## 1. Executive Summary for Health Plan of Nevada

The Balanced Budget Act of 1997 (BBA), Public Law 105-33, requires that states contract with an external quality review organization (EQRO) to conduct an annual evaluation of their managed care organizations (MCOs) to determine the MCOs’ compliance with federal and the State’s managed care standards. The Nevada Health and Human Services (DHHS), Division of Health Care Financing and Policy (DHCFP) contracted with Health Services Advisory Group (HSAG) to conduct external quality review (EQR) services for the Nevada Medicaid and Nevada Check Up, Nevada’s Child Health Insurance Program (CHIP) managed care program.

The purpose of the fiscal year (FY) 2014–2015 Internal Quality Assurance Program (IQAP) On-Site Review of Compliance was to determine **Health Plan of Nevada (HPN)**’s compliance with federal and the State’s managed care standards. For the FY 2014–2015 IQAP On-Site Review of Compliance, HSAG reviewed **HPN**’s managed care and quality program activities that occurred during FY 2013–2014. HSAG reviewed **HPN**’s compliance with the following:

- ◆ State and federal managed care requirements, which were categorized into 14 contract standards, referred to as ***IQAP Standards***
- ◆ Outreach and educational materials associated with member rights and responsibilities, member handbook, medical record standards, and the provider manual, referred to as ***Checklists***
- ◆ Operational compliance for credentialing, recredentialing, service denial, grievances, and appeal processing activities, referred to as ***File Reviews***

**HPN** had a composite score of 98.6 percent for all elements evaluated in the FY 2014-2015 IQAP Compliance Review. With a couple of exceptions noted in this report, **HPN** demonstrated strong compliance with the federal and State requirements contained in its managed care contract. Figure 1 summarizes the overall ratings for **HPN**’s IQAP Standards, Checklists, and File Reviews for the FY 2014-2015 IQAP Compliance Review.

Figure 1 presents the combined overall rating for **HPN**.

Figure 1 Overall Rating for HPN	
<b>IQAP Standards Score</b>	For the IQAP Standards, <b>HPN</b> received a total score of <b>97.3%</b> .
<b>Checklist Score</b>	For the Checklist review, <b>HPN</b> received a total score of <b>98.7%</b> .
<b>File Review Score</b>	For the File Review, <b>HPN</b> received a total score of <b>99.1%</b> .
<b>Overall Score</b>	<b>HPN</b> received an overall rating of <b>98.6%</b> for all elements reviewed in the FY 2014–2015 IQAP Compliance Review.

## 2. Background

### for Health Plan of Nevada

#### Overview

The Balanced Budget Act of 1997 (BBA), Public Law 105-33, requires that states contract with an external quality review organization (EQRO) to conduct an annual evaluation of their managed care organizations (MCOs) to determine the MCOs' compliance with federal and the State's managed care standards. The U.S. Department of Health and Human Services (DHHS), Centers for Medicare & Medicaid Services (CMS) regulates requirements and procedures for the external quality review (EQR). The Nevada Health and Human Services (DHHS), Division of Health Care Policy and Financing (DHCFP) contracted with Health Services Advisory Group (HSAG) to conduct EQR services for the Nevada Medicaid and Nevada Check Up, Nevada's Child Health Insurance Program (CHIP), managed care program.

According to the 42nd Code of Federal Regulations (CFR) 438.358, which describes the activities related to external quality reviews, a state or its EQRO must conduct a review within a three-year period to determine a Medicaid MCO's compliance with federal standards and standards established by the state for access to care, structure and operations, and quality measurement and improvement. In accordance with 42 CFR 438.204(g), these standards must be as stringent as the federal Medicaid managed care standards described in 42 CFR 438. To meet this requirement, DHCFP contracted with HSAG to perform a comprehensive review of compliance with State and federal standards for **Health Plan of Nevada (HPN)**. According to the federal requirements, the quality of health care delivered to Medicaid recipients enrolled in MCOs must be tracked, analyzed, and reported annually. Oversight activities of the EQRO focus on evaluating quality outcomes and the timeliness of, and access to, care and services provided to Medicaid and Nevada Check Up beneficiaries.

#### Purpose of the Review

The purpose of the fiscal year (FY) 2014–2015 Internal Quality Assurance Program (IQAP)<sup>1-1</sup> On-Site Review of Compliance was to determine **HPN's** compliance with federal and the State's managed care standards. In addition, HSAG conducted a review of individual files for the areas of credentialing, recredentialing, grievances, appeals, denials, and case management services to evaluate **HPN's** implementation of the standards. Checklist reviews validated that the managed care organization (MCO) informed members of their rights and responsibilities and other required information in the member handbook. Checklists also confirmed that **HPN** apprised providers of the medical records standards and additional required information in the provider manual. For the FY 2014–2015 IQAP On-Site Review of Compliance, HSAG reviewed **HPN's** quality program activities that occurred during the review period, which was July 1, 2013–June 30, 2014 (i.e., FY 2013–2014).

<sup>1-1</sup> The internal quality assurance program (IQAP) is a strategy consisting of systematic quality improvement activities to ensure an ongoing quality assessment and performance improvement (QAPI) program for services furnished to recipients.

### 3. Methodology

#### for Health Plan of Nevada

## Compliance Review Process

The IQAP standards were derived from the requirements as set forth in the Department of Human Services, Division of Health Care Financing and Policy Request for Proposal No. 1988 for Managed Care, and all attachments and amendments in effect during FY 2013–2014. HSAG followed the guidelines set forth in CMS’ *EQR Protocol 1: Assessment of Compliance with Medicaid Managed Care Regulations: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012<sup>1-2</sup> to create the process, tools, and interview questions used for the FY 2014–2015 Compliance Review.

### *Methods for Data Collection*

Before beginning the compliance review, HSAG developed data collection tools to document the review. The requirements in the tools were selected based on applicable federal and State regulations and laws and on the requirements set forth in the contract between DHCFP and the MCOs, as they related to the scope of the review. HSAG conducted pre-on-site, on-site, and post-on-site review activities.

#### **Pre-on-site review activities** included:

- ◆ Developing the compliance review tools.
- ◆ Preparing and forwarding to each MCO a customized desk review form, instructions for completing the form, and instructions for submitting the requested documentation to HSAG for its desk review.
- ◆ Scheduling the on-site reviews.
- ◆ Developing the agenda for the 2-day on-site review.
- ◆ Providing the detailed agenda and the data collection (compliance review) tool to each MCO to facilitate its preparation for HSAG’s review.
- ◆ Conducting a pre-on-site desk review of documents. HSAG conducted a desk review of key documents and other information obtained from DHCFP, and of documents each MCO submitted to HSAG. The desk review enabled HSAG reviewers to increase their knowledge and understanding of each MCO’s operations, identify areas needing clarification, and begin compiling information before the on-site review.
- ◆ Generating a list of 10 sample cases plus an oversample of 5 cases for each of the following file reviews: grievances, appeals, denials, credentialing, recredentialing, and case management.

#### **On-site review activities** included:

<sup>1-2</sup> Department of Health and Human Services, Centers for Medicare & Medicaid Services. *EQR Protocol 1: Assessment of Compliance with Medicaid Managed Care Regulations: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012. Available at: <http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Quality-of-Care/Quality-of-Care-External-Quality-Review.html>.  
FY 2014-2015 IQAP Compliance Review for Health Plan of Nevada  
State of Nevada

- ◆ An opening conference, with introductions and a review of the agenda and logistics for HSAG's on-site review activities.
- ◆ A review of the documents HSAG requested that each MCO have available on-site.
- ◆ A review of the member cases HSAG requested from each MCO.
- ◆ A review of the data systems each MCO used in its operations, which includes but is not limited to care management, grievance and appeal tracking, quality improvement tracking, and quality measure reporting.
- ◆ Interviews conducted with each MCO's key administrative and program staff members.
- ◆ A closing conference during which HSAG reviewers summarized their general findings.

HSAG documented its findings in the data collection (compliance review) tool shown in Appendix A, which now serves as a comprehensive record of HSAG's findings, performance scores assigned to each requirement, and the actions required to bring the MCOs' performance into compliance for those requirements that HSAG assessed as less than fully compliant. The results for the IQAP standards are noted in Table 2 of this report. The results for checklists and file reviews are summarized in Table 3 and Table 4, respectively, in the pages that follow.

**Post-on-site review activities:** HSAG reviewers aggregated findings to produce this comprehensive compliance review report. In addition, HSAG created the Corrective Action Plan (CAP) template, shown in Appendix B, which contains the findings and recommendations for each element scored *Partially Met* or *Not Met*. When submitting its CAP to DHCFP, **HPN** must use this template to propose its plan to bring all elements scored *Partially Met* or *Not Met* into compliance with the applicable standard(s). **HPN** must submit its CAP to DHCFP **within 21 days of receiving this report**.

