Subject: FORMULARY SUPPORT LETTER FOR NURTEC ODT
Date: Wednesday, December 8, 2021 7:43:50 PM

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To Whom It May Concern,

I am writing this letter in support of Nurtec ODT and it's placement on the Medicaid preferred drug formulary.

I am a Neurology Nurse Practitioner with St. Mary's Medical Group in Reno, Nevada and I have an extensive headache Practice. Over the past 6 months I have been able to trial Nurtec ODT in my patients and have seen excellent results.

The efficacy, safety and convenience of Nurtec ODT make it an important breakthrough in the treatment of acute migraine.

People who have suffer with migraines and cardiovascular disease and have been stable for 6 months to use a non narcotic therapy for acute migraine purposes. Therapy and should be made available to all patients.

Sincerely,

Lisa Hammargren-Kuykendall, APRN-BC, Neurology
(775) 857-8094
