Division of Health Care Financing and Policy
ATTN: "State Plan Amendments for Hospital UPLs Public Notice"
1100 E. William Street, Suite 101, Carson City, Nevada 89701

Purpose: The purpose of this notice is to provide the public with information and to collect public feedback regarding the state's intention to submit two State Plan Amendments (SPAs) for federal approval of new supplemental payments for private hospitals with respect to inpatient and outpatient services. The Division intends to publish the draft SPAs and other supporting materials on its website within the coming weeks at: <http://dhcfp.nv.gov/>. Emails will be sent to such individuals as have requested public notice of SPAs and meetings (to request notifications please contact documentcontrol@dhcfp.nv.gov, or at 1100 East William Street, Suite 101, Carson City, Nevada 89701.

Overview: To preserve access to inpatient and outpatient hospital services for needy individuals in the state of Nevada, the Division of Health Care Financing Policy intends to submit two SPAs during the first quarter of 2023 seeking federal approval to implement two new supplemental payment programs for qualifying private hospitals.

Upon federal approval, the SPAs will provide authority for the state's Medicaid reimbursement system to provide for certain upper payment limit (UPL) supplemental payments to all qualifying private hospitals. The state is seeking an effective date of January 1, 2023. The supplemental payments are for Medicaid fee-for-service outpatient and inpatient hospital services.

Methodology: The supplemental payments shall be determined on an annual basis and not exceed, when aggregated with other payments made to private hospitals, 100% of a reasonable estimate of the amount that would be paid for such services under Medicare payment principles for private hospitals (i.e., the UPL).

The state intends to calculate the aggregate difference between Medicaid payments for inpatient and outpatient hospital services made under all other provisions of the state plan and the UPL for such services. Data from the state's most recent UPL demonstration to CMS, trended to the payment year, will be used as the estimate for the UPL. Medicaid payments used to calculate the aggregate difference will be from the same year as the UPL demonstration data, trended to the payment year, as appropriate.

Expected Expenditures: The state estimates an expected increase in annual aggregate expenditures as follows for each new UPL payment under the SPAs:

- **Inpatient Services Hospital UPL SPA**
 - State Share: \$27,796,560.00
 - Total Expenditures: \$74,421,848.00
- **Outpatient Services Hospital UPL SPA**
 - State Share: \$52,908,418.00
 - Total Expenditures: \$141,655,737.00

The state intends to fund the state share of the UPL through a new private hospital assessment, pending authorization after a statutorily required poll or survey of hospitals pursuant to [NRS 422.3791-422.3795](#).
