DHCFP's written quality strategy is the foundational managed care tool that identifies manage care priorities, including goals and objectives to improve the quality of healthcare services. In addition to ensuring compliance with federal and state statutory and regulatory requirements on quality, the quality strategy is intended to go beyond compliance with those minimum requirements by implementing multiple methods for continuous quality improvement to raise the quality of care provided to and received by Nevada Medicaid and Nevada Check Up recipients.
In addition to soliciting input from DHHS, the Medical Care Advisory Committee (MCAC), and through tribal consultation, DHCFP also publishes the draft Quality Strategy for a 30-day public comment period before finalizing the Quality Strategy.
Once the public comment period ends and consensus is reached by all stakeholders, including the MCAC, members, and tribes, the Quality Strategy is finalized, shared with all pertinent stakeholders, sent to CMS, and posted on DHCFP's website for public view.
The DHCFP will post this public notice for 30 days. Any feedback must be submitted to the DHCFP via the instructions in Section 1 above.
