4. Distribution of State plan HCBS Operational and Administrative Functions.

(By checking this box, the state assures that): When the Medicaid agency does not directly conduct an administrative function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. When a function is performed by an agency/entity other than the Medicaid agency, the agency/entity performing that function does not substitute its own judgment for that of the Medicaid agency with respect to the application of policies, rules and regulations. Furthermore, the Medicaid Agency assures that it maintains accountability for the performance of any operational, contractual, or local regional entities. In the following table, specify the entity or entities that have responsibility for conducting each of the operational and administrative functions listed (check each that applies):

(Check all agencies and/or entities that perform each function):

(By checking the following boxes, the State assures that):

☑ Conflict of Interest Standards. The state assures the independence of persons performing evaluations, assessments, and plans of care. Written conflict of interest standards ensures, at a minimum, that persons performing these functions are not:

- related by blood or marriage to the individual, or any paid caregiver of the individual
- financially responsible for the individual
- empowered to make financial or health-related decisions on behalf of the individual
- providers of State plan HCBS for the individual, or those who have interest in or are employed by a provider of State plan HCBS; except, at the option of the state, when providers are given responsibility to perform assessments and plans of care because such individuals are the only willing and qualified entity in a geographic area, and the state devises conflict of interest protections. (If the state chooses this option, specify the conflict of interest protections the state will implement):
- **Fair Hearings and Appeals.** The state assures that individuals have opportunities for fair hearings and appeals in accordance with 42 CFR 431 Subpart E.
- 7. No FFP for Room and Board. The state has methodology to prevent claims for Federal financial participation for room and board in State plan HCBS.
- 8. Non-duplication of services. State plan HCBS will not be provided to an individual at the same time as another service that is the same in nature and scope regardless of source, including Federal, state, local, and private entities. For habilitation services, the state includes within the record of each individual an explanation that these services do not include special education and related services defined in the Individuals with Disabilities Education Improvement Act of 2004 that otherwise are available to the individual through a local education agency, or vocational rehabilitation services that otherwise are available to the individual through a program funded under §110 of the Rehabilitation Act of 1973.

The state does not elect to disregard the requirements at section 1902(a)(10)(C)(i)(III) of the Social Security Act.

Evaluation/Reevaluation of Eligibility

1. **Responsibility for Performing Evaluations / Reevaluations.** Eligibility for the State plan HCBS benefit must be determined through an independent evaluation of each individual). Independent evaluations/reevaluations to determine whether applicants are eligible for the State plan HCBS benefit are performed (*Select one*):

By Other (specify State agency or entity under contract with the State Medicaid agency):

2. Qualifications of Individuals Performing Evaluation/Reevaluation. The independent evaluation is performed by an agent that is independent and qualified. There are qualifications (that are reasonably related to performing evaluations) for the individual responsible for evaluation/reevaluation of needsbased eligibility for State plan HCBS. (Specify qualifications):

SMA Health Care Coordinator (HCC) must be licensed as a Social Worker by the State of Nevada Board of Examiners for Social Workers; licensure as a Registered Nurse by the Nevada State Board of Nursing; or have a professional license or certificate in a medical specialty applicable to the assignment. Additional Criteria includes valid driver's license to enable site and home visits, adhere to Health Insurance Portability and Accountability Act (HIPAA) requirements and FBI Criminal History Background Check (standard for all State employees).

3. Process for Performing Evaluation/Reevaluation. Describe the process for evaluating whether individuals meet the needs-based State plan HCBS eligibility criteria and any instrument(s) used to make this determination. If the reevaluation process differs from the evaluation process, describe the differences:

SMA Health Care Coordinator (HCC) conducts a face-to-face visit with a potential recipient to determine whether the needs-based criteria will be met. The face-to-face assessment may be performed by telemedicine, when the following conditions are met:

- The agent performing the assessment is independent and qualified and meets the provider qualifications defined by the State, including any additional qualifications or training requirements for the operation of required information technology;
- The individual receives appropriate support during the assessment, including the use of any necessary on-site support staff; and
- The individual provides informed consent for this type of assessment.

The Health Care Coordinator uses the Comprehensive Social Health Assessment (CSHA) which is a tool to assess medical, social, and psychological condition of a potential recipient.

- **4.** Reevaluation Schedule. (By checking this box, the state assures that): Needs-based eligibility reevaluations are conducted at least every twelve months.
- **5.** Needs-based HCBS Eligibility Criteria. (By checking this box, the state assures that): Needs-based criteria are used to evaluate and reevaluate whether an individual is eligible for State plan HCBS.

The criteria consider the individual's support needs, and may include other risk factors: (Specify the needs-based criteria):

Person-Centered Planning & Service Delivery

(By checking the following boxes, the state assures that):

- 1.

