September 22, 2022a

To: Nevada Medicaid Boarda

I am Teodoro Agtay and I practice Neurology in the Las Vegas Valley. I treat migraines which are the most common neurological disorder.a

I am requesting continued access to Emgality for Medicaid patients.

Emgality has a consistent safety profile and efficacy for migraine patients compared to generic therapies.a

Please continue to make Emgality an available option for the Medicaid population.a

Sincerely,

Teodoro Agtay, APRN-C
Neurology Nurse Practitioner
