Nevada Medicaid Women's Health and Vaccinations Covered Services

Below is a list of women's health services centered around preventative screenings, family planning, gynecological exams, maternity care, abortion, hysterectomy, vaccinations, behavioral health, dental, and prescribed drugs. This list is not all-inclusive of all services available to women.

Service	Description
Preventive Services	Nevada Medicaid covers all U.S. Preventive Services Task Force (USPSTF),
	A and B screening recommendations such as:
	Gestational diabetes screen
	 Hepatitis B and C infection screen during pregnancy
	Perinatal depression screen
	 Syphilis infection screen during pregnancy
	Alcohol and drug screen
	Tobacco screen
	HIV screen
	Intimate partner violence screen
	Preeclampsia screen
	Colorectal cancer screen
	 Breast cancer screen (mammogram)
	BRCA genetic testing
	Cervical cancer screen (pap smear)
	 Gynecological exams (includes breast exam, pelvic exam, pap smoor)
Fomily Diagning	smear) Family planning services and supplies are for the primary purpose to
Family Planning	prevent and/or space pregnancies. This includes office visits and FDA approved birth control drugs and devices) (i.e. – birth control pills, condoms, patch, intrauterine device (IUD), etc.)
	Sterilization by tubal ligation (age 21 years or older) is covered.
	A pelvic exam or pap smear is not required for self-administered birth control.
	Family planning services are not covered for recipients, regardless of eligibility, whose age or physical condition precludes reproduction.
Maternity Care	Includes antepartum, labor and delivery, and postpartum care provided by a physician, physician assistant, APRN, and/or nurse midwife. Can be provided in the home, office, hospital, or freestanding birthing center setting.
	Includes provider visits, laboratory such as maternity panels and prenatal screening and diagnostic testing, imaging, stress tests, prescribed drugs, and other medically necessary services.

Medicaid recipients.AbortionOnly available due to rape, incest, or to save the life of the mother. Includes physician services, prescribed drugs, and hospital or outpatient surgery center services.HysterectomyHysterectomies are only covered if medically necessary. According to federal regulations, a hysterectomy is not a family planning procedure. Hysterectomies performed solely for the purpose of rendering a female incapable of reproducing are not covered by Medicaid.
