To whom it may concern-

I am writing a letter to advocate for access to Ubrogapant (Ubrelyvy) to treat my migraine patients. This medication in my clinical practice has shown to be very effective for treating the second leading cause of disability world wide (migraine).

Furthermore, it is a great option for my patients who have side effects from triptans or cardiovascular risk patients who cannot be on a triptan.

Feel free to call me to further elaborate on my email (775) 351-7172.

I am going to do my best to log on to the Webex meeting on 12/20/2020 to further speak about my clinical experience and advocate for Ubrogapant.

Thanks-

Denis