 There is an independent assessment of individuals determined to be eligible for the State plan HCBS benefit. The assessment meets federal requirements at 42 CFR §441.720.
- 2. Based on the independent assessment, there is a person-centered service plan for each individual determined to be eligible for the State plan HCBS benefit. The person-centered service plan is developed using a person-centered service planning process in accordance with 42 CFR §441.725(a), and the written person-centered service plan meets federal requirements at 42 CFR §441.725(b).
- 3. The person-centered service plan is reviewed and revised upon reassessment of functional need as required under 42 CFR §441.720, at least every 12 months, when the individual's circumstances or needs change significantly, and at the request of the individual.
- 4. Responsibility for Face-to-Face Assessment of an Individual's Support Needs and Capabilities. There are educational/professional qualifications (that are reasonably related to performing assessments) of the individuals who will be responsible for conducting the independent assessment, including specific training in assessment of individuals with need for HCBS. (Specify qualifications):

SMA Health Care Coordinator. All SMA Health Care Coordinators receive training on personcentered thinking.

Qualifications:

State: Nevada

SMA Health Care Coordinator (HCC) must be licensed as a Social Worker by the State of Nevada Board of Examiners for Social Workers; licensure as a Registered Nurse by the Nevada State Board of Nursing; or have a professional license or certificate in a medical specialty applicable to the assignment. Additional Criteria includes valid driver's license to enable site and home visits, adhere to Health Insurance Portability and Accountability Act (HIPAA) requirements and FBI Criminal History Background Check (standard for all State employees).

5. Responsibility for Development of Person-Centered Service Plan. There are qualifications (that are reasonably related to developing service plans) for persons responsible for the development of the individualized, person-centered service plan. (Specify qualifications):

The SMA HCC is responsible for the development of Plan of Care (POC) using a person-centered plan.

During the initial assessment, and development of the person-centered POC, the potential recipient, family, support systems, and/or designated representatives are encouraged to participate in the development of the POC and to direct the process to the maximum extent possible. The personcentered planning process is driven by the individual, designated representative, legal guardian or other supports chosen by the individual and includes necessary information and support to ensure that the individual directs the process to the maximum extent possible.

Planning includes convenience to the recipient, cultural considerations, use of plain language, strategies for solving any disagreements, identification of what is important to and for the individual, personal preferences, choice of caregivers, strategies to facilitate health and welfare and remediate identified risks, identified goals, outcomes, preferences related to relationships, community integration and opportunities to participate in integrated settings/seek employment or volunteer activities, control over personal resources.

A POC form must be developed for all potential recipients. The POC includes, at a minimum, the individual's needs, goals to meet those needs, identified risks and services to be provided.

7. Informed Choice of Providers. (Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the 1915(i) services in the person-centered service plan):

During the assessment process, and at any time during the authorization period, the SMA HCC informs and provides a printed list of qualified providers to the potential recipient so they may choose among enrolled providers. All potential recipients must read, or have the form read to them, and sign the Statement of Understanding in which the potential recipient acknowledges a selection from the qualified providers on either a printed list or via the SMA website.

The information reviewed with the recipient/personal representative include: process for development of the POC, services to be provided, and choice of service provider. The recipient may request a change in services or service provider at any time.

8. Process for Making Person-Centered Service Plan Subject to the Approval of the Medicaid Agency. (Describe the process by which the person-centered service plan is made subject to the approval of the Medicaid agency):

The POC is developed and implemented by the SMA HCC using a person-centered process. The HCC contacts all service providers to arrange for the agreed upon services.

9. Maintenance of Person-Centered Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §74.53. Service plans are maintained by the following (check each that applies):

Participant-Direction of Services

1	Flaction of Participant Direction	(Salact ona):

•	The state does not offer opportunity for participant-direction of State plan HCBS.
0	Every participant in State plan HCBS (or the participant's representative) is afforded the opportunity to elect to direct services. Alternate service delivery methods are available for participants who decide not to direct their services.
0	Participants in State plan HCBS (or the participant's representative) are afforded the opportunity to direct some or all of their services, subject to criteria specified by the state. (Specify criteria):

2.	Description of Participant-Direction. (Provide an overview of the opportunities for participant-
	direction under the State plan HCBS, including: (a) the nature of the opportunities afforded; (b) how
	participants may take advantage of these opportunities; (c) the entities that support individuals who direct
	their services and the supports that they provide; and, (d) other relevant information about the approach
	to participant-direction):

3.	Limited Implementation of Participant-Direction.	(Participant direction	is a mode of service deliv	ery,
	not a Medicaid service, and so is not subject to statew	ideness requirements.	Select one):	

O	Participant direction is available in all geographic areas in which State plan HCBS are available.
0	Participant-direction is available only to individuals who reside in the following geographic areas or political subdivisions of the state. Individuals who reside in these areas may elect self-directed service delivery options offered by the state or may choose instead to receive comparable services through the benefit's standard service delivery methods that are in effect in all geographic areas in which State plan HCBS are available. (<i>Specify the areas of the state affected by this option</i>):

4. Participant-Directed Services. (Indicate the State plan HCBS that may be participant-directed, and the authority offered for each. Add lines as required):

Participant-Directed Service	Employer Authority	Budget Authority

5.	Financ	ial Manag	ement. (?	Select one)	:

0	Financial Management is not furnished. Standard Medicaid payment mechanisms are used.
0	Financial Management is furnished as a Medicaid administrative activity necessary for administration of the Medicaid State plan.