### *Description of Data Obtained*

To assess the MCOs' compliance with federal regulations, State rules, and contract requirements, HSAG obtained information from a wide range of written documents produced by the MCOs, including, but not limited to, the following:

- ◆ Committee meeting agendas, minutes, and handouts.
- ◆ Written policies and procedures.
- ◆ The provider manual and other MCO communication to providers/subcontractors.
- ◆ The member handbook and other written informational materials.
- ◆ Narrative and/or data reports across a broad range of performance and content areas.
- ◆ Written plans that guide specific operational areas, which included, but were not limited to: utilization management, quality management, care management and coordination, health management and service authorization, credentialing, cultural competency, delegation and contracting, and member education.
- ◆ MCO-maintained files for member grievances and appeals, denials of services, case management, and practitioner credentialing and recredentialing.
- ◆ MCO questionnaire.

HSAG obtained additional information for the compliance review through interaction, discussions, and interviews with the MCOs’ key staff members during the on-site review.

*IQAP Standards, Checklists, and Files Reviewed*

Table 1 lists the standards reviewed and associated checklists or files reviewed as evidence of compliance with internal policies.

Table 1: IQAP Standards, Checklists, and File Reviews		
IQAP Standard Number	IQAP Standard Name	Number of Elements
I	Internal Quality Assurance Program	54
II	Credentialing and Recredentialing	16
III	Member Rights and Responsibilities	14
IV	Member Information	14
V	Availability and Accessibility of Services	28
VI	Continuity and Coordination of Care	16
VII	Grievances and Appeals	35
VIII	Subcontracts and Delegation	13
IX	Cultural Competency Program	16
X	Coverage and Authorization of Services	23
XI	Provider Dispute and Complaint Resolution	9
XII	Confidentiality and Record Keeping	9
XIII	Provider Information	3
XIV	Enrollment/Disenrollment	11
Total Number of IQAP Elements		261
Associated IQAP Standard #	Checklist Name	Number of Elements
III	Member Rights and Responsibilities	9
IV	Member Handbook	34
XII	Medical Record Standards	26
XIII	Provider Manual	10
Total Number of Checklist Elements		79
Associated IQAP Standard #	File Review Name	Number of Elements
II	Initial Credentialing	162
II	Recredentialing	207
VII	Grievances	30
VII	Appeals	39
VII	Denials	30
VI	Case Management	177
Total Number of File Review Elements		645

## Data Aggregation and Analysis

### IQAP Standards

HSAG used scores of *Met*, *Partially Met*, and *Not Met* to indicate the degree to which the MCO's performance complied with the requirements. A designation of *NA* was used when a requirement was not applicable to an MCO during the period covered by HSAG's review. This scoring methodology is consistent with CMS' final protocol, *EQR Protocol 1: Assessment of Compliance with Medicaid Managed Care Regulations: A Mandatory Protocol for External Quality Review (EQR)*, Version 2.0, September 2012. The protocol describes the scoring as follows:

- ◆ **Met** indicates full compliance defined as *both* of the following:
  - All documentation listed under a regulatory provision, or component thereof, was present.
  - Staff members were able to provide responses to reviewers that were consistent with each other and with the documentation.
- ◆ **Partially Met** indicates partial compliance defined as *either* of the following:
  - There was compliance with all documentation requirements, but staff members were unable to consistently articulate processes during interviews.
  - Staff members were able to describe and verify the existence of processes during the interview, but documentation was incomplete or inconsistent with practice.
- ◆ **Not Met** indicates noncompliance defined as *either* of the following:
  - No documentation was present and staff members had little or no knowledge of processes or issues addressed by the regulatory provisions.
  - For those provisions with multiple components, key components of the provision could be identified and any findings of Not Met or Partially Met would result in an overall finding of noncompliance, regardless of the findings noted for the remaining components.

From the scores it assigned for each of the requirements, HSAG calculated a total percentage-of-compliance score for each of the 14 IQAP standards and an overall percentage-of-compliance score across the 14 IQAP standards. HSAG calculated the total score for each of the standards by adding the weighted score for each requirement in the standard receiving a score of *Met* (value: 1 point), *Partially Met* (value: 0.5 point), and *Not Met* (0 points) and dividing the summed weighted scores by the total number of applicable requirements for that standard.

HSAG determined the overall percentage-of-compliance score across the areas of review by following the same method used to calculate the scores for each standard (i.e., by summing the weighted values of the scores and dividing the result by the total number of applicable requirements).

### Checklists

For the Checklists reviewed, HSAG surveyors scored each applicable element within the checklists as either *Yes*, the element was contained within the associated document, or *No*, the element was not contained within the document. Elements that were not applicable to the MCO were scored as *Not Applicable* and were not included in the denominator of the total score. To obtain a percentage

score, HSAG added the total number of elements that received a *Yes* score and divided it by the total number of applicable elements.

### File Reviews

HSAG conducted file reviews of the MCO's records for credentialing, recredentialing, grievances, appeals, denials, and case management to verify that the MCO has put into practice what the MCO documented in its policy. HSAG randomly selected 10 files of each type of record from the full universe of records provided by the MCO. The file reviews were not intended to be a statistically significant representation of all of the MCO's files. Rather, the file review highlighted when practices described in policy were not followed by MCO staff. Based on the results of the file reviews, the MCO must determine if any areas found to be out of compliance are the result of an anomaly or if a more serious breach in policy occurred.

For the file reviews, HSAG surveyors scored each applicable element within the file review tool as either *Yes*, the element was contained within the file, or *No*, the element was not contained in the file. Elements that were not applicable to the MCO were scored as *Not Applicable* and were not included in the denominator of the total score. To obtain a percentage score, HSAG added the total number of elements that received a *Yes* score and divided it by the total number of applicable elements.

### Aggregating the Scores

To draw conclusions about the quality and timeliness of, and access to, care and services the MCOs provided to members, HSAG aggregated and analyzed the data resulting from its desk and on-site review activities. The data that HSAG aggregated and analyzed included:

- ◆ Documented findings describing the MCOs' performance in complying with each of the IQAP standard requirements.
- ◆ Scores assigned to the MCOs' performance for each requirement.
- ◆ The total percentage-of-compliance score calculated for each of the 14 IQAP standards.
- ◆ The overall percentage-of-compliance score calculated across the 14 IQAP standards.
- ◆ The overall percentage-of-compliance score calculated for each of the file reviews.
- ◆ The overall percentage-of-compliance score calculated for each of the checklists.
- ◆ Documentation of the actions required to bring performance into compliance with the requirements for which HSAG assigned a score of *Partially Met* or *Not Met*.

Based on the results of the data aggregation and analysis, HSAG prepared and forwarded draft reports to DHCFP staff their review and comment prior to issuing final reports.

## 4. IQAP Findings

for Health Plan of Nevada

### Evaluation Ratings for HPN

From a review of documents, observations, and interviews with key health plan staff, and file reviews conducted during the on-site evaluation, the surveyors assigned **HPN** a score for each element and an aggregate score for each standard. Further, HSAG surveyors scored each element within the checklists and file reviews.

Table 2 presents **HPN**'s scores for the IQAP standards. Details regarding **HPN**'s compliance with the 14 IQAP standards, including the score **HPN** received for each of the elements in each standard, can be found in Appendix A, IQAP FY 2014–2015 Compliance Review Tool for **HPN**.

**Table 2 Summary of Scores for the IQAP Standards**

IQAP Standard #	Standard Name	Total Elements	Total Applicable Elements	Number of Elements				Total Compliance Score
				M	PM	NM	NA	
<b>I</b>	Internal Quality Assurance Program	<b>54</b>	54	53	1	0	0	<b>99.1%</b>
<b>II</b>	Credentialing and Recredentialing	<b>16</b>	15	15	0	0	1	<b>100.0%</b>
<b>III</b>	Member Rights and Responsibilities	<b>14</b>	14	13	1	0	0	<b>96.4%</b>
<b>IV</b>	Member Information	<b>14</b>	14	14	0	0	0	<b>100.0%</b>
<b>V</b>	Availability and Accessibility of Services	<b>28</b>	28	27	1	0	0	<b>98.2%</b>
<b>VI</b>	Continuity and Coordination of Care	<b>16</b>	16	16	0	0	0	<b>100.0%</b>
<b>VII</b>	Grievances and Appeals	<b>35</b>	35	31	3	1	0	<b>92.9%</b>
<b>VIII</b>	Subcontracts and Delegation	<b>13</b>	12	10	2	0	1	<b>91.7%</b>
<b>IX</b>	Cultural Competency Program	<b>16</b>	16	14	2	0	0	<b>93.8%</b>
<b>X</b>	Coverage and Authorization of Services	<b>23</b>	23	23	0	0	0	<b>100.0%</b>
<b>XI</b>	Provider Dispute and Complaint Resolution	<b>9</b>	9	9	0	0	0	<b>100.0%</b>
<b>XII</b>	Confidentiality and Record Keeping	<b>9</b>	9	8	1	0	0	<b>94.4%</b>
<b>XIII</b>	Provider Information	<b>3</b>	3	3	0	0	0	<b>100.0%</b>
<b>XIV</b>	Enrollment/Disenrollment	<b>11</b>	11	10	1	0	0	<b>95.5%</b>
<b>Total Compliance Score</b>		<b>261</b>	<b>259</b>	<b>246</b>	<b>12</b>	<b>1</b>	<b>2</b>	<b>97.3%</b>

*M=Met, PM=Partially Met, NM=Not Met, NA=Not Applicable*

**Total Elements:** The total number of elements in each standard.

**Total Applicable Elements:** The total number of elements within each standard minus any elements that were *NA*. This represents the denominator.

