

The following steps are used to determine the rates:

1. The State will use Nevada-specific hourly wages from the Bureau of Labor Statistics as of May 2004 inflated to June 2006.
2. The hourly amount is increased by the 27% ERE.
3. A productivity factor is applied to the hourly compensation calculated in Item 2 to equal the hourly rate.
4. The hourly rate per individual is the hourly rate (Item 3) divided by the number of individuals based on staffing ratio assumption.
5. The adjusted hourly rate per individual is the hourly rate per individual (Item 4) increased by the program support costs per hour per individual, allowance for supervisory time and capital costs per hours.
6. Administrative overhead 10% is applied to the adjusted hourly rate per individual (Item 5).
7. Total hourly rate is the sum of the adjusted hourly rate per individual before administrative overhead (Item 5) and the administrative overhead (Item 6).
8. Total hourly rate is scaled to the proper unit based on the billable unit of service.

These rates have been compared to other private sector Fee-for-Service rates. Documentation of the assumptions used, rate development methodology and fee schedule payment rates will be maintained by the DHCFP.
