# Agenda

- **Overview**
- **Access to Care**
- **Behavioral Health**
- **Maternal Health**
- **Workforce Development and Health Related Social Needs (HRSN)**
- **Community Reinvestment Process**
- **A Look Forward to 2025 Investments**

# Committed to Nevada

## Overview

Molina Healthcare of Nevada continues to lead with heart, strengthening our communities through investments, educational initiatives, and meaningful partnerships. We remain deeply Committed to Nevada and are proud to live and work alongside the Nevadans we serve.

**Molina Healthcare of Nevada acknowledges and supports the recommendations outlined in MRAC reports, aligning our community reinvestment strategy accordingly.** Many grant recipients provide comprehensive wraparound services, ensuring individuals and families receive the holistic support to achieve and maintain better health outcomes.

Our dedication to building healthier, stronger communities has only grown, and we are proud to provide ongoing support through **\$702,000** in grants focused on five key areas:

- **Access to care**
- **Behavioral health for children and adults**
- **Maternal health**
- **Workforce development**
- **Health-related social needs**

# Access to Care

## Access to Care

Access to healthcare remains a crucial need throughout Nevada. A DHHS survey indicates that every county is facing provider shortages, and more than half of Nevadans report experiencing delays or gaps in the care they need.

At Molina Healthcare of Nevada, we believe that timely access to care is essential, not a luxury. That's why we invest significantly in organizations that enhance care access and strengthen a network of non-clinical professionals who connect individuals with vital wraparound services.

Through strategic partnerships that center on community needs, we address urgent issues in Clark and Washoe counties, working to close gaps and bring essential care closer to those who need it most.

Northern Nevada Children's  
Cancer Foundation**

# Behavioral Health

## Behavioral Health for Children & Adults

At Molina, we believe that ensuring a genuinely healthy Nevada involves prioritizing both behavioral health and physical health equally.

Molina is proud to invest in expanding behavioral health services for adults and children. Our funding enhances access across the full spectrum of care, from peer support and specialized treatment to crisis de-escalation programs.

These community-driven initiatives not only provide care but also help dismantle the stigma surrounding mental health and substance use disorders, thereby opening the door to essential wraparound services that promote long-term recovery and resilience.

# Maternal Health

## Maternal Health

At Molina, we understand that achieving meaningful progress requires more than just temporary solutions; it necessitates long-term investment and ongoing collaboration. We are actively supporting initiatives that enhance access to maternal health services, with the aim of improving outcomes for both mothers and their babies.

Every mother deserves quality care throughout her journey—from pregnancy to postpartum. At Molina, we are dedicated to ensuring that all families in Nevada have the opportunity for a healthy start. However, there is still much work to be done.

# Workforce Development & HRSN

## Workforce Development

Recruiting and retaining a strong, resilient health care workforce is crucial for meeting the increasing needs of our communities. At Molina, we understand that supporting those who care for others begins with investing in their training, development, and well-being. Through targeted financial support, Molina aims to alleviate the factors that contribute to burnout, ensuring that today's healthcare providers can continue to serve in the future.

**University of Reno, Project ECHO**

## Health Related Social Needs

At Molina, we believe that health care extends beyond the walls of a clinic. Treating the whole person involves recognizing and addressing the social needs that significantly affect well-being, such as access to food, clothing, and supportive youth programs. Molina prioritizes equitable care by investing in resources that help meet these essential needs.

# Community Reinvestment Process

# A Look Forward

## Investments for 2025

**Molina Healthcare of Nevada remains steadfast in its commitment to reinvesting in the communities we serve.** Our core categories for community reinvestment remain consistent, but our approach evolves with the needs of our members and local partners.

Ensuring access to care is our top priority. We want individuals and families to receive timely, high-quality health services, no matter their circumstances. Additionally, we are committed to improving behavioral and maternal health, as we recognize the significant impact these areas have on the overall wellness of our community.

Workforce development is a key priority for us. We work closely with local organizations and educational institutions to train and cultivate a diverse healthcare workforce that mirrors the communities we serve. By investing in the next generation of healthcare professionals, we aim to create a more resilient and culturally responsive care system.

We remain committed to addressing social health needs, including housing, nutrition, and transportation, which are vital for achieving equitable health outcomes. By supporting initiatives that address these barriers, Molina Healthcare of Nevada strengthens its position as a trusted partner in the community.