**Total Compliance Score:** The overall percentages were obtained by adding the number of elements that received a score of *Met* (1 point) to the weighted number that received a score of *Partially Met* (0.5 point), then dividing this total by the total number of applicable elements.

A review of the IQAP standards show how well an MCO has interpreted the required elements of the managed care contract and developed the necessary policies, procedures, and plans to carry out the required functions of the MCO. Of the 259 applicable elements, **HPN** received a *Met* for 246 elements, a *Partially Met* for 12 elements, and a *Not Met* for 1 element. The findings suggest that,

with a few exceptions, **HPN** developed the necessary policies, procedures, and plans to operationalize the required elements of its contract and demonstrate its compliance with the contract. Further, interviews with **HPN** staff showed that staff were knowledgeable about contract requirements and the procedures the MCO employed to meet its contractual requirements.

Table 3 presents the scores for the checklists. HSAG reviewed all requirements related to Member Rights and Responsibilities, Member Handbook, Medical Record Standards, and Provider Manual to verify that each was in compliance with State and federal requirements. HSAG scored the elements required for each of these areas via checklists. Each checklist review area was scored based on the total number of **HPN**'s compliant elements divided by the total number of applicable elements for each of the four areas reviewed.

Table 3 Summary of Scores for the Checklists				
Associated IQAP Standard #	Description of File Review	# of Applicable Elements	# of Compliant Elements	Score (% of Compliant Elements)
III	Member Rights and Responsibilities	9	9	100%
IV	Member Handbook	34	33	97.1%
XII	Medical Record Standards	26	26	100%
XIII	Provider Manual	10	10	100%
<b>Checklist Totals</b>		<b>79</b>	<b>78</b>	<b>98.7%</b>

The results generated by the checklists serve as another indicator of the MCO's development of outreach information and ensure that the information contains all contractually required elements. Of the 79 elements reviewed for the checklists, **HPN** received a score of *Met* for all 78 elements. The findings suggest that **HPN** had strong compliance with each of the areas evaluated by the checklists and **HPN** developed the necessary manuals, standards, and policies according to contract requirements. **HPN**'s member handbook did not contain the provision that if a member loses Medicaid or Check Up eligibility, the member will be auto-assigned once eligibility is restored.

For the file reviews, each file review area was scored based on the total number of **HPN**'s compliant elements divided by the total number of applicable elements for each individual file reviewed. Table 4 presents **HPN**'s scores for the file reviews.

Table 4 Summary of Scores for the File Reviews					
Associated IQAP Standard #	Description of File Review	# of Records Reviewed	# of Applicable Elements	# of Compliant Elements	Score (% of Compliant Elements)
II	Initial Credentialing	10	162	162	100%
II	Recredentialing	10	207	207	100%
VII	Grievances	10	30	29	96.7%
VII	Appeals	10	39	35	89.7%
VII	Denials	10	30	30	100%
VI	Case Management	10	177	176	99.4%
<b>File Review Totals</b>		<b>60</b>	<b>645</b>	<b>639</b>	<b>99.1%</b>

File reviews are important to the overall findings of the IQAP review because the results show how well an MCO operationalized and followed the policies it developed for the required elements of the contract. Of the 645 applicable elements reviewed for the file reviews, **HPN** received a score of *Met* for 639 of the elements for a total of 99.1 percent. **HPN** scored 100 percent compliant for three of the areas reviewed, Initial Credentialing, Recredentialing, and Denials. **HPN** scored 99.4 percent for Case Management and 96.7 percent for the Grievance record reviews. These results suggest that **HPN** followed the policies it developed to operationalize the required elements of its contract.

The greatest opportunity for improvement was with the Appeals record review wherein **HPN** scored 89.7 percent. The Appeals record review showed that 8 of 10 appeals were acknowledged within the required timeframe; 6 of 6 standard appeals were resolved within the required timeframe; 3 of 4 expedited appeals were resolved with the proper notice sent; and there was 1 expedited appeal that was not resolved within the required timeframe and no extension notice was sent to the member.

## 5. Conclusions and Recommendations

*for Health Plan of Nevada*

### Conclusions and Recommendations

Figure 2 presents overall ratings for **HPN** for IQAP Standards, Checklists, and File Reviews, as well as the overall composite score.

Figure 2 Overall Rating for HPN	
<b>IQAP Standards Score</b>	For the IQAP Standards, <b>HPN</b> received a total score of <b>97.3%</b> .
<b>Checklist Score</b>	For the Checklist review, <b>HPN</b> received a total score of <b>98.7%</b> .
<b>File Review Score</b>	For the File Review, <b>HPN</b> received a total score of <b>99.1%</b> .
<b>Overall Score</b>	<b>HPN</b> received an overall rating of <b>98.6%</b> for all elements reviewed in the FY 2014–2015 IQAP Compliance Review.

**HPN**'s overall results for the review of the IQAP standards in the FY 2014–2015 on-site review was 97.3 percent. In addition, **HPN** received a score of 99.1 percent for the file review, a score of 98.7 percent for the checklist review, and an overall composite score of 98.6 percent. The overall results demonstrated that, with a few exceptions, **HPN** had strong adherence to State and federal standards required by its contract with DHCFP. **HPN** developed the necessary policies, procedures, and plans to carry out the required functions of the contract and the checklists and file review results demonstrated that **HPN** staff appropriately operationalized the elements described in its policies, procedures, and plans, with a few exceptions described below.

#### Compliance with IQAP Standards

Of the 14 standard areas reviewed, **HPN** achieved 100 percent compliance on 6 standards, demonstrating performance strengths and adherence to all requirements measured in the areas of Credentialing and Recredentialing, Member Information, Continuity and Coordination of Care, Coverage and Authorization of Services, Provider Dispute and Complaint Resolution, and Provider Information.

The following standards achieved at least 91 percent or higher for all elements contained in the standards: Internal Quality Assurance Program, Member Rights and Responsibilities, Availability and Accessibility of Services, Grievances and Appeals, Subcontracts and Delegation, Cultural Competency Program, Confidentiality and Record Keeping, and Enrollment/Disenrollment.

- ◆ HSAG recommends that **HPN** prioritizes improvement efforts to address *Partially Met* and *Not Met* elements that were found in the standards that did not achieve 100 percent compliance with all elements. These elements must be addressed in **HPN**'s Corrective Action Plan (Appendix B), which is described in the Corrective Action Plan section of this report.

## Compliance with File Review

**HPN** achieved 100 percent compliance on the Initial Credentialing and Recredentialing file reviews, which demonstrated the MCO's strong compliance with the credentialing and recredentialing standards. **HPN** also received 100 percent compliance for all required elements related to the file review for service Denials. All files reviewed demonstrated **HPN**'s compliance with the standards related to notices of decision when the MCO denied a service.

**HPN** received a 89.7 percent score for the Appeal file review. The Appeal file review showed that 8 of 10 appeals were acknowledged within the required timeframe; 6 of 6 standard appeals were resolved within the required timeframe; 3 of 4 expedited appeals were resolved with the proper notice sent; and for the 1 expedited appeal which was not resolved within the required timeframe, no extension notice was sent to the member. The Appeal file review did show that all appeal decisions were made by staff with the appropriate clinical expertise and who were not involved in the original decision to deny services.

- ◆ HSAG recommends that **HPN** determine if areas found to be out of compliance are the result of an anomaly or if a more serious breach in policy occurred. Further, **HPN** must acknowledge appeals within the timeframes specified by its policy. For expedited appeals, the MCO must ensure that a notice of extension is sent to members when the MCO requires more time to resolve the expedited appeal and that the expedited appeal is resolved within the required timeframes specified by the MCO's policy.

**HPN** received a 96.7 percent score for Grievance file review. The Grievance file review showed that 9 of 10 grievances were acknowledged within the required timeframe; all grievances were resolved within the required timeframe; and all grievances were reviewed and decisions were made by staff with appropriate clinical expertise.

- ◆ HSAG recommends that **HPN** determine if areas found to be out of compliance are the result of an anomaly or if a more serious breach in policy occurred. Further, **HPN** must ensure that grievances are acknowledged within the timeframes specified by its policy.

**HPN** achieved 99.4 percent compliance on the case management file review. **HPN** had strong adherence to the contractual requirements for identification and performing and documenting a comprehensive health risk assessment. In one file, the assessment was performed outside of the timeframe. All of the files reviewed showed that **HPN** had developed and documented a comprehensive case management plan, which included evidence that disease-specific health education materials were sent to the member. **HPN** met all of the requirements evaluated for reassessment of the care management plan. Further, the **HPN** case management files showed that **HPN** case managers evaluated members' barriers to achieve members' goals and worked with members to overcome those barriers.

- ◆ HSAG recommends that **HPN** complete comprehensive assessments of members within 90 days of enrollment.

## Compliance with Checklists

**HPN** achieved 98.7 percent compliance for the checklist review, wherein **HPN** received a *Not Met* for one element related to the member handbook. Overall, **HPN**'s results for checklists

demonstrated strong compliance with the requirements for information included in the member rights and responsibilities, the member handbook, medical record standards, and the provider manual.

