About This Report

Section 8 of Nevada Revised Statutes (NRS) 422.4025 requires reporting concerning the agreements negotiated and contracts entered into pursuant to NRS 422.4053 which must include, without limitation, the financial effects of obtaining prescription drugs through those agreements and contracts, in total and aggregated separately for agreements negotiated by the Department, contracts with a pharmacy benefit manager, contracts with a health maintenance organization and contracts with public and private entities from this State, the District of Columbia and other states and territories of the United States.

This report starts with an explanation of the templates that the Nevada Health Authority uses to compile data. Definitions and explanations of the line items are included. The data in the templates is used to generate aggregate reports, that incorporate Fee-For-Service information and details from each Managed Care Organization.

The appendix includes the data submitted by each Managed Care Organization and Fee-for- Service.

Section 1 – Summary of Supplemental Rebate Agreements (SRAs) Template:

Table Summary: Summary of SRAs in place during the calendar year reporting period, including any pertinent details.

Summary of Supplemental Rebate Agreements (SRAs) – CY ####	
Total Number of Contracts	
Number of Unique Manufacturers Under Contract	
Amount Plan Paid for Products During Contract Term	
Amount Plan Paid to Pharmacies/Providers for Products Under Contract during Contract Term	
Total Supplemental Rebates Invoiced	
Total Supplemental Rebates Collected	
Supplemental Rebate Percentage of the Total the Plan Paid for Contracted Products	

Table 1 Definitions:

- **Number of Contracts:** The count of signed SRAs that were in force during some period within the reporting CY period.
- **Number of Unique Manufacturers Under Contract:** The count of unique manufacturers with a signed SRA in force during some period within the reporting CY period.
- **Amount Plan Paid for Products During Contract Term:** The amount the Plan paid for all drug utilization subject to a manufacturer's SRA during the reporting CY period.
 - *Example: Drug "A" was subject to an SRA from 04/01/2021 to 12/31/2021 would include the amount paid for Drug "A" for claims paid from 04/01/2021 to 12/31/2021.*
- **Amount Plan Paid to Pharmacies/Providers for Products Under Contract:** The amount the Plan paid to pharmacies and providers for drugs subject to a manufacturer's SRA during the reporting CY period.

- **Total Supplemental Rebates Invoiced:** The supplemental rebate amount invoiced during the reporting CY period to manufacturers for drugs subject to SRAs.
- **Total Supplemental Rebates Collected:** The supplemental rebate amount collected during the reporting CY period from manufacturers for drugs subject to SRAs regardless of when the rebate liability was incurred.
 - *Example: Manufacturer B was invoiced \$100.00 for supplemental rebates in November 2020 and remitted payment in January 2021. This column would include the payment since it was made during the reporting CY period.*
- **Supplemental Rebate Percentage of Drug Spend for Contracted Products:** The result of dividing the contract value by the drug spend for contracted drugs, expressed as a percentage.

Section 2 – Supplemental Rebate Agreement Dates Template:

Supplemental Rebate Agreements (SRAs) – CY ####		
Manufacturer Name	Effective Date	Term Date
ABC Manufacturer	01/01/0000	01/01/0000
DEF Manufacturer	01/01/0000	01/01/0000

Table 2 Definitions:

- **Manufacturer Name:** The name of the entity the Plan has contracted with in the SRA.
- **Effective Date:** The start date of the SRA.
- **Term Date:** The end date of the SRA.

Section 3 – Supplemental Rebate Agreements (SRAs) Detail Template:

The Division requires two versions of this table. The first version includes the manufacturer's name along with detailed information and is intended for internal use only, ensuring compliance with federal Medicaid rebate statutory confidentiality provisions. The second version replaces the manufacturer's name with a generic placeholder, 'Manufacturer 00,' and will be published publicly.