Based on the independent assessment required under 42 CFR §441.720, the individualized person-centered

- service plan is developed jointly with the individual, meets federal requirements at 42 CFR §441.725, and:
 - Specifies the State plan HCBS that the individual will be responsible for directing;
 - Identifies the methods by which the individual will plan, direct or control services, including whether the individual will exercise authority over the employment of service providers and/or authority over expenditures from the individualized budget;
 - Includes appropriate risk management techniques that explicitly recognize the roles and sharing of responsibilities in obtaining services in a self-directed manner and assures the appropriateness of this plan based upon the resources and support needs of the individual;
 - Describes the process for facilitating voluntary and involuntary transition from self-direction including any circumstances under which transition out of self-direction is involuntary. There must be state procedures to ensure the continuity of services during the transition from self-direction to other service delivery methods; and
 - Specifies the financial management supports to be provided.

7.	Voluntary and Involuntary Termination of Participant-Direction. (Describe how the state facilitates
	an individual's transition from participant-direction, and specify any circumstances when transition is
	involuntary):

Opportunities for Participant-Direction 8.

Discovery Evidence (Performance Measure)	Number and percent of incident reviews/investigations involving unexplained deaths, abuse, neglect, exploitation and unapproved restraints for recipients that were completed by the SMA. N: Number of incident reviews/investigations involving unexplained deaths, abuse, neglect, exploitation and unapproved restraints for recipients that were completed by the SMA.		
	D: Number of incidents reviewed.		
Discovery Activity	Records review 100% Review.

	Remediation Responsibilities (Who corrects, analyzes, and aggregates remediation activities; required timeframes for remediation)	SMA will remediate any issue or non-compliance within 30 days. All Serious Occurrence Reports (SOR) must be reported within 24 hours of discovery. All SORs are entered into the database called incident management, including follow-ups by HCCs. On a weekly basis or as needed, HCC supervisor reviews and approves follow-ups to ensure appropriate action is taken and the health and safety of the recipients have been addressed timely. Reports are generated upon request. Within 5 business days, LTSS 1915(i) HCC will conduct all necessary follow-ups to include plan of correction, report submitted to law enforcement, APS or Health Care Quality and Compliance (HCQC) if applicable. The incident management database monitors and tracks all incidents and generates reports upon request. The LTSS 1915(i) Supervisor will review SORs on a weekly or as needed basis.

System Improvement

(Describe the process for systems improvement as a result of aggregated discovery and remediation activities.)

1. Methods for Analyzing Data and Prioritizing Need for System Improvement

TN#: <u>22-0019</u> Approval Date: <u>October 24, 2022</u> Effective Date: <u>July 1, 2022</u>

On an ongoing basis, the LTSS 1915(i) and QA Units collaborate in a Quality Improvement Team to assess quality improvements needed to ensure required performance measures are met. Monthly Comprehensive QI meetings review performance measures below 86% to determine remediation and mitigation efforts using CMS guidelines. Such guidelines include, but are not limited to, identifying probable cause, development of interventions to improve performances, trend analysis on performance measures, etc. On an as needed basis, the QA Unit conducts educational trainings with the LTSS 1915(i) Unit regarding how to perform case file reviews. Provider reviews are entered into the ALis database to be tracked and deficiencies flagged. Depending on the deficiency, referrals are sent to an appropriate state agency for review and corrective action plan as appropriate.

Case Management records are in a case management database for case file reviews. Provider records are managed through the Medicaid Management Information System(MMIS) and reviewed by the SMA Fiscal Agent and Provider Enrollment Unit. Electronic submission of claims is also done through MMIS, which has a built-in edits to ensure claims are processed correctly and appropriately.

Serious Occurrence Reports (SORs) are tracked through a incident management database which is monitored and reviewed by the LTSS 1915(i) Supervisor.

2. Roles and Responsibilities

The SMA QA Unit and LTSS 1915(i) Unit complete reviews of the performance measures outlined above..

LTSS 1915(i) and QA Unit participate in monthly and quarterly comprehensive QI meetings.

3. Frequency

State: Nevada

QI Team meet monthly to discuss remediations on deficiencies found during the reviews. QI Team also meet quarterly to review remediations and discuss system improvement to determine changes as needed to the process. The QIS is evaluated in its entirety prior to the 5-year renewal.

4. Method for Evaluating Effectiveness of System Changes

Through QI Team meetings, trend analysis is conducted on remediation efforts to determine effectiveness of such efforts and those performance measures needing continual improvement. As potential trends develop, specific activities will be identified that may need changing and an evaluation is conducted to remedy the issue.