## 6. Corrective Action Plan for Health Plan of Nevada

### Corrective Action Plan

Appendix B contains the Corrective Action Plan (CAP) template HSAG prepared for **HPN** to use in preparing its CAP to be submitted to DHCFP. The template lists each of the elements for which HSAG assigned a score of *Partially Met* or *Not Met*, and the associated findings and recommendations made to bring the organization's performance into full compliance with the requirement. **HPN** must use this template to submit its corrective action plan to bring any elements scored *Partially Met* or *Not Met* into compliance with the applicable standard(s). **HPN's** CAP must be submitted to DHCFP **no later than 21 calendar days after receipt of this report**.

The following criteria will be used to evaluate the sufficiency of the CAP:

- ◆ The completeness of the CAP document in addressing each required action and assigning a responsible individual, a timeline/completion date, and specific actions/interventions that the organization will implement to bring the element into compliance.
- ◆ The degree to which the planned activities/interventions meet the intent of the requirement.
- ◆ The degree to which the planned interventions are anticipated to bring the organization into compliance with the requirement.
- ◆ The appropriateness of the timeline for correcting the deficiency.

Any corrective action plans that do not meet the above criteria will require resubmission by the organization until approved by DHCFP. Implementation of the CAP may begin once approval is received. The DHCFP maintains ultimate authority for approving or disapproving any corrective action strategies proposed by **HPN** in its submitted CAP.

	<p>HPN’s evaluation of all of the quality activities that occurred for the Medicaid and Nevada Check Up population, which included the goals and objectives outlined in the DHCFP State Quality Strategy and the HEDIS and PIP performance measures that are required as part of the external quality review activities. Items a-e in this element were contained in the QI evaluations for both 2013 and 2014. For item f, HPN staff reported that family planning visits were monitored through the HEDIS measure, <i>Postpartum Care</i>. The 2014 HEDIS administrative and hybrid measure specifications for <i>Postpartum Care</i> did not specifically require contraceptive counseling to be included in the numerator specifications for the measure, <i>Postpartum Care</i>. Further, the <i>Postpartum Care</i> HEDIS measure only tracked those women who had a live birth between November 6 of the year prior to the measurement year and November 5 of the measurement year. The measure did not include women who did not have a live birth within the same period of time. For item g, HPN staff stated that hearing and vision screening services were part of the EPSDT program; however, the QI evaluations for 2013 and 2014 did not include an evaluation of EPSDT services that were provided for the year. HPN staff stated that the EPSDT service evaluations were included in prior years’ QI evaluations and the information will be included in the 2015 evaluation.</p> <p><b>Recommendations:</b> The MCO must ensure that the following are included in its annual quality evaluations: pregnancy prevention and/or family planning and hearing and vision screening and services for Medicaid members less than twenty-one (21) years of age.</p>		
<p><i>DHCFP Contract Section 4.8.6.2 (B)</i></p>	<p>18. 	physician, or other health professional or provider.		
	<p><b>Findings:</b> The HPN 2013 QI Program Description included a section that delineated the corrective action procedures. To identify issues that may involve quality concerns, the plan reviewed adverse medical and dental outcomes, monitored for trends, reviewed high-volume/high-risk diagnoses and procedures, and used peer review to evaluate clinical processes of care and member complaints. HPN used peer review, the dental director, and the medical director to conduct investigations into potential quality issues. The corrective action section of the QI Description detailed the need to identify a person responsible for ensuring the corrective action is completed within the required timeframe. The description also contained the process for monthly monitoring and the process for assessing the effectiveness of the corrective action. The Quality Management Department evaluated the effectiveness of the action. The medical director or the Peer Review Committee made the final decisions concerning the appropriateness of corrective actions for medical quality of care. The medical director or dental director presented the case to the Peer Review Committee if the corrective action did not appear to be effective. The Peer Review Committee decided if the corrective action should be modified or terminated. Adverse actions taken against a provider could be appealed as defined in the Provider Appeal Process policy. Actions that could occur included suspending, limiting, or terminating the practitioner’s participation in the HPN network.</p> <p><b>Recommendations:</b> None.</p>

	<p><b>Findings:</b> The 2013 and 2014 QI Program Descriptions contained information concerning the delegation of quality improvement activities from the Board of Directors to the HPN QI Committee. The Board of Directors retained the responsibility of directing the operational quality program and taking action as appropriate based on the review of reports and updates. The HPN Board of Directors delegated the implementation and oversight of the HPN Quality Program to the QI Committee. The responsibilities of the QI Committee included establishing quality improvement goals, monitoring quality indicators, monitoring and promoting access and availability, monitoring over- and underutilization of services, monitoring and reporting of quality improvement studies and activities, analyzing results of quality improvement studies, approving quality improvement policies and procedures, and ensuring appropriate oversight of delegated functions. A review of the QI Committee minutes validated that the meeting included discussions concerning quality activities. The minutes also contained evidence that the committee discussed results of studies and initiatives to improve results for the coming year.</p> <p><b>Recommendations:</b> None.</p>		
DHCFP Contract Section 4.8.8.5	39. QA Committee: Membership  The QA committee or other structure has membership. 	<p><b>Findings:</b> The document, 2013 Clinical Practice and Prevention Health Guidelines, provided evidence of HPN’s policy to promote the development, revision, dissemination, and use of clinical practice and preventive health guidelines to help practitioners and members make decisions about appropriate health care for clinical circumstances. The 2013 and 2014 QI Program Descriptions detailed the structure and responsibilities of the QIC. HPN structured the QIC to include membership from every area in the health plan: the chief nursing officer; the medical directors from Southwest Medical Associates (e.g., a sister multi-specialty medical group); the Vice President of Healthcare Quality and Education (medical director); health care informatics; the executive director of Behavioral Healthcare Options (e.g., a sister behavioral health care organization); network development and contracts; provider services; Medicaid operations; pharmacy; member services; customer response and resolution; quality improvement; provider services; practitioners from participating provider groups; and multiple individuals from utilization management. QIC meeting minutes provided evidence of the discussions that occurred at the QIC, which included a review of activities by subcommittees, such as the Customer Centric Task Force. The QIC meeting minutes and other documents, such as the NorthernChoice and SmartChoice newsletters, incentive mailers, and urgent care clingz (cling materials for members that contain information on available health benefits and incentives) provided evidence that information on health benefit incentives and changes were disseminated to committees and HPN members.</p> <p><b>Recommendations:</b> None.</p>

<p>42 CFR 438.6(h)(2)(i)            DHCFP Contract Section 4.4.1.2</p>	<p>1. Advance Directives</p> <p>Pursuant to Section 1902(w)(1) of the Social Security Act, the Patients' Self-Determination Act, including advance directives, the MCO has written policies and procedures with respect to all emancipated adult enrollees receiving medical care through the MCO.</p>	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• 1278 Nevada Check Up March 2013 Revision eng and span pg 21</li> <li>• 1936 Jun 2014 revision_smartchoice ENGLISH SPANISH pg 22</li> <li>• 1936 Mar 2013 revision_smartchoice eng and span pg 22</li> <li>• WRHCO 286 Medicaid Advance Directive</li> </ul> <p><b>Description of Process:</b> N/A</p>	<p><input checked="" type="checkbox"/> Met  <input type="checkbox"/> Partially Met  <input type="checkbox"/> Not Met  <input type="checkbox"/> N/A</p>
<p><b>Findings:</b> HPN's policy, Medicaid Advance Directive, outlined rights of adult members. The policy established that adult members had the right to refuse treatment and to formulate advance directives and that the health plan would not make treatment decisions or discriminate on the basis of whether an individual had executed an advance directive. The policy stated that if a provider could not implement an advance directive based on conscience, he or she must provide a statement to the member and the health plan would assist the member to find another provider. Providers were educated on the different types of advance directives in the Provider Summary Guide. The guide also included a Nevada-specific form for a durable power of attorney for health care decisions. The guide required providers to inquire if their patients had an executed advance directive and to note in the medical record whether there was an executed document or not. The health plan reviewed for the presence of this information during annual medical record audits.</p> <p><b>Recommendations:</b> None.</p>

<p><b>Findings:</b> HPN conducted a variety of survey activities of its population groups in 2013. These included annual CAHPS surveys of adult and child Medicaid and the Nevada Check Up members, as well as annual surveys of individuals in the Health Management and Complex Case Management programs. Additionally, HPN conducted quarterly surveys of individuals in the Care For Me Program and callers to the Telephone Advice Nurse. The health plan initiated a new quarterly survey of the individuals who had interactions with the social work program. The health plan's 2013 QI Program Evaluation provided the analysis of member satisfaction, complaint, and appeals data. The report documented that the health plan reviewed all quality of care complaints and disenrollment request reasons.</p>

	has the effect of discrimination on the basis of race, color or national origin.	N/A	
	<p><b>Findings:</b> HPN's processes ensured that it did not discriminate against potential enrollees. The health plan did not deny enrollment or discriminate against any potential Medicaid or Nevada Check Up individual. The health plan's Enrollment and Disenrollment Requirements and Limitations policy described that the DHCFP's Fiscal Agent managed all enrollment files. HPN's Information Technology Department retrieved the enrollment files from the Fiscal Agent's file transfer site. Enrollment records that successfully passed the HIPAA-compliant editing were auto-loaded into the Facets system as new, terminated or re-enrollment records as of the effective dates on the file. The HPN Provider Summary Guide prohibited providers from discriminating against any patient on the basis that the patient was a member of Health Plan of Nevada or on the basis of race, ethnicity, national origin, religion, sex, age, mental or physical disability, medical condition, sexual orientation, claims experience, medical history, evidence of insurability, disability, genetic information, or source of payment. Providers were required to maintain policies and procedures to demonstrate that they did not discriminate in the treatment services provided and that they accepted into treatment any members in need of the services they offered.</p> <p><b>Recommendations:</b> None</p>

