

LAS VEGAS

SPINE&PAIN

CENTER

To: Nevada Medicaid Board

I am Dr. Arlyn Valenica and I practice in Neurology and treat migraines in the Las Vegas Valley. Migraines are the most common neurological disorder.

I am requesting continued access of Emgality and Reyvow for Medicaid patients.

Emgality and Reyvow have consistent safety profiles and efficacy for migraine patients instead of generic therapies.

Please consider Emgality and Reyvow as available options for the Medicaid population.

Thank you

Sincerely,

Dr. Arlyn Valencia