Table 4 Definitions:

- **Retail 30 Days:** Dispensing fee cost for 0–30-day supplies at a retail location
- **Retail >30 Days:** Dispensing fee cost for >30-day supplies at a retail location
- **Mail Order:** Dispensing fee cost for mail order pharmacies
- **Specialty:** Dispensing fees cost for specialty pharmacies

Section 5: Measures to Control Cost Template:

Measures to Control Costs		
<i>Utilization Management (UM) Protocols</i>	<i>Prior Authorization</i>	<i>(Yes / No)</i>
	<i>Step Therapy</i>	<i>(Yes / No)</i>
	<i>Quantity Limits</i>	<i>(Yes / No)</i>
<i>Pharmacy Networks</i>	<i>(Yes / No)</i>	
<i>Preferred Drug List</i>	<i>(Yes / No)</i>	
<i>ProDUR Activities</i>	<i>(Yes / No)</i>	

Table 5 Definitions:

- **Utilization Management:** Measures to control use of pharmacy services for medical necessity and appropriateness to provide efficacious and cost-effective medications. Examples of utilization management include but not limited to prior authorization, step therapy, and quantity limits.
- **Prior Authorization:** Is a prospective review for an approval for the use of a medication.
- **Step Therapy:** Is a utilization management program that requires a patient to try a lower cost medication before stepping up to a similar-acting more expensive medication.
- **Quantity limits:** Limits medication use to the maximum dose of a medication.
- **Pharmacy Networks:** Is a group of pharmacies contracted with the payer where patients can fill medications.

- **Preferred Drug List:** Is a list of preferred medications that requires a patient to try the preferred medication before using a non-preferred medication.
- **Prospective Drug Utilization Review (ProDUR) Activities:** ProDUR activities are automated, structured, ongoing review of prescribing, dispensing and use of medications.

Calendar Year 2024 Supplemental Rebate Agreement Report Summary

The overall drug rebate process follows the Omnibus Budget Reconciliation Act of 1990 (OBRA '90) as codified in Section 1927 of the Social Security Act (42 U.S.C. 1396r-8) and regulations promulgated by the Centers for Medicare & Medicaid Services (CMS). Under the Medicaid Drug Rebate Program (MDRP), drug manufacturers must provide rebates to the federal government and states as a condition of having their drugs covered by Medicaid. The MDRP helps lower Medicaid prescription drug spending by ensuring that state Medicaid agencies receive discounts in the form of rebates on covered outpatient drugs. In order for their covered outpatient drugs to be covered and reimbursed by state Medicaid agencies, pharmaceutical manufacturers enter and have in effect the National Drug Rebate Agreement (NDRA) with the Secretary of the United States Department of Health and Human Services (HHS). The NDRA provides for the payment of Federal rebates by pharmaceutical manufacturers. Nevada Medicaid and the other state Medicaid Programs are third party beneficiaries of the NDRA. The formulas for calculating the Federal Unit Rebate amount (URA) are set out by Federal statute.

States may also directly negotiate with manufacturers for voluntary supplemental rebates on top of federally required rebates. States may enter into separate or supplemental drug rebate agreements as long as such agreements achieve drug rebates equal to or greater than the drug rebates set forth in the Secretary's national rebate agreement with drug manufacturers, which is published at 56 F.R. 7049 (1991).

The supplemental rebate does not reduce what is being paid under the NDRA but instead, provides an additional tool for states to help manage prescription drug spend. Pharmaceutical manufacturers enter into supplemental rebate agreements (SRA) with state Medicaid agencies and contracted Managed Care Organizations (MCOs) to ensure preferred status on the respective Preferred Drug Lists (PDL).

Generally, SRAs are in effect for one calendar year beginning on January 1st and terminating on December 31st. In some instances, the SRA can have an alternative start date as a result of either newly contracted drugs or new National Drug Codes released for drugs currently under contract. Additionally, there are factors that may cause a contract to have a non-December 31st end date such as a product moving to non-preferred status or to coincide with planned Pharmacy & Therapeutics Committee reviews and recommendations.

Supplemental rebates are calculated based upon two different types of calculations at the unit level:

- "Percentage of WAC" - set percentage of the drug's published wholesale acquisition cost (WAC).
- "GNUP" (Guaranteed Net Unit Price) - WAC minus the Federal URA minus the GNUP.
 - In the event a drug's WAC minus the Federal URA is lower than the GNUP, the supplemental rebate rate is zero.
 - Even though there are instances when the GNUP contract does not produce supplemental rebate savings, they remain in place to give Nevada Medicaid price protection in case the manufacturer raises the drug price during the contract term.

The type of calculation used for a particular product is defined within a manufacturer's SRA with the managed care organization.