<p>42 CFR 438.10 (e)(1)(i) DHCFP Contract Section 4.4.1</p>	<p>1. Written Information about Access to Services</p> <p>The MCO has written information about its services and access to services available upon request to members and potential members. The written information is available in the prevalent non-English languages, as determined by the State, in its particular geographic service area.</p>	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• 1278 Jun 2014 NV Check Up Revision (2)</li> <li>• 1278 Jun 2014 revision Nv Check Up span</li> <li>• 1936 Jun 2014 revision_smartchoice ENGLISH SPANISH</li> <li>• WRHCO 273 New Member Orientation for Medicaid and Nevada Check Up Members</li> </ul> <p><b>Description of Process:</b> N/A</p>	<p><input checked="" type="checkbox"/> Met  <input type="checkbox"/> Partially Met  <input type="checkbox"/> Not Met  <input type="checkbox"/> N/A</p>
<p><b>Findings:</b> The New Member orientation for Medicaid and Nevada Check Up Members policy required that the new member packets must be mailed within five days of receipt of the monthly enrollment file. The health plan provided documentation of a date of enrollment files and corresponding dates when new member packets were mailed; the health plan met the time line requirement. The new member packet included a member handbook which included information the member’s rights and responsibilities. The health plan provided its member handbooks and other member materials in both English and Spanish. HPN used the United States Census Bureau’s American Community Survey as its guide to assess the number of households in its coverage areas where languages other than English were spoken and how fluent the residents were at speaking the English language. HPN found that the top two languages spoken by Nevada residents, other than English, were Spanish and Tagalog. For the Tagalog language, the state of Nevada and Clark County have a rate of less than one percent for residents who speak English less than very well. Washoe County was not reported by the American Community Survey in 2012 due to the number in the sample size being too small. Open enrollment materials were available in both English and Spanish. In addition, benefits information was available to anyone on the HPN website under the Plan Information tab.</p> <p><b>Recommendations:</b> None</p>

Network of Providers  The MCO maintains and monitors a network of appropriate providers that is supported by written agreements and is sufficient to provide adequate access to all services covered under the contract for both the FMC/TANF/CHAP and CHIP (Nevada Check Up) populations as well as the Adult Medicaid Expansion Group.	<b>Documents Submitted:</b> <ul style="list-style-type: none"> <li>• 100-11 Provider Summary Guide Policy</li> <li>• 100-3 Provider Site Visit Policy</li> <li>• 2013 HPN Access and Availability Policy</li> <li>• HPN Provider Summary Guide 2014 Section 8 Medicaid pg 64</li> <li>• MEDICAID Consulting Provider Template Attachment B pg 15</li> <li>• MEDICAID Primary Care Physician FFS Template Attachment B pg 15</li> <li>• PCPAfterHrs_Final-Medicaid_7.1.13-6.30.14.xls</li> </ul> <b>Description of Process:</b> N/A	<input checked="" type="checkbox"/> Met <input type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A
<b>Findings:</b> The Access and Availability Plan 2013 (QI 222.00.08) included the statement that the Quality Improvement Committee (QIC) performed oversight to ensure the accessibility and availability of the HPN network. The Network Development and Contracts Department was responsible for network development, contracting, and reporting of network availability. The Provider Relations Department was charged with education, support, and enforcement of contracts and guidelines. The Medicaid Consulting Provider Template and the Medicaid PCP Fee-for-Service (FFS) Template provided evidence of the written agreements executed with network providers. The Mechanisms for Monitoring Adequacy of Practitioners policy (QI 222.07) noted that HPN monitored the network by reviewing reports from the provider relations database, conducting secret shopper calls, performing GeoAccess studies, and reviewing trends in member satisfaction through the use of the annual member survey, complaint analysis, and reports from quality management and provider services. Interviews with staff confirmed that the Provider Services Department completed the quarterly access reports and forwarded the reports to the Medicaid QI Subcommittee for review. The minutes from the May 28, 2014 meeting of the Medicaid QI Subcommittee validated that the committee reviewed the first quarter 2014 access report.

	<p>issues and opportunities to improve health care access and availability for Medicaid and CHIP members.</p> <p>d) Assures access to health screenings, reproductive services and immunizations through county and state public health clinics.</p> <p>e) May promote care management and early intervention services by completing welcome calls and/or visits to new members to ensure orientation with emphasis on access to care, choice of PCP, and availability of an initial health risk screening. If a screening risk level determines need for further care management, a care management referral will be completed.</p>	<p><b>Description of Process:</b> N/A</p>	
<p><b>Findings:</b> A review of documents indicated that HPN used GeoAccess reports to ensure adequate physical and geographic access to covered services for enrolled recipients. The quarterly Medicaid Access Availability Report sent to DHCFP recorded the findings of the GeoAccess reports. Interviews with staff confirmed that the Provider Services Department completed the quarterly access reports and that the reports were forwarded to the Medicaid QI Subcommittee for review. The minutes from the May 28, 2014 meeting of the Medicaid QI Subcommittee validated that the committee reviewed the first quarter 2014 access report. HPN partnered with DHCFP in many projects to improve the health care access and availability for Medicaid and HCIP members. Staff interviews confirmed the MCO's participation in the emergency room diversion program and the creation of additional urgent care facilities to assure access to care for members with urgent care needs. Staff interviews also confirmed that members were encouraged to obtain health screenings, reproductive services, and immunizations through network providers or public health clinics. Interviews with the Member Services department confirmed that staff from the department conducted the new member welcome calls. During the welcome calls, staff members asked if the members had a PCP and if they did not, assistance was given to select a PCP at that time. Women also were encouraged to choose an OB/GYN during the welcome calls.</p> <p><b>Recommendations:</b> None.</p>

	members with special needs.		
	<p><b>Findings:</b> HPN had defined processes through its policies and procedures to identify and manage care between providers and care settings. The Referral Processing adult-CCM policy identified the procedures for the acknowledgement and distribution of referrals within the Complex Case Management Department. The Complex Case Management Policy described the components of the complex case management program to ensure coordination and continuity of care and to access needed resources. The policy outlined steps to identify, monitor and evaluate the delivery of services in acute and non-acute settings. The Transition of Care for Medicaid and Nevada Check Up Members policy detailed the procedures to coordinate care for newly enrolled members who were receiving services through Fee-for-Services programs or from another Medicaid contractor. The policies addressed the need for care managers to assess members overall needs and to make appropriate referrals to community resources. Care plans included prompts to address whether the member had followed up on referrals. The Nevada Privacy Policy detailed the health plan’s procedures to ensure that in all instances the Health Insurance Portability and Accountability Act (HIPAA) confidentiality requirements were adhered to.</p> <p><b>Recommendations:</b> None.</p>		
42 CFR 438.208(b)(1) DHCFP Contract Section 4.8.18, 4.8.18.2. (D)	2. Continuity of Care System  The MCO has a basic system in place to promote continuity of care and case management (CM).  a) The MCO takes a comprehensive and collaborative approach to coordinate care for the eligible population and conditions as specified by DHCFP through an effective CM program, partnerships with primary care physicians and specialists, provider and recipient participation, recipient/family outreach and education, and the ability to holistically address member’s health care needs.	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• 2013 UM Program Description FINAL pgs 8-9</li> <li>• Referral Processing Adult - CCM</li> <li>• Complex Case Management Policy 2013 page 4</li> <li>• WRHCO 161 Medicaid and Nevada Check Up Members Health Survey Screening</li> </ul> <p><b>Description of Process:</b> N/A</p>	<input checked="" type="checkbox"/> Met <input type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A

	b) Care coordination includes not only the specific diagnosis, but also the complexities of multiple co-morbid conditions, including behavioral health, and related issues such as the lack of social or family support.  c) At a minimum, the MCO's physical health case manager attempts to coordinate care with the member's case manager from other health systems, including behavioral health.		
<p><b>Findings:</b> The health plan had a process to screen Medicaid and Nevada Check Up members at the time of enrollment to determine case management needs. A Health Survey Screening form and a self-addressed, stamped envelope were sent to new members. The case management department reviewed the Health Survey Forms for health risk triggers. When triggers were identified, the case manager contacted the member for further screening information</p> <p>Referrals to the HPN Complex Case Management Program were received from disease management, discharge planning, telephonic outreach, inpatient continuity of care case management, UM, self-referrals, and practitioners. Two of the 10 records included in the case management record review were identified via a review of the Health Survey Forms; another referral was received from a member who called in a self-referral. Three referrals were for high risk pregnancies, and four of the 10 records were members who had been referred from acute care settings.</p> <p>The Continuity of Care and Out of Area Departments provided initial and ongoing assessments of members receiving care in the inpatient settings. Health plan medical directors conducted on-site and telephonic hospital rounds in conjunction with the continuity of care interdisciplinary team to identify discharge planning needs of members in acute care settings to ensure smooth transitions to the next level of care. The Complex Case Management Policy described the process the health plan used to coordinate care for the populations specified by DHCFP; eligible members for case management were not limited to the State-specified conditions. The policy addressed member identification, development of a plan of care using evidence based guidelines and clinical guidelines, and a team-based collaboration of PCPs, nurses, social workers, case managers,</p>

