expenditures under the plan.
- There is local participation. State funds are used to pay not less than 40 percent of the non-Federal share of the total expenditures under the plan. There is a method of apportioning Federal and State funds among the political subdivisions of the State on an equalization or other basis which assures that lack of adequate funds from local sources will not result in lowering the amount, duration, scope or quality of care and services or level of administration under the plan in any part of the State.

- (b) State and Federal funds are apportioned among the political subdivisions of the State on a basis consistent with equitable treatment of individuals in similar circumstances throughout the State.

Methods for administration of the State Plan in accordance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, Title II of the Americans with Disabilities Act of 1990, the Patient Self-Determination Act of 1990, the Older Americans Act of 1965 and the Older Americans Act as Amended 2000, 45 CFR Parts 80, 84, 90 and 1321, and 28 CFR Part 35 are:

1. The Nevada Division of Health Care Financing and Policy (DHCFP) will inform and instruct its staff members concerning their obligations under the above Acts and Regulations by:
 - a. Making current policies and procedures regarding Civil Rights requirements for employees and Medicaid providers, available to all DHCFP employees.
 - b. Posting DHCFP's "Civil Rights Non-Discrimination Notice" in each district office and central office.
 - c. Providing training for new staff members on the Civil Rights requirements and staff obligations for carrying out the policies. Providing training for existing staff members when requirements or policies and procedures change.
 - d. Providing training for supervisory staff on non-discrimination hiring and employment practices.
 - e. Conducting through supervisory channels, constant review of policies and practices to assure that no individual is being discriminated against on the basis of race, color, national origin, sex, age, religion, or disability (including AIDS and related conditions); and taking corrective action as may be required to assure DHCFP's practices are consistent with the above stated Acts and Regulations.
2. DHCFP will inform and instruct providers of service or benefits under the Medicaid program of their obligations to comply with the above-mentioned Acts and Regulations as a condition to their initial or continued financial participation in the Medicaid program. This will be accomplished by:

- a. Providing written materials and personal explanations to providers regarding the requirements of the above-mentioned Acts and Regulations, and DHC FP policies and procedures to implement these requirements.
 - b. Assuring when a provider conducts any activity or furnishes services under contract or other arrangement, that such activity will be conducted or such services will be furnished in accordance with DHC FP's obligations under the above stated Acts and Regulations. In appropriate cases, DHC FP will determine that the provider has executed assurances in the form prescribed by the Department of Health and Human Services which are in effect and applicable to the program under which the activity is conducted or the services are furnished. In other cases, DHC FP will take appropriate steps to satisfy itself that the provider has agreed to and is conducting the activity or furnishing the services in accordance with the provisions of the above stated Acts and Regulations. This includes stating in provider agreements the specific obligations of the providers regarding their activities and provision of services.
3. DHC FP will inform its recipients, potential recipients and other interested persons that:
- a. Services and other benefits under the Medicaid program are provided on a non-discriminatory basis as required by the above-mentioned Acts;
 - b. They have the right to file a complaint with DHC FP or the United States Department of Health and Human Services, Office for Civil Rights if they believe that discrimination on the basis of race, color, national origin, sex, age, religion, or disability (including AIDS and related conditions) is being practiced.

DHC FP will provide written notice of the above information to all applicants and recipients. Appropriate explanatory statements will be included in public information materials which are available to interested persons and particularly to those individuals and groups who may be sources of referrals and applications.

4. All complaints concerning alleged discriminatory conditions or practices in the operation of the Medicaid program on the basis of race, color, national origin, sex, age, religion, or disability (including AIDS and related conditions) are to be filed with DHC FP or the Office for Civil Rights. Complaints filed with DHC FP will be investigated by DHC FP staff members to determine if discriminatory practice has occurred. If supported, appropriate action will be taken to correct past practices and to prevent the recurrence of such discrimination.

DHC FP will advise the complainant in writing of its finding. The identity of the complainant shall be kept confidential except to the extent necessary to carry out the complaint procedure.

Complaints regarding economic discrimination by Medicaid facility providers will be referred to the Division for Aging Services for investigation in accordance with the Older Americans Act.

DHCFP will maintain adequate records to show the action taken as a result of each complaint filed and will make such information available for Federal review.

5. DHCFP will require certain Medicaid and Medicare providers designated by the Office for Civil Rights and/or the Centers for Medicare and Medicaid Services to conduct and report the results of tri-annual self-evaluations of their compliance with the above-mentioned Civil Rights laws and regulations using the DHCFP provided self-evaluation tool. If the self-evaluations results are not satisfactory or timely, the providers will be required to cooperate with a DHCFP on-site compliance review in accordance with current DHCFP policies and procedures. Provider compliance with Civil Rights laws and regulations will also be reviewed during on-site visits by Division and Department personnel in conjunction with other business visits.