	<p>treatment plan and coordinating the CM needs.</p> <p>b) If the MCO employs a disease management methodology (e.g., grouper, predictive modeling, proprietary screening algorithms) to identify and/or stratify members in need of various levels of health coaching and care intervention, the methods are validated by scientific research and/or nationally accepted and recognized in the health care industry.</p> <p>c) The MCO develops and implements mechanisms to educate and equip physicians with evidence-based clinical guidelines or best practice approaches to assist in providing a high level of quality care to MCO members.</p>	<p><b>Description of Process:</b> N/A</p>	
<p><b>Findings:</b> As described in the Implementing Health Management for HPN and SHL Members Policy and as documented in the 10 records reviewed for the case management record review, the health plan followed evidence-based guidelines to develop treatment plans and coordinate care. During the initial assessment, nurse case managers established goals for the member based on the problems identified by each individual for self-management and disease monitoring. The problems and goals developed with each member were evidence-based and were tracked automatically using the plan's electronic health management application. In follow-up calls, the records reviewed documented that the nurse case manager reviewed the goals and problems with the member for further re-education and monitoring. The assessment questions were created with clinical input and a thorough review of HPN/SHL clinical guidelines for each condition.</p> <p>HPN distributed copies of its clinical practice and preventive health guidelines to new providers during orientation and annually thereafter in the Provider Summary Guide. They were also available on the health plan's Web site. Revised or new clinical practice guidelines were distributed via a fax blast, announced in provider newsletter articles, and posted on the health plan web site. The HPN Provider Summary stated that the guidelines were considered a framework for physicians and other health care professionals to</p>

	<p style="text-align: center;">other service providers and case managers.</p> <p><b>Findings:</b> The health plan used a centralized electronic health management application to facilitate effective coordination and continuity of care for members and to conduct the initial and follow-up assessments. The application allowed the health plan to integrate health information across different departments and was compliant with the Health Insurance Portability and Accountability Act. The application, called The Q, enabled health plan staff in various departments to determine the status of individuals within various health plan programs, such as case management, and to access information that showed member admissions and discharges from acute care settings, and if the member was being followed by the plan's Continuity of Care Departmental staff. The system documented member contacts to the health information line (e.g., the plan's Telephone Advice Nurses) for information on how to manage their health, included utilization information from clinic settings such as the Southwest Medical Associates' Post Discharge Clinic, Endocrinology or Cardiology, and whether the member was living in skilled a nursing facility, group home, or was receiving hospice services. Case management assessments and reassessments were conducted in another application; however, the system copied the assessment in The Q so health plan staff could access and participate in health care coordination. Confidential emails could be shared among staff in various health plan departments to discuss the status of individuals enrolled in other programs.</p> <p><b>Recommendations:</b> None.</p>		
<p><i>DHCFP Contract Section 4.8.18.2 (C)</i></p>	<p>15. Prioritizing Needs</p> <p>The MCO develops methods to synthesize assessment information to prioritize care needs and develop treatment plans. Once the members care needs have been identified, the MCO must, at a minimum:</p> <p style="margin-left: 40px;">a) Develop a care treatment plan (as described below);</p> <p style="margin-left: 40px;">b) Implement member-level interventions;</p>	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• Care Plan Update - CCM</li> <li>• Assessments, Initial and Follow-up - CCM</li> <li>• Care Plan, Initial - CCM</li> </ul> <p><b>Description of Process:</b></p> <p>N/A</p>	<p><input checked="" type="checkbox"/> Met</p> <p><input type="checkbox"/> Partially Met</p> <p><input type="checkbox"/> Not Met</p> <p><input type="checkbox"/> N/A</p>

	c) Continuously monitor the progress of the patient; d) Identify gaps between care recommended and actual care provided, and propose and implement interventions to address the gaps; and e) Re-evaluate the member's care needs and adjust the level of CM services accordingly.		
<p><b>Findings:</b> The HPN Care Plan policies, Care Plan Update–CCM, Assessment, Initial and Follow-up–CCM, and Care Plan, Initial, described the processes case managers used to collect assessment information and prioritize care needs to develop treatment plans. The procedures identified that plans were developed with the member and professional collaboration; interventions were selected and implemented, monitored, and reassessed as applicable. The procedures identified that upon completion of the initial assessment, a schedule for follow-up communications was developed. A schedule for follow-up communication with case managers was scheduled and tracked. The policy specified that a re-assessment would be completed after discharge from an inpatient facility and/or after any significant change in the member's health status/condition. There was evidence in all 10 case management records reviewed that the assessment procedures were followed and that appropriate care treatment plans were developed and updated as applicable.</p> <p><b>Recommendations:</b> None.</p>			
<i>DHCFP Contract Section 4.8.6.5 (D)</i>	<b>16. Identification of Race and Ethnicity</b>  The MCO works collaboratively with DHCFP to determine enrollee race and ethnicity. The MCO organizes interventions specifically designed to reduce or eliminate disparities in health care.	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• 2013 QI Program Eval FINAL pgs 229-241</li> <li>• Cultural Div and Sens Prog Overview 2014</li> </ul> <p><b>Description of Process:</b> N/A</p>	<input checked="" type="checkbox"/> Met <input type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A

	k) Untimely service authorizations constitute a denial and are thus adverse actions.		
	<p><b>Findings:</b> The document, 2013 HCPO 100 UM Policy, contained the requirements and timeframes for providing notice of action to enrollees when there is a reduction, suspension, or termination of service. The policy also contained the requirements and timeframes for providing notice of action when there was a denial of service authorization. Prior to the on-site review, DHCFP provided HSAG instruction that items a, b, d, e, g, and h will need to be clarified in the MCO contract and for this review, were not applicable. Item c was addressed in the MCO's document, Adverse Determination Letter Preparation and Delivery, which detailed the procedure for issuing a notice of action when a member was ineligible for further services in an institution.</p> <p><b>Recommendations:</b> None.</p>		
42 CFR 438.404(c)(4) DHCFP Contract Section 4.11.3.21	20. Notice of Actions Requirements  The notice of actions must include:  a) The enrollee's right to file a grievance if he or she disagrees with that decision; and  b) The enrollee's right to receive written resolution notice, and reasonable efforts are to be made to provide oral resolution notice.	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• 2013 HCO 100 UM Policy pg. 40</li> <li>• Medicaid pre-service denial template page 6,7,10,11</li> </ul> <p><b>Description of Process:</b> N/A</p>	<input type="checkbox"/> Met <input type="checkbox"/> Partially Met <input checked="" type="checkbox"/> Not Met <input type="checkbox"/> N/A
	<p><b>Findings:</b> This federal requirement (42 CFR 438.404(c)(4)) refers to the language that must be contained in an MCO's notice to extend the timeframe to make a decision about a service authorization request, if the MCO required more than 14 calendar days to make a decision. The HPN policies and procedures related to notices of decisions, denials, appeals, or grievances did not contain the requirement to notify enrollees about their right to file a grievance if they disagreed with the MCO's decision to extend the timeframe for rendering a service authorization decision. The policies did contain the requirement that the MCO make authorization decisions within 14 calendar days of receiving the request. The language in the DHCFP/MCO contract for this requirement was listed under notice of action (Section 4.11.3). Notices of decisions, however, occur before a decision to deny, reduce, suspend, or terminate (otherwise known as, "action") would be rendered. DHCFP staff stated that the location of the language in the contract</p>

	<p>providing interpreter services and toll-free numbers that have adequate TTY/TTD and interpreter capability;</p> <p>b) Acknowledge receipt of each grievance and appeal;</p> <p>c) Ensure that the individuals who make decisions on grievances and appeals were not involved in any previous level of review or decision-making; and</p> <p>d) Ensure that the individuals who make decisions on grievances and appeals are health care professionals who have the appropriate clinical expertise, as determined by the State, in treating the enrollee's condition or disease if the grievance or appeal involves any of the following:</p> <ul style="list-style-type: none"> <li>i. An appeal of a denial that is based on medical necessity;</li> <li>ii. A grievance regarding the denial of an expedited resolution of an appeal; or</li> <li>iii. A grievance or appeal that involves clinical issues.</li> </ul>		
<p><b>Findings:</b> The document, Medicaid Grievances and Appeals Policy Final 6-1-13, described the grievances and appeals notification and handling processes in place by the MCO. The policy included the provision that grievances were acknowledged within 3 calendar days of receipt in company and resolved within 90 calendar days. The policy contained the provision that standard appeals were acknowledged within 3 calendar days and resolved within 30 calendar days. For expedited appeals, however, the policy contained language that the appeal was, "acknowledged within 72 working <u>days</u> of receipt within the company." During the on-site interview, HPN staff stated that there was an error in the policy and the language was changed to 72 working <u>hours</u> to acknowledge</p>

	<p>aware that a language is spoken by 1,000 or 5% (whichever is less) of the MCO's members who also have LEP in that language. Vital materials must include, at a minimum, notices for denial, reduction, suspension or termination of services, and vital information from the member handbook.</p> <p><b>Findings:</b> The Cultural Diversity and Sensitivity Program Overview 2014 described the translation of member materials into Spanish, which was the only language that surpassed the 3,000 or 10 percent threshold. The Cultural Diversity and Sensitivity Program Overview 2014 did not describe, however, the process for translating vital materials when the language was spoken by 1,000 or 5 percent of members also have LEP in that language. Instead, the Cultural Diversity and Sensitivity Program Overview 2014 listed the top eight most prevalent languages spoken by the membership. English represented 80 percent of the population followed by Spanish at 19 percent of the population. All other languages represented less than 1 percent of the population. The member handbook and notices of decision and notices of action included statements written in the top five most prevalent non-English languages that the information contained in the notice or member handbook was available to members in their preferred non-English language on request. HPN staff stated that they would translate vital materials in languages other than English or Spanish on request by members even though there was no policy that mandated the translation of vital materials. Further, HPN staff reported that in 2013, verbal translation services were requested for 41 different languages, with Spanish being the most requested language at 95 percent. Mandarin was the second most common requested translation at 1 percent.</p> <p><b>Recommendations:</b> Although the contract standard did not require a policy, the MCO should consider updating its policies and procedures or CCP plan to ensure that all vital materials are translated when the MCO is aware that a language is spoken by 1,000 or 5% (whichever is less) of the MCO's members who also have LEP in that language.</p>	<p><b>Description of Process:</b> N/A</p>	<input type="checkbox"/> N/A

	<p><b>Findings:</b> The HPN benefit package was described in the member handbooks and services were available to members in the same amount, duration and scope as services available to individuals in fee-for service Medicaid. As described in the UM Process policy, the health plan made UM determinations using the standardized nationally recognized Milliman Care Guidelines, as well as diagnosis or procedure-specific protocols ,e.g. Health Care Operations (HCO) protocols and/or UnitedHealthcare medical policies). The policy specified that the criteria HPN used for decision making was applied based on individual member needs in consideration of medical necessity, age, comorbidities, psychosocial issues, home environment when applicable and the presence of acute or life-threatening illness. The health plan provided the criterial to practitioners through its Web site or upon request. Service limitation and prior authorization criteria were addressed in the Provider Summary Guide. The HPN Prior Authorization Department was responsible for responding to authorization requests. HPN’s application of the guidelines and protocols ensured that criteria were applied consistently. The health plan evaluated the accuracy and consistency of UM staff decision making via an annual assessment of inter-rater reliability which required a score of 90 percent or greater to pass.</p> <p><b>Recommendations:</b> None.</p>

Reference	Requirement	Information Submitted as Evidence by the MCO	Score
42 CFR 438.224 DHCFP Contract Section 4.6	1. Medical Records  The MCO has written policies and procedures to maintain the confidentiality of all medical records and pursuant to Standard XII, Section 4.8.16, accessibility and availability or medical records, record keeping, and record review process. Not more than 10 calendar days after submitting a request, the State has access to a member's medical record, whether electronic or paper, and has the right to obtain copies at the MCO's expense.	<b>Documents Submitted:</b> <ul style="list-style-type: none"> <li>• 2013 HIPAA Privacy Policy</li> <li>• Cred-Recred_Policy_CR 300.33 pg 60</li> <li>• HPN Provider Summary Guide 2014 Section 8; 8.7 Medical Records pg 68</li> <li>• HPN-SHL-SHO Hospital Template Article III H Records Reports and Billing 4 pg 6</li> <li>• MEDICAID Consulting Provider Template Article III H Records and Reports 4 pg 5-6</li> <li>• MEDICAID Primary Care Physician FFS Template Article III J Records and Reports 4 pg 5-6</li> </ul> <b>Description of Process:</b> N/A	<input type="checkbox"/> Met <input checked="" type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A
<b>Findings:</b> The Notice of Privacy Practices policy (Privacy Policy P1), the Clinical Medical Records Review policy (CR 200.00), and the Disclosures to Third Parties policy (Privacy Policy P9) provided evidence of written policies and procedures to maintain the confidentiality of medical records. The 2014 HPN Provider Summary Guide informed practitioners that they had 30 calendar days to produce medical records requested by HPN. The Medicaid PCP FFS Contract Template and the Medicaid Consulting Provider Template included the requirement that providers respond appropriately to all quality referred issues within a reasonable time frame but not to exceed 14 days of receipt. (pg. 7) The templates further stipulated that providers must cooperate with HPN in obtaining and/or allowing access to an enrollee's medical records, upon written request, within thirty (30) calendar days of request (pg. 17). HPN needs to review the inconsistent timeframes established in the policies, summary guide, and contract templates. HPN also needs to establish the requirements with the health plan produces medical records to DHCFP within 10 calendar days of receiving the request for records.

Reference	Requirement	Information Submitted as Evidence by the MCO	Score
<p><i>DHCFP Contract Section 4.5.8.2 (A)</i></p>	<p>1. Provider Workshops</p> <p>The MCO conducts, at least annually, provider workshops in the geographic service area to accommodate each provider site. The MCO also must conduct sessions for each discrete class of providers whenever the volume of recent changes in policy or procedures in a provider area warrants such a session. All sessions reinforce the need for providers to verify recipient eligibility and enrollment prior to rendering services in order to ensure that the recipient is Medicaid-eligible and that claims are submitted to the responsible entity. Individual provider site visits will suffice for the annual training requirement.</p>	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• 100-3 Provider Site Visit Policy</li> </ul> <p><b>Description of Process:</b></p> <p>N/A</p>	<p><input checked="" type="checkbox"/> Met</p> <p><input type="checkbox"/> Partially Met</p> <p><input type="checkbox"/> Not Met</p> <p><input type="checkbox"/> N/A</p>
<p><b>Findings:</b> HPN conducted individual provider site visits in lieu of annual provider workshops. The HPN Provider Site Visit Policy described the process for the initial provider site visit and ongoing annual site visits for SmartChoice /Nevada Check-Up providers. At the site visit, health plan provider services advocates delivered applicable educational material that included the Provider Summary Guides, provider directories applicable to the contract affiliation, provider newsletters, and educational pamphlets. The provider service advocates served as a direct point of contact for the assigned providers. During the on-site review, health plan staff provided an accounting of site visits conducted by the provider service advocates.</p> <p><b>Recommendations:</b> None</p>			
<p><i>DHCFP Contract Section 4.5.8.2. (C)</i></p>	<p>2. Posting on Website</p> <p>The MCO must publish newsletters and announcements regarding provider workshops on the MCO's Website.</p>	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• Online Verification of Medicaid Newsletter posted at <a href="http://www.myhpnmedicaid.com">www.myhpnmedicaid.com</a></li> </ul> <p><b>Description of Process:</b></p>	<p><input checked="" type="checkbox"/> Met</p> <p><input type="checkbox"/> Partially Met</p> <p><input type="checkbox"/> Not Met</p> <p><input type="checkbox"/> N/A</p>

	until the next open enrollment period.		
	<p><b>Findings:</b> The HPN policy, Medicaid Disenrollment–Handling Member Requests, included the procedures to ensure that during the annual open enrollment period, members could disenroll from the health plan and that member who elected to change health plans after open enrollment or who had been automatically enrolled/re-enrolled, had 90 days to request to switch health plans.</p> <p>The policy and flow-chart training aid within it, did not identify the exception that members who had lost their Medicaid or Nevada Check Up eligibility for less than two months and who were automatically reenrolled, would not be allowed to change MCO’s without cause until the next open enrollment period. The policy identified a process for members who lost eligibility for longer than six months, but did not address those who were automatically reenrolled after an eligibility break of less than two months. Additionally, the June 2014 revision of the SmartChoice member handbooks informed members that if they lost eligibility for a short time and got back on Medicaid, they would be an HPN member again, “unless you choose another health plan.” Similarly, the June 2014 Nevada Check Up handbook stated that if a child lost coverage for a short time and was reenrolled within the year, they would be an HPN member unless the parent chose another plan for the child. Recipients who lose their Medicaid or Nevada Check Up eligibility for two months or more are allowed a ninety day right to change period, but members with less than a two month break are not allowed the 90-day right to change.</p> <p><b>Recommendations:</b> HPN should ensure that its policy, procedures, and member materials align with contract requirements that members automatically enrolled after a break in eligibility of less than two months may not be allowed to disenroll without cause until the next open enrollment period.</p>

	<p>goals and objectives outlined in the DHCFP State Quality Strategy and the HEDIS and PIP performance measures that are required as part of the external quality review activities. Items a-e in this element were contained in the QI evaluations for both 2013 and 2014. For item f, HPN staff reported that family planning visits were monitored through the HEDIS measure, <i>Postpartum Care</i>. The 2014 HEDIS administrative and hybrid measure specifications for <i>Postpartum Care</i> did not specifically require contraceptive counseling to be included in the numerator specifications for the measure, <i>Postpartum Care</i>. Further, the <i>Postpartum Care</i> HEDIS measure only tracked those women who had a live birth between November 6 of the year prior to the measurement year and November 5 of the measurement year. The measure did not include women who did not have a live birth within the same period of time. For item g, HPN staff stated that hearing and vision screening services were part of the EPSDT program; however, the QI evaluations for 2013 and 2014 did not include an evaluation of EPSDT services that were provided for the year. HPN staff stated that the EPSDT service evaluations were included in prior years' QI evaluations and the information will be included in the 2015 evaluation.</p> <p><b>Recommendations:</b> The MCO must ensure that the following are included in its annual quality evaluations: pregnancy prevention and/or family planning and hearing and vision screening and services for Medicaid members less than twenty-one (21) years of age.</p>

Reference	Requirement	Information Submitted as Evidence by the MCO	Score
42 CFR 438.404(c)(4) DHCFP Contract Section 4.11.3.21	20. Notice of Actions Requirements  The notice of actions must include:  a) The enrollee's right to file a grievance if he or she disagrees with that decision; and  b) The enrollee's right to receive written resolution notice, and reasonable efforts are to be made to provide oral resolution notice.	<b>Documents Submitted:</b> <ul style="list-style-type: none"> <li>2013 HCO 100 UM Policy pg. 40</li> <li>Medicaid pre-service denial template page 6,7,10,11</li> </ul> <b>Description of Process:</b> N/A	<input type="checkbox"/> Met <input type="checkbox"/> Partially Met <input checked="" type="checkbox"/> Not Met <input type="checkbox"/> N/A
<p><b>Findings:</b> This federal requirement (42 CFR 438.404(c)(4)) refers to the language that must be contained in an MCO's notice to extend the timeframe to make a decision about a service authorization request, if the MCO required more than 14 calendar days to make a decision. The HPN policies and procedures related to notices of decisions, denials, appeals, or grievances did not contain the requirement to notify enrollees about their right to file a grievance if they disagreed with the MCO's decision to extend the timeframe for rendering a service authorization decision. The policies did contain the requirement that the MCO make authorization decisions within 14 calendar days of receiving the request. The language in the DHCFP/MCO contract for this requirement was listed under notice of action (Section 4.11.3). Notices of decisions, however, occur before a decision to deny, reduce, suspend, or terminate (otherwise known as, "action") would be rendered. DHCFP staff stated that the location of the language in the contract should be moved to Section 4.11.2, Authorization and Notice Timeliness Requirements, to make it more clear in the contract. HPN staff stated that they processed all service authorization requests within 14 calendar days.</p> <p><b>Recommendations:</b> The MCO must inform the enrollee of his or her right to file a grievance if he or she disagrees with the MCO's decision to extend the timeframe to make a service authorization decision. The notice provided to enrollees must also inform the enrollee that he or she has a right to receive written resolution of the grievance.</p>

	<p>the staff, and the MCO updates the training programs; and</p> <p>c) Is customized based on the nature of the contracts the MCO has with providers and/or members.</p>		
<p><b>Findings:</b></p> <p>During the on-site interview, HPN staff described the training modules listed on LearnSource, which was available to HPN staff online. HPN staff stated that some departments required the training and some departments did not require the training. The Cultural Diversity and Sensitivity Program Overview 2014 included the requirement that all members of the Customer Centric Task Force, which represented the key areas of the health plan, were required to ensure their staff members completed culture and diversity courses offered by HPN. Further, the Cultural Diversity and Sensitivity Program Overview 2014 included the provision that staff who worked with members were required to take at least one of the online training classes offered by the MCO through LearnSource. The LearnSource trainings included: Diversity and Inclusion, Diversity and Inclusion—Making Health Care Work for Everyone, Diversity and Inclusion—The Changing Landscape, and Valuing Diversity and Inclusion II. During the on-site interview, HPN staff stated that there was not a requirement for staff to complete ongoing trainings, for example, annually. The Cultural Diversity and Sensitivity Program Overview 2014 did include the methods used by the MCO to conduct an organizational needs assessment, by way of survey, that was focused on culturally-appropriate staff recruitment and training efforts.</p> <p>The Cultural Diversity and Sensitivity Program Overview 2014 included an analysis of data that described the number of LEP certified employees in 2013 and the comparison in the rate over the previous year. The overview also included the racial and ethnic demographics of the population served by HPN for the Nevada Medicaid and Check Up programs.</p> <p><b>Recommendations:</b> The MCO must ensure that staff at all levels and across all disciplines receive <b>ongoing</b> education and training in culturally and linguistically appropriate service delivery to members of all cultures. The training should be tailored to the specific training needs of the staff after the assessment of training needs is performed.</p>

42 CFR 438.224 DHCFP Contract Section 4.6	1. Medical Records  The MCO has written policies and procedures to maintain the confidentiality of all medical records and pursuant to Standard XII, Section 4.8.16, accessibility and availability or medical records, record keeping, and record review process. Not more than 10 calendar days after submitting a request, the State has access to a member's medical record, whether electronic or paper, and has the right to obtain copies at the MCO's expense.	<b>Documents Submitted:</b> <ul style="list-style-type: none"> <li>• 2013 HIPAA Privacy Policy</li> <li>• Cred-Recred_Policy_CR 300.33 pg 60</li> <li>• HPN Provider Summary Guide 2014 Section 8; 8.7 Medical Records pg 68</li> <li>• HPN-SHL-SHO Hospital Template Article III H Records Reports and Billing 4 pg 6</li> <li>• MEDICAID Consulting Provider Template Article III H Records and Reports 4 pg 5-6</li> <li>• MEDICAID Primary Care Physician FFS Template Article III J Records and Reports 4 pg 5-6</li> </ul> <b>Description of Process:</b> N/A	<input type="checkbox"/> Met <input checked="" type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A
<b>Findings:</b> The Notice of Privacy Practices policy (Privacy Policy P1), the Clinical Medical Records Review policy (CR 200.00), and the Disclosures to Third Parties policy (Privacy Policy P9) provided evidence of written policies and procedures to maintain the confidentiality of medical records. The 2014 HPN Provider Summary Guide informed practitioners that they had 30 calendar days to produce medical records requested by HPN. The Medicaid PCP FFS Contract Template and the Medicaid Consulting Provider Template included the requirement that providers respond appropriately to all quality referred issues within a reasonable time frame but not to exceed 14 days of receipt. (pg. 7) The templates further stipulated that providers must cooperate with HPN in obtaining and/or allowing access to an enrollee's medical records, upon written request, within thirty (30) calendar days of request (pg. 17). HPN needs to review the inconsistent timeframes established in the policies, summary guide, and contract templates. HPN also needs to establish the requirements with the health plan produces medical records to DHCFP within 10 calendar days of receiving the request for records.

<p>42 CFR 438.56(c)(2)(i-iii) 42 CFR 438.56(g) DHCFP Contract Section 4.3.5.1; 4.3.4; Amendment 3</p>	<p>2. Open Enrollment and Automatic Enrollment/Re-enrollment</p> <p>During open enrollment, held at least once per year, recipients are free to change MCOs. Recipients who elect to change MCOs after open enrollment or who are automatically enrolled/re-enrolled will have 90 days to request membership in the other MCO. The only exceptions to this policy are recipients who lost their Medicaid or Nevada Check Up eligibility for less than two months: They will not be allowed to change MCO's without cause until the next open enrollment period.</p>	<p><b>Documents Submitted:</b></p> <ul style="list-style-type: none"> <li>• MEDICAID DISENROLLMENT--HANDLING MEMBER REQUESTS MS078C</li> <li>• WRHCO 284 Disenrollment at the Request of a Medicaid or Nevada Check Up</li> </ul> <p><b>Description of Process:</b> N/A</p>	<p><input type="checkbox"/> Met <input checked="" type="checkbox"/> Partially Met <input type="checkbox"/> Not Met <input type="checkbox"/> N/A</p>
<p><b>Findings:</b> The HPN policy, Medicaid Disenrollment–Handling Member Requests, included the procedures to ensure that during the annual open enrollment period, members could disenroll from the health plan and that member who elected to change health plans after open enrollment or who had been automatically enrolled/re-enrolled, had 90 days to request to switch health plans.</p> <p>The policy and flow-chart training aid within it, did not identify the exception that members who had lost their Medicaid or Nevada Check Up eligibility for less than two months and who were automatically reenrolled, would not be allowed to change MCO's without cause until the next open enrollment period. The policy identified a process for members who lost eligibility for longer than six months, but did not address those who were automatically reenrolled after an eligibility break of less than two months. Additionally, the June 2014 revision of the SmartChoice member handbooks informed members that if they lost eligibility for a short time and got back on Medicaid, they would be an HPN member again, “unless you choose another health plan.” Similarly, the June 2014 Nevada Check Up handbook stated that if a child lost coverage for a short time and was reenrolled within the year, they would be an HPN member unless the parent chose another plan for the child. Recipients who lose their Medicaid or Nevada Check Up eligibility for two months or more are allowed a ninety day right to change period, but members with less than a two month break are not allowed the 90-day right to change.</p>
